DISCUSSION:

During the September 21, 2011 meeting, the DUR Board recommended that the Department issue guidelines to determine medical necessity of Daliresp, designated as non-preferred on the Department's Preferred Drug list (PDL). The guidelines to determine medical necessity of Daliresp, as recommended by the DUR Board, were subject to public review and comment, and subsequently approved for implementation by the Department. The requirements for prior authorization and clinical review guidelines to determine the medical necessity of Daliresp are included in the attached updated provider handbook pages.

PROCEDURE:

The procedures for prescribers to request prior authorization of Bronchodilators, Anticholinergic are located in SECTION I of the Prior Authorization of Pharmaceutical Services Handbook. The Department will take into account the elements specified in the clinical review guidelines (which are included in the provider handbook pages in the SECTION II chapter related to Bronchodilators, Anticholinergic) in reviewing the prior authorization request to determine medical necessity.

As set forth in 55 Pa. Code § 1101.67(a), the procedures described in the handbook pages must be followed to ensure appropriate and timely processing of prior authorization requests for drugs that require prior authorization.
