NOTIFICATION OF CHANGES

IMPORTANT – PLEASE READ

Dear Child Care Provider:

Effective August 1, 2006, the Department of Public Welfare (DPW) is increasing the Maximum Child Care Allowances (MCCA) for infants, toddlers, and preschoolers participating in full-time services at child care centers. DPW increased the rates to at least the 60th percentile statewide. Counties with a concentration of young, low-income children were increased to the 70th percentile. Some counties are currently above the target level and will not see an increase in the MCCA.

Our records show that your center may be affected by the new rates in at least one age group. Attached is a new Provider Agreement Appendix C-2 which shows your new rates. Please attach it to your current Provider Agreement. You do not have to sign and return the Appendix C-2 to the CCIS.

Please contact your local CCIS agency if you have questions. Thank you for continuing to serve our children.

Sincerely,

Department of Public Welfare
Office of Child Development
