PURPOSE:

The purpose of this bulletin is to communicate that, subject to certain conditions, medications may be prescribed by a Certified Registered Nurse Practitioner (CRNP) for individuals who receive services in a facility licensed under 55 Pa.Code Chapters: 2380, 5200, 5210, 6400 and 6500.

DISCUSSION:

Licensing regulations of the Department of Public Welfare (DPW) limit authority to prescribe medication to a physician for an individual who receives services in a facility licensed under 55 Pa.Code Chapters 2380, 5200, 5210, 6400 and 6500. In addition, Medical Assistance conditions of participation for outpatient psychiatric facilities require that medications be prescribed by a licensed physician. (55 Pa.Code Chapter 1153.41(10) (relating to participation requirements)).

These Department regulations are more restrictive than other provisions of state law, which do not limit prescriptive authority to licensed physicians. Under current state law, a CRNP is permitted to prescribe certain medications if granted prescriptive authority by the State Board of Nursing and acting within the scope of a collaborative agreement with a physician. See The Professional Nursing Law (63 P.S. § 218.3; 49 Pa.Code Chapters 18 and 21, Subchapters C (relating to Certified Registered Nurse Practitioners)).

GUIDELINE:

The guideline is contained in Annex A to this bulletin.

EFFECTIVE DATE:

This statement of policy is effective immediately upon publication in the *Pennsylvania Bulletin*.
