

ODP Rate Setting Methodology

The Department of Public Welfare (DPW), Office of Developmental Programs (ODP) intends to implement a Prospective Payment System (PPS) rate-setting methodology, effective July 1, 2009, for the services funded through the [Consolidated Waiver](#), [Person/Family Directed Support \(P/FDS\) Waiver](#) and through the base program in specific situations. The services provided to individuals are defined in the new service definitions in the approved Waivers and the current Service Definitions bulletin. The rates for these services were developed through the following means:

- The cost report process -- provider and Supports Coordination Organization (SCO) established rates based on provider's Fiscal Year (FY) cost report data submitted by the cost report process.
- Fee Schedule Rates
