**DISCUSSION:**

During the May 16, 2013 P&T Committee meeting, the P&T Committee recommended that the Department require prior authorization of Colony Stimulating Factors designated as preferred on the Department's PDL to ensure appropriate patient selection and drug utilization. The recommendations of the P&T Committee, including the guidelines to determine medical necessity, were subject to public review and comment, and subsequently approved for implementation by the Department. The requirements for prior authorization and clinical review guidelines to determine the medical necessity of Colony Stimulating Factors are included in the attached updated provider handbook pages.

**PROCEDURE:**

The procedures for prescribers to request prior authorization of Colony Stimulating Factors are located in SECTION I of the Prior Authorization of Pharmaceutical Services Handbook. The Department will take into account the elements specified in the clinical review guidelines (which are included in the provider handbook pages in the SECTION II chapter related to Colony Stimulating Factors) when reviewing the prior authorization request to determine medical necessity.

As set forth in 55 Pa. Code § 1101.67(a), the procedures described in the handbook pages must be followed to ensure appropriate and timely processing of prior authorization requests for drugs that require prior authorization.
