

Medical Assistance Program Fee Increase for Select Primary Care Services Physician Attestation Form

Attestation Form Instructions

Section 1202 of the Patient Protection and Affordable Care Act (Pub. L. 111-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. 111-152) (collectively the ACA) and the implementing regulations, require state Medicaid programs to pay increased fees for certain primary care services to qualifying physicians that are no less than the Medicare rates in effect in Calendar Year (CY) 2013 and 2014. You may view the federal implementing regulation by accessing the following website link: <http://www.gpo.gov/fdsys/pkg/FR-2012-11-06/pdf/2012-26507.pdf>.

Medical Assistance Bulletin (MAB) 31-13-11 titled "Medical Assistance Program Fee Increase for Select Primary Care Service and Physician Attestation Form" explains what physicians must do to qualify for these increased fees. You should review MAB 31-13-11 carefully if you believe you qualify for these increased fees.

As specified in MAB 31-11-13, to qualify for the increased fees, among other things, you must complete and submit a signed Attestation Form in which you self-attest to a specialty or subspecialty designation of family medicine, general internal medicine or pediatric medicine recognized by the American Board of Physician Specialties (ABPS), the American Board of Medical Specialties (ABMS) or the American Osteopathic Association (AOA); and, that

- a) You are board certified with a specialty or subspecialty of family medicine, general internal medicine or pediatric medicine or a subspecialty recognized by the ABMS, the ABPS or the AOA; or
- b) At least 60 percent of your billings for services rendered to Medicaid beneficiaries were for Healthcare Common Procedure Coding System (HCPCS) Evaluation and Management (E&M) procedure codes 99201 through 99499 and Current Procedural Terminology (CPT) vaccine administration codes 90460, 90461, 90471, 90472.

As specified in MAB 31-11-13, if you attest that you qualify for the increased fees based on your board certification, you must also provide documentation of current board certification in family medicine, internal medicine or pediatric medicine as granted by the ABPS, the ABMS or the AOA to OMAP on or before December 31, 2013. If your board certification documentation is valid through December 31, 2014, you will continue to be eligible for the enhanced primary care payment rates in 2014. If your board certification expires prior to the end of 2014, you must submit a new attestation and updated board certification to continue to qualify for the increased primary care fees.

If you attest that you qualify for the increased fees because your claims meet the 60% threshold, you should note that

- If you were enrolled as an MA provider for the entire previous CY, you are attesting that at least 60% of Medicaid-billed codes during the entire previous calendar year are qualifying E&M and vaccine administration codes.
- If you have been enrolled as an MA provider for one full calendar month or more, but less than the full calendar year during the previous CY, you are attesting that at least 60% of Medicaid-billed codes billed from your enrollment date to the end of the current CY month are qualifying E&M and vaccine administration codes.

- If you have been enrolled as an MA provider for less than one full calendar month, or if you enroll as an MA Provider during 2013 or 2014, you must submit claims to the MA Program for a minimum of one full calendar month before submitting an Attestation Form. You are attesting that at least 60% of Medicaid-billed codes from your enrollment date through the calendar month of the date in which you attest are qualifying E&M and vaccine administration codes.

In determining whether you meet the 60% threshold, do not include the toxoid vaccine procedure codes currently used under the MA Program for purposes of vaccine administration payment as these codes are not included in CMS' list of qualifying primary care services procedure codes.
