Overview

The Pennsylvania Department of Human Services' HIPAA-compliant Provider Reimbursement and Operations Management Information System (PROMISe™) has adopted the new version 5010 X12 standards. These standards are in compliance with the CMS mandate effective January 1, 2012.

This Companion Guide contains detailed instructions for preparing the ASC X12N 005010X223 Institutional (837) transaction records for all of the different types of services that can be submitted to PROMISe™. **Please disregard any instructions that do not pertain to the services for which you are submitting.**

Submitters (individual providers, billing services, software vendors, and managed care organizations) must complete a certification process in order to submit transactions to PROMISe™ for production processing. The certification process consists of the submission of test claims to verify that all transactions are HIPAA compliant and conform to PROMISe™. To initiate the certification process, see the certification registration process on the DHS web site at <http://www.dhs.state.pa.us/provider/promise/certification/index.htm> or contact the Hewlett Packard Enterprise Provider Assistance Center at 800-248-2152.

Companion Guide Instructions

One of the new terms born out of HIPAA is *payer variability*. As each payer works to make its system HIPAA-compliant, there is a realization and an allowance that payers require information and values/formats specific to their systems. As such, each payer requires that transactions be completed with specific data. This Companion Guide was developed to communicate the Pennsylvania Medical Assistance-specific information required to successfully submit the 837 Institutional Outpatient transaction.

This Companion Guide is to be used in conjunction *with the ASC X12 Implementation Guide* found at <http://store.x12.org>. The *ASC X12 Implementation Guide* is the main source of information about the transaction sets. The Companion Guide contains:

- DHS interpretation/application of the data elements that support Medical Assistance transaction submissions,
- The methods utilized to convey data that are not included in the ASC X12 Implementation Guide, but are required for processing Pennsylvania Department of Human Services transactions; and
- Clarification for certain, less obvious, but still standard, uses of the transaction.

Revisions to the Companion Guide

To aid the provider community in organizing these Companion Guides and the revisions that may occur, this document will have a revision schedule and notification process.

The initial release of this Companion Guide is June 2010. The first release reflects all the known information as of this date. However, as the implementation phases of PROMISE™ progress, updates and releases of new information may be forthcoming.

Revision Process:

For each new release of this Companion Guide, the information that has been changed since the previous version will be located in this section of the guide. If a revision is made to a data element, it will be detailed in the Revision(s) Description section in the table containing the element. DHS will clearly define the change that was made so it can be integrated into your process.

Updated releases of the Transaction Guide will be posted on the DHS website. You are encouraged to check this site regularly.

Pennsylvania General HIPAA Data Elements

<p>Managed Care Encounter Data</p>	<p>The managed care organization (MCO) will be treated as a previous payer and as the submitter.</p> <ul style="list-style-type: none"> • The MCO identifies the transaction as an encounter by reporting 'RP' (Reporting) in BHT06 (Transaction Type Code). • The MCO identifies themselves as the submitter by putting their PROMISe™ MPI Number and Service Location Code into Loop 1000A, Data Element NM109 (Submitter Primary Identifier). • The MCO identifies themselves as a previous payer by putting their payer information in Loops 2320 and 2330B. • The MCO identifies their adjudication information by using Loops 2320 and 2430. Pennsylvania PROMISe™ is expecting the value 'HM' in Loop 2320, Data Element SBR09 (Claim Filing Indicator) when the payer is an MCO. • The MCO must send their MCO-specific internal control number in Loop 2330B, Segment REF (Other Payer Claim Control Number), using REF01='F8' as the qualifier. <p>Loop 2300, Segment CLM, Data Element CLM01 must also contain the MCO's internal control number (ICN). The number that the MCO transmits in this position is echoed back in the 277 Claim Status Response, Detail Level, Loop 2200D (Claim Submitter's Trace Number). TRN02 will be set to the Patient Account Number submitted on the original claim in Loop 2300, Segment CLM, and Data Element CLM01.</p> <ul style="list-style-type: none"> • The MCO reports sub-capitation arrangements by using the Contract Information segment (CN1) in Loop 2300. • The MCO must report a claim adjudication date in the 2330B Loop, DTP segment, even when service line adjudication dates are reported in Loop 2430 at the service line level. If there are multiple adjudication dates at the service line level, the most recent adjudication date at the service line level should be reported in Loop 2330B. <p>NOTE: Behavioral Health MCOs do not currently submit Outpatient type of bills.</p>
<p>Drug Claims</p>	<ul style="list-style-type: none"> • There can be only one service line per claim, that is, one SV2 Segment for each CLM Segment.

	<ul style="list-style-type: none"> • PROMISe™ will not perform ProDUR on these batch claims. • Compounded drugs must not be submitted electronically using the 837 Institutional. • Submitters must place all the other payer identification and claim adjudication information at the claim level. • Drug claims are applicable to Encounter Hospital Outpatient based claims. • PROMISe™ will not process Fee-for-Service Hospital Outpatient based drug claims. • If the provider wishes to adjust an Encounter Hospital Outpatient based drug claim, they must first void the claim and submit the new claim.
Newborn Eligibility Claims	The submitter identifies newborns by using Loops 2000C (Patient Hierarchical Level) and 2010CA (Patient Name).
Claims With Prior Authorization	The submitter must submit the prior authorization number in Loop 2300, Segment REF (Prior Authorization) and follow the CMS <i>HIPAA Implementation Guide</i> rules for submitting prior authorization numbers.
Claims With Attachments	<ul style="list-style-type: none"> • The submitter must obtain an attachment control number (ACN) from the PA PROMISe™ Web site at https://promise.dhs.state.pa.us/ and submit it in Loop 2300, Segment PWK (Claim Supplemental Information), following the CMS <i>HIPAA Implementation Guide</i> rules for submitting attachments. • The Batch Cover form with the ACN must be present on all paper attachment(s). The ACN on the paper attachment(s) must match the ACN entered on the related claim. The Batch Cover form and paper attachments are submitted to DHS and must be received within 14 days of the claim submission date, otherwise the claim will reject.
EPSDT Claims	<ul style="list-style-type: none"> • The submitter must supply the Pennsylvania specific EPSDT codes in Loop 2300 Segment NTE (Claim Note).
General Claim	Pennsylvania PROMISe™ will capture any of the Loops and Segments that are included in the ASC X12 Implementation Guide and are sent in the transaction. PROMISe™ does not capture and process with all values coming in on all the loops and segments. Where not specifically mentioned in this Companion Guide, the Loops, Segments, and Data Elements must be used in accordance with the ASC X12 Implementation Guide. The transaction must pass HIPAA compliance edits before it can be processed in PROMISe™.

<p>Adjustments / Voids / Late Claim Filing</p>	<p>Loop 2300, Segment REF, Data Element REF02 (Claim Original Reference Number) positions 1 through 13 will contain the last approved adjustment ICN when the claim is a replacement (adjustment), void (cancellation), or is a re-submission of a previously denied claim. Data Element REF01 (Page Number 166) must contain the value 'F8'.</p>
<p>Co-Payment Information</p>	<p>The 837 Institutional CMS <i>HIPAA Implementation Guide</i> was not designed to show exceptions to co-payment. Pennsylvania PROMISE™ will use Loop 2300 segment NTE (Claim Note) as the place to submit the co-payment exemptions or failure of the recipient to pay the co-pay.</p>
<p>General Provider Information</p>	<p>All provider entities who participated in the claim should be reported in accordance with the implementation guide rules.</p> <p>PROMISE™ uses taxonomy codes and zip code + four to resolve a single NPI to one of the many PROMISE™ service location codes that the provider uses. Therefore, it is essential that providers who are sending National Provider IDs (NPI) also provide the taxonomy code and zip code + four that matches their enrollment for the specific service location code that is intended where those codes are available.</p>
<p>Other Payer Adjudication Data</p>	<p>Inpatient claims are adjudicated at the claim header level. PROMISE™ is expecting the other payer paid amount, claim adjustment reason codes, and claim adjustment amounts in Loop 2320 for each prior payer in the claim.</p> <p>In the 5010 version, the Medicare Allowed Amount is no longer available. This makes accurate reporting of CAS data from all prior payers, especially Medicare, more important than ever.</p>
<p>Covered Days, Non-Covered Days, Coinsurance Days, Lifetime Reserve Days</p>	<p>In 5010 the Loop 2300, QTY segment which used to hold these counts has been removed. Report these using value codes:</p> <ul style="list-style-type: none"> 80 – Covered Days 81 - Non-Covered Days 82 – Coinsurance Days 83 – Lifetime Reserve Days
<p>Other Payer Adjudication Data</p>	<p>Outpatient claims are adjudicated at the service line level. PROMISE™ is expecting the other payer claim paid amount in Loop 2320, Segment AMT and also the other payer service line paid amount in Loop 2430, SVD02. The claim adjustment reason codes, and claim adjustment amounts must be reported in Loop 2430 Segment CAS for each prior payer in the claim.</p>

<p>SPBP Lab Claims</p>	<ul style="list-style-type: none"> • The submitter must supply the recipient’s SPBP identification number. • The SPBP identification number is listed on the third line below the title of the program on the front of the SPBP identification card. It is a nine (9) digit number that always begins with SP1. • SPBP lab services must be billed electronically as paper claim submissions are not acceptable for processing.
<p>Claims Reporting Primary Codes with Related Additional Codes</p>	<ul style="list-style-type: none"> • The submitter must supply the primary HCPCS code on the first service line. • The add-on HCPCS code(s) are the subsequent service lines.

PROMISe™ Specific HIPAA Data Elements

TR3 Page	Field Name	PROMISe™ Specific Instructions
C.3	ISA06: Interchange Sender ID	Use your assigned BBS ID
C.3	ISA08: Interchange Receiver ID	Production – “345529167” Testing – “445314156”
C.7	GS03: Application Receiver's Code	Production - use "345529167" Testing - use "445314156"
68	BHT06: Claim or Encounter Identifier	PROMISe™ processes with "CH" for Claims or "RP" for Encounters.
76	NM103: Receiver Name	Use “Department of Human Services”
76	NM109: Receiver Primary Identification	Use “236003113”
109	SBR04: Subscriber Group Name	PROMISe™ processes with the following codes to represent: “WM” for women’s medical services and non-invasive contraceptive supplies, “BC” for breast cancer screenings, and/or “FP” for all other Title XX services.
109	SBR09: Claim Filing Indicator Code	PROMISe™ uses the values of “MC” for Medicaid, “TV” for Title V, “OF” for Title XX.
122	NM103: Payer Name	Use "Department of Human Services"
122	NM109: Payer Identifier	Use "236003113"
125	N401: Payer City Name	Use "Harrisburg"
125	N402: Payer State Code	Use "PA"
125	N403: Payer Postal Zone or ZIP Code	Use "171069022"
133	PAT01: Individual Relationship Code	PROMISe™ processes with value “19” to identify newborns
180	NTE01: Note Reference Code	PROMISe™ stores when qualifier = “ADD”
354	SBR09: Claim Filing Indicator Code	PROMISe™ processes MCO transactions when the MCO identifies themselves as a previous payer using the claim filing indicator “HM”.
384	NM109: Other Payer Primary Identifier	PROMISe™ processes with the carrier codes defined in Appendix A of this document.
454	REF01: Reference Identification Qualifier	PROMISe™ processes with value "XZ" when submitting a NDC.
