5C. Parent Services (clerical)		
TOTAL		

1
Indicate here how many hours per week constitute a full-time week for your agency: _____

2
All estimates are to be done as percentages of the time for a worker. For one worker it might be 15% of the worker's time (which should be listed above as .15 of a worker). For several workers it might be 225% representing 2 ¼ workers regardless of how many staff are involved (which should be listed above as 2.25 of a worker). Do not take the percentages beyond two places. These estimates should equal the staff totals in Rider 3.
