- He/she has not been examined by a physician, but I believe he is in need of treatment.

I, therefore, request that: (Check and complete A, B or C)

As the patient is not currently in a mental health facility receiving treatment, I ask this court to issue an order that the patient be involuntarily committed for:  outpatient,  partial hospitalization,  inpatient treatment. (A patient can only be committed involuntarily if the patient is severely mentally disabled.) A person is severely mentally disabled:

A person is severely mentally disabled when, as a result of mental illness, his capacity to exercise self-control, judgement and discretion in the conduct of his affairs and social relations or to care for his own personal needs is so lessened that he poses a clear and present danger of harm to others or to himself.

Clear and present danger to others shall be shown by establishing that within the past 30 days the person has inflicted or attempted to inflict serious bodily harm on another and that there is reasonable probability that such conduct will be repeated. A clear and present danger of harm to others may be demonstrated by proof that the person has made threats of harm and has committed acts in furtherance of the threat to commit harm; or

Clear and present danger to himself shall be shown by establishing that within the past 30 days:

- (i) the person has acted in such manner as to evidence that he/she would be unable, without care, supervision and the continued assistance of others, to satisfy his need for nourishment, personal or medical care, shelter, or self-protection and safety, and that there is reasonable probability that death, serious bodily injury or serious physical debilitation would ensue within 30 days unless adequate treatment were afforded under the act; or

For the purposes of this subsection, a clear and present danger may be demonstrated by the proof that the person has made threats to commit suicide and has committed to acts which are in further of the threat to commit suicide; or
- (iii) the person has substantially mutilated himself or attempted to mutilate himself substantially and that there is the reasonable probability of mutilation unless adequate treatment is afforded under this act. For the purposes of this subsection, a clear and present danger shall be established by proof that the person has made threats to commit mutilation and has committed acts which are in furtherance of the threat to commit mutilation.
