INTRODUCTION

Pennsylvania’s Child Protective Services Law (CPSL) requires the Department of Human Services (the department) to prepare and transmit to the governor and General Assembly an annual report on the operations of ChildLine and protective services provided by the county children and youth agencies (CCYA).

This year, the department is pleased to present the 2016 Annual Child Protective Services Report in a new format. This report focuses on presenting the statewide data view of child abuse in Pennsylvania, while also providing county- and region-specific information.

It is important to note that the data contained in this report is based on child abuse reports or general protective services reports received between January 1, 2016 and December 31, 2016. Data in previous annual reports were based on the year the status determination was received at ChildLine.

The Keep Kids Safe website (www.KeepKidsSafe.pa.gov) serves as the hub for information and resources impacting child protection for both professionals and the general public. This website includes: information related to mandatory reporting; training and reporting on child abuse recognition; information related to clearances; the Safe Haven Program; fatality and near fatality summaries; prior years’ annual child abuse reports; and links to information previously included within this report such as the Directory of Services, the Citizen’s Review Panel Recommendations, and the department's response to those recommendations.

ONLINE CONTENT

http://KeepKidsSafe.pa.gov/resources/childabusereports/

The data in this report will be available for download at the above link; the online data will include additional detail.

DATA EXTRACTION

All child abuse and general protective services data presented in this report was extracted on 3/23/2017 unless otherwise noted.
STATEWIDE CHILD ABUSE

STATE POPULATION • 12,779,559 // POPULATION UNDER 18 • 2,722,234

EXECUTIVE SUMMARY

- Statewide substantiated reports of child abuse remained relatively constant from 1.6 per thousand children in 2015 and 1.7 per thousand children in 2016.
- Sexual abuse remains the leading category of abuse, followed by physical abuse.
- Parents continue to be the persons most responsible for abuse of their children.
- Amendments to the Child Protective Services Law, effective in December 2014, continue to drive increases in reports of child abuse. These amendments increased the number of mandated reporters of child abuse and added additional persons who could be identified as perpetrators of child abuse.

CHILD PROTECTIVE SERVICES reports are those that allege a child might have been a victim of child abuse. Reports alleging that a child under 18 years of age may have been abused are accepted for investigation when reported prior to the victim’s twentieth birthday.

These reports are made by mandated and permissive reporters. Mandated reporters are adults who work or volunteer with children and youth and are required to report suspected child abuse if they have reasonable cause abuse has occurred under any of the following circumstances:

- The mandated reporter comes into contact with the child in the course of employment, occupation and practice of a profession, or through a regularly scheduled program, activity or service;
- The mandated reporter is directly responsible for the care, supervision, guidance or training of the child, or is affiliated with an agency, institution, organization, school, regularly established church or religious organization, or other entity that is directly responsible for the care, supervision, guidance, or training of the child;

CONTINUES ON PAGE 5
A person makes a specific disclosure to the mandated reporter that an identifiable child is the victim of child abuse; or

An individual 14 years of age or older makes a specific disclosure to the mandated reporter that the individual has committed child abuse.

For a complete list of mandated reporters and how to make a report, please visit www.KeepKidsSafe.pa.gov.

Persons who are not mandated to report are considered permissive reporters. Permissive reporters may make a referral of suspected child abuse by calling ChildLine. Anyone who has reasonable cause to suspect child abuse is encouraged to make a report.

INVESTIGATIONS

Upon receipt of a report of suspected child abuse, the CCYA immediately begins an investigation and assures safety of the child and any other children living in the home. The CCYA is required to see the child within the following time frames:

Immediately, if:

Emergency protective custody is required, has been or will be taken; or

It cannot be determined from the report whether emergency protective custody is needed.

Within 24 hours, if the CCYA has assured the immediate safety of the child, i.e. the child will have no contact with the alleged perpetrator.

The CCYA investigates reports of suspected child abuse when the alleged perpetrator meets the definition under the CPSL. Suspected child abuse can be caused by the alleged perpetrator by acts either he or she committed (commission) or by failing to prevent abuse (omission). The CPSL defines perpetrators of commission as:

- A parent of the child;
- A spouse or former spouse of the child’s parent;
- A paramour or former paramour of the child’s parent;
- A person 14 years of age or older and responsible for the child’s welfare or having direct contact with children as an employee of child-care services, a school or through a program, activity or service;
- An individual 14 years of age or older who resides in the same home as the child;
- An individual 18 years of age or older who does not reside in the same home as the child, but is related within the third

REPORTS INVESTIGATED WITHIN 30 AND 60 DAYS

19,366 0-30 DAY INVESTIGATIONS

24,773 31-60 DAY INVESTIGATIONS

220 OVER 60 DAY INVESTIGATIONS

NOTE: Data provided was extracted on 3/23/2017.
degree of consanguinity or affinity by birth or adoption to the child; or

- An individual 18 years of age or older who engages a child in severe forms of trafficking in persons or sex trafficking, as those terms are defined under Section 103 of the Trafficking Victims Protection Act of 2000 (114 Stat. 1466, 22 U.S.C. § 7102).

The following individuals may be considered a perpetrator for failing to act:

- A parent of the child;
- A spouse or former spouse of the child’s parent;
- A paramour or former paramour of the child’s parent;
- A person 18 years of age or older and responsible for the child’s welfare; or
- A person 18 years of age or older who resides in the same home as the child.

Relationships of perpetrators described in this report further define how the perpetrator was connected to the child. Reports may have more than one allegation of abuse by a perpetrator against a child victim. Because some children are victims of more than one type of abuse, the chart [pg. 10] illustrating the types of allegations will be a greater number than the number of children who were victims of child abuse.

If the alleged perpetrator does not fit the CPSL definition, the report is referred to law enforcement officials for investigation. Reports are also referred to law enforcement officials for a joint multi-disciplinary team investigation with the CCYA and a health care professional when there are child abuse allegations that also include certain criminal offenses, such as aggravated assault, kidnapping, sexual abuse, sex trafficking, or serious bodily injury by any perpetrator.

A child abuse investigation must determine within 30 days whether the report is:

- **FOUNDED** – there is court action including:
  - A judicial adjudication that the child was abused;
  - Acceptance into an accelerated rehabilitative disposition program;
  - Consent decree entered in a juvenile proceeding; or
  - Granting of a final protection from abuse order.
- **INDICATED** – CCYA or regional staff find substantial evidence that abuse has occurred based on medical evidence, the child protective service investigation, or an admission by the perpetrator;
- **UNFOUNDED** – there is a lack of evidence that the child was abused; or
- **PENDING** – status assigned to a report when the CCYA cannot complete the investigation within 60 calendar days because criminal or juvenile court action has been initiated.

The status of indicated reports is approved by the CCYA administrator and reviewed by the CCYA solicitor.

A CCYA might take up to 60 days to complete an investigation if there is a valid reason to not complete the investigation within 30 days, such as waiting on results from medical reports or other evaluations. The CCYA must document this reason in the case file.

Substantiated reports are kept on file at both ChildLine and the county agencies until the victim’s 23rd birthday. ChildLine keeps the perpetrator’s information on file indefinitely if the name and date of birth or social security number of the perpetrator is known. Unfounded reports are kept on file for one year from the date of the report. They must be expunged within 120 days following the one-year period. If the unfounded case is accepted for services, the report is maintained as part of the case record and is then kept on file for one year.
following closure of the case. The report is expunged within 120 days following the one-year period.

In this annual report, “founded” and “indicated” reports of child abuse will be referred to as “substantiated” reports.

**REPEAT ABUSE**

ChildLine uses the statewide database to identify if a child victim on a new report has been previously identified as a victim in a substantiated report of abuse. Upon receipt of a report at ChildLine, a caseworker searches the statewide database to identify if any subject of the report — including the child’s parent, perpetrator, or the child themselves — was involved in a previous substantiated report or one that is under investigation. In addition, during the course of a current investigation, it is possible that other previously unreported incidents of child abuse are disclosed. For example, an investigation can reveal another incident of abuse that was never before disclosed by the child or the family for a number of reasons. These previously unreported incidents are registered with ChildLine and handled as separate reports. Both types of reports are reflected in the graphic depicting reports of repeat abuse [pg. 10].

**OCYF REGIONAL OFFICES**

The department’s Office of Children, Youth and Families (OCYF) has regional offices in Philadelphia, Scranton, Hollidaysburg, and Pittsburgh. Regional office responsibilities include:

- Monitoring, licensing, and providing technical assistance to CCYAs and private children and youth agencies and facilities;
- Investigating child abuse when the alleged perpetrator is a CCYA employee or one of its agents;
- Monitoring CCYAs’ implementation and ongoing compliance with the CPSL;
- Ensuring regulatory compliance of agencies and facilities by investigating complaints and conducting annual inspections; and
- Reviewing and recommending approval of county needs-based plans and budget estimates.

When the suspected abuse has been committed by the CCYA or any of its agents or employees, the CPSL requires the department to investigate reports of suspected child abuse due to conflict of interest. An agent of the county agency is anyone who provides a children and youth social service for, or on behalf of, the CCYA. Agents might include resource parents, residential facility staff, and staff and volunteers at child care centers.
NOTE: County children and youth agencies conduct child abuse investigations unless the alleged perpetrator is an agent of the CCYA. If the alleged perpetrator is an agent of the CCYA, OCYF regional offices conduct the child abuse investigation due to a conflict of interest. This map shows reports by the investigating agency.
This map uses the number of children with substantiated reports of child abuse for every 1,000 children in each county. This approach takes into account different population sizes and allows for counties to be examined in comparable terms. Almost 75% of the state population under 18 years old lives in urban counties, and conversely, just under one quarter live in rural counties. The average rate of substantiated reports was significantly higher for rural counties (2.6) than for urban counties (1.6). The average substantiated rate in both types of counties rose slightly from 2015: from 1.5 to 1.6 in urban counties; and from 2.4 to 2.6 in rural counties.
RELATIONSHIP OF PERPETRATOR

SUBSTANTIATED REPORTS

- Mother: 1,312
- Father: 1,260
- Parent's paramour/former paramour: 668
- Kin/relative: 642
- Unrelated: 368
- Sibling: 310
- Parent's spouse/former spouse: 243
- Babysitter: 184
- School employee: 72
- Other: 68
- Child care employee/volunteer: 41
- Employee/volunteer responsible: 27
- Resource parent: 26
- Residential facility staff: 20
- Caretaker/guardian: 18

NOTE: A report may have more than one perpetrator; therefore, the total number of perpetrators will be greater than the total number of reports.

LIVING ARRANGEMENT OF VICTIMS AT TIME OF ABUSE

SUBSTANTIATED REPORTS

- Single parent: 1,855
- Two parents: 1,142
- Foster care/group home/adoptive care: 352
- Relative: 232
- Parent and parent's paramour: 192
- Other: 89
- Legal guardian: 59

NOTE: Living arrangement was not reported on 676 reports.

6,486

TYPE OF ALLEGATIONS

SUBSTANTIATED REPORTS

- Causing sexual abuse: 3,256
- Physical abuse/creating bodily injury: 2,142
- Causing serious physical neglect: 678
- Creating a reasonable likelihood of bodily injury: 565
- Engaging in per se acts: 317
- Creating a likelihood of sexual abuse/exploitation: 122
- Causing serious mental injury to child: 119
- MSBP/Medical child abuse: 6

NOTE: A report may have more than one perpetrator with more than one allegation; therefore, the total number of perpetrators and allegations will be greater than the total number of reports.

DEFINITION: Per se act — The definition of child abuse also includes certain acts in which the act itself constitutes abuse without any resulting injury or condition.

REPORTS OF REPEAT ABUSE

SUBSTANTIATED VS. SUBSTANTIATED

1,952 SUSPECTED 261 SUBSTANTIATED

BREAKDOWN

REPORTS OF REPEAT ABUSE BY VICTIMS' AGE

Under 1 year: 24
1-4 years: 36
5-9 years: 81
10-14 years: 105
15-17 years: 33
Older than 17: 9
Unknown: 20
CHILD ABUSE FATALITY AND NEAR FATALITY REVIEW AND ANALYSIS

THE FATALITY OR NEAR FATALITY OF A CHILD under suspicious circumstances impacts the wider community, with everyone left wondering what could have been done differently to prevent the incident from occurring. The department is required to review circumstances surrounding cases where suspected child abuse might have occurred, which helps the community better understand what led to the fatality or near fatality, and to help initiate a discussion on how Pennsylvanians can help prevent future occurrences.

Act 33 became effective December 30, 2008, and required that child fatalities and near fatalities where abuse was suspected be reviewed at the state and county levels. The review of child fatalities was not new to the field of child welfare, but rather codified and built upon the existing review process for fatalities to include the review of near fatalities. Act 44 of 2014 further addressed public disclosure provisions by permitting the investigating CCYA to release information to the public prior to the completion of its fatality or near fatality review team report. Act 33 of 2008 and Act 44 of 2014 increase child-serving systems’ transparency and accountability related to child fatalities and near fatalities by granting public access to information related to each child fatality or near fatality when abuse is suspected.

Upon receipt of a report of suspected child abuse involving a fatality or near fatality, two types of reviews are immediately initiated:

- The first level of review occurs at the local level in accordance with an established protocol and involves the county agency convening a team broadly representative of the community, consisting of at least six individuals who have expertise in the prevention and treatment of child abuse. County Child Abuse Fatality and Near Fatality Review Teams are required to review cases when it has been determined that abuse occurred, or when a final status determination has not been made within 30 calendar days from the date of the report to ChildLine.

- The department is responsible for conducting the second level of review for all child fatalities and near fatalities when abuse is suspected, regardless of the status determination. This means that both substantiated and unfounded cases will be reviewed.

The department has convened a Statewide Child Fatality and Near Fatality Trend Analysis Team consisting of cross-system partners and external stakeholders. The team’s purpose is to analyze data and information gathered to determine the contributing factors and symptoms of abuse and to form recommendations for policy and practice changes at the state and local levels. The team will use the analyses to promote and support the implementation of effective prevention efforts in Pennsylvania that may prevent similar future occurrences. These reviews seek to identify areas that require systemic change in order to improve the delivery of services to children and families, and develop data-driven and research-informed recommendations, which will ultimately enhance the commonwealth’s ability to protect children. Findings and recommendations will be posted to www.KeepKidsSafe.pa.gov.
Upon completion of the department’s review, a final redacted report is posted at KeepKidsSafe.pa.gov/resources/childfatalitynearfatalityreports unless the district attorney certifies that the release of the report may compromise a pending criminal investigation or proceeding. After verification from the district attorney that there is no longer a certification barring the report’s release, the department’s redacted report is posted to facilitate the release of information to the public.

### Child Abuse Fatality and Near Fatality Review and Analysis

#### Substantiated Fatalities

- **Total**: 46
- **Male**: 29
- **Female**: 17

#### Substantiated Near Fatalities

- **Total**: 79
- **Male**: 41
- **Female**: 38

**Gender Distribution**

- **Male**: 37 (47%)
- **Female**: 32 (39%)

**Age Distribution**

- **Under Age 1**: 26 (15%)
- **Ages 1-4**: 29 (17%)
- **Ages 5-9**: 21 (13%)
- **Ages 10-14**: 13 (8%)
- **Ages 15-17**: 3 (2%)

**Relationship to Victim**

- **Parent**: 10 (5%)
- **Parent’s paramour/former paramour**: 15 (8%)
- **Parent’s spouse/former spouse**: 36 (20%)
- **Caretaker/guardian–nonparent**: 28 (15%)
- **Other**: 2 (1%)

**Previous Involvement**

- **Never known to agency**: 10 (5%)
- **Known to agency prior to or at time of incident**: 15 (8%)
- **Not Reported**: 20 (11%)

**Recommended Preventive Measures**

- **Financial Assistance**: 3 (2%)
- **Medical/Therapy Treatment**: 4 (2%)
- **Education**: 1 (0.5%)
- **Counseling**: 1 (0.5%)
- **Others**: 4 (2%)

**Perpetrator**

- **Total**: 60

**Gender distribution**

- **Female**: 32
- **Male**: 28

**Age Distribution**

- **Under Age 20**: 5
- **Ages 20-29**: 16
- **Ages 30-39**: 15
- **Ages 40-49**: 13
- **Over Age 49**: 2
- **Unknown**: 3

**Relationship to Victim**

- **Parent**: 5
- **Parent’s paramour/former paramour**: 15
- **Parent’s spouse/former spouse**: 20
- **Caretaker/guardian–nonparent**: 36
- **Other**: 16

**Note**: Child fatality and near fatality data provided was extracted on 3/7/2017.

**NOTE**: A report may have more than one perpetrator; therefore, the total number of perpetrators will be greater than the total number of reports.

In 2016, regional office staff investigated 2,172 reports of suspected child abuse involving agents of a county agency, a decrease of 3.7% from 2015 (2,272 reports). The overall regional office substantiation rate was 4.9%, an increase of 1.5% from 2015. In three regions (Northeast, Southeast, and Western), most incidents occurred in residential services; in the Central region, most incidents occurred in foster family care.

CHILD ABUSE IN CHILD CARE SETTINGS

THE CHILD PROTECTIVE SERVICES LAW requires the department to report on the services provided to children who were abused in child care settings and the action taken against the perpetrators. Child care settings include family child care homes, child care centers, foster homes, boarding homes for children, juvenile detention centers, residential facilities, and institutional facilities. It does not include baby sitters (paid or unpaid) arranged by parents.

In 2016, there were 2,602 reports for suspected abuse of children in child care settings. A total of 186, seven percent, were substantiated. The department investigated 89 of the substantiated reports because the alleged perpetrators were agents of county agencies.

Social services were planned and/or provided to alleged victims, parents, and/or perpetrators involved in the investigated reports, when appropriate. In 932 reports, 36 percent, information was referred to law enforcement officials for possible criminal investigation and prosecution; 134 of these reports were substantiated by the CCYA or OCYF regional office investigation.

SERVICES PROVIDED AND PLANNED FOR CHILD, PARENT, AND/OR PERPETRATOR

NOTE: More than one service may be provided; therefore, the total number of services will be greater than the number of reports.
The name and known identifying information of an individual named as a perpetrator of a substantiated report of child abuse is maintained in the statewide database. The department’s ChildLine and Abuse Registry provides notice of the findings of the investigation to all subjects of the report, including the person named as the perpetrator. The notice to the person named as the perpetrator includes information regarding their right to file an appeal of an indicated report within 90 days of being notified. Only the person who has been named as a perpetrator has the right to file an appeal.

The person named as the perpetrator can request an administrative review or bypass the administrative review and request a hearing before the department’s Bureau of Hearings and Appeals (BHA). The administrative review is performed by a panel of professionals within the OCYF. If the person who is named as a perpetrator is granted the appeal, the individual’s name and identifying information is removed from the statewide database. The person named as the perpetrator and the investigating CCYA also have the right to request a hearing with BHA on the merits of the case if either party disagrees with the decision of the OCYF Administrative Review Panel.

At the hearing, the individual named as the perpetrator has the opportunity to present testimony and evidence to the BHA administrative law judge, as does the CCYA. All parties are notified of the scheduled hearing and outcome of the hearing by BHA. In addition, both parties may request that the Commonwealth Court hear the appeal if the party does not agree with the BHA ruling.

The CPSL also gives the Secretary the authority to amend or expunge a report, based good cause shown. Good cause shown can include, but is not limited to:

- Newly discovered evidence that an indicated report is inaccurate or is not being maintained consistent with the CPSL; or
- A determination the perpetrator no longer presents a risk of child abuse and there is no public purpose for maintaining the individual’s name on the statewide database.

Lastly, individuals may request reconsideration by the secretary if they disagree with the findings at the conclusion of a BHA hearing. This request must be made in writing within 15 calendar days of the mailing of the final BHA order.
CLEARANCES FOR EMPLOYEES AND VOLUNTEERS

THE CHILD PROTECTIVE SERVICES LAW (CPSL) ESTABLISHES requirements enumerating individuals that must obtain clearances (statutorily referred to as certifications) in order to be employed, to be a resource parent (foster or adoptive), or volunteer with children. In some circumstances, a resource parent or an individual residing in the resource family home may be required to obtain additional clearances if they have lived out-of-state within the past five years. The CPSL also outlines the grounds for which these individuals would be prohibited from working or volunteering with children.

The child abuse history clearance will only contain a record of indicated, founded, pending criminal court, pending juvenile court, or pending child abuse investigation. The term “pending” on the results of a child abuse history clearance means that the applicant is currently under investigation as a perpetrator of suspected child abuse. Clearances will not include information on general protective services assessments, which are non-abuse cases where services are provided to prevent potential harm to a child.

The purpose of requiring clearances is to provide employers and those selecting volunteers with information to use as part of a larger decision-making process when determining whether to hire someone as an employee or select them as a volunteer. A clearance does not replace a thorough interview and selection process.

Clearances are required for an employee when the individual will:

- Be responsible for a child’s welfare; or
- Have direct contact with children, meaning they are providing care, supervision, guidance, or control to children or they have routine interaction with children.

Clearances are required for an unpaid adult volunteer when the individual will:

- Be responsible for a child’s welfare; or
- Have direct volunteer contact with children, meaning they are providing care, supervision, guidance, or control to children and they have routine interaction with children.

These clearances may include the following:

- Pennsylvania Child Abuse History Certification;
- Pennsylvania State Police Criminal Record Check; and
- Federal Bureau of Investigation (FBI) Criminal History Background Check (required for employees and some volunteers).

An agency or organization is prohibited from hiring employees or selecting volunteers for a position involving children if the individual was named as a perpetrator in a founded report of child abuse committed within five years preceding when the clearance was verified. Conviction CONTINUES ON PAGE 22
CLEARANCES FOR EMPLOYEES AND VOLUNTEERS

951,414 TOTAL APPLICATIONS

943,381 APPLICATIONS PROCESSED

40 (2%) Alleged perpetrators where the outcome was pending criminal or juvenile court

CONTINUED FROM PAGE 21

of certain crimes also prohibits working or volunteering with children.

Over the course of 2016, the average processing time for a Pennsylvania Child Abuse History Certification was six days, about one day less than in 2015. The CPSL mandates that requests for these certifications be completed within 14 calendar days.

Agencies and organizations must ensure that clearances are obtained in accordance with the CPSL. To determine whether you, your staff or your volunteers are required to obtain clearances, please see the fact sheets at www.KeepKidsSafe.pa.gov.

The website also has information on how often employees and volunteers need to submit updated clearances, and the fees associated with clearances. Information on how to obtain the required clearances is also available, including the ability to submit and pay for the Pennsylvania Child Abuse History Certification online.

NOTE: Clearance data provided was extracted on 2/23/2017.
FEDERAL BUREAU OF INVESTIGATION RECORDS REQUESTS

INDIVIDUALS WHO WORK OR VOLUNTEER with children in certain circumstances are required to obtain a Federal Bureau of Investigation (FBI) background check before working with or volunteering with children. The data in this section reflects a compilation of all individuals who have applied for the fingerprint-based federal criminal background check.

The following individuals are required to obtain an FBI background check as part of the clearance process: child care services employees; school employees; foster parents; adult household members in foster homes; prospective adoptive parents; individuals providing child care services under contract with a child care facility or program; and adult household members of family living homes, community homes for individuals with an intellectual disability, and host homes for children.

Adult volunteers who have not lived in Pennsylvania for the last 10 years must also obtain FBI background checks. Adult volunteers who have lived in Pennsylvania for the last 10 years and swear or affirm in writing that they have not been convicted of any of the prohibitive crimes listed in Section 6344 of the CPSL are not required to obtain the FBI background check.

For more information on FBI and other required clearances, please visit www.KeepKidsSafe.pa.gov.
STATEWIDE GENERAL PROTECTIVE SERVICES

**GENERAL PROTECTIVE SERVICES (GPS)** reports are those reports that do not rise to the level of suspected child abuse but allege a need for intervention to prevent serious harm to children. The department is responsible for receiving and transmitting reports where GPS concerns are alleged. The CCYA is responsible for receiving and assessing reports of children in need of GPS in order to:

- Provide services to prevent abuse or neglect to children;
- Provide or arrange for and monitor the provision of those services necessary to safeguard and ensure the child’s well-being and development; and
- Preserve and stabilize family life wherever appropriate.

GPS reports can be made by mandated or permissive reporters. While mandated reporters are only required to report suspected child abuse, they continue to make the majority of reports alleging GPS concerns of children. When reports are received at ChildLine, staff assess the allegations, categorize the report, and send the report to the appropriate CCYA for assessment.

As with CPS reports, upon receiving a GPS report, the CCYA must see the child immediately if emergency protective custody has been taken, emergency protective custody is needed, or it cannot be determined from the report whether or not

CONTINUES ON PAGE 25
emergency protective custody is needed.
Otherwise, the CCYA prioritizes the response time to assure that children who are most at risk receive an assessment first.

CCYAs must complete their assessment within 60 days of receipt of a report. As with CPS reports, the CCYA must also provide or arrange for services necessary to protect the child and any other children in the home. Upon completion of the assessment, the CCYA must immediately notify the department:

• If the report was determined to be valid or invalid; and
• If the family was accepted for services, referred to community services, or the case was closed.

Determining that a report was valid means there was merit to the allegations. Conversely, determining that a report was invalid means there was no merit to the allegations.

If the family was accepted for services, the CCYA must also immediately notify the department upon the closure of services.

Unlike CPS reports, the determination made on a GPS report is not used when processing a Pennsylvania Child Abuse History Certification, nor does submission of the outcome after the 60-day timeframe impact the final outcome determination. Timely submission of GPS outcomes is monitored and reviewed as part of the department's licensure of CCYAs.

CCYAs also have the ability to screen-out GPS reports. The decision to screen-out a GPS report is made on a case-by-case basis by the CCYA and could be due to a number of different factors including, but not limited to:

• Information Only – The child/family requested information only and no other concerns exist warranting an assessment;
• Referral to Other Community Services – A child/family will benefit from other services in the community, which can best address the child/family's needs;
• Referral Did Not Allege Abuse or Neglect Concerns – The referral did not allege concerns that warrant the CCYA performing an assessment and there are no child safety concerns;
• Courtesy Visit – Another state or agency has requested an assessment; however,

NOTE: A report may have more than one allegation for each report; therefore, the total number of allegations will be greater than the total number of reports.

CONTINUES ON PAGE 26
the child/family is not in need of service;
• Law Enforcement Only – A referral was made to law enforcement officials because the alleged perpetrator is not a perpetrator under the CPSL and there are no child safety concerns;
• Insufficient Information/Unable to Assess — The child/family is unable to be identified/located;
• No Face-to-Face Contact/No Further Action Needed – The CCYA contacted the child/family or other professionals via phone and no further action is required;
• Face-to-Face Contact/No Further Action Needed – The CCYA made one face-to-face contact with child/family and no further action is required; or
• Other Reason – A reason that does not fall in the above categories, which requires the agency to record the specific reason.

GPS reports maintained in the statewide database at ChildLine must be expunged within certain timeframes based on the outcome and whether the family was accepted for services. Invalid GPS reports must be expunged one year and 120 days after the date the report was received by the department. Valid GPS reports not accepted for services must be expunged five years and 120 days following the date the report was received by the department. Valid GPS reports accepted for services must be expunged five years and 120 days after the closure of services by the CCYA.

NOTE: In some reports, more than one person was identified as being responsible for the allegations; therefore, the number of responsible persons exceeds the number of valid reports.
This map uses the number of children with valid allegations for every 1,000 children in each county. This approach takes into account different population sizes and allows for counties to be examined in comparable terms. There was a wide range in the number of children with valid allegations, with Columbia (69.4) and Northumberland (61.1) having the highest rates and Montour (2.1) and Chester counties (3.9) with the lowest rates. The average for rural counties was almost double the average for urban counties: the rural rate was 27.6 and the urban rate was 13.9.
CHILDLINE

THE DEPARTMENT OF HUMAN SERVICES’ CHILDLINE AND ABUSE REGISTRY is the central clearinghouse for all reports of suspected child abuse and general protective services reports. The toll-free hotline, 1-800-932-0313, is available 24 hours a day, seven days a week to receive reports of suspected child abuse by phone and electronic submission. ChildLine staff ensure that reports are transmitted to county children and youth agencies, law enforcement officials, or the appropriate OCYF regional office for investigation or assessment. If the report is made directly to the county, the county is required to transmit those reports to ChildLine. Additionally, county children and youth agencies and OCYF regional offices submit the outcome of child abuse investigations and general protective services assessments to ChildLine. Substantiated reports of child abuse and valid general protective services reports are recorded in the statewide database.

As of December 31, 2016, there were a total of 142,469 substantiated reports in the statewide database¹, an increase of 3% over 2015. ChildLine answered approximately 155,911 calls, an increase of 6.5% over 2015. Calls involved suspected child abuse, referral to local services, complaints for licensing agency review and investigation, and referrals to law enforcement officials.

• Of the 44,359 reports for suspected abuse, 68% were made by phone, 11% were received by county agencies and electronic transmission, and 21% were received directly through the online reporting system.

• In 2016, ChildLine received 14,956 law enforcement-only reports. These reports are for incidents that involve a criminal act against a child where the individual who allegedly committed the act does not meet the definition of perpetrator in accordance with the CPSL. Law enforcement referrals are provided by ChildLine to the county district attorney’s office where the incident occurred.

• Copies of 1,195 founded or indicated reports on 940 perpetrators were provided to the Sexual Offenders Assessment Board as required by Pennsylvania’s Megan’s Law; this was an 11.5% increase over 2015. These reports were provided to aid the courts in determining whether the perpetrator should be classified as a sexually violent predator.

• In 2016, 6,695 children were moved from the setting where the alleged or actual abuse occurred. This represents a decrease of 4.4% from the 2015 number, 7,001.

• 18,702 records checks were performed and provided to CCYAs or law enforcement officials to verify that other people participating in safety plans or caring for a child have no record of child abuse that would place the child at risk.

1. NOTE: This figure reflects the total number of substantiated reports since the database was established in 1975.

DEFINITION: Protective services alert — A request from another state to determine if a family received child welfare services in Pennsylvania.
Pennsylvania's Child Welfare System is responsible for a wide range of services to abused and neglected children, and dependent and delinquent children. Funding provided by the state and county agencies for all services annually is $1.461 billion; $1.063 billion state funds and $398 million county funds. While an additional $350 million in federal funds were spent on services, none of those funds were used for investigations and assessments.

More than $232.727 million was spent by state and county agencies to investigate reports of suspected child abuse, assess general protective services reports and related activities. Of the $232.727 million, $217.079 million was spent by counties. The state government spent the remaining $15.648 million to fund personnel costs (salaries, benefits, and operating costs) for the percentage of time OCYF headquarters staff and ChildLine staff performed child abuse work ($11.793 million), and personnel costs for OCYF’s regional staff who performed child abuse investigations ($3.855 million).

Personnel costs for OCYF headquarters staff were $936,571. ChildLine personnel costs were $10.856 million.

To obtain the total expenditures for county agencies to conduct alleged child abuse investigations, refer to the individual county pages in this report. These numbers do not reflect total expenditures for all services provided by the county agencies.

NOTE: The expenditure data reported in the 2015 Annual Protective Services Report did not include expenditures for General Protective Services. As a result, it will appear that there is an increase in expenditures from the prior year.

All data provided was extracted on 04/10/17.
The CCYA is required to do the following when a newborn is relinquished through Safe Haven:

- Make diligent efforts within 24 hours to identify the newborn’s parent, guardian, custodian, or other family members and to notify them of the whereabouts of the newborn and the reasons that the newborn was taken into protective custody; and
- Assume responsibility for making decisions regarding the newborn’s medical care, unless otherwise provided by court order.

In addition, CCYAs are required to provide outreach and counseling services to prevent newborn abandonment. CCYAs and the department conduct continuing publicity and education programs aimed at the prevention of newborn abandonment.

To ensure that accurate information about Safe Haven is available, the department maintains a statewide, toll-free helpline, 1-866-921-SAFE (7233), and the Safe Haven website, www.secretsafe.org. Additional information regarding the Safe Haven program and educational materials can be found on this website.

The statewide helpline provides information about Safe Haven and also allows callers to speak directly with someone to find the location of the nearest hospital or police station. In 2016, the helpline received 48 calls, with the highest number of calls received in June immediately after a public awareness campaign.

In 2016, two newborns were relinquished: one in Union County (Central region) and one in Warren County (Western region). Since the law was enacted in 2002, a total of 29 newborns have been received as Safe Haven infants by Pennsylvania hospitals and police stations. These infants have come from 22 counties, with most relinquishments occurring in the Western region of the state (14 infants); half of those were from Washington County alone (seven infants). The Central region had the second highest number of infants relinquished at nine, followed by five in the Southeast and one in the Northeast.
Pennsylvania successfully expanded its Medical Assistance program. As a result, there has been a recent increase in demand for all treatment services. Pennsylvania is committed to ensuring the availability and accessibility of a continuum of services to meet individual needs. As such, Pennsylvania leads the country with the first women and children’s residential treatment program ever established and 17 such programs are available statewide. Additionally, 19 specialized women’s recovery houses exist statewide. Eight non-hospital residential facilities are capable of admitting pregnant women and women with children.

Pennsylvania is committed to the development of a single policy agenda supported by multiple system partners that addresses primary prevention, substance use screening and referral to treatment, coordination of care for the infant and mother, development of protocols for plans of safe care for the infant, and tracking of referral outcomes. The overarching goal is to take a public health and child safety approach to our coordinated response, ensuring there is community-based family-centered care to increase access; that follow-up is provided for the mother, infant, and family; and that plans of safe care are individualized and treatment focused.

A cross-system stakeholder team has been convened and efforts are underway to issue policy guidance that ensures that appropriate screening tools are used to identify infants and caregivers affected by substance use disorder, to support the required notice to the child welfare system, and, most importantly, to ensure that plans of safe care are developed based upon child and family needs with services provided through a coordinated service delivery system.

FEDERAL CHILD ABUSE PREVENTION AND TREATMENT ACT

SINCE 2003, THE CHILD ABUSE PREVENTION AND TREATMENT ACT (CAPTA) has included requirements to ensure appropriate notification is given to child protective services agencies to address the needs of substance-exposed infants.

On July 22, 2016, the Comprehensive Addiction and Recovery Act (CARA) was enacted to expand the requirement for the development of a plan of safe care for infants born and identified as being affected by substance use or withdrawal symptoms from prenatal substance exposure or Fetal Alcohol Spectrum Disorder. This is to ensure the safety and well-being of infants following release from the care of health care providers, including addressing the health and substance use disorder treatment needs of the infant and affected family or caregiver. CARA also added requirements relating to data collection and monitoring.

The opioid epidemic does not discriminate — it affects Pennsylvanians from all walks of life. Pennsylvania has established Centers of Excellence, which will serve as a central, efficient hub to assist people with opioid-related substance use disorders, ensuring individuals receive behavioral and physical health care, including any evidence-based medication-assisted treatment needed.

SINCE 2003, THE CHILD ABUSE PREVENTION AND TREATMENT ACT (CAPTA) has included requirements to ensure appropriate notification is given to child protective services agencies to address the needs of substance-exposed infants.

On July 22, 2016, the Comprehensive Addiction and Recovery Act (CARA) was enacted to expand the requirement for the development of a plan of safe care for infants born and identified as being affected by substance use or withdrawal symptoms from prenatal substance exposure or Fetal Alcohol Spectrum Disorder. This is to ensure the safety and well-being of infants following release from the care of health care providers, including addressing the health and substance use disorder treatment needs of the infant and affected family or caregiver. CARA also added requirements relating to data collection and monitoring.

The opioid epidemic does not discriminate — it affects Pennsylvanians from all walks of life. Pennsylvania has established Centers of Excellence, which will serve as a central, efficient hub to assist people with opioid-related substance use disorders, ensuring individuals receive behavioral and physical health care, including any evidence-based medication-assisted treatment needed.
The child welfare system in Pennsylvania is state-supervised and county-administered with both agencies having vital roles in the protection of children. The department is responsible for assuring the availability and provision of public child welfare services, providing oversight and technical assistance to each county agency, and establishing and enforcing policies and regulations that support the achievement of child welfare goals and outcomes. Additionally, the department is responsible for the licensure of public and private child welfare agencies and the investigation of complaints received regarding these agencies.

Each county's children and youth agency is responsible for administering a program of children and youth services to children and their families. The county children and youth program includes services designed to:

- Protect children from abuse and neglect and enable children to remain safely in their own homes and communities;
- Prevent dependency and delinquency of children and help them overcome problems that result in dependency and delinquency;
- Provide permanency and stability for children in their homes or in placement and preserve relationships and connections for children with their families and communities;
- Enhance the family's capacity to provide for their children's educational, physical, and behavioral health needs;
- Provide balanced attention to the protection of the community, the imposition of accountability for offenses, and the development of competencies to enable youth to become responsible and productive members of the community.

The following pages provide a snapshot of child abuse and neglect, and expenditures for investigations and assessments by county.
