

Service History File Field Additions June 2021

Overview:

Managed Care Organizations (MCOs) receive Fee-For-Service (FFS), Physical Health (PH), Community HealthChoices (CHC) and Behavioral Health (BH) service history data from The Department's Data Warehouse on a weekly basis.

The Service History Files include claims/encounters not processed by the current MCO and not sent on a previous file for each recipient enrolled in the current MCO.

Encounter service history data consists of both PROMISe approved and denied encounters. FFS data will consist of paid claims only.

Details:

The MCOs have requested that the Department add additional fields to the Inpatient, Pharmacy and Medical Service History Files. The chart below indicates which fields have been added.
