Safe Management Techniques: Intervening Early and Appropriately

Resident and team member safety is a growing challenge for Personal Care Home Administrators. In this 6-hour hybrid training, students will delve into evidenced based models to understand ways team members may intervene early and appropriately to prevent a crisis event. Students will also explore habilitation theory, root cause analysis, and focus on application of the principles through small group discussion and case studies. This hybrid training consists of a 3-hour self-paced prerequisite and a 3-hour virtual live training. 6-credit hours will be issued after completion of both requirements.

This free training is provided by Temple University Harrisburg and funded by the Pennsylvania Department of Human Services Bureau of Human Services Licensing.

Please register for ONE of the ten sessions. Multiple registrations are not permitted.			

Technology Requirements:

- **Audio and video ARE required to be turned on for the live, 3-hour training on the Zoom platform.**
- **Please note that driving during the live training is NOT permitted.**
- *If you do not have audio on your computer, the Zoom platform can be accessed on your smartphone or tablet. You must have the hardware (desktop or laptop, tablet or smartphone) and software (Browsers such as Chrome, Safari, Firefox or Microsoft Edge) to access the internet. A broadband internet connection (DSL, cable, fiber, etc.) is recommended with a hardwired Ethernet cable. Wireless (Wi-Fi) connections may be utilized but a weak or congested signal may cause issues with video buffering or content access.*
