Application for a §1915(c) Home and Community-Based Services Waiver

PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a state to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waivers target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the state, service delivery system structure, state goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for an Amendment to a §1915(c) Home and Community-Based Services Waiver

1. Request Information

- **A.** The **State** of **Pennsylvania** requests approval for an amendment to the following Medicaid home and community-based services waiver approved under authority of §1915(c) of the Social Security Act.
- **B.** Program Title:
 - **Community Living Waiver**
- C. Waiver Number:PA.1486
- D. Amendment Number: PA.1486.R01.03
- E. Proposed Effective Date: (mm/dd/yy)

05/01/24

Approved Effective Date of Waiver being Amended: 01/01/23

2. Purpose(s) of Amendment

Purpose(s) of the Amendment. Describe the purpose(s) of the amendment:

This amendment implements the availability of one-time supplemental payments for providers to cover recruitment, retention, and any unusual staffing expenses resulting from the COVID-19 pandemic for direct support professionals, frontline supervisors, program specialists, or Supports Coordinators (SCs). Providers must request the one-time supplemental payments. Information about the Workforce Recovery Supplemental Payments should be included in Appendix I-3-c, but due to character limits is contained in the Main Module Additional Needed Information Section of this waiver.

This amendment also includes an increase of 1250 unduplicated individuals to be served in the Community Living Waiver in waiver year 2 (calendar year 2024) and subsequent years.

3. Nature of the Amendment

A. Component(s) of the Approved Waiver Affected by the Amendment. This amendment affects the following component(s) of the approved waiver. Revisions to the affected subsection(s) of these component(s) are being submitted concurrently (*check each that applies*):

Component of the Approved Waiver	Subsection(s)	
Waiver		

Component of the Approved Waiver	Subsection(s)	
Application		
Appendix A Waiver Administration and Operation		
Appendix B Participant Access and Eligibility	В-3-с	
Appendix C Participant Services		
Appendix D Participant Centered Service Planning and Delivery		
Appendix E Participant Direction of Services		
Appendix F Participant Rights		
Appendix G Participant Safeguards		
Appendix H		
Appendix I Financial Accountability	I-3-c	
Appendix J Cost-Neutrality Demonstration	J-2-a, J-2-d	

B. Nature of the Amendment. Indicate the nature of the changes to the waiver that are proposed in the amendment (*check each that applies*):

Modify target group(s)

Modify Medicaid eligibility

Add/delete services

Revise service specifications

Revise provider qualifications

Increase/decrease number of participants

Revise cost neutrality demonstration

Add participant-direction of services

Other

Specify:

Add one-time supplemental payments for providers.

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

- **A.** The **State** of **Pennsylvania** requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
- **B. Program Title** (*optional this title will be used to locate this waiver in the finder*):

Community Living Waiver

C. Type of Request: amendment

Requested Approval Period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)

3 years 5 years

Waiver Number:PA.1486.R01.03 Draft ID: PA.039.01.02

D. Type of Waiver (select only one): Regular Waiver

E. Proposed Effective Date of Waiver being Amended: 01/01/23 Approved Effective Date of Waiver being Amended: 01/01/23

PRA Disclosure Statement

The purpose of this application is for states to request a Medicaid Section 1915(c) home and community-based services (HCBS) waiver. Section 1915(c) of the Social Security Act authorizes the Secretary of Health and Human Services to waive certain specific Medicaid statutory requirements so that a state may voluntarily offer HCBS to state-specified target group(s) of Medicaid beneficiaries who need a level of institutional care that is provided under the Medicaid state plan. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0449 (Expires: December 31, 2023). The time required to complete this information collection is estimated to average 160 hours per response for a new waiver application and 75 hours per response for a renewal application, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid state plan (*check each that applies*):

Hospital

Select applicable level of care

Hospital as defined in 42 CFR §440.10

If applicable, specify whether the state additionally limits the waiver to subcategories of the hospital level of care:

Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160

Nursing Facility

Select applicable level of care

Nursing Facility as defined in 42 CFR ??440.40 and 42 CFR ??440.155

If applicable, specify whether the state additionally limits the waiver to subcategories of the nursing facility level of care:

Institution for Mental Disease for persons with mental illnesses aged 65 and older as provided in 42 CFR §440.140

Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID) (as defined in 42 CFR §440.150)

If applicable, specify whether the state additionally limits the waiver to subcategories of the ICF/IID level of care:

People of any age with a diagnosis of an intellectual disability or autism, children with a developmental disability under age 9 with a high probability of resulting in an intellectual disability or autism and children under age 22 with a developmental disability due to a medically complex condition as outlined in appendix B-6 of this waiver and ODP policy regarding individual eligibility for Medicaid Waiver services.

1. Request Information (3 of 3)

G. Concurrent Operation with Other Programs. This waiver operates concurrently with another program (or programs) approved under the following authorities

Select one:

Not applicable

Applicable

Check the applicable authority or authorities:

Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I

Waiver(s) authorized under §1915(b) of the Act.

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the \$1915(b) authorities under which this program operates (check each that applies):

§1915(b)(1) (mandated enrollment to managed care)

§1915(b)(2) (central broker)

§1915(b)(3) (employ cost savings to furnish additional services)

§1915(b)(4) (selective contracting/limit number of providers)

A program operated under §1932(a) of the Act.

Specify the nature of the state plan benefit and indicate whether the state plan amendment has been submitted or previously approved:

A program authorized under §1915(i) of the Act.

A program authorized under §1915(j) of the Act.

A program authorized under §1115 of the Act. *Specify the program:*

H. Dual Eligiblity for Medicaid and Medicare.

Check if applicable:

This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The Community Living Waiver has been developed to emphasize deinstitutionalization, prevent or minimize institutionalization and provide an array of services and supports in community-integrated settings. The Community Living Waiver is designed to support persons of any age with an intellectual disability or autism, children with a developmental disability under age 9 with a high probability of resulting in an intellectual disability or autism and children under age 22 with a developmental disability due to a medically complex condition to live more independently in their homes and communities and to provide a variety of services that promote community living, including participant directed service models and traditional agency-based service models.

The Department of Human Services (Department), as the State Medicaid agency, retains authority over the administration and implementation of the Community Living Waiver. ODP, as part of the State Medicaid Agency, is responsible for the development and distribution of policies, procedures, and rules related to Waiver operations. Most services and supports funded under the Waiver are authorized by local Administrative Entities (AEs) pursuant to an AE Operating Agreement with ODP. There are some service variances, such as Respite beyond the limitations, that require prior approval from ODP. An AE is a County Mental Health/Intellectual Disability (MH/ID) Program or a non-governmental entity with a signed agreement with ODP to perform operational and administrative functions delegated by ODP related to the approved Community Living Waiver. The AE Operating Agreement establishes the roles and responsibilities of AEs with respect to functions delegated to them for program administration.

AEs may only delegate and purchase administrative functions in accordance with the AE Operating Agreement. When the AE delegates or purchases administrative functions, the AE shall continue to retain responsibility for compliance with the AE Operating Agreement. In addition, the AE is responsible to monitor delegated or purchased administrative functions to ensure compliance with applicable Departmental rules, Waiver requirements, written policies and procedures, state and federal laws, and the provisions of the AE Operating Agreement. Administrative payments for the purchased administrative functions shall be paid through the Department's allocation to the AE for administration of the Waiver.

AEs are responsible for ensuring that service plans are completed accurately before authorizing the services and approving the service plans. AEs utilize the results of needs assessments, the standardized web-based service plan format in the Home and Community Services Information System (HCSIS) and service plan guidelines to ensure accuracy of the service plans. AEs are also responsible for ensuring that service plans are approved and services are authorized prior to the participant's receipt of Waiver services and that service plans include the services and supports necessary to meet the assessed needs of participants. AEs are responsible for monitoring that service plans are updated on at least an annual basis, and whenever necessary to reflect changes in the need of participants.

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

- **A. Waiver Administration and Operation. Appendix A** specifies the administrative and operational structure of this waiver.
- **B.** Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the state expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

- **C. Participant Services. Appendix C** specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.
- **D.** Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the state uses to develop, implement and monitor the participant-centered service plan (of care).
- **E. Participant-Direction of Services.** When the state provides for participant direction of services, **Appendix E** specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (*Select one*):

Yes. This waiver provides participant direction opportunities. Appendix E is required.

No. This waiver does not provide participant direction opportunities. Appendix E is not required.

- **F. Participant Rights. Appendix F** specifies how the state informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
- **G. Participant Safeguards. Appendix G** describes the safeguards that the state has established to assure the health and welfare of waiver participants in specified areas.
- H. Quality Improvement Strategy. Appendix H contains the Quality Improvement Strategy for this waiver.
- **I. Financial Accountability. Appendix I** describes the methods by which the state makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.
- J. Cost-Neutrality Demonstration. Appendix J contains the state's demonstration that the waiver is cost-neutral.

4. Waiver(s) Requested

- A. Comparability. The state requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid state plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.
- **B.** Income and Resources for the Medically Needy. Indicate whether the state requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (*select one*):

Not Applicable

No

Yes

C. Statewideness. Indicate whether the state requests a waiver of the statewideness requirements in §1902(a)(1) of the Act *(select one)*:

No

Yes

If yes, specify the waiver of statewideness that is requested (check each that applies):

Geographic Limitation. A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the state. *Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:*

Limited Implementation of Participant-Direction. A waiver of statewideness is requested in order to make *participant-direction of services* as specified in **Appendix E** available only to individuals who reside in the following geographic areas or political subdivisions of the state. Participants who reside in these areas may elect to direct their services as provided by the state or receive comparable services through the service delivery methods that are in effect elsewhere in the state.

Specify the areas of the state affected by this waiver and, as applicable, the phase-in schedule of the waiver by

geographic area:

5. Assurances

In accordance with 42 CFR §441.302, the state provides the following assurances to CMS:

- A. Health & Welfare: The state assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:
 - 1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;
 - **2.** Assurance that the standards of any state licensure or certification requirements specified in **Appendix C** are met for services or for individuals furnishing services that are provided under the waiver. The state assures that these requirements are met on the date that the services are furnished; and,
 - **3.** Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable state standards for board and care facilities as specified in **Appendix C**.
- **B. Financial Accountability.** The state assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in **Appendix I**.
- **C. Evaluation of Need:** The state assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care specified in **Appendix B**.
- **D.** Choice of Alternatives: The state assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:
 - 1. Informed of any feasible alternatives under the waiver; and,
 - **2.** Given the choice of either institutional or home and community-based waiver services. **Appendix B** specifies the procedures that the state employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.
- **E.** Average Per Capita Expenditures: The state assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid state plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.
- **F. Actual Total Expenditures:** The state assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the state's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.
- **G. Institutionalization Absent Waiver:** The state assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.
- **H. Reporting:** The state assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid state plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.
- **I. Habilitation Services.** The state assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the

individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The state assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the state has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the state has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-I must be completed.

- **A. Service Plan**. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including state plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- **B. Inpatients**. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are inpatients of a hospital, nursing facility or ICF/IID.
- **C. Room and Board**. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the state that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in **Appendix I**.
- **D.** Access to Services. The state does not limit or restrict participant access to waiver services except as provided in Appendix C.
- **E. Free Choice of Provider**. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the state has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- **F. FFP Limitation**. In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer for that annual period.
- G. Fair Hearing: The state provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals:
 (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. Appendix F specifies the state's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.
- **H. Quality Improvement**. The state operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the state assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The state further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the state will implement the Quality Improvement Strategy specified in

Appendix H.

I. Public Input. Describe how the state secures public input into the development of the waiver:

Through a notice published on February 3, 2024, DHS informed interested persons of the availability of the proposed amendment for public comment. This notice can be accessed online at https://www.pacodeandbulletin.gov/Display/pabull?file=/secure/pabulletin/data/vol54/54-5/135.html. The public comment period was open until 11:59pm on 3/4/24.

The Pennsylvania Bulletin is published weekly under 4 Pa.C.S. Part II (relating to publication and effectiveness of Commonwealth documents). ODP sent notification of the publication via our ListServ that includes providers, Supports Coordination Organizations, advocacy organizations, participants and families. Tribal Government notice was not required as there are no federally recognized Tribal Governments that maintain a primary office and/or majority population in Pennsylvania.

ODP wants to thank all stakeholders who took their time to provide public comment which has shaped our waivers. There were 39 stakeholders who provided written comments via email or postal mail. Some stakeholders submitted comments that covered more than one topic area in the waiver amendment. Therefore, there are more comments summarized below compared to the actual number of people who submitted the comments. ODP did not include comments on topics that pertain to information that is not included in the waivers such as operational comments regarding how the workforce recovery supplemental payments will be requested and paid and comments about the fee schedule rates. ODP will release communications providing more detailed operational guidance about the workforce recovery supplemental payments.

• 19 comments thanked the Department for making these one-time supplemental payments available for workforce recovery activities for providers.

ODP Response: ODP thanks the commenters for the support.

• 6 comments recommended changes to the service delivery period upon which supplemental payments will be calculated.

o 1 comment requested that new providers who began rendering services after the claim period be allowed to receive supplemental payments.

o 2 comments recommended the timeframe be extended for multiple reasons such as provider experiencing impacts from COVID-19 indefinitely, delays in submission of claims, and changes to service authorizations.

o 3 comments recommended that the proposed language permit future adjustments to either the percentage of revenue or services rendered dates, without the need for further approval.

ODP Response: No changes were made to the waivers based on these public comments. If surplus funding becomes available due to underutilization, ODP will consider the possibility of additional supplemental payments that would be included in future amendments.

• 16 comments requested ODP expand the allowable activities, professionals, and services covered by the supplemental payments:

o 1 comment recommended allowing providers to use the payments to increase direct support professionals' pay and travel mileage.

o 1 comment requested that ODP allow the supplemental payments be used for executive staff while 2 comments agreed that the supplemental payments should not be used for executive staff.

o 1 comment recommended that Program Specialists be allowable as these positions are also necessary for providers to effectively serve individuals and are generally not highly compensated positions.

o 11 comments requested that additional services be added and that they be clearly listed in the waivers.

ODP Response: Program Specialists have been added to the waiver amendments as eligible positions. Supplemental Habilitation has been added to the list of services eligible for supplemental payments. Residential Habilitation Needs Group exception payments have been added as being eligible for supplemental payments at a different rate from other services. Older Adult Daily Living Centers are settings where Community Participation Support services are rendered and are included under the Community Participation Support service. The services listed include services delivered through the Agency With Choice model with the exception of the administration fee which is not listed as a service that is eligible for supplemental payments.

• 2 comments recommended that ODP automatically issue payments to eligible providers and remove the requirement for providers to request the supplemental payments.

ODP Response: No changes were made to the waivers based on these public comments.

- **J. Notice to Tribal Governments**. The state assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.
- K. Limited English Proficient Persons. The state assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 -August 8, 2003). Appendix B describes how the state assures meaningful access to waiver services by Limited English Proficient persons.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:

Last Name:	
	Kozak
First Name:

8. Authorizing Signature

This document, together with the attached revisions to the affected components of the waiver, constitutes the state's request to amend its approved waiver under §1915(c) of the Social Security Act. The state affirms that it will abide by all provisions of the waiver, including the provisions of this amendment when approved by CMS. The state further attests that it will continuously operate the waiver in accordance with the assurances specified in Section V and the additional requirements specified in Section VI of the approved waiver. The state certifies that additional proposed revisions to the waiver request will be submitted by the Medicaid agency in the form of additional waiver amendments.

Signature:	Julie Mochon
	State Medicaid Director or Designee
Submission Date:	Mar 14, 2024
	Note: The Signature and Submission Date fields will be automatically completed when the State Medicaid Director submits the application.

Attachment #1: Transition Plan

Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

Replacing an approved waiver with this waiver.

Combining waivers.

Splitting one waiver into two waivers.

Eliminating a service.

Adding or decreasing an individual cost limit pertaining to eligibility.

Adding or decreasing limits to a service or a set of services, as specified in Appendix C.

Reducing the unduplicated count of participants (Factor C).

Adding new, or decreasing, a limitation on the number of participants served at any point in time.

Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.

Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver

complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required. Note that Appendix C-5 <u>HCB Settings</u> describes settings that do not require transition; the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here. Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not

necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

Please refer to Appendix C-5.

Additional Needed Information (Optional)

Provide additional needed information for the waiver (optional):

Community Participation Support Service Definition

Fading support is covered to increase independence for participants for whom the provider has coordinated community activities in which the participant is supported through unpaid supports and/or as a component of the fading strategy where access to provider staff and immediate teleservices are needed as a back-up. The provider may bill for fading support when all of the following conditions are met:

• The service is authorized in the service plan based on the service plan team determination that fading support is the most appropriate service delivery method to meet the participant's needs based on review of the following information:

- The community activity was coordinated by the provider of CPS services;

- The participant does not receive Residential Habilitation services;

- The participant requires fading support for health and safety reasons;

- The provider, in conjunction with the service plan team, has developed a back-up plan that will be implemented should there be a problem with the technology, or the needed unpaid support person is not available. The back-up plan must be developed in accordance with guidance in Appendix D-1-e to ensure that the health and safety needs of each participant will be met;

- The participant and/or unpaid support person(s) have been trained to successfully utilize any devices or equipment necessary for the provision of fading support. This includes training on how to turn off any device(s) or equipment if they choose to do so;

- The provider informs the participant, the service plan team, and anyone identified by the participant, of what impact the fading support will have on the participant's privacy (if any). This includes the following:

* The participant must give consent for protected health information to be shared with the unpaid support person(s), when applicable;

* Any technology used must be HIPAA compliant; and

* The provider will implement reasonable HIPAA safeguards to limit incidental uses or disclosures of protected health information when the participant is in community locations. This includes using lowered voices, not using speakerphone, or recommending that the participant and/or unpaid support person(s) move to a reasonable distance from others when discussing protected health information.

- Community Participation Support teleservices are available immediately to the participant and staff can be available for inperson direct services within a maximum of 30 minutes (less if agreed upon by the service plan team).

The provider must ensure that effective communication is provided, including use of any necessary auxiliary aids or services, to ensure that the participant can receive and convey information consistent with the requirements of the ADA.

Direct CPS may be provided at the following staff-to-individual ratios in a licensed facility:

• Basic- 1:11 to 1:15

• Level 1- 1:7 to 1:10

• Level 2- 1:4 to 1:6

• Level 3- 1:2 to 1:3

• Level 4- 1:1

• Level 4 Enhanced- 1:1 with a staff member who is certified, has a bachelor's degree or is a licensed nurse.

• Level 5- 2:1

• Level 5 Enhanced- 2:1 with 1 staff member who is certified, has a bachelor's degree or is a nurse & 1 staff member with at least a high school diploma.

Direct CPS may be provided at the following staff to individual ratios in community locations & community hubs:

• Basic- 1:2 to 1:3

• Level 1- 2:3

• Level 2- 1:1

• Level 2 Enhanced- 1:1 with a staff member who is certified, has a bachelor's degree or is a licensed nurse.

• Level 3- 2:1

• Level 3 Enhanced- 2:1 with 1 staff member who is certified, has a bachelor's degree or is a nurse & 1 staff member with at least a high school diploma.

The use of Level 4 Enhanced, Level 5 and 5 Enhanced in facility locations as well as Level 2 Enhanced, Level 3 and Level 3 Enhanced are based on the participant's behavioral or medical support needs. The need for these enhanced levels of service must be reviewed every 6 months in accordance with ODP policy for continued authorization. If a participant requires supplemental staffing during this service, the CPS provider is responsible to provide the staffing.

CPS may not be provided in a licensed Adult Training Facility or a licensed Vocational Facility that is newly funded on or after 03/19/2024

January 1, 2020 and serves more than 25 individuals in the facility at any one time including individuals funded through any source.

Starting January 1, 2023, CPS services may not be provided in any facility required to hold a 2380 or 2390 license that serves more than 150 individuals at any one time including individuals funded through any source.

CPS may not be provided in a licensed facility that enrolls on or after February 1, 2020 in a location that is adjacent to, attached

to or located in the same building as any of the following regardless of the funding source of the individuals served: • Hospital (medical or psychiatric).

- Skilled Nursing Facility (55 Pa. Code Chapters 201 through 211).
- Licensed public or private ICF/ID (55 Pa. Code Chapter 6600) or ICF/ORC.
- Licensed Child Residential Services (55 Pa. Code Chapter 3800).
- Licensed Community Residential Rehabilitation Services for the Mentally Ill (CRRS) (55 Pa. Code Chapter 5310).
- Licensed Personal Care Homes (55 Pa. Code Chapter 2600).
- Licensed Assisted Living Residences (55 pa. Code Chapter 2800).
- Unlicensed or Licensed Family Living Homes (55 Pa. Code Chapter 6500).

• Unlicensed or Licensed Community Homes for Individuals with an Intellectual Disability or Autism (55 Pa. Code Chapter 6400).

• Licensed Adult Training Facilities (55 Pa. Code Chapter 2380).

• Licensed Vocational Facilities (55 Pa. Code Chapter 2390).

• Licensed Older Adult Daily Living Centers (6 Pa. Code Chapter 11).

Remote Supports as a Method of Residential Habilitation, Life Sharing or Supported Living Service Delivery

Remote supports involve the use of technology that uses two-way real time communication in the participant's home and/or community that allows someone from off-site to monitor and respond to the participant's health and safety needs. Remote supports are an optional method of service delivery rendered as part of Residential Habilitation, Life Sharing or Supported Living services that must enhance or increase the participant's independence, reduce the participant's need for direct support, and comply with 42 CFR 441.301(c)(4)(vi)(A) through (D) related to privacy, control of schedule and activities and access to visitors.

Participants must have an informed choice to receive remote supports as a method of service delivery. This method of service delivery may only occur when the service plan team determines that remote supports is the most appropriate service delivery method to meet the participant's needs (including health and safety needs) and goals. Remote supports must be documented in the service plan and fully integrated into the participant's overall system of support using person-centered planning. Prior to implementing remote supports as a method of residential service delivery, the residential provider must discuss the following with the service plan team to determine the appropriateness of this service delivery method:

o An evaluation plan that, at a minimum, includes:

- The need(s) of the participant that will be met by the remote supports;

- The equipment and/or devices that will be used and the participant's control over the equipment and/or devices. The participant's control over the equipment will be determined on a case-by-case basis depending on the device(s)/equipment used and the participant's needs;

- How the remote supports will ensure the participant's health, welfare and independence; and

- The training needed to successfully utilize the technology. This includes training the participant and staff on the equipment and/or devices that will be used; and

- The back-up plan that will be implemented should there be a problem with the remote supports, including the equipment and/or devices used. The back-up plan must be developed in accordance with guidance in Appendix D- 1-e to ensure that the health and safety needs of each participant will be met.

o An outcome monitoring plan.

o The impact the remote supports will have on the participant's privacy, including whether devices and/or equipment used facilitate each participant's right to privacy of person and possessions.

- Recording of live interactions with the participant via audio or video is prohibited. Live video or audio transmission is only allowable to persons designated by the participant and designated staff employed by the provider responsible for direct service delivery.

- Without exception, the use of video monitoring equipment in bedrooms and bathrooms is prohibited.

- It is allowable for staff to provide live audio prompts needed by the participant in bathrooms and bedrooms as part of this method of service delivery. The participant must be alerted prior to the activation of any audio communication device unless the participant turns on the audio communication device themselves.

- Live real-time video communication between the participant and a staff person may only occur in the participant's bedroom when all of the following are met:

* The participant has chosen to receive services in their bedroom due to a medical condition which makes it difficult or impossible for them to leave their bedroom to receive services in another room in the house or the participant would like privacy from others in the home (staff, family, housemates, etc.) during the receipt of services;

* The participant turns the video communication device on and off themselves or requests assistance in turning the video communication device on and off;

* The participant does not share a bedroom with others; and

* Service delivery via video communication will not be performed as part of any activity during which privacy would generally be expected (while a participant is in a state of undress, during sexual activities, etc.).

o All audio and video devices that are used to render remote supports in any location in the home or community must include indicators that let the participant know that the devices are on and operating in audio or video mode.

o Sensors and other non-audio/video devices are permitted in bedrooms and bathrooms as part of the service plan.

ODP has developed an evaluation tool for the use of technology in residential homes.

The residential provider is required via licensing and program-operational regulations to actively provide each participant the necessary support to make choice and understand their rights under the regulations, including the right to choose or decline of remote supports.

As outlined in Appendix D-2-a, each participant's health, safety, and wellness are also monitored by their Supports Coordinator. During each monitoring, the Supports Coordinator is responsible for verifying that all services (including remote supports) are appropriate to meet the participant's needs and ensuring the participant exercises free choice of provider, including choice of the service delivery method (in-person versus the use of technology).

The physical location where services are provided, as well as activities rendered as part of the services (including remote supports activities) are monitored through QA&I and/or licensing.

Teleservices

Teleservices are the delivery of direct services using remote technology. The following direct services may be rendered via teleservices:

- Community Participation Support (refer to the service definition for limits regarding use of this method of service delivery)
- In-Home and Community Support (refer to the service definition for limits regarding use of this method of service delivery)
- Supported Employment
- Therapy Services
- Supports Broker
- Behavioral Support
- Communication Specialist
- Companion (refer to the service definition for limits regarding use of this method of service delivery)
- Consultative Nutritional Services
- Music and Art Therapy
- Specialty Telehealth and Assessment Team

Supports Coordination teleservices may also be rendered through the waivers. The Specialty Telehealth and Assessment Team service is rendered solely through teleservices. Due to the nature of Supports Coordination and Specialty Telehealth and Assessment Team services, requirements for teleservices are different and are therefore included in the Supports Coordination and Specialty Telehealth and Assessment Team service definitions in Appendix C.

Participants must have an informed choice to receive direct services in-person or via teleservices. Teleservices may only occur when the service plan team determines that using remote technology is the most appropriate service delivery method to meet the participant's needs (including health and safety needs) and goals. This determination must be based on consideration of all of the following:

• Service delivery complies with the requirements in the service definition, ODP policies, and regulations.

• Teleservices must be provided by means that allow for live two-way communication with the participant, no recording of the interaction shall be captured. Live video or audio transmission is only allowable to persons designated by the participant and designated staff employed by the provider responsible for direct service delivery. Providers can call participants over the phone as an incidental component of teleservices to check-in with participants as allowed in the service definition or in emergency circumstances when all other criteria are met. Monitoring of devices is not allowable under teleservices.

• The provider has explained to the participant and everyone else residing in the home the impact that teleservices will have on their privacy.

o The use of live video communication devices in bathrooms is prohibited as part of teleservices.

o It is allowable for staff to provide live audio prompts needed by the participant in bathrooms and bedrooms as part of teleservices. The participant must be alerted prior to the activation of any audio communication device unless the participant turns on the audio communication device themselves.

o Live real time video communication between the participant and a staff person as part of teleservices may only occur in a participant's bedroom when all of the following are met:

- The participant has chosen to receive teleservices in their bedroom due to a medical condition which makes it difficult or impossible for them to leave their bedroom to receive services in another room in the house or the participant would like privacy from others in the home (family, housemates, etc.) during the receipt of services;

- The participant turns the video communication device on and off themselves or requests assistance in turning the video communication device on and off;

- The participant does not share a bedroom with others; and

- Service delivery via video communication will not be performed as part of any activity during which privacy would generally be expected (while a participant is in a state of undress, during sexual activities, etc.).

o All live real time audio and video communication devices used to render teleservices in any part of the home or community must include indicators that let the participant know that the equipment is on and operating in audio or video mode.

• How teleservices enhance the participant's integration into the community.

• The request to use teleservices was initiated by a request from the participant and/or the family/representative when appropriate, and not the provider.

• How the participant's needs for in-person support during service provision will be met.

• The provider, in conjunction with the service plan team, has developed a back-up plan that will be implemented should there be a problem with the technology.

The provider is responsible for ensuring that any technology used to render teleservices are HIPAA compliant and that the delivery of teleservices has been reviewed and accepted by the HIPAA compliance officer. The provider is also responsible for providing initial and ongoing training and support to the participant, and anyone designated by the participant, regarding the operation of the technology used during teleservices, including turning it on and off at-will.

Remediation strategies for Appendix C Quality Improvement

QP3. Number and percent of providers delivering Participant Directed Services that meet requirements. Providers who do not complete requalification by the expiration date cannot be paid for services after that expiration date. A provider who has not completed the requalification process by January 31st is disenrolled by the ODP Provider Enrollment Unit. If a provider sends in a requalification packet after being disenrolled, the provider will be considered a new provider and will have to enroll as such. ODP tracks this process through the partnership with the VF/EA FMS Contractor. Providers (SSPs) who do not complete the requalification process or who by and through the process are found to no longer qualify may not render an HCBS after the date their current qualifications expire. If a provider sends in a requalification packet after being disenrolled, they were a newly enrolled SSP. This process is administered by the FMS agent,

03/19/2024

which sends reports to ODP documenting each SSP's qualification status. ODP can then verify that only qualified providers are providing HCBS.

QP4. Number and percent of providers that meet annual training requirements in accordance with state requirements in the approved waiver. ODP or AEs conduct reviews on a 3-year cycle of 100% of SCOs and providers (with the exception of public transportation providers) using standardized monitoring tools developed by ODP. For SCOs, ODP reviews the training records for SCO staff to validate the receipt of required trainings. For providers, ODP or AEs review the training records of provider staff to validate the receipt of required trainings. If the required staff training is not documented in the record, the entity remediates deficient findings within 30 days.

Supplemental Payments for Appendix I-3-c

Supplemental Payments for Staff Training, Credentialing, & Business Associates Programs for Employment

a. Providers of direct services can receive a one-time supplemental payment for the following activities:

• Agency adoption of CMS core competency training for Direct Support Professionals (DSPs).

• DSP National Association for Dual Diagnosis (NADD) certifications.

• Agency completion of NADD Accreditation.

• LifeCourse Ambassador Series for individuals or agency hosting of the series.

• Other activities that promote the development of or enhancement of career ladders for DSPs, portability or expansion of a wellqualified workforce, or employ the principles of LifeCourse.

b. Providers of direct services, excluding SCOs, are eligible to receive up to 1% of ODP eligible service revenue from FY19-20, FY20-21 or \$100,000, whichever is greater.

Providers must utilize the supplemental payments by 10/31/24.

ODP reviewed all submissions & notified providers of approval of the project & amount. Providers implement project plans and upon receipt of supporting documentation of expenses will be reimbursed for eligible expenses up to the approved amount.

The following applies to all supplemental payments in this section:

c. Supplemental payments will be funded through Commonwealth general funds due to savings from the enhanced Federal funds available as per PA's Spending Plan for Section 9817 of the American Rescue Plan Act of 2021.

d. Providers are paid using a fee schedule rate for all services for which supplemental payments will be made. All supplemental payments will be retained by providers.

Workforce Recovery Supplemental Payments

Supplemental payments will be made available for providers to cover recruitment, retention, and any unusual staffing expenses resulting from the COVID-19 pandemic for direct support professionals, frontline supervisors, program specialists, or Supports Coordinators (SCs). The one-time supplemental payments can be used to fund excessive overtime, shift differential incentives, costs of recruitment efforts, sign-on bonuses, retention bonuses, wage increases for SCs, SC supervisors, direct support professionals, program specialists, and frontline supervisors, and other incentive payments. The funding is intended to allow providers to accept new participants into service. Payments may not be used to increase or supplement compensation for agency executive staff.

Providers must request the one-time supplemental payments. Payments will be calculated at 6% of fee schedule revenue received for services rendered between 7/1/23 - 12/31/23 for the below listed services.

- Benefits Counseling
- Communication Specialist
- Community Participation Support
- Companion
- Consultative Nutritional Services
- Family/Caregiver Training and Support
- Homemaker/Chore
- Housing Transition and Tenancy Sustaining Services
- In-Home and Community Support
- Licensed and Unlicensed Life Sharing
- Music, Art and Equine Assisted Therapy
- Licensed and Unlicensed Residential Habilitation
- Respite
- Shift Nursing
- Small Group Employment
- Supplemental Habilitation
- Supported Employment
- Supported Living
- · Supports Broker
- Supports Coordination
- Therapy (Physical, Speech/Language, Occupational, Orientation, Mobility and Vision)
- Transportation Trip

Supplemental payments will be funded through State general funds.

Providers that receive the supplemental payment will retain 100% of the total computable expenditure claimed by the Medicaid agency to CMS.

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (*select one*):

The waiver is operated by the state Medicaid agency.

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):

The Medical Assistance Unit.

Specify the unit name:

(Do not complete item A-2)

Another division/unit within the state Medicaid agency that is separate from the Medical Assistance Unit.

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

Department of Human Services, Office of Developmental Programs (ODP)

(Complete item A-2-a).

The waiver is operated by a separate agency of the state that is not a division/unit of the Medicaid agency.

Specify the division/unit name:

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency

agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (*Complete item A-2-b*).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities:

The Deputy Secretary of the Office of Developmental Programs reports directly to the Secretary of Human Services. The Secretary of Human Services is the head of the single state Medicaid agency. ODP is an office within the Department of Human Services (Department). The Secretary of Human Services, the State Medicaid Director (Deputy Secretary of the Office of Medical Assistance Programs) and the Deputy Secretary of the Office of Developmental Programs meet regularly to discuss operations of the Waivers operated by ODP as well as other long term living programs. Therefore, the State Medicaid Agency through the Secretary of Human Services has ultimate authority over operations of the Waiver. The roles and responsibilities of the operating divisions within the Department, including ODP and OMAP, are outlined on the following Department of Human Services website: http://www.dhs.pa.gov/learnaboutdhs/dhsorganization/index.htm.

b. Medicaid Agency Oversight of Operating Agency Performance. When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance:

As indicated in section 1 of this appendix, the waiver is not operated by a separate agency of the State. Thus this section does not need to be completed.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (*select one*):

Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. *Complete Items A-5 and A-6.*:

No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (*Select One*):

Not applicable

Applicable - Local/regional non-state agencies perform waiver operational and administrative functions. Check each that applies:

Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an **interagency agreement or memorandum of understanding** between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

Specify the nature of these agencies and complete items A-5 and A-6:

ODP has an agreement with County Mental Health/Intellectual Disability (MH/ID) programs under the control of local elected officials to perform delegated waiver and operational administrative functions. The 55 Pa. Code Chapter 6100 regulations authorize Department Designees, Administrative Entities (AEs), to perform waiver administrative functions. Each of these public agencies are delegated functions through an AE Operating Agreement. The AE implements these responsibilities and meets the requirements specified in the AE Operating Agreement.

AEs perform the following delegated waiver administration functions:

1. Participant waiver enrollment – Receive/review applications, ensure initial and annual completion of PUNS or its successor and refer applicants for an eligibility decision. AEs must plan to enroll individuals who will graduate from special education each year and who are not eligible to continue their education through the next year in a waiver that will ensure their health and safety needs are met.

2. Level of care (LOC) determination – Compile necessary documentation for a LOC determination, review documentation and make a determination regarding whether the applicant/participant meets LOC criteria.

3. Review of service plans – Includes review, clarification and approval of service plans.

4. Qualified provider enrollment – Provider recruitment.

5. Quality assurance and improvement activities – Conduct qualified provider reviews, oversee provider corrective action plans, refer providers to ODP for sanctions and/or disqualification.

ODP retains the authority for all administrative decisions and the oversight of Local/Regional non-state public entities that conduct Waiver operational and administrative functions. ODP also retains the authority over the administration of the Community Living Waiver, including the development of Waiver related policies, rules, and regulations. Regulations, Waiver policies, rules and guidelines are distributed by ODP through bulletins and other communications issued electronically.

Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The **contract**(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

When a County MH/ID program is unwilling or unable to perform AE functions, ODP will select a nongovernmental entity to perform delegated functions. ODP may select a multi-county MH/ID program or nonprofit entity. The 55 Pa. Code Chapter 6100 regulations authorize Department Designees, Administrative Entities (AEs), to perform waiver administrative functions. These public agencies are delegated functions through an AE Operating Agreement. The AE implements these responsibilities and meets the requirements specified in the AE Operating Agreement. A non-governmental entity designated as an AE is delegated the same operational and administrative functions delegated to public agencies.

ODP also retains the authority for all administrative decisions and the oversight of non-governmental entities that conduct Waiver operational and administrative functions. ODP retains authority over the administration of the Community Living Waiver, including the development of Waiver related policies, rules, and regulations. Regulations, Waiver policies, rules and guidelines are distributed by ODP through bulletins and other communications issued electronically.

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

ODP is responsible for assessing the performance of functions delegated to public agencies and non-governmental entities designated as AEs.

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

ODP assesses the performance of AEs through the ODP Quality Assessment and Improvement (QA&I) process. Using a standard review tool, ODP gathers data to assess AE performance in carrying out delegated functions. ODP requires the AE to complete a Corrective Action Plan (CAP) for any item that is assessed with a compliance score below 86%. ODP may require the AE to complete a Directed Corrective Action Plan (DCAP) in the following circumstances: • When an AE has more than one item in any area that is assessed below 86%;

• If an AE has serious or recurring deficiencies.

When an AE fails to meet the requirements of a DCAP or if there are serious and persistent deficiencies ODP may terminate the AE Operating Agreement.

ODP monitors AEs on a three year cycle. During that period, ODP gathers AE performance data annually on one third of AEs. During the cycle the AE must complete a self-assessment in accordance with the ODP Quality Assessment and Improvement process. The AE self-assessment is reviewed and validated by ODP.

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (*check each that applies*):

In accordance with 42 CFR §431.10, when the Medicaid agency does not directly conduct a function, it supervises the performance of the function and establishes and/or approves policies that affect the function. All functions not performed directly by the Medicaid agency must be delegated in writing and monitored by the Medicaid Agency. *Note: More than*

one box may be checked per item. Ensure that Medicaid is checked when the Single State Medicaid Agency (1) conducts the function directly; (2) supervises the delegated function; and/or (3) establishes and/or approves policies related to the function.

Function	Medicaid Agency	Local Non-State Entity
Participant waiver enrollment		
Waiver enrollment managed against approved limits		
Waiver expenditures managed against approved levels		
Level of care evaluation		
Review of Participant service plans		
Prior authorization of waiver services		
Utilization management		
Qualified provider enrollment		
Execution of Medicaid provider agreements		
Establishment of a statewide rate methodology		
Rules, policies, procedures and information development governing the waiver program		
Quality assurance and quality improvement activities		

Appendix A: Waiver Administration and Operation

Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure: Performance Measure AA1. Number and percent of waiver openings distributed equitably

across all geographic areas covered by the waiver using criteria identified in Appendix B-3. Numerator = number of waiver openings distributed equitably across all geographic areas covered by the waiver using criteria identified in Appendix B-3. Denominator = number of waiver openings distributed.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

AA1. ODP calculates and distributes waiver openings based on the current enrollment in the AE's jurisdiction and expected need for access based on a review of the PUNS or its successor across the state.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

AA1. Number and percent of waiver openings distributed equitably across all geographic areas covered by the waiver using criteria identified in Appendix B-3. If it is discovered that an error in calculation was made, the Department will revise the distribution accordingly to reflect the correct calculation. In addition, ODP will initiate actions as needed to resolve any outstanding issues with AE performance using the methodology outlined in the AE Operating Agreement.

AA2. Number and percent of eligible applicants having an emergency need or who have been identified as being in reserved capacity status who receive preference in waiver enrollment. ODP reviews on a quarterly basis reports for individuals added to Intent to Enroll status (individuals who are in the process of being enrolled in the Waiver) to ensure that eligible applicants having an emergency need for services or who have been identified as being in reserved capacity status receive preference in waiver enrollment. For any individual who does not have emergency status on the waiting list or has not been identified as being in reserved capacity status, ODP reviews the record and/or contacts the AE to determine if the eligible applicant meets emergency criteria or reserved capacity status. If it is discovered that an eligible applicant has not been identified to receive preference in waiver enrollment, the AE is instructed to update the record as necessary and appropriate. If ODP determines that the individual does not meet emergency or reserved capacity status criteria, ODP will provide technical assistance/training to the AE regarding ODP's waiver enrollment policies. An AE that continues to fail to make the required corrections or updates to the record or to violate waiver enrollment policies will be suspended from making waiver enrollment decisions for a period of 90 days unless otherwise sanctioned by ODP. All requests for enrollment during the suspension period will be processed through an ODP Regional Office. In addition, ODP will initiate actions as needed to resolve any outstanding issues with AE performance using the methodology outlined in the AE Operating Agreement.

AA3. Number and percent of waiver participants issued fair hearing and appeal rights in accordance with policies and procedures. On an annual basis, ODP determines if waiver participants in the sample were issued fair hearing and appeal rights by the AE when the participant was determined likely to require ICF/ID or ICF/ORC level of care or when the AE makes a determination to deny, suspend, terminate or reduce services. If ODP does not locate documentation to substantiate that fair hearing and appeal rights were issued in the above circumstance, ODP will instruct the AE to locate missing documentation or, when not available, provide written notification of fair hearing and appeal rights to the participant/surrogate. The AE is expected to document remediation actions and submit the documentation to ODP within 30 days. In addition, ODP will initiate actions as needed to resolve any outstanding issues with AE performance using the methodology outlined in the AE Operating Agreement.

AA4. Number and percent of AEs that qualify providers using qualification criteria as outlined in the current approved Waiver. On an annual basis, ODP reviews a sample of initial and annual provider qualification applications. ODP ensures that each AE reviews provider qualification information using ODP standardized procedures. If the AE does not qualify a provider using ODP standardized procedures, the AE is expected to contact the provider and collect all missing documents within 30 days. If the documentation obtained does not corroborate that the provider meets qualification standards, the provider will be prohibited from receiving payments for waiver services. ODP will provide training to the AE on the correct application of the provider qualification application process. ODP will enhance its monitoring of the AE and if the problem persists, initiate sanctions as specified in the AE Operating Agreement.

AA5. Number and percent of AEs that monitor providers using the standard tool and monitoring processes developed by ODP. ODP identifies annually the providers to be monitored using the ODP standardized monitoring process and tool. Upon completion of monitoring for each provider, the AE will complete and submit the standardized monitoring tool to ODP. Through ODP's QA&I Process, ODP reviews a sample of providers monitored by each AE. If it is discovered that an AE did not complete provider monitoring using the monitoring processes developed by ODP, the AE will remediate identified deficient findings and notify ODP of the completion of remediation actions within 30 days. In addition, ODP will initiate actions as needed to resolve any outstanding issues with AE performance using the methodology outlined in the AE Operating Agreement.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

	Continuously and Ongoing
	Other Specify: Semi-Annually

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

No

Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the state limits waiver services to one or more groups or subgroups of individuals. Please see the instruction manual for specifics regarding age limits. *In accordance with 42 CFR §441.301(b)(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:*

						Maximum Age				
Target Group	Included	Target SubGroup	Miı	nimum	Age	Maxir	num Age	No Maximum Age		
						L	imit	Limit		
Aged or Disal	oled, or Both - Gene	eral								
		Aged								
		Disabled (Physical)								
		Disabled (Other)								
Aged or Disal	oled, or Both - Spec	ific Recognized Subgroups								
		Brain Injury								
		HIV/AIDS								

							Ν	Iaxim	um Age
Target Group	Included	Target SubGroup	Mir	nimum	Age	Ma	ximum	Age	No Maximum Age
							Limit		Limit
		Medically Fragile							
		Technology Dependent							
Intellectual D	isability or Develop	mental Disability, or Both							
		Autism		0					
		Developmental Disability		0			21		
		Intellectual Disability		0					
Mental Illness	3								
		Mental Illness							
		Serious Emotional Disturbance							

b. Additional Criteria. The state further specifies its target group(s) as follows:

Individuals residing in licensed and unlicensed residential habilitation settings which include Community Homes for Individuals with Intellectual Disabilities, Child Residential Facilities, and Community Residential Rehabilitation Services are excluded from enrollment in the Community Living Waiver.

Residents of licensed personal care homes, Assisted Living Residences or domiciliary care homes are excluded from enrollment in the Community Living Waiver.

c. Transition of Individuals Affected by Maximum Age Limitation. When there is a maximum age limit that applies to individuals who may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (*select one*):

Not applicable. There is no maximum age limit

The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

Participants who are enrolled with a developmental disability with a high probability of resulting in an intellectual disability or autism will be reevaluated using the ICF/ID criteria for an intellectual disability or ICF/ORC criteria for a diagnosis of autism during their 8th year (prior to their 9th birthday). If they are eligible, they will continue to receive waiver services. If the participant is not eligible, he or she will be referred to other resources. Individuals will be referred to the Office of Children, Youth and Families as applicable and the Office of Mental Health and Substance Abuse Services.

Individuals who have a developmental disability due to a medically complex condition have the option to enroll in the waiver only if they are age 0 to 21. Once a participant reaches age 22, the participant will be given the option to remain enrolled in the waiver after age 22 or transition to another program.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. Individual Cost Limit. The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (*select one*). Please note that a state may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

No Cost Limit. The state does not apply an individual cost limit. Do not complete Item B-2-b or item B-2-c.

Cost Limit in Excess of Institutional Costs. The state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the state. *Complete Items B-2-b and B-2-c.*

The limit specified by the state is (select one)

A level higher than 100% of the institutional average.

Specify the percentage:

Other

Specify:

Institutional Cost Limit. Pursuant to 42 CFR 441.301(a)(3), the state refuses entrance to the waiver to any otherwise eligible individual when the state reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. *Complete Items B-2-b and B-2-c*.

Cost Limit Lower Than Institutional Costs. The state refuses entrance to the waiver to any otherwise qualified individual when the state reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the state that is less than the cost of a level of care specified for the waiver.

Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the state is (select one):

The following dollar amount:

Specify dollar amount:

The dollar amount (select one)

Is adjusted each year that the waiver is in effect by applying the following formula:

Specify the formula:

May be adjusted during the period the waiver is in effect. The state will submit a waiver amendment to CMS to adjust the dollar amount.

The following percentage that is less than 100% of the institutional average:

Specify percent:

Other:

Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

- **b. Method of Implementation of the Individual Cost Limit.** When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:
- **c. Participant Safeguards.** When the state specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entrance to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the state has established the following safeguards to avoid an adverse impact on the participant (*check each that applies*):

The participant is referred to another waiver that can accommodate the individual's needs.

Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The state will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

Table: I	3-3-a
----------	-------

Waiver Year	Unduplicated Number of Participants		
Year 1	6000		
Year 2			

Waiver Year	Unduplicated Number of Participants
	7450
Year 3	7450
Year 4	7450
Year 5	7450

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the state may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the state limits the number of participants in this way: (*select one*) :

The state does not limit the number of participants that it serves at any point in time during a waiver year.

The state limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

Table: B-3-b	
Waiver Year	Maximum Number of Participants Served At Any Point During the Year
Year 1	
Year 2	
Year 3	
Year 4	
Year 5	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The state may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (*select one*):

Not applicable. The state does not reserve capacity.

The state reserves capacity for the following purpose(s).

Purpose(s) the state reserves capacity for:

Purposes	
Unanticipated Emergencies	Γ
Children with a Medically Complex Condition	Γ
Participant Direction Transfers	Г
Hospital/Rehabilitation Care	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Unanticipated Emergencies

Purpose (describe):

ODP, along with the AEs, will reserve capacity for individuals/participants who are identified as meeting the unanticipated emergency criteria in accordance with ODP's unanticipated emergency policy. All participants enrolled in the Waiver have comparable access to all services offered in the Waiver regardless of whether he or she is enrolled due to meeting reserved capacity criteria or the criteria for emergency status in PUNS or its successor.

ODP defines an unanticipated emergency as an occurrence when an individual or participant has an imminent risk of: institutionalization within 24 hours, substantial self-harm or substantial harm to others; if the individual does not immediately receive services that are eligible through ODP and this imminent risk is precipitated by at least one of the following situations:

- The illness or death of a caretaker;
- The sudden loss of the individual's home (for example, due to fire or natural disaster); or
- The loss of the care of a relative or caregiver, without advance warning or planning.

Describe how the amount of reserved capacity was determined:

The amount of reserved capacity is determined by the historical number of unanticipated emergency enrollments in a fiscal year.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	C	apacity Reserve	ed
Year 1		20	
Year 2		20	
Year 3		20	
Year 4		20	
Year 5		20	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Children with a Medically Complex Condition

Purpose (describe):

Administrative Entities (AEs) work in conjunction with ODP and its designees to anticipate and prioritize the needs of children with a medically complex condition who are expected to require waiver services within the year due to transition or diversion from an extended hospital stay or from a facility licensed under 55 Pa. Code Chapter 3800, 6400 or 6600 that does not meet waiver HCBS requirements.

All participants enrolled in the Waiver have comparable access to all services offered in the Waiver regardless of whether he or she is enrolled due to meeting reserved capacity criteria or the criteria for emergency status in PUNS or its successor. This is evidenced by the service plan process that is required for all participants and requires that service options be promoted and fully explored with every individual.

Describe how the amount of reserved capacity was determined:

The capacity was approved as part of an initiative in the FY20-21 budget appropriation approved by the general assembly to serve individuals on the waiting list.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	C	apacity Reserve	ed
Year 1		20	
Year 2		0	
Year 3		0	
Year 4		0	
Year 5		0	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Participant Direction Transfers

Purpose (describe):

This capacity is reserved to ensure individuals enrolled in all ODP administered waivers have the opportunity to self-direct their services. ODP will reserve capacity for participants who are planning to self-direct the majority of their waiver services to transfer into this waiver from any ODP administered waiver that does not provide participant directed services options.

Describe how the amount of reserved capacity was determined:

The amount of reserved capacity was estimated based on inquiries from people in waivers that do not provide participant directed service options and historical use in ODP waivers with participant directed service options.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year		Capacity Reserved		
Year 1		5		
Year 2		5		

Waiver Year	C	apacity Reserve	ed
Year 3		5	
Year 4		5	
Year 5		5	

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

Purpose (provide a title or short description to use for lookup):

Hospital/Rehabilitation Care

Purpose (describe):

ODP reserves waiver capacity for participants requiring hospital/rehabilitation care up to 180 days from the first date of leave. Reserved capacity begins on:

- Day 31 in medical and psychiatric hospital settings.
- Day 1 in rehabilitation care programs and nursing homes.

Waiver capacity will be reserved for participants requiring hospital or rehabilitation care in the following settings: medical and psychiatric hospital settings, rehabilitation care programs and nursing homes. Settings which are not considered hospital/rehabilitation care include residential treatment facilities, state mental health hospitals, approved private schools, and private and state ICFs/ID.

All participants enrolled in the Waiver have comparable access to all services offered in the Waiver regardless of whether he or she is enrolled due to meeting reserved capacity criteria or the criteria for emergency status on the PUNS or its successor. This is evidenced by the service plan process that is required for all participants and requires that service options be promoted and fully explored with every individual.

Describe how the amount of reserved capacity was determined:

The amount of reserved capacity is determined by the historical average number of participants who have been on hospital/rehabilitation leave for up to 180 days.

The capacity that the State reserves in each waiver year is specified in the following table:

Waiver Year	Capacity Reserved
Year 1	10
Year 2	10
Year 3	10
Year 4	10
Year 5	10

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (3 of 4)

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the state may make the number of participants who are served subject to a phase-in or phase-out schedule (*select one*):

The waiver is not subject to a phase-in or a phase-out schedule.

The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

Waiver capacity is allocated/managed on a statewide basis.

Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:

The Department calculates and distributes waiver openings to the AEs based on the current enrollment in the AE and expected need for access based on a review of the PUNS or its successor across the state. The distribution method is reviewed annually.

AEs are responsible to ensure PUNS (or its successor) information is current. In accordance with the AE Operating Agreement, if unused capacity exists with an AE, the capacity may be held and authorized at the state level and/or the state may commit the unused capacity to another AE based on need. Additionally, ODP may commit additional capacity to an AE based on unanticipated emergencies as defined in ODP policy.

The AE is responsible to evaluate the PUNS (or its successor) categorization of a Waiver applicant when making enrollment decisions. Waiver applicants assessed by the AE must meet one of the following to be enrolled in the Waiver: Meet the criteria for emergency status in PUNS (or its successor), be in reserved capacity status or be enrolled in the Consolidated Waiver and choose to transfer to the Community Living Waiver. ODP retains ultimate authority to select individuals for Waiver enrollment based on an individual's unique emergency circumstances. The Department reserves the right to adjust the number of participants in the AE's Waiver Capacity Commitment in any Waiver based on utilization or other considerations.

Participants may choose to receive services from a qualified and willing provider anywhere in Pennsylvania or a state contiguous to Pennsylvania as permitted in Appendix C of this Waiver. Community Living Waiver services are accessible statewide for participants who are eligible for Medical Assistance in Pennsylvania. If a participant is enrolled in the Waiver and chooses to relocate to a different county, the county where the participant resides has two options: 1) the county may choose to continue to provide administrative services to the participant in accordance with the AE Operating Agreement; or 2) the county may choose to transfer this responsibility and corresponding waiver capacity to the county where the participant is moving. If the second option is chosen the receiving county must accept the participant's transfer. The participant's service plan and Waiver effective date will not be affected by the transfer.

f. Selection of Entrants to the Waiver. Specify the policies that apply to the selection of individuals for entrance to the waiver:

The AE is responsible to identify an individual for Waiver enrollment when capacity becomes available. Services should begin within 45 calendar days of the Waiver enrollment date, unless otherwise indicated in the service plan (e.g. participant's choice of provider delays service start, participant's medical or personal situation impedes planned start date). Any delays in the initiation of a service after 45 calendar days must be discussed with the participant and agreed to by the participant. ODP policy specifies that Waiver enrollment must be offered to individuals most in need as identified by the PUNS status (emergency), reserved capacity status or the individual's choice to transfer from the Consolidated Waiver to the Community Living Waiver. ODP retains ultimate authority to select individuals for Waiver enrollment based on an individual's emergency circumstances.

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served - Attachment #1 (4 of 4)

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

Appendix B: Participant Access and Eligibility

B-4: Eligibility Groups Served in the Waiver

a. **1. State Classification.** The state is a (*select one*):

§1634 State SSI Criteria State 209(b) State

203 (3) 50000

2. Miller Trust State.

Indicate whether the state is a Miller Trust State (select one):

No

Yes

b. Medicaid Eligibility Groups Served in the Waiver. Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the state plan. The state applies all applicable federal financial participation limits under the plan. *Check all that apply*:

Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)

Low income families with children as provided in §1931 of the Act

SSI recipients

Aged, blind or disabled in 209(b) states who are eligible under 42 CFR §435.121

Optional state supplement recipients

Optional categorically needy aged and/or disabled individuals who have income at:

Select one:

100% of the Federal poverty level (FPL)

% of FPL, which is lower than 100% of FPL.

Specify percentage:

Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A)(ii)(XIII)) of the Act)

Working individuals with disabilities who buy into Medicaid (TWWIIA Basic Coverage Group as provided in §1902(a)(10)(A)(ii)(XV) of the Act)

Working individuals with disabilities who buy into Medicaid (TWWIIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)

Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)

Medically needy in 209(b) States (42 CFR §435.330)

Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)

Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

• Individuals Eligible for but not Receiving Cash- 42 CFR § 435.210; 1902(a)(10)(A)(ii)(1); 1905(a); 1902(v)(1)

• Certain Individuals Needing Treatment for Breast or Cervical Cancer- 1902(a)(10)(A)(ii)(XVIII); 1902(aa)

Special home and community-based waiver group under 42 CFR §435.217) Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

No. The state does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. *Appendix B-5 is not submitted.*

Yes. The state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

All individuals in the special home and community-based waiver group under 42 CFR §435.217

Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

A special income level equal to:

Select one:

300% of the SSI Federal Benefit Rate (FBR)

A percentage of FBR, which is lower than 300% (42 CFR §435.236)

Specify percentage:

A dollar amount which is lower than 300%.

Specify dollar amount:

Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)

Medically needy without spend down in states which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)

Medically needy without spend down in 209(b) States (42 CFR §435.330)

Aged and disabled individuals who have income at:

Select one:

100% of FPL

% of FPL, which is lower than 100%.

Specify percentage amount:

Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the state plan that may receive services under this waiver)

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (1 of 7)

In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the state furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

a. Use of Spousal Impoverishment Rules. Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the period beginning January 1, 2014 and extending through September 30, 2019 (or other date as required by law), the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the state uses *spousal* post-eligibility rules under §1924 of the Act.

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law).

Note: The following selections apply for the time periods before January 1, 2014 or after September 30, 2019 (or other date as required by law) (select one).

Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the state elects to (select one):

Use spousal post-eligibility rules under §1924 of the Act.

(Complete Item B-5-b (SSI State) and Item B-5-d)

Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State) (*Complete Item B-5-b* (*SSI State*). *Do not complete Item B-5-d*)

Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The state uses regular posteligibility rules for individuals with a community spouse.

(Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (2 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

b. Regular Post-Eligibility Treatment of Income: SSI State.

The state uses the post-eligibility rules at 42 CFR 435.726 for individuals who do not have a spouse or have a spouse who is not a community spouse as specified in §1924 of the Act. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

wan	ce for the needs of the waiver participant (select one):
The	following standard included under the state plan
Sele	ct one:
	SSI standard
	Optional state supplement standard
	Medically needy income standard
	The special income level for institutionalized persons
	(select one):
	300% of the SSI Federal Benefit Rate (FBR)
	A percentage of the FBR, which is less than 300%
	Specify the percentage:
	A dollar amount which is less than 300%.
	Specify dollar amount:
	A percentage of the Federal poverty level
	Specify percentage:
	Other standard included under the state Plan
	Specify:
The	following dollar amount
Spec	cify dollar amount: If this amount changes, this item will be revised.
The	following formula is used to determine the needs allowance:
Spec	rtfy:
Othe	er
Spec	ify:
	ce for the spouse only (select one):

The state provides an allowance for a spouse who does not meet the definition of a community spouse in §1924 of the Act. Describe the circumstances under which this allowance is provided:

Specify:

SSI atom dowd	
SSI standard	at standard
Optional state supplemen	
Medically needy income	
The following dollar amo	ount:
Specify dollar amount:	If this amount changes, this item will be revised.
The amount is determine	d using the following formula:
Specify:	

AFDC need standard

Medically needy income standard

The following dollar amount:

Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the state's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

The amount is determined using the following formula:

Specify:

Other

Specify:

iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges

b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

Not Applicable (see instructions)Note: If the state protects the maximum amount for the waiver participant,

not applicable must be selected.

The state does not establish reasonable limits.

The state establishes the following reasonable limits

Specify:

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (3 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

c. Regular Post-Eligibility Treatment of Income: 209(B) State.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (4 of 7)

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018.

d. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care if it determines the individual's eligibility under §1924 of the Act. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

i. Allowance for the personal needs of the waiver participant

(select one):

SSI standard

Optional state supplement standard

Medically needy income standard

The special income level for institutionalized persons

A percentage of the Federal poverty level

Specify percentage:

The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised

The following formula is used to determine the needs allowance:

Specify formula:

Other

Specify:

ii. If the allowance for the personal needs of a waiver participant with a community spouse is different from the amount used for the individual's maintenance allowance under 42 CFR §435.726 or 42 CFR §435.735, explain why this amount is reasonable to meet the individual's maintenance needs in the community.

Select one:

Allowance is the same Allowance is different.

Explanation of difference:

iii. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 CFR §435.726:

- a. Health insurance premiums, deductibles and co-insurance charges
- b. Necessary medical or remedial care expenses recognized under state law but not covered under the state's Medicaid plan, subject to reasonable limits that the state may establish on the amounts of these expenses.

Select one:

Not Applicable (see instructions)*Note: If the state protects the maximum amount for the waiver participant, not applicable must be selected.*

The state does not establish reasonable limits.

The state uses the same reasonable limits as are used for regular (non-spousal) post-eligibility.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (5 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

e. Regular Post-Eligibility Treatment of Income: §1634 State - 2014 through 2018.

Answers provided in Appendix B-5-a indicate the selections in B-5-b also apply to B-5-e.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

f. Regular Post-Eligibility Treatment of Income: 209(B) State - 2014 through 2018.

Answers provided in Appendix B-4 indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

g. Post-Eligibility Treatment of Income Using Spousal Impoverishment Rules - 2014 through 2018.

The state uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the state Medicaid Plan. The state must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate the selections in B-5-d also apply to B-5-g.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the state provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, <u>and</u> (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the state's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is:

ii. Frequency of services. The state requires (select one):

The provision of waiver services at least monthly

Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the state also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

Individuals determined to need waiver services must require the following:

1. Provision of at least one waiver service, excluding Supports Coordination.

2. Waiver services provided 2 times per year at minimum.

Monitoring of participants requirements conducted by Supports Coordination can be found in Appendix D-2a of this waiver.

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (*select one*):

Directly by the Medicaid agency

By the operating agency specified in Appendix A

By a government agency under contract with the Medicaid agency.

Specify the entity:

Other

Specify:

c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

The AE is responsible to have a Qualified Developmental Disability Professional (QDDP) performing level of care evaluations and reevaluations.

The QDDP must have one of the following:

• A master's degree or higher level of education from an accredited college or university and one year of work experience working directly with persons with developmental disabilities;

• A bachelor's degree from an accredited college or university and two years work experience working directly with persons with developmental disabilities; or

• An associate's degree or 60 credit hours from an accredited college or university and four years work experience working directly with persons with developmental disabilities.

The AE is responsible to ensure that no conflict of interest exists in the level of care evaluation/reevaluation process.

AEs may contract with another agency or independent QDDP who meets the criteria above to obtain a QDDP certification of need for an ICF/ID or ICF/ORC level of care in order to ensure a conflict-free determination.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the state's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

The AEs are responsible for the completion of an evaluation of need for level of care, and timely renewal annually thereafter. The initial evaluation and any reevaluation will be performed by a qualified professional.

1. ICF/ID

i. There are four fundamental criteria that must be met prior to an individual being determined eligible for an ICF/ID level of care:

1. Have a diagnosis of intellectual disability. Eligibility criteria is defined as a diagnosis of intellectual disability based on the results of a standardized intellectual psychological testing, which reflects a full scale score of 70 and below (based on 2 or more standard deviations below the mean); and

2. Intellectual disability and substantial adaptive skill deficits must have occurred prior to age 22; and

3. Substantial adaptive skills deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self direction and/or capacity for independent living based on a standardized assessment of adaptive functioning; and

4. Be recommended for an ICF/ID level of care based on a medical evaluation.

2. Autism ICF/ORC

i. There are four fundamental criteria that must be met prior to an individual being determined eligible for an ICF/ORC level of care:

1. Have a diagnosis of autism. Eligibility criteria is defined as a diagnosis of autism based on the results of a diagnostic tool; and

2. Autism and substantial adaptive skill deficits must have occurred prior to age 22; and

3. Substantial adaptive skills deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self direction and/or capacity for independent living based on a standardized assessment of adaptive functioning; and

4. Be recommended for an ICF/ORC level of care based on a medical evaluation.

3. Developmental Disability with a high probability of intellectual disability or autism prior to age 9 ICF/ORC i. There are four fundamental criteria that must be met prior to an individual being determined eligible for an ICF/ORC level of care:

1. Have a diagnosis of developmental disability. Eligibility criteria is defined as the following: developmental disability which is defined as a condition of substantial developmental delay or specific congenital or acquired conditions with a high probability of resulting in an intellectual disability or autism, the disability manifested prior to the age of 9 and the disability is likely to continue indefinitely; and

2. Individual is 8 years old or younger; and

3. Substantial adaptive skills deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self direction and/or capacity for independent living based on a standardized assessment of adaptive functioning; and

4. Be recommended for an ICF/ORC level of care based on a medical evaluation.

4. Developmental Disability due to a medically complex condition prior to age 22 ICF/ORC

i. There are four fundamental criteria that must be met prior to an individual being determined eligible for an ICF/ORC level of care:

1. Have a medically complex condition defined as one or more chronic health conditions that meet both of the following:

(a) cumulatively affect three or more organ systems; and

(b) require medically necessary nursing intervention to execute medical regimens to use technology for respiration, nutrition, medication administration or other bodily functions;

2. Individual is 21 years of age or younger;

3. Have substantial adaptive skills deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction and/or capacity for independent living based on a standardized assessment of adaptive functioning; and

4. Be recommended for an ICF/ORC level of care based on a medical evaluation.

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (*select one*):

The same instrument is used in determining the level of care for the waiver and for institutional care under the state Plan.

A different instrument is used to determine the level of care for the waiver than for institutional care under the state plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

The fundamental criteria identified in appendix B-6-d of this Waiver must be met prior to an individual being determined eligible for enrollment in the Waiver. The AE is responsible to certify need for an ICF/ID or ICF/ORC level of care based on the evaluation and certification of the QDDP. The following level of care criteria must be met prior to enrollment in the Waiver and annually thereafter:

The following four criteria must be met to document a diagnosis of intellectual disability and determine eligibility upon initial certification:

1. A licensed psychologist, certified school psychologist, psychiatrist, or licensed physician (which includes a developmental pediatrician) certifies that the individual has significantly sub-average intellectual functioning which is documented by either:

a. Performance that is more than two standard deviations below the mean of a standardized general intelligence test (70 IQ or below); or

b. Performance that is slightly above two standard deviations below the mean of a standardized general intelligence test during a period when the person manifests serious impairments of adaptive functioning.

2. A QDDP certifies that the individual has impairments in adaptive behavior based on the results of a standardized assessment of adaptive functioning which shows that the individual has both of the following:

a. Significant limitation in meeting the standards of maturation, learning, personal independence, or social responsibility of the individual's age and cultural group; and

b. Substantial adaptive skill deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction and/or capacity for independent living.

3. Documentation substantiates that the individual has had these conditions of intellectual and adaptive functioning deficits which manifested during the developmental period which is from birth up to the individual's 22nd birthday.

4. The results of a medical evaluation completed within the previous 365 days that reflects the individual's current medical condition. The medical evaluation may be the medical evaluation approved by the Department (Form MA 51), or an examination that is completed by a licensed physician, physician's assistant, or nurse practitioner that states the individual is recommended for an ICF/ID level of care.

The following four criteria must be met to document a diagnosis of autism and determine eligibility upon initial certification:

1. A licensed psychologist, certified school psychologist, developmental pediatrician, psychiatrist, licensed physician, licensed physician assistant or licensed nurse practitioner certifies that the individual has a diagnosis of autism which is documented by the results of a diagnostic tool.

2. A QDDP certifies that the individual has impairments in adaptive behavior based on the results of a standardized assessment of adaptive functioning which shows that the individual has both of the following:

a. Significant limitation in meeting the standards of maturation, learning, personal independence, or social responsibility of the individual's age and cultural group; and

b. Substantial adaptive skill deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction and/or capacity for independent living.

3. Documentation substantiates that the individual has had these conditions of autism and adaptive functioning deficits which manifested during the developmental period which is from birth up to the individual's 22nd birthday.

4. The results of a medical evaluation completed within the previous 365 days that reflects the individual's current medical condition. The medical evaluation may be the medical evaluation approved by the Department (Form MA 51), or an examination that is completed by a licensed physician, physician's assistant, or nurse practitioner that states the

individual is recommended for an ICF/ORC level of care.

The following four criteria must be met to document a diagnosis of developmental disability with a high probability of intellectual disability or autism prior to age 9 and determine eligibility upon initial certification:

1. A licensed psychologist, certified school psychologist, psychiatrist, developmental pediatrician, licensed physician, licensed physician assistant or licensed nurse practitioner certifies that the individual has a diagnosis of developmental disability with a high probability of resulting in an intellectual disability or autism which is documented by the results of a standardized diagnostic tool.

2. A QDDP certifies that the individual has impairments in adaptive behavior based on the results of a standardized assessment of adaptive functioning which shows that the individual has both of the following:

a. Substantial adaptive skill deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction and/or capacity for independent living.

3. The individual is 8 years of age or younger.

4. The results of a medical evaluation completed within the previous 365 days that reflects the individual's current medical condition. The medical evaluation may be the medical evaluation approved by the Department (Form MA 51), or an examination that is completed by a licensed physician, physician's assistant, or nurse practitioner that states the individual is recommended for an ICF/ORC level of care.

The following four criteria must be met to document a diagnosis of a medically complex condition and determine eligibility upon initial certification:

1. A licensed physician, including a developmental pediatrician, licensed physician's assistant or certified registered nurse practitioner must certify on DP 1090 that the individual has a medically complex condition.

2. A QDDP certifies that the individual has impairments in adaptive behavior based on the results of a standardized assessment of adaptive functioning which shows that the individual has both of the following:

a. Significant limitation in meeting the standards of maturation, learning, personal independence, or social responsibility of the individual's age and cultural group; and

b. Substantial adaptive skill deficits in three or more areas of major life activity: self-care, understanding and use of language, learning, mobility, self-direction and/or capacity for independent living.

3. The individual is 21 years of age or younger.

4. The results of a medical evaluation completed within the previous 365 days that reflects the individual's current medical condition. The medical evaluation may be the medical evaluation approved by the Department (Form MA 51), or an examination that is completed by a licensed physician, licensed physician's assistant, or certified registered nurse practitioner that states the individual is recommended for an ICF/ORC level of care.

The following process for level of care recertification must be met annually:

The reevaluation of need for an ICF/ID or ICF/ORC level of care is to be made within 365 days of the individual's initial evaluation or reevaluation.

The QDDP must recertify that the individual continues to require an ICF/ID or ICF/ORC level of care in accordance with the criteria outlined in appendix B-6-d. The reevaluation is based on an assessment of the individual's current social, psychological, and physical condition, as well as the individual's continuing need for home and community based services. An individual shall meet the criteria for eligibility only when a QDDP, based on review of the individual's social and psychological history, determines that the individual will benefit from a professionally developed and supported program of activities, experiences or therapies. If the assessment indicates significant improvement, the individual's level of care will be determined using the initial level of care process.

All individuals require annual reevaluation of need for an ICF/ID or ICF/ORC level of care to continue to qualify for

services funded under the Waiver.

g. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (*select one*):

Every three months

Every six months

Every twelve months

Other schedule

Specify the other schedule:

h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (*select one*):

The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.

The qualifications are different.

Specify the qualifications:

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the state employs to ensure timely reevaluations of level of care (*specify*):

In accordance with the AE Operating Agreement, the AE is responsible to complete the reevaluation of need for an ICF/ID or ICF/ORC level of care within 365 days of the participant's initial evaluation and subsequent anniversary dates of reevaluations. The reevaluation shall be completed by a QDDP and shall be based on the participant's continuing need for an ICF/ID or ICF/ORC level of care, his/her progress toward meeting plan outcomes, the content of the service plan, continued need for supports provided through the waiver and consideration of alternate methods of care.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the state assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

Records are maintained at the AE office where the participant is registered, as per the AE Operating Agreement.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant's/waiver participant's level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:

a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

LOC1 - Number and percent of new enrollees who have a level of care (LOC)completed prior to entry into the waiver. Numerator = number of new enrollees who have a LOC completed prior to entry into the waiver. Denominator = number of new enrollees.

Data Source (Select one): Other If 'Other' is selected, specify: HCSIS

Responsible Party for data collection/generation (check each that applies):	Frequency of data collection/generation (check each that applies):	Sampling Approach (check each that applies):
State Medicaid Agency	Weekly	100% Review
Operating Agency	Monthly	Less than 100% Review
Sub-State Entity	Quarterly	Representative Sample Confidence Interval =
Other Specify:	Annually	Stratified Describe Group:

Other Specify:	Annually
	Continuously and Ongoing
	Other Specify:

b. Sub-assurance: The levels of care of enrolled participants are reevaluated at least annually or as specified in the approved waiver.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

c. Sub-assurance: The processes and instruments described in the approved waiver are applied appropriately and according to the approved description to determine participant level of care.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

LOC2 - Number and percent of initial LOC determinations where the instrument and process described in Appendix B-6 of the waiver is used. Numerator = number of initial LOC determinations where the instrument and process described in Appendix B-6 of the waiver is used. Denominator = number of initial LOC determinations.

Data Source (Select one): Other If 'Other' is selected, specify: Participant Record Review

Responsible Party for data collection/generation (check each that applies):	Frequency of data collection/generation (check each that applies):	Sampling Approach (check each that applies):
State Medicaid Agency	Weekly	100% Review
Operating Agency	Monthly	Less than 100% Review

Other Specify:	Annually
	Continuously and Ongoing
	Other Specify:

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

For Performance Measure LOC1, a 100% review of data from HCSIS is conducted monthly by ODP staff to assess compliance.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

LOC1. Number and percent of new enrollees who have a level of care (LOC) completed prior to entry into the waiver. On a monthly basis, ODP generates and reviews HCSIS reports identifying initial level of care compliance and noncompliance data. 100% review of data from HCSIS is conducted monthly by ODP staff to assess AE compliance. The reports include a list of statewide exceptions (any individual statewide for whom a level of care evaluation is not entered into HCSIS as completed prior to the waiver start date). ODP will notify the AE who is responsible to review these reports and provide remediation for any situation where a level of care has not been completed prior to waiver enrollment. Remediation can include completion of level of care documents and/or data entered into HCSIS; correction of data entry errors; correction of authorization start-dates, and readjustments to any services bill prior to waiver start date. The AE is expected to document the remediation actions and submit the documentation to ODP within 30 days of notification. If the level of care evaluation results in a finding that the participant is not eligible, the participant will be disenrolled from the Waiver and referred to other appropriate resources and payment for any waiver services provided will be recouped. ODP will initiate actions as needed to resolve any outstanding issues with AE performance using the methodology outlined in the AE Operating Agreement.

LOC2. Number and percent of initial LOC determinations where the instrument and process described in Appendix B-6 of the waiver is used. ODP evaluates whether initial level of care determinations are completed accurately according to ODP policies and procedures. The AE must complete level of care evaluations using ODP's forms and processes. The AE is required to document remediation actions and submit the documentation to ODP within 30 days. When documentation is located or completed and eligibility in any one of the criteria is not met, disenrollment procedures will be initiated per ODP policies and procedures. If a determination is made that an AE is incorrectly applying the criteria and making determinations that are incorrect, targeted technical assistance is provided to the AE in order to ensure they fully understand the process and apply it correctly. The Department will initiate actions as needed to resolve any outstanding issues with AE performance using the methodology outlined in the AE Operating Agreement.

Responsible Party (check each that applies):	Frequency of data aggregation and analysis (check each that applies):
State Medicaid Agency	Weekly
Operating Agency	Monthly
Sub-State Entity	Quarterly
Other Specify:	Annually
	Continuously and Ongoing
	Other Specify:

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

No

Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(*d*), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

- i. informed of any feasible alternatives under the waiver; and
- ii. given the choice of either institutional or home and community-based services.
- **a. Procedures.** Specify the state's procedures for informing eligible individuals (or their legal representatives) of the feasible alternatives available under the waiver and allowing these individuals to choose either institutional or waiver services. Identify the form(s) that are employed to document freedom of choice. The form or forms are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The AE is required to assure that all individuals requesting services who are likely to require an ICF/ID or ICF/ORC level of care, or their legal representatives, are informed of feasible home and community-based services funded under the waiver. Feasible alternatives include sufficient and appropriate home and community-based services and support that the individual needs or is likely to need in his or her home and community. This requirement must be met before an individual is given the choice of service delivery preference to receive Medicaid funded services in an institutional setting or home and community based services prior to waiver enrollment.

The AE is required to ensure that the participant is free to choose services in any Pennsylvania county. ODP currently utilizes standard forms to document requests for waiver services or changes in waiver services and service delivery preference.

b. Maintenance of Forms. Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

ODP currently utilizes standard forms to document requests for waiver services or changes in waiver services and service delivery preference. Completed forms are maintained at the AE offices where the participant is registered, as per the AE Operating Agreement.

Appendix B: Participant Access and Eligibility

B-8: Access to Services by Limited English Proficiency Persons

Access to Services by Limited English Proficient Persons. Specify the methods that the state uses to provide meaningful access to the waiver by Limited English Proficient persons in accordance with the Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003):

Each AE is required to provide accommodations to any individual/participant enrolled or enrolling with an AE while performing their administrative functions. Accommodations include but are not limited to: oral interpretation, written translation and language lines. AEs are also required to have and implement policies/procedures for ensuring language assistance services to people who have limited proficiency in English, in accordance with Title VI and corresponding ODP policy.

The policies/procedures must include a statement noting that each participant will be assessed regarding their proficiency in the English language; that documentation will be maintained in the participant's record indicating the participant's need for language assistance and the resources utilized to provide this assistance; the assessment of language assistance resources and the development of a resource bank accessible to all staff members needing to provide services to a person with limited English proficiency; a procedure for ongoing staff training; and a procedure for monitoring compliance with Title VI, which can be part of the AE's quality management strategy.

Service Definition (Scope):	
Category 4:	Sub-Category 4:

Community Participation Support (CPS) provides opportunities & support for community inclusion & building interest in & developing skills & potential for competitive integrated employment. CPS should result in active, valued participation in a broad range of integrated activities that build on the participant's interests, preferences, gifts, & strengths while reflecting their desired outcomes related to employment, community involvement & membership. To achieve this, each participant must be offered opportunities & needed support to participate in community activities that are consistent with the participant's preferences, choices & interests. Each participant's preferences, choices, etc. may change based on their experiences & as a result, providers must have conversations at least quarterly about community activities in which the participant would like to participate. CPS should include a comprehensive analysis of the participant in relation to the following:

•Strongest interests & personal preferences for community activities,

•Skills, strengths, & other contributions likely to be valuable to employers or the community, &

•Conditions necessary for successful community inclusion and/or competitive integrated employment.

CPS is intended to flexibly wrap around or otherwise support community life secondary to employment, as a primary goal. This service involves participation in integrated community settings, in activities that involve persons without disabilities who are not paid or unpaid caregivers. Providers with service locations where more than 10% of individuals who are receiving services are spending less than 25% of their time in community settings on average are required to describe the following for the service location in the provider's Quality Management Plan required in §6100.45 & its Action Plan:

•The # or % of individuals not receiving at least 25% of their services in community settings,

•The # of individuals who want to increase the amount of time they spend in the community,

•Action steps for increasing time in the community for each participant (stated in bullet above) including timeframes for achieving each action step,

•Barriers to supporting the participant with engaging in community activities, including action steps to address the barriers & timeframes for achieving each action step,

•The methods used by the provider to offer options to receive services in integrated community settings in-line with each participant's preferences, choices, & interests for community activities & the frequency such options will be offered,

•Successful community experiences, such as building relationships, employment opportunities and natural supports for individuals served, &

•The staff position responsible for reviewing & updating the information demonstrating the efforts to provide exposure & opportunities to participate in community activities in the Action Plan of the Quality Management Plan (at least quarterly) & Quality Management Plan (at least annually).

CPS is expected to result in the participant developing & sustaining a range of valued social roles & relationships; building natural supports; increasing independence; increasing potential for employment; & experiencing meaningful community participation & inclusion. Activities include supports for:

•Developing skills & competencies necessary to pursue competitive integrated employment;

•Assisting participants with contacting agencies & obtaining documents needed to access employment supports & services that educate participants on the impact of employment on current benefits;

•Participating in community activities, organizations, groups, or clubs to develop social networks;

•Identifying & participating in activities that provide purpose & responsibility;

•Fine & gross motor development & mobility;

•Participating in community opportunities related to the development of hobbies or leisure/cultural interests or to promote personal health & wellness;

•Participating in volunteer opportunities or community adult learning opportunities;

•Opportunities focused on training & education for self-determination & self-advocacy;

•Learning to navigate their community, including learning the options & use of public/private transportation in the local area;

•Developing &/or maintaining social networks & reciprocal relationships with members of the broader community (neighbors, coworkers, & other community members who do not have disabilities & who are not paid or unpaid caregivers) through natural opportunities & invitations that may occur;

•Assisting participants, caregivers, & providers with identifying & utilizing supports not funded through the waiver that are available from community service organizations, such as churches, schools, colleges/universities & other post-secondary institutions, libraries, neighborhood associations, clubs, recreational entities, businesses & community organizations focused on exchange of services (e.g time banks);&

•Assisting participants & caregivers with providing mutual support to one another (through service/support exchange) & contributing to others in the community.

CPS includes planning & coordination for:

•Developing skills & competencies necessary to pursue competitive integrated employment;

•Promoting personal reliance & contribution, mutual support & community connection;

•Developing social networks & connections within local communities;

•Emphasizing, promoting & coordinating the use of unpaid supports to address participant & family needs in addition to paid services; &

•Planning & coordinating a participant's daily/weekly schedule for CPS.

For participants age 18+, fading of the service & less dependence on paid support for ongoing participation in community activities & relationships is expected. Fading strategies should be utilized whenever appropriate. Fading support increases independence for participants & is a component of the fading strategy where access to provider staff & immediate teleservices are needed as a back-up. Fading support is used when a participant is engaged in a community activity that was arranged by the CPS provider but where the CPS provider staff is not physically present, & the participant is supported by unpaid supports. In these circumstances, CPS staff are on-call or providing teleservices as a back-up to the unpaid support. A staff person cannot render fading support & direct services at the same time. The use of fading support can address the health & safety of the participant to support the unpaid support needs additional guidance to address a participant's health & safety or care needs. The Supports Coordinator is responsible for verifying that fading supports are appropriate to meet the participant's needs (Appendix D-2-a). Additional information is contained in the Main Module-Additional Needed Information.

Personal care assistance is included as a component of CPS but does not comprise the entirety of the service. The service also includes transportation as an integral component of the service; for example, transportation to a community activity. The CPS provider is not responsible for transportation to & from a participant's home.

This service may be provided in the following settings that meet all federal standards for home & community-based settings:

•Community locations: Locations must be non-disability specific, not in a licensed facility, or any type of facility owned, leased or operated by a provider of other ODP services. Services are provided in a variety of integrated community locations that offer opportunities for the participant to achieve their personal identified goals for through CPS. A maximum of 3 participants can be served simultaneously by any 1 provider at a community location at any 1 time.

•Community hubs: These settings primarily serve as a gathering place prior to & after community activities. Participants' time will be largely spent outside of the community hub. Community hubs should be non-disability specific, accessible, provide shelter in inclement weather, & be locations used by the general public. Community hubs could be locations that are focused on a specialty area of interest for participants served, such as employment interest area, volunteer site, related to arts, outdoors, etc.. A community hub could be a private home but is not the home of support staff or any individual employed by, or on the board or similar committee responsible for executive decisions of the provider of the service. The participant's home may only serve as a hub on an occasional & incidental basis. The use of a community hub must be driven by the interest of the participants served. A maximum of 6 participants can be served by any 1 provider at any 1 point in time in a community hub.

•Adult Training Facilities (subject to licensure under 55 Pa. Code Chapter 2380).

•Older Adult Daily Living Centers (OADLC) (subject to licensure under 6 Pa. Code Chapter 11): For participants 60 years+, or participants with dementia or dementia-related conditions. Participants under 60 years of age receiving services in an OADLC prior to 7/1/17 may continue to receive services in these settings.

•Vocational Facilities (subject to licensure under 55 Pa. Code Chapter 2390): Facility-based prevocational services focus on the development of competitive worker traits through work as the primary training method. The service may be provided as:

o Occupational training to teach skills for a specific occupation in the competitive labor market & includes personal & work adjustment training designed to develop appropriate worker traits & teach understanding work environment expectations.

o Work related evaluation involving use of planned activities, systematic observation, & testing to formally assess the participant, including identification of service needs, potential for employment, & employment objectives.

CPS may be used to provide prevocational services in facilities & community locations. All participants receiving prevocational services must have a competitive integrated employment outcome included in their service plan. There must be documentation in the service plan regarding how & when the provision of prevocational services is expected to lead to competitive integrated employment. Prevocational services assist participants in vocational skill development, which means developing basic skills & competencies necessary for a participant to pursue competitive integrated employment & includes:

•The development & implementation of a preliminary plan for employment that identifies:

oThe participant's basic work interests,

oSkills & gaps in skills for the participant's work interests, including how those will be addressed,

•Situational assessments: spending time at an employer's place of business to explore vocational interests & develop vocational skills, &

•Identifying available transportation to help the participant get to & from work & teaching the participant & others (as appropriate) about basic financial opportunities & benefits information for a move into competitive integrated employment.

CPS teleservices may be provided in homes where participants reside in accordance with the requirements in the Additional Needed Information Section of the Main Module. Teleservices cannot be used to provide enhanced levels of CPS because direct in-person assistance is required.

CPS teleservices may only be rendered to a participant in their Residential Habilitation home when the participant: •Routinely participates in CPS services in-person outside the home;&

•Has a medical or behavioral condition that precludes their in-person participation for a temporary period of time not to exceed 26 consecutive weeks.

More information about CPS requirements is located in the Additional Needed Information Section of the Main Module.

CPS includes planning & coordination for:

•Developing skills & competencies necessary to pursue competitive integrated employment;

•Promoting personal reliance & contribution, mutual support & community connection;

•Developing social networks & connections within local communities;

CPS teleservices may be provided in homes where participants reside in accordance with the requirements in the Additional Needed Information Section of the Main Module. Teleservices cannot be used to provide enhanced levels of CPS because direct in-person assistance is required.

CPS teleservices may only be rendered to a participant in their Residential Habilitation home when the participant: •Routinely participates in CPS services in-person outside the home;&

•Has a medical or behavioral condition that precludes their in-person participation for a temporary period of time not to exceed 26 consecutive weeks.

More information about CPS requirements is located in the Additional Needed Information Section of the Main Module.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Handicapped employment as defined in Title 55, Chapter 2390 may not be funded through the Waiver.

A participant may be authorized for a maximum of 40 units of fading support per week. Only activities completed by direct service professionals as specified in the service definition are compensable as CPS services. The cost of purchasing devices, maintenance of the devices & service fees may not be billed under this service definition.

Prevocational services may not be funded through the Waiver if they are available to participants through program funding under the IDEA. Documentation must be maintained in the participant's file to satisfy assurances that the service is not otherwise available through a program funded under the IDEA. Prevocational services may be provided without referring a participant to OVR unless the participant is under the age of 25. When a participant is under the age of 25, prevocational services may only be authorized as a new service in the service plan when documentation has been obtained that OVR has closed the participant's case or that the participant has been determined ineligible for OVR services. Participants who are under the age of 25 may not receive prevocational services that pay subminimum wage unless they have been referred to OVR and OVR has closed the case or the participant has been determined ineligible for OVR services. Participants who are under the age of 25 are not required to be referred to OVR when they will be working on skill development and/or participating in activities for which they will not receive subminimum wage. It is not allowable, however, for these prevocational activities to occur in a licensed vocational facility unless OVR has closed their case or they have been determined ineligible for OVR services.

CPS services may not be provided at the same time as the direct provision of any of the following: Companion; In-Home And Community Supports; Small Group Employment; Job Finding or Development and Job Coaching and Support in Supported Employment; job acquisition and job retention in Advanced Supported Employment; Transportation; 15-minute unit Respite; Therapies; Education Support; Shift Nursing; Music, Art and Equine Assisted Therapy and Consultative Nutritional Services. The direct provision of CPS as well as fading support shall not be rendered on the same days and times that the Remote Supports service is rendered.

This service is generally provided between 8am to 5pm but is not restricted to those hours of the day. Alterations from typical day/work hours should be based on the participant's natural rhythms, preferred activities (not for convenience of a provider).

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania.

When CPS services are not provided with any other employment service (Small Group Employment, Supported Employment or Advanced Supported Employment) and the participant is not competitively employed, the hours of authorized CPS cannot exceed 40 hours (160 15-minute units) per participant per calendar week.

When the participant is competitively employed, the total number of hours for CPS, Supported Employment and/or Small Group Employment (whether utilized alone or in conjunction with one another) cannot exceed 50 hours (200 15-minute units) per participant per calendar week.

Participants may receive a maximum of 520 hours (2080 15-minute units) of Community Participation Support teleservices per fiscal year.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service Service Name: Community Participation Support

Provider Category:

Agency

Provider Type:

Prevocational Facility

Provider Qualifications

License (specify):

Providers of facility-based prevocational services with a waiver service location in Pennsylvania must be licensed under 55 Pa. Code Chapter 2390 relating to Vocational Facilities. A comparable license is required for providers with waiver service locations in states contiguous to Pennsylvania.

At least one staff person (direct, contracted, or in a consulting capacity) who provides enhanced levels of service must be a Registered Nurse (RN) or Licensed Practical Nurse (LPN) when the participant has been assessed to have medical needs that require a RN or LPN.

Certificate (*specify*):

Program specialists and supervisors of direct service professionals must have one of the following within nine months of hire:

• Hold a Certified Employment Support Professional (CESP) credential from the Association of People Supporting Employment First (APSE), or

• Have been awarded a Basic Employment Services Certificate of Achievement or a Professional Certificate of Achievement in Employment Services from an Association of Community Rehabilitation Educators (ACRE) organizational member that has ACRE-approved training.

All new hires must complete the Department approved training on Community Participation Support within 60 days of hire and during that time they must be supervised by someone who has completed the training.

Enhanced levels of service are based on the participant's behavioral or medical support needs. At least one staff person must have one of the following certifications or degrees to provide enhanced levels of service to participants who do not require a nurse to provide the enhanced level of service:

• NADD Competency-Based Clinical Certification.

- NADD Competency-Based Dual Diagnosis Certification.
- NADD Competency-Based Direct-Support Professional Certification.
- Registered Behavior Technician.
- Certified Nursing Assistant.
- Board Certified Assistant Behavior Analyst.
- Bachelor's Degree or higher in Psychology, Education, Special Education, Counseling, Social Work

Gerontology or Therapeutic Recreation.

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of Community Participation Support have automobile insurance.

7. Have documentation that all vehicles used in the provision of Community Participation Support have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have at least a 4 year degree when providing enhanced levels of Community Participation Support and the participant's assessed needs require the degree.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Community

Participation Support.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service Service Name: Community Participation Support

Provider Category: Agency Provider Type:

Adult Training Facility or Older Adult Day Facility

Provider Qualifications

License (specify):

Providers of facility based day habilitation services with a waiver service location in Pennsylvania must be licensed under 55 Pa. Code Chapter 2380 relating to Adult Training Facilities or under 6 Pa. Code Chapter 11 relating to Older Adult Day Services. A comparable license is required for providers with a waiver service location in states contiguous to Pennsylvania.

At least one staff person (direct, contracted, or in a consulting capacity) who provides enhanced levels of service must be a Registered Nurse (RN) or Licensed Practical Nurse (LPN) when the participant has been assessed to have medical needs that require a RN or LPN.

Certificate (*specify*):

For programs providing prevocational training to participants, program specialists and supervisors of direct service professionals in facilities licensed under 55 Pa. Code Chapter 2380 must have one of the following within nine months of hire:

• Hold a Certified Employment Support Professional (CESP) credential from the Association of People Supporting Employment First (APSE), or

• Have been awarded a Basic Employment Services Certificate of Achievement or a Professional Certificate of Achievement in Employment Services from an Association of Community Rehabilitation Educators (ACRE) organizational member that has ACRE-approved training.

All new hires must complete the Department approved training on Community Participation Support within 60 days of hire and during that time they must be supervised by someone who has completed the training.

Enhanced levels of service are based on the participant's behavioral or medical support needs. At least one staff person must have one of the following certifications or degrees to provide enhanced levels of service to participants who do not require a nurse to provide the enhanced level of service:

• NADD Competency-Based Clinical Certification.

• NADD Competency-Based Dual Diagnosis Certification.

• NADD Competency-Based Direct-Support Professional Certification.

- Registered Behavior Technician.
- Certified Nursing Assistant.
- Board Certified Assistant Behavior Analyst.

• Bachelor's Degree or higher in Psychology, Education, Special Education, Counseling, Social Work Gerontology or Therapeutic Recreation.

Other Standard (*specify*):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of Community Participation Support have automobile insurance.

7. Have documentation that all vehicles used in the provision of Community Participation Support have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Adult Training Facility and Older Adult Day Facility staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards:

1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have at least a 4 year degree when providing enhanced levels of Community Participation Support and the participant's assessed needs require the degree.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Community Participation Support.

Verification of Provider Qualifications

Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service Service Name: Community Participation Support

Provider Category: Individual Provider Type:

Individual Community Participation Support Provider (Non-Facility)

Provider Qualifications

License (specify):

Individuals providing enhanced levels of Community Participation Support in community locations must be a licensed nurse (RN or LPN) when the participant's assessed medical needs require a licensed nurse provide the service.

Certificate (specify):

Individuals providing prevocational skill development to the participant in community locations must have one of the following:

• Hold a Certified Employment Support Professional (CESP) credential from the Association of People Supporting Employment First (APSE), or

• Have been awarded a Basic Employment Services Certificate of Achievement or a Professional

Certificate of Achievement in Employment Services from an Association of Community Rehabilitation Educators (ACRE) organizational member that has ACRE-approved training.

All individuals must complete the Department approved training on Community Participation Support prior to rendering Community Participation Support services.

Enhanced levels of service are based on the participant's behavioral or medical support needs. Individuals providing enhanced levels of service to participants who do not require a nurse to provide the enhanced level of service must have one of the following certificates or degrees:

• NADD Competency-Based Clinical Certification.

- NADD Competency-Based Dual Diagnosis Certification.
- NADD Competency-Based Direct-Support Professional Certification.
- Registered Behavior Technician.
- Certified Nursing Assistant.
- Board Certified Assistant Behavior Analyst.

• Bachelor's Degree or higher in Psychology, Education, Special Education, Counseling, Social Work, Gerontology or Therapeutic Recreation.

Individuals must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of Community Participation Support have automobile insurance.

7. Have documentation that all vehicles used in the provision of Community Participation Support have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance in accordance with state law.

9. Have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

10. Be at least 18 years of age.

11. Have at least a 4 year degree when providing enhanced levels of Community Participation Support and the participant's assessed needs require the degree.

12. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

13. Have a valid driver's license if the operation of a vehicle is necessary to provide Community Participation Support.

14. Comply with Department standards related to provider qualifications.

Verification of Provider Qualifications Entity Responsible for Verification:

03/19/2024

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service Service Name: Community Participation Support

Provider Category: Agency Provider Type:

Agency Community Participation Support Provider (Non- Facility)

Provider Qualifications

License (*specify*):

At least one staff person (direct, contracted, or in a consulting capacity) who provides enhanced levels of service must be a Registered Nurse (RN) or Licensed Practical Nurse (LPN) when the participant has been assessed to have medical needs that require a RN or LPN.

Certificate (*specify*):

For programs providing prevocational training to participants, program specialists and supervisors of direct service professionals must have one of the following within nine months of hire:

• Hold a Certified Employment Support Professional (CESP) credential from the Association of People Supporting Employment First (APSE), or

• Have been awarded a Basic Employment Services Certificate of Achievement or a Professional Certificate of Achievement in Employment Services from an Association of Community Rehabilitation Educators (ACRE) organizational member that has ACRE-approved training.

All direct service professionals, program specialists, and supervisors of direct service professionals who provide Community Participation Supports must complete the Department approved training on Community Participation Support by 7/1/18. After 7/1/18, all new hires must complete the Department approved training on Community Participation Support within 60 days of hire and during that time they must be supervised by someone who has completed the training.

Enhanced levels of service are based on the participant's behavioral or medical support needs. At least one staff person must have one of the following certifications or degrees to provide enhanced levels of service to participants who do not require a nurse to provide the enhanced level of service:

• NADD Competency-Based Clinical Certification.

• NADD Competency-Based Dual Diagnosis Certification.

- NADD Competency-Based Direct-Support Professional Certification.
- Registered Behavior Technician.
- Certified Nursing Assistant.
- Board Certified Assistant Behavior Analyst.
- Bachelor's Degree or higher in Psychology, Education, Special Education, Counseling, Social Work, Gerontology or Therapeutic Recreation.

Other Standard (specify):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of Community Participation Support have automobile insurance.

7. Have documentation that all vehicles used in the provision of Community Participation Support have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have at least a 4 year degree when providing enhanced levels of Community Participation Support and the participant's assessed needs require the degree.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Community

Participation Support.

Verification of Provider Qualifications Entity Responsible for Verification:

Education Support Services

HCBS Taxonomy:

Category 1:	Sub-Category 1:
04 Day Services	04030 education services
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Education Support consists of education and related services as defined in Sections (22) and (25) of the Individuals with Disabilities Education Act (IDEA) to the extent that they are not available under a program funded by IDEA or available for funding by the Office of Vocational Rehabilitation (OVR). To receive Education Support services through the waiver, students attending eligible institutions and who are eligible for Federal Student Aid and/or PA State Grant funding must apply. Education Support Services are limited to payment for the following:

Tuition for adult education classes offered by a college, community college, technical school or university (institution of postsecondary education). This includes classes for which a participant receives credit, classes that a participant audits, classes that support paid or unpaid internships, remedial classes and comprehensive transition programs. At least 75% of the time the participant spends on campus must be integrated with the general student population. While tuition for online classes is generally excluded from reimbursement under Education Support Services as are classes that are provided both in-person and online are covered under Education Support Services as are classes that are typically provided in-person but change to online due to emergency situations in alignment with the institution of postsecondary education's policy or protocol.

• General fees charged to all students. This includes but is not limited to fees such as technology fees, student facilities fees, university services fees and lab fees.

• On campus peer support. This is support provided by the institution of postsecondary education's staff (they cannot be contracted staff) or other students attending the institution of postsecondary education. The support assists the participant to learn roles or tasks that are related to the campus environment such as homework assistance, interpersonal skills and residential hall independent living skills.

• Classes (one communication education professional and one participant or a group of no more than four learners taught collectively by a communication education professional) to teach participants who are deaf American Sign Language, Visual Gestural Communication or another form of communication. To receive this type of education, participants must be age 21 and older or under 21 years of age with a high school diploma. The participant must also have been assessed as benefitting from learning American Sign Language or another form of communication.

• Adult education or tutoring program for reading or math instruction. Participants authorized for Education Support services must have an employment outcome or an outcome related to skill attainment or development which is documented in the service plan and is related to the Education Support need.

The following list includes items excluded as Education Support (please note this is not an exhaustive list of excluded items):

• Room and board.

• Payment for books.

• Payment for recreational classes, activities and programs offered through recreational commissions, townships, boroughs, etc.

• Tuition for adult education classes offered by online universities.

• Tuition for online classes.

• Tuition for adult education classes provided on disability specific campuses.

The provision of Education Support services may not be provided at the same time as the direct provision of any of the following: Community Participation Support; Small Group Employment; Supported Employment; job acquisition and job retention in Advanced Supported Employment; Benefits Counseling; Transportation; Therapies; Music, Art and Equine Assisted Therapy; Consultative Nutritional Services and 15-minute unit Respite. When on campus peer support is offered by the institution of postsecondary education and authorized in the service plan as Education Support, In-Home and Community Supports and Companion cannot be authorized at the same time as the on campus peer support.

This service can be delivered in Pennsylvania, Washington DC and Virginia as well as in states contiguous to Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Participants can receive a maximum of:

• \$40,000 toward tuition for classes in the participant's lifetime; and

• \$5,000 per semester of on campus peer support for participants taking at least 6 credit hours of classes per semester. On campus peer support cannot be reimbursed through Education Support when the participant takes fewer than 6 credit hours of classes per semester.

Service	Type:
---------	-------

Statutory Service

Service:

Homemaker

Alternate Service Title (if any):

Homemaker/Chore

HCBS Taxonomy:

Sub-Category 1:
08050 homemaker
Sub-Category 2:
08060 chore
Sub-Category 3:
Sub-Category 4:

Homemaker/Chore services are provided to participants who live in private homes.

HOMEMAKER

Homemaker services enable the participant or the family member(s) or friend(s) with whom the participant resides to maintain their primary private home. Homemaker Services include cleaning and laundry, meal preparation, and other general household care. Homemaker services also include infection control measures and intensive cleaning such as cleaning medical equipment and disinfecting the home.

CHORE

Chore services consist of services needed to maintain the home in a clean, sanitary, and safe condition. Chore services consist of heavy household activities such as washing floors, windows, and walls; tacking down loose rugs and tiles; moving heavy items of furniture in order to provide safe access and egress; ice, snow, and/or leaf removal; and yard maintenance. In the case of rental property, the responsibility of the landlord, pursuant to the lease agreement, will be examined prior to any authorization of service. Maintenance in the form of upkeep and improvements to the participant's home is excluded from federal financial participation.

Homemaker/Chore services can only be provided in the following situations when there is no other relative, caregiver, landlord, community/volunteer agency, provider agency staff, or third-party payer that is capable of or responsible for the provision:

1. When a participant and household members are temporarily unable to perform Homemaker/Chore functions covered under the service definition. Examples include:

• If a participant has a temporary medical need due to a hospitalization or from a surgery, and as a result, the caregiver does not have time to perform the Homemaker/Chore functions due to the increased care needs of the participant.

• If the caregiver who usually performs the Homemaker/Chore functions has a temporary medical condition that renders them unable perform the Homemaker/Chore functions. There is no one else that is capable of or responsible for the provision of the Homemaker/Chore functions.

• The household member who usually performs the Homemaker/Chore functions is temporarily absent and there is no one else that is capable of or responsible for the provision of the Homemaker/Chore functions.

2. When a participant or household member is permanently unable to perform the Homemaker/Chore functions. Examples include:

• The participant has a medical need or disability that requires constant direct care which results in the caregiver not having time on a routine basis to perform Homemaker/Chore functions.

• The caregiver has more than one child and Homemaker/Chore services would enable the caregiver to spend more time providing care to the child participant who has a medical need or disability.

The service plan team is responsible for determining whether a person is temporarily or permanently unable to perform the Homemaker/Chore functions. The service plan team's determination must be documented in the service plan.

Participants authorized to receive Homemaker/Chore services may not be authorized to receive the following services as Homemaker/Chore tasks are built into the rates for these services: Life Sharing or Supported Living.

This service must be delivered in Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Homemaker/Chore services are limited to 40 hours per participant per fiscal year when the participant or family member(s) or unpaid caregiver(s) with whom the participant resides is temporarily unable to perform the homemaker/chore functions. A person is considered temporarily unable when the condition or situation that prevents the person from performing the homemaker/chore functions is expected to improve. There is no limit when the participant lives independently or with family members or unpaid caregivers who are permanently unable to perform the homemaker/chore functions.

A person is considered permanently unable when the condition or situation that prevents them from performing the homemaker/chore functions is not expected to improve. The service plan team is responsible to determine whether a person is temporarily or permanently unable to perform the homemaker/chore functions. The service plan team's determination should be documented in the service plan.

Category 1:	Sub-Category 1:
08 Home-Based Services	08010 home-based habilitation
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

In-Home and Community Support is a direct service provided in home and community settings to assist participants in acquiring, maintaining and improving the skills necessary to live in the community, live more independently, & to participate meaningfully in community life. Direct In-Home and Community Support teleservices may be provided in accordance with the requirements in the Additional Needed Information Section of the Main Module. To the extent that In-Home and Community Support is provided in community settings, the settings must be inclusive rather than segregated.

Services consist of assistance, support & guidance (physical assistance, instruction, prompting, modeling, & positive reinforcement) in the general areas of self-care, health maintenance, decision making, home management, managing personal resources, communication, mobility & transportation, relationship development & socialization, personal adjustment, participating in community functions & activities & use of community resources. The type & amount of assistance, support & guidance are informed by the assessed need for physical, psychological & emotional assistance established through the assessment & person-centered planning processes & are delivered to enhance the autonomy of the participant, in line with personal preferences & to achieve desired outcomes.

The provider must provide the level of services necessary to enable the participant to meet habilitation outcomes. This includes ensuring the following assistance, support & guidance(prompting, instruction, modeling, reinforcement) will be provided to the participant as needed to enable him or her to: 1. Carry out activities of daily living such as personal grooming & hygiene, dressing, making meals, maintaining a clean environment.

2. Learn & develop practices that promote good health & wellness such as nutritious meal planning, regular exercise, carrying through prescribed therapies exercises, awareness & avoidance of risk including environmental risks, exploitation & abuse; responding to emergencies in the home & community such as fire or injury; knowing how & when to seek assistance.

3. Manage medical care including scheduling & attending medical appointments, filling prescriptions & selfadministration of medications, & keeping health logs & records This may also include assistance, support & guidance in the administration of medications in accordance with applicable regulatory guidance, positioning the participant, taking vital statistics, performing range of motion exercises as directed by a licensed professional, applying prescribed treatments & monitoring for seizure activity.

4. Manage mental health diagnosis & emotional wellness including self-management of emotions such as disappointment, frustration, anxiety, anger, & depression; applying trauma informed care principles & practices; & accessing mental health services. This includes implementation of the Behavior Support component of the plan, the Crisis Intervention component of the plan & or the Skill Building component of the plan which may involve collecting & recording the data necessary to evaluate progress & the need for revisions to the plan.

5. Participate in the development & implementation of the service plan & to direct the person-centered planning process including identifying the desired outcomes & who should attend.

6. Manage the home including locating a private home, arranging for utility services, paying bills, routine home maintenance, & home safety.

7. Achieve financial stability through activities such as managing personal resources, general banking & balancing accounts, record keeping & managing savings accounts & utilizing programs such as ABLE accounts.

8. Communicate with providers, caregivers, family members, friends & others face-to-face, through technology, & written correspondence. The service may require knowledge & use of sign language or interpretation for individuals whose primary language is not English.

9. Develop & maintain relationships with members of the broader community such as with neighbors, coworkers, friends & family) & to manage problematic relationships.

10. Exercise rights as a citizen & fulfill their civic responsibilities such as voting & serving on juries; attending public community meetings; to participate in community projects & events with volunteer associations & groups; to serve on public & private boards, advisory groups, & commissions, as well as develop confidence & skills to enhance their contributions to the community.

11. Participate in preferred activities of community life such as shopping, going to restaurants, museums, movies, concerts, dances & faith based services.

12. Make decisions including providing guidance in identifying options/choices & evaluating options/choices against a set of personal preferences & desired outcomes. This includes assistance with identifying supports within the community.

13. Use a range of transportation options such as buses, trains, cab services, driving, and joining car pools.

14. Develop personal interests such as hobbies, appreciation of music, & other experiences the participant enjoys or may wish to discover.

15. Identification of risk to the participant & the implementation of actions such as reporting incidents as required by ODP, the Older Adults Protective Services Act, the Adult Protective Services Act and the Child Protective Service Law, applicable regulations & or calling emergency officials for immediate assistance.

16. Successfully parent his or her child(ren). This includes assessing parenting competency, as well as modeling & teaching parenting skills such as discipline techniques, child development, health & safety issues & decision-making skills.

In-Home and Community Support may also include elements of Companion services as long as these elements do not constitute more than half of the In-Home and Community Support service.

Staff providing the In-Home and Community Support must be awake during overnight hours to perform tasks that require continual assistance as identified in the service plan to ensure medical or behavioral stability & that are able to be performed by a trained non-medically-licensed individual. Tasks include:

- Taking vital statistics when monitoring has been prescribed by a licensed professional, such as post-surgical care • Positioning
- Performing range of motion exercises as directed by a licensed professional
- Administering prescribed medications (other than over the counter medications)
- Applying prescribed treatments

• Monitoring for seizure activity for a participant with convulsive (grand mal) epilepsy that is not able to be controlled by medication

• Monitoring individuals with Diabetes Mellitus for signs of hyperglycemia and hypoglycemia and administering treatment as indicated in the service plan,

- Maintaining the functioning of devices whose malfunction would put the participant at risk of hospitalization, and
- Crisis intervention in accordance with the behavior support plan

In-Home and Community Support teleservices cannot be used to provide overnight or enhanced levels of service because direct in-person assistance is required. If the participant only needs supervision or assistance with tasks that do not meet the criteria above such as evacuation in the event of an emergency during overnight hours, the appropriate service during this time period is Companion services.

This service may be provided at the following levels:

• Basic–The provision of the service at a staff-to-individual ratio of 1:3

• Level 1-The provision of the service at a staff to individual ratio of 1:2

• Level 2-The provision of the service at a staff-to-individual ratio of 1:1

• Level 2 Enhanced-The provision of the service at a staff-to-individual ratio of 1:1 with a staff member who is certified, has a bachelor's degree or is a nurse. Level 2 Enhanced services by a nurse are only available to participants age 21 & older

• Level 3-The provision of the service at a staff-to-individual ratio of 2:1

• Level 3 Enhanced-The provision of the service at a staff-to-individual ratio of 2:1 with 1 staff member who is certified, has a bachelor's degree or is a nurse and 1 staff member with at least a high school diploma. Level 3 Enhanced services by a nurse are only available to participants age 21 & older.

The use of Level 2 Enhanced, Level 3 & Level 3 Enhanced are based on the participant's behavioral or medical support needs. The need for enhanced levels of service must be reviewed every 6 months in accordance with ODP

policy for continued authorization.

Transportation necessary to enable participation in community activities outside in accordance with the participant's plan is included in the rate paid to providers. Mileage that is needed to enable participation in community activities that exceeds 30 miles on any given day should be authorized on the service plan & billed by the agency as Transportation Mile. Transportation is not included in the wage range for In-Home and Community Support services provided by Support Service Professionals in participant directed services. Transportation services should be authorized & billed as a discrete service. When Transportation services are authorized & billed as a discrete service (regardless of whether the service is delivered by an agency or Support Service Professional) In-Home and Community Support is compensable at the same time for the supervision, assistance & or care provided to the participant during transportation. In-Home and Community Support services cannot be used to solely transport a participant as this would be considered a Transportation service available in the waiver. The participant must have a need for assistance, guidance or support with tasks while in the home & community locations for which transportation is necessary.

In general, this service is provided in a participant's private home, other community settings, or in an acute care hospital when the participant is hospitalized. This service shall not be provided in a licensed setting, unlicensed residential setting or camp. This does not preclude this service from being utilized to assist a participant to volunteer in a nursing facility, hospital or occasionally visit a friend or family member in a licensed setting or unlicensed residential setting.

When In-Home and Community Support is provided to a participant who is younger than 18 years of age, this service may only be used to provide extraordinary care. Relatives & legally responsible individuals are responsible to meet the needs of a participant who is younger than 18 years of age, including the need for assistance & supervision typically required for children at various stages of growth & development. In-Home and Community Support may only be used to meet the exceptional needs of the participant who is under age 18 that are due to the disability & are above and beyond the typical, basic care for a child that all families with children may experience.

This service can be delivered in Pennsylvania & in states contiguous to Pennsylvania. During temporary travel, this service may be provided in Pennsylvania or other locations as per ODP's travel policy.

11. Participate in preferred activities of community life such as shopping, going to restaurants, museums, movies, concerts, dances & faith based services.

12. Make decisions including providing guidance in identifying options/choices & evaluating options/choices against a set of personal preferences & desired outcomes. This includes assistance with identifying supports within the community.

13. Use a range of transportation options such as buses, trains, cab services, driving, and joining car pools.

14. Develop personal interests such as hobbies, appreciation of music, & other experiences the participant enjoys or may wish to discover.

15. Identification of risk to the participant & the implementation of actions such as reporting incidents as required by ODP, the Older Adults Protective Services Act, the Adult Protective Services Act and the Child Protective Service Law, applicable regulations & or calling emergency officials for immediate assistance.

16. Successfully parent his or her child(ren). This includes assessing parenting competency, as well as modeling & teaching parenting skills such as discipline techniques, child development, health & safety issues & decision-making skills.

In-Home and Community Support may also include elements of Companion services as long as these elements do not constitute more than half of the In-Home and Community Support service.

Staff providing the In-Home and Community Support must be awake during overnight hours to perform tasks that require continual assistance as identified in the service plan to ensure medical or behavioral stability & that are able to be performed by a trained non-medically-licensed individual. Tasks include:

- Taking vital statistics when monitoring has been prescribed by a licensed professional, such as post-surgical care • Positioning
- Performing range of motion exercises as directed by a licensed professional
- Administering prescribed medications (other than over the counter medications)
- Applying prescribed treatments

• Monitoring for seizure activity for a participant with convulsive (grand mal) epilepsy that is not able to be controlled by medication

• Monitoring individuals with Diabetes Mellitus for signs of hyperglycemia and hypoglycemia and administering treatment as indicated in the service plan,

- Maintaining the functioning of devices whose malfunction would put the participant at risk of hospitalization, and
- Crisis intervention in accordance with the behavior support plan

In-Home and Community Support teleservices cannot be used to provide overnight or enhanced levels of service because direct in-person assistance is required. If the participant only needs supervision or assistance with tasks that do not meet the criteria above such as evacuation in the event of an emergency during overnight hours, the appropriate service during this time period is Companion services.

This service may be provided at the following levels:

• Basic–The provision of the service at a staff-to-individual ratio of 1:3

• Level 1-The provision of the service at a staff to individual ratio of 1:2

• Level 2-The provision of the service at a staff-to-individual ratio of 1:1

• Level 2 Enhanced-The provision of the service at a staff-to-individual ratio of 1:1 with a staff member who is certified, has a bachelor's degree or is a nurse. Level 2 Enhanced services by a nurse are only available to participants age 21 & older

• Level 3-The provision of the service at a staff-to-individual ratio of 2:1

• Level 3 Enhanced-The provision of the service at a staff-to-individual ratio of 2:1 with 1 staff member who is certified, has a bachelor's degree or is a nurse and 1 staff member with at least a high school diploma. Level 3 Enhanced services by a nurse are only available to participants age 21 & older.

The use of Level 2 Enhanced, Level 3 & Level 3 Enhanced are based on the participant's behavioral or medical support needs. The need for enhanced levels of service must be reviewed every 6 months in accordance with ODP

policy for continued authorization.

Transportation necessary to enable participation in community activities outside in accordance with the participant's plan is included in the rate paid to providers. Mileage that is needed to enable participation in community activities that exceeds 30 miles on any given day should be authorized on the service plan & billed by the agency as Transportation Mile. Transportation is not included in the wage range for In-Home and Community Support services provided by Support Service Professionals in participant directed services. Transportation services should be authorized & billed as a discrete service. In-Home and Community Support services cannot be used to solely transport a participant as this would be considered a Transportation service available in the waiver. The participant must have a need for assistance, guidance or support with tasks while in the home & community locations for which transportation is necessary.

In general, this service is provided in a participant's private home, other community settings, or in an acute care hospital when the participant is hospitalized. This service shall not be provided in a licensed setting, unlicensed residential setting or camp. This does not preclude this service from being utilized to assist a participant to volunteer in a nursing facility, hospital or occasionally visit a friend or family member in a licensed setting or unlicensed residential setting.

When In-Home and Community Support is provided to a participant who is younger than 18 years of age, this service may only be used to provide extraordinary care. Relatives & legally responsible individuals are responsible to meet the needs of a participant who is younger than 18 years of age, including the need for assistance & supervision typically required for children at various stages of growth & development. In-Home and Community Support may only be used to meet the exceptional needs of the participant who is under age 18 that are due to the disability & are above and beyond the typical, basic care for a child that all families with children may experience.

This service can be delivered in Pennsylvania & in states contiguous to Pennsylvania. During temporary travel, this service may be provided in Pennsylvania or other locations as per ODP's travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

In-Home and Community Support services that are authorized on a service plan may be provided by relatives and legal guardians of the participant. When this occurs, any one relative or legal guardian may provide a maximum of 40 hours per week of authorized In-Home and Community Support or a combination of In-Home and Community Support and Companion (when both services are authorized in the service plan). Further, when multiple relatives/legal guardians provide the service(s) each participant may receive no more than 60 hours per week of authorized In-Home and Community Support or a combination of In-Home and Community Support and Companion (when both services are authorized in the service plan) from all relatives/legal guardians. An exception may be made to the limitation on the number of hours of In-Home and Community Support and Companion provided by relatives and legal guardians at the discretion of the employer if there is an emergency or an unplanned departure of a regularly scheduled worker for up to 90 calendar days in any fiscal year.

Participants who are authorized to receive Life Sharing or Supported Living services may not be authorized to receive In-Home and Community Support services.

In-Home and Community Support services may not be provided at the same time as the direct provision of any of the following: Respite (15-minute and Day); Companion; Community Participation Support; Small Group Employment; Supported Employment; job acquisition and job retention in Advanced Supported Employment and Shift Nursing.

To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

In-Home and Community Support services may also be delivered in an acute care hospital, in accordance with Section 1902(h) of the Social Security Act, when the services are:

• Identified in the participant's service plan;

• Provided to meet needs of the participant that are not met through the provision of hospital services;

• Designed to ensure smooth transitions between the hospital and home and community-based settings, and to preserve the participant's functional abilities; and

• Not a substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or state law, or under another applicable requirement.

This service can only be provided in an acute care hospital to assist the participant with one or more of the following:

• Communication;

• Intensive personal care; or

• Behavioral support/stabilization as enumerated in the behavior support plan.

Service Delivery Method (check each that applies):

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service Service Name: In-Home and Community Support

Provider Category: Individual Provider Type:

Support Service Professional

Provider Qualifications

License (specify):

Support Service Professionals who provide Level 2 enhanced or Level 3 enhanced services to a participant age 21 or older must be a Registered Nurse (RN) or Licensed Practical Nurse (LPN) when the participant has been assessed to have medical needs that require a RN or LPN as well as other needs for assistance, support and guidance to meet habilitative outcomes that will be provided by the RN or LPN.

Certificate (*specify*):

Enhanced levels of service are based on the participant's behavioral or medical support needs. The Support Service Professional must have one of the following certifications or degrees to provide Level 2 enhanced or Level 3 enhanced services to participants who do not require a nurse to provide the enhanced level of service:

• NADD Competency-Based Clinical Certification.

• NADD Competency-Based Dual Diagnosis Certification.

• NADD Competency-Based Direct-Support Professional Certification.

• Registered Behavior Technician.

• Certified Nursing Assistant.

• Board Certified Assistant Behavior Analyst.

• Bachelor's Degree or higher in Psychology, Education, Special Education, Counseling, Social Work, Gerontology or Therapeutic Recreation.

Other Standard (*specify*):

Support Service Professionals must meet the following standards: 1. Be at least 18 years of age.

2. Have documentation that all vehicles used in the provision of In-Home and Community Support have automobile insurance.

3. Have documentation that all vehicles used in the provision of In-Home and Community Support have current State motor vehicle registration and inspection.

4. Complete necessary pre/in-service training based on the service plan.

5. Be trained to meet the needs of the participant to carry out the service plan such as with communication, mobility and behavioral needs.

6. Have at least a high school diploma for participants authorized to receive 2:1 enhanced In-Home and Community Support. The other staff member must have a certification or be a nurse.

7.Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

8. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

9. Have a valid driver's license if the operation of a vehicle is necessary to provide In-Home and Community Support services.

10. Comply with Department standards related to provider qualifications.

Verification of Provider Qualifications Entity Responsible for Verification:

AWC FMS or VF/EA FMS

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Statutory Service

Service Name: In-Home and Community Support

Provider Category: Agency Provider Type:

Agency

Provider Qualifications

License (specify):

At least one staff person (direct, contracted, or in a consulting capacity) who provides Level 2 enhanced or Level 3 enhanced services to a participant age 21 or older must be a Registered Nurse (RN) or Licensed Practical Nurse (LPN) when the participant has been assessed to have medical needs that require a RN or LPN as well as other needs for assistance, support and guidance to meet habilitative outcomes that will be provided by the RN or LPN.

Certificate (specify):

Enhanced levels of service are based on the participant's behavioral or medical support needs. At least one staff person must have one of the following certifications or degrees to provide Level 2 enhanced or Level 3 enhanced services to participants who do not require a nurse to provide the enhanced level of service:

- NADD Competency Based Clinical Certification.
- NADD Competency-Based Dual Diagnosis Certification.
- NADD Competency-Based Direct-Support Professional Certification.
- Registered Behavior Technician.
- Certified Nursing Assistant.
- Board Certified Assistant Behavior Analyst.
- Bachelor's Degree or higher in Psychology, Education, Special Education, Counseling, Social Work, Gerontology or Therapeutic Recreation.

Other Standard (*specify*):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania, Washington DC, Virginia or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of In-Home and Community Support have automobile insurance.

7. Have documentation that all vehicles used in the provision of In-Home and Community Support have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance, in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant to carry out the service plan such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Staff working for or contracted with the agency as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have at least a high school diploma for participants authorized to receive 2:1 enhanced In-Home and Community Support. The other staff member must have a certification or be a nurse.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

- The nature of the crime;
- Facts surrounding the conviction;
- Time elapsed since the conviction;
- The evidence of the individual's rehabilitation; and
- The nature and requirements of the job.

Documentation of review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

5. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

6. Have a valid driver's license if the operation of a vehicle is necessary to provide In-Home and Community Support services.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Statutory Service

Service:

Respite

Alternate Service Title (if any):

HCBS Taxonomy:

Category 1:	Sub-Category 1:
09 Caregiver Support	09011 respite, out-of-home
Category 2:	Sub-Category 2:
09 Caregiver Support	09012 respite, in-home
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Respite services are direct services that are provided to supervise and support participants living in private homes on a short-term basis for planned or emergency situations, giving the person(s) normally providing care a period of relief that may be scheduled or due to an emergency. Respite services do not cover the care provided to a minor child when the primary caregiver or legally responsible individual is absent due to work.

In emergency situations, Respite services may be provided in a home licensed under 55 Pa. Code Chapters 6400, 6500, 3800 or 5310 beyond the home's approved program capacity (but not beyond the home's licensed capacity) or in a non-waiver funded licensed residential setting or in a hotel when approved by ODP. Settings considered non-waiver funded licensed residential settings include residential settings located on a campus or that are contiguous to other ODP-funded residential settings (settings that share one common party wall are not considered contiguous). This also includes settings enrolled on or after the effective date of the Chapter 6100 regulations that are located in any development or building where more than 25% of the apartments, condominiums or townhouses have waiver funded Residential Habilitation, Life Sharing or Supported Living being provided.

An emergency circumstance is defined as a situation where:

• A participant's health and welfare is at immediate risk;

• A participant experiences the sudden loss of his or her home (due to, for example, a fire or natural disaster).

This is not intended to replace a residential provider's responsibility to secure an alternative if there is a need for an emergency location;

• A participant loses the care of a relative or unrelated caregiver, without advance warning or planning; or

• There is an imminent risk of institutionalization.

To the degree possible, the respite provider must maintain the participant's schedule of activities including activities that allow participation in the community. This service also includes implementation of a participant's Behavioral Support Plan, Medical Plan, or Crisis Intervention Plan as applicable.

Respite services may only be provided in the following location(s):

• Participant's private home located in Pennsylvania.

• Licensed Family Living Home (55 Pa. Code Chapter 6500) located in Pennsylvania.

• Licensed Community Home (55 Pa. Code Chapter 6400) located in Pennsylvania within the home's approved program capacity of 1 to 4. ODP may approve the provision of Respite services above a home's approved program capacity or in a home with approved program capacity of 5 to 8 for emergency circumstances or to meet medical or behavioral needs as described in the paragraph below.

• Licensed Child Residential Service Home (55 Pa. Code Chapter 3800) located in Pennsylvania.

• Licensed Community Residential Rehabilitation Services for the Mentally Ill Home (55 Pa. Code Chapter 5310) located in Pennsylvania.

• Unlicensed Life Sharing home that is located in Pennsylvania.

• Unlicensed private home that is located in Pennsylvania, Washington DC, or Virginia or a state contiguous to Pennsylvania.

• Other private homes, hotels, or rentals during temporary travel in accordance with ODP's travel policy.

• Camp settings that meet applicable state or local codes.

• Community settings that maintain the participant's schedule of activities.

A variance for Respite services in the following settings may be requested when the participant has a Needs Group 3 or hihger that indicates medical or behavioral needs and the participant is unable to locate a respite provider to render services in a community setting:

• Licensed Intermediate Care Facilities for individuals with an Intellectual Disability (55 Pa. Code 6600) that are owned and operated by private agencies.

• Licensed Nursing Homes (28 Pa. Code Chapters 201, 203, 205, 207, 209 and 211).

• Licensed Community Home (55 Pa. Code Chapter 6400) located in Pennsylvania within the home's approved program capacity of 5 to 8.

When Respite is provided in a Residential Habilitation or Life Sharing setting, the setting must be integrated and dispersed in the community in noncontiguous locations, and may not be located on campus settings. Exceptions to these criteria can be requested in accordance with ODP policy.

Respite services may not be provided in Hospitals, Personal Care Homes or public ICFs/ID (ICFs/ID that are owned and operated by any state).

This service may be provided at the following levels in private homes and Life Sharing homes (licensed or unlicensed):

• Basic Staff Support - The provision of the service at a staff-to-individual ratio of 1:4.

• Level 1 - The provision of the service at a staff-to-individual ratio range of 1:3.

• Level 2 - The provision of the service at a staff-to-individual ratio range of 1:2.

• Level 3 - The provision of the service at a staff-to-individual ratio of 1:1.

• Level 3 - Enhanced - The provision of the service at a staff-to-individual ratio of 1:1 with a licensed nurse (only available to children with medical needs as described below) or a certified staff member.

• Level 4 - The provision of the service at a staff-to-individual ratio of 2:1.

• Level 4 Enhanced - The provision of the service at a staff-to-individual ratio of 2:1 with one licensed nurse (only available to children with medical needs as described below) or one certified staff member and one staff member with at least a high school diploma.

The use of Level 3 Enhanced, Level 4 and Level 4 Enhanced are based on the participant's behavioral or medical support needs.

This service may be provided at the following levels in Residential Habilitation settings:

- Needs Group 1.
- Needs Group 2.
- Needs Group 3.
- Needs Group 4.
- Needs Group 5 (this only applies to Residential Habilitation settings)

Participants can receive two categories of Respite services in private homes (excluding Life Sharing provided in private homes): Day respite and 15-minute respite. Day respite in private homes must be provided for periods of more than 16 hours, and is billed using a daily unit. 15-minute respite in private homes is provided for periods of 16 hours or less, and is billed using a 15-minute unit.

Participants may not be authorized for 15-minute unit respite provided in Residential Habilitation settings, Life Sharing settings, private ICFs/ID and licensed nursing homes. Day respite is the only type of Respite allowable to be provided in these settings. Day respite authorized in these settings must be provided for periods of more than 8 hours.

Room and board costs are included in the fee schedule rate solely for Respite provided in a licensed residential setting. For this reason, there may not be a charge for room and board to the participant for Respite that is provided in a licensed residential setting. There may not be a charge to the participant for room and board in camp settings that are licensed or accredited. The waiver will reimburse the room and board fee charged to the general public if the

camp is licensed or accredited. The camp should provide separate documentation of the service cost and the room and board component based on the accreditation or certification standard for the camp.

Participants authorized to receive 15-minute unit Respite services may not receive the direct portion of the following services at the same time: Community Participation Support; Small Group Employment; Supported Employment; Advanced Supported Employment; Education Support; Music, Art and Equine Assisted Therapy and Consultative Nutritional Services.

Participants authorized to receive Respite services (15-minute or Day) may not receive the following services at the same time: Companion, In-Home and Community Supports, and Shift Nursing.

Participants authorized to receive Supported Living may not be authorized to receive Respite services (15-minute or Day) during the same time period.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Respite services are limited to:

• 30 units of day respite per participant in a period of one fiscal year, and

• 1440 units of 15-minute unit respite per participant in a period of one fiscal year.

Requests for a variance to this limit may be made for participants who have behavioral or medical support needs or for emergency circumstances using the standard ODP variance process. A request for a variance to this limit may not be approved for Respite provided by a nurse unless there is an emergency circumstance involving a child with medical needs who meets the criteria described above. Ongoing nursing needs for children with medical needs are addressed through Medical Assistance Fee-for-Service or Physical Health Managed Care Organizations.

Children (under age 21) who have medical needs that require Respite by a nurse can request a variance when the following criteria are met:

• The child is authorized to receive less than 24 hours a day of nursing through private insurance or Medical Assistance;

And one of the following:

• The child requires administration of intravenous fluid or medication, which is specified in a written order by a licensed doctor of the healing arts; or

• The child uses monitoring, defibrillating or resuscitating equipment, or a combination of the three; or

• The child requires other skilled activities that must be provided by a nurse. A list of non-skilled activities that can be performed by professionals other than a nurse is available at

http://dhs.pa.gov/cs/groups/webcontent/documents/document/c_251202.pdf.

Any waiver participant age 21 or older who needs nursing services can receive this type of support through the Shift Nursing service.

Agency

Provider Qualifications

License (specify):

When Respite is provided in a residential or facility setting in Pennsylvania, proof of the following licensure must be provided when applicable:

• 55 Pa. Code Chapter 6400 when Respite is provided in Community Homes for people with intellectual disabilities;

• 55 Pa. Code Chapter 6500 when Respite is provided in Family Living Homes;

• 55 Pa. Code Chapter 3800 when Respite is provided in child residential homes;

• 55 Pa. Code Chapter 5310 when Respite is provided in licensed Community Residential Rehabilitation Services for the Mentally III Home;

• Licensed Intermediate Care Facilities for individuals with an Intellectual Disability (55 Pa. Code 6600) that are owned and operated by private agencies; or

• Licensed Nursing Homes (28 Pa. Code Chapters 201, 203, 205, 207, 209 and 211).

For children (under age 21) with medical needs who require Respite by a nurse, at least one staff person (direct, contracted, or in a consulting capacity) who provides enhanced levels of service must be a Registered Nurse (RN) or Licensed Practical Nurse (LPN) when the participant has been assessed to have medical needs that require a RN or LPN.

Certificate (*specify*):

Enhanced levels of service are based on the participant's behavioral or medical support needs. At least one staff (direct, contracted, or in a consulting capacity) providing enhanced levels of Respite must have one of the following professional credentials or degrees:

• NADD Competency-Based Clinical Certification;

- NADD Competency-Based Dual Diagnosis Certification;
- NADD Competency-Based Direct-Support Professional Certification;
- Registered Behavior Technician;
- Certified Nursing Assistant;
- Board Certified Assistant Behavior Analyst; or
- Bachelor's Degree or higher in Psychology, Special Education, Education, Counseling, Social Work, Gerontology or Therapeutic Recreation.

Other Standard (*specify*):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania, Washington DC, Virginia or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of the Respite service have automobile insurance.

7. Have documentation that all vehicles used in the provision of the Respite service have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant to carry out the service plan and medical plan which includes but is not limited to communication, mobility, behavioral and medical needs.

10. Comply with Department standards related to provider qualifications.

The provider must maintain documentation that staff (working for or contracted with the agency) meet the following requirements prior to rendering Respite services to participants with a medically complex condition:

1. Have a high school diploma or equivalent.

2. Have received training by a medical professional that is specific to the participant's medical needs prior to rendering the service on: a. Specialized equipment that is medically necessary for the health and safety of the participant including, but not limited to, ventilators, suction machines, other respiratory and oxygen supplying equipment, monitoring equipment, and equipment for mobility and transferring.

b. Nutritional, hydration, and special diet needs;

c. Fall prevention;

- d. Risk factors and monitoring for skin integrity;
- e. Risk factors and monitoring for urinary tract infections;
- f. Medical plan related to elimination assistance, urinary and bowel functioning; and

g. Appropriate age and developmental needs of the child.

Staff working for or contracted with the agency as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in service training based on the service plan.

3. Have at least a high school diploma for participants authorized to receive 2:1 enhanced Respite. The other staff member must meet the requirements in the certificate section.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the

following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

5. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

6. Have a valid driver's license if the operation of a vehicle is necessary to provide Respite services.

Verification of Provider Qualifications

Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Category 2:	Sub-Category 2:
03 Supported Employment	03021 ongoing supported employment, individual
Category 3:	Sub-Category 3:
03 Supported Employment	03030 career planning
ervice Definition (Scope):	
Category 4:	Sub-Category 4:

Supported Employment services are direct and indirect services that are provided in a variety of community settings for the purposes of supporting participants in obtaining and sustaining competitive integrated employment. Supported Employment teleservices may be provided in accordance with the requirements in the Additional Needed Information Section of the Main Module. Competitive integrated employment refers to full or part-time work at minimum wage or higher, with wages and benefits similar to workers without disabilities performing the same work, and fully integrated with coworkers without disabilities.

Supported Employment services include activities such as training and additional supports including worksite orientation, job aide development, coordination of accommodations, assisting participants with contacting relevant agencies and obtaining documents needed to access employment supports and services that educate participants on the impact of employment on current benefits, and ensuring assistive technology that may be needed by the participant to obtain and sustain competitive integrated employment is utilized as specified in the plan. Payment will be made only for the training and supports required by the participant and will not include payment for the training or supervisory activities that should be rendered as a normal part of the job.

Federal Financial Participation through the Waiver may not be claimed for incentive payments, subsidies, or unrelated vocational expenses such as the following:

• Incentive payments made to an employer of participants receiving services to encourage or subsidize the employer's participation in a supported employment program;

• Payments that are passed through to participants receiving Supported Employment; or

• Payments for vocational training that are not directly related to a participant's Supported Employment program.

Supported Employment services consist of three components: career assessment, job finding or development, and job coaching and support.

CAREER ASSESSMENT

Career assessment is a person-centered, individualized employment assessment used to assist in the identification of potential career options, including self-employment, based upon the interests and strengths of the participant. Career assessment may include discovery activities and may be provided within a variety of settings including Life Sharing or Supported Living settings when identified as a need in the service plan or vocational facilities and adult training facilities when these facilities are where the person's employment or volunteer experience occurred that is being assessed and when identified as a need in the service plan. Career assessment activities, on average, should be authorized no longer than 6 consecutive months and should result in the development of a career assessment report. When a participant requires career assessment activities in excess of 6 consecutive months, an explanation of why the activities are needed for an extended period of time should be included in the service plan.

Career assessment includes:

• Gathering and conducting a review of the participant's interests, skills, and work or volunteer history.

• Conducting situational assessments to assess the participant's interest and aptitude in a particular type of job.

- Conducting informational interviews.
- Identifying types of jobs in the community that match the participant's interests, strengths and skills.

• Developing a career assessment report that specifies recommendations regarding the participant's needs, interests, strengths, and characteristics of potential work environments. The career assessment report must also specify training or skills development necessary to achieve the participant's career goals.

JOB FINDING OR DEVELOPMENT

Job finding or development includes employer outreach and orientation, job searching, job development, resume preparation and interview assistance. Other activities may include participation in individual planning for employment, development of job-seeking skills, development of job skills specific to a job being sought, job analysis, consulting with the Office of Vocational Rehabilitation (OVR), benefits counseling agencies, or Ticket to Work employment networks on behalf of a participant, or self-employment assistance. Job finding or development may be provided in a variety of settings including Life Sharing or Supported Living settings when identified as a need in the service plan. The direct portion of job finding or development may not be provided in a vocational facility or adult training facility.

Job finding or development may include customized job development. Customized job development means individualizing the employment relationship between employees and employers in a way that matches the needs of the employer with the assessed strengths, skills, needs, and interests of the participant, either through task reassignment, job carving, or job sharing. Job finding or development may also include negotiating the conditions for successful employment with a prospective employer including tasks, wages, hours and support.

JOB COACHING AND SUPPORT

Job coaching and support consists of training the participant on job assignments, periodic follow-up, or ongoing support with participants and their employers. This may include systematic instruction. The service must be necessary for participants to maintain acceptable job performance and work habits, including assistance in learning new work assignments, maintaining job skills, and achieving performance expectations of the employer. Other examples of activities include direct intervention with an employer, employment-related personal skills instruction, support to re-learn job tasks, training to assist participants in using transportation to and from work, worksite orientation, job aide development, coordination of accommodations, ensuring assistive technology is utilized as specified in the plan, maintenance of appropriate work and interpersonal behaviors on the job, follow-along services at the work site after OVR-funded services are discontinued or OVR referral requirements are satisfied, and technical assistance and instruction for the participant's coworkers that will enable peer support.

Job coaching and support may not be provided in a vocational facility, adult training facility, Child Residential and Day Treatment Facilities (55 Pa. Code Chapter 3800), Community Residential Rehabilitation Services for the Mentally III residential programs (55 Pa. Code Chapter 5310) or any licensed or unlicensed home that provides residential habilitation services funded by ODP.

As part of a participant's ongoing use of job coaching and support, the provider will develop a fading plan or fading schedule within 6 months of the first day of service delivery. The fading plan or fading schedule will address how use of this service will decrease as the participant's productivity and independence on the job increases and as unpaid supports through coworkers and other on-the-job resources are developed. Ongoing use of job coaching and support is limited to providing supports for participants not otherwise available through the employer such as support offered through regular supervisory channels, reasonable accommodation required under the Americans with Disabilities Act, available and appropriate natural supports, or on-the-job resources available to employees who do not have a disability.

Career assessment and job finding or development may be provided at the following levels: • Basic - The provision of the service at a staff-to-individual ratio of 1:1.

Job coaching and support may be provided at the following levels:

• Basic - The provision of the service at a staff-to-individual ratio range of 1:2.

• Level 1 - The provision of the service at a staff-to-individual ratio of 1:1.

Supported Employment services may not be rendered under the Waiver until it has been verified that: • The services are not available in the student's (if applicable) complete and approved Individualized Education Program (IEP) developed pursuant to IDEA;

• OVR has closed the participant's case or has stopped providing services to the participant;

• The participant is determined ineligible for OVR services; or

• It has been determined that OVR services are not available. If OVR has not made an eligibility determination within 120 days of the referral being sent or a participant has received an offer of competitive integrated employment prior to OVR making an eligibility determination, then OVR services are considered to not be available to the participant.

A participant does not need to be referred to OVR if:

• The participant is competitively employed and solely needs extended supports to maintain the participant's current job.

• The participant is competitively employed and is seeking job assessment or job finding services to find a new job, unless the purpose is job advancement which can be provided by OVR.

In the event that OVR closes the order of selection, the following process will be followed from the effective date until the closure is lifted:

• A participant who has been referred to OVR, but does not have an approved Individualized Plan for Employment (IPE) may receive Supported Employment.

• A participant who has not been referred to OVR may receive Supported Employment without a referral to OVR.

Documentation referenced above must be maintained in the file of each participant receiving Supported Employment services.

It is not allowable for providers of Supported Employment services to also be the employer of the participant to whom they provide Supported Employment services.

Behavioral Support may be provided at the same time as Supported Employment if the need is documented in the service plan.

The direct portion of Supported Employment may not be provided at the same time as any of the following: In-Home and Community Support; Community Participation Support; 15-minute unit Respite; Small Group Employment; Benefits Counseling; Transportation; Therapies; Education Support; Music, Art and Equine Assisted Therapy and Consultative Nutritional Services. Transportation costs associated with driving the participant to and from activities related to Supported Employment are included in the rate for this service. As such, providers of Supported Employment services are responsible for any needed transportation of the participant to complete Supported Employment activities, with the exception of driving the participant to his or her place of employment.

Companion services may be provided at the same time as Supported Employment for the purpose of supporting the participant with non-skilled activities, supervision, and/or incidental personal care that cannot, or would be inappropriate to, be provided with the support from coworkers or other natural supports and is outside the scope of the Supported Employment service. Documentation must be maintained in the service plan about the methods that were considered and/or tried to support the non-skilled activities, supervision, and/or incidental personal care at the job site before it was determined that Companion services were necessary to enable the participant to sustain competitive integrated employment.

Participants authorized to receive Supported Employment services may not be authorized to receive Advanced Supported Employment.

Supported Employment services can be delivered in Pennsylvania and in states contiguous to Pennsylvania. The direct portion of this service may be delivered in any state when a participant is traveling out of state for work-related trips such as for training, conferences, or business trips.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

When Supported Employment services are not provided with any other employment service (Small Group Employment, Advanced Supported Employment or Community Participation Support) and the participant is not competitively employed, the hours of authorized Supported Employment cannot exceed 40 hours (160 15-minute units) per participant per calendar week based on a 52-week year.

When Supported Employment services are provided in conjunction with Community Participation Support and/or Small Group Employment the total number of hours for these services (whether utilized alone or in conjunction with one another) cannot exceed 50 hours (200 15-minute units) per participant per calendar week based on a 52-week year.

When the participant is competitively employed, the total number of hours for Supported Employment, Community Participation Support and/or Small Group Employment (whether utilized alone or in conjunction with one another) cannot exceed 50 hours (200 15-minute units) per participant per calendar week based on a 52-week year.

Service Type: Statutory Service Service Name: Supported Employment

Provider Category: Agency Provider Type:

Agency

Provider Qualifications

License (specify):

Certificate (specify):

Staff working directly with the participant must have one of the following within 9 months of hire if hired after 1/1/19:

• Hold a Certified Employment Support Professional (CESP) credential from the Association of People Supporting Employment First (APSE); or

• Have been awarded a Basic Employment Services Certificate of Achievement or a Professional Certificate of Achievement in Employment Services from an Association of Community Rehabilitation Educators (ACRE) organizational member that has ACRE-approved training.

Newly hired staff who do not have the required certification when hired must work under the supervision or mentorship of someone who is certified. This can occur no longer than nine months from the date of hire to allow the new staff time to obtain the certification.

Other Standard (*specify*):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of the Supported Employment have automobile insurance.

7. Have documentation that all vehicles used in the provision of the Supported Employment service have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant to carry out the service plan such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

4. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Supported Employment services.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Be at least 18 years of age.

6. Complete necessary pre/in-service training based on the service plan.

7. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

8. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

9. Have documentation that all vehicles used in the provision of the Supported Employment service have automobile insurance.

10. Have documentation that all vehicles used in the provision of the Supported Employment service have current State motor vehicle registration and inspection.

11. Have a valid driver's license if the operation of a vehicle is necessary to provide Supported Employment services.

12. Have Workers' Compensation Insurance in accordance with state law.

13. Be trained to meet the needs of the participant to carry out the service plan such as with communication, mobility and behavioral needs.

14. Comply with Department standards related to provider qualifications.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Service Definition (Scope):	
Category 4:	Sub-Category 4:

Supports Coordination is a critical service that involves the primary functions of locating, coordinating, and monitoring needed services and supports for participants. This includes locating, coordinating and monitoring needed services and supports when a participant is admitted to a nursing home for less than 30 days or an acute care hospital for any duration of time.

The most important element of quality support coordination is building relationships. When strong relationships are developed the quality of supports and services improves. Building relationships is not a separate and distinct activity; it is integral to each function the support coordinator performs.

Locating services and supports consists of assistance to the participant and their family in linking, arranging for, and obtaining services specified in the service plan, including resources in the community, competitive integrated employment, needed medical, social, habilitation, and participant direction opportunities.

Activities under the locating function include all of the following, as well as the documentation of the activities: • Assist the participant in choosing people to be part of the service plan team;

• Assist the participant to invite other people of the participant's choice who may contribute valuable information during the planning process;

• Engage in meaningful conversations with the participant and their family, providers and others who provide support to develop, update, and implement the service plan;

• Link support needs of the participant and their family identified in the service plan with resources in the community;

• Research existing and identify new resources in the community;

• Gather and share information with which to identify needs and concerns and build partnerships in support of the participant and their family;

• Inform participants, their families and other caregivers about the use of unpaid, informal, generic, and specialized services and supports that are necessary to address the identified needs of the participant and to achieve the outcomes specified in the service plan;

• Assist the participant and their family in identifying and choosing willing and qualified providers;

• Make referrals to providers (unpaid or paid) with information and follow-up support;

• Participate in the ODP standardized needs assessment process to inform development of the service plan, including any necessary service plan updates;

• Facilitate the completion of additional assessments, based on participants' strengths, needs and preferences for planning purposes and service plan development;

• Provide participants and their families with information on competitive integrated employment during the planning process and upon the participant's or family's request;

• Provide participants and their families or other caregivers with the standard ODP information about participant direction, an explanation of the options and the contact information for the Financial Management Services provider;

• Provide participants and their families or other caregivers with information on participant direction opportunities, including the potential benefits, responsibilities and risks associated with directing services, during the planning process and upon request;

• Provide information to participants and their families on fair hearing rights, explain what the fair hearing process entails, and assist with fair hearing requests when needed and upon request.

Coordinating consists of development and ongoing management of the service plan in cooperation with the participant, their family, and members of the service plan team. Activities under the coordinating function include all of the following, as well as the documentation of the activities:

• Use a person centered planning approach and a team process to develop the participant's service plan to promote community integration and to meet the participant's needs in the least restrictive manner;

• Review and update the participant's service plan annually;

• Revise the participant's service plan when there is a change in need or at the request of the participant and their family;

• Work with the authorizing entity regarding the authorization of services on an ongoing basis and when issues are identified regarding requested services;

• Use information from the life course framework that helps lead to the good life that the participant and their family envision and assist with the development of the participant's service plan, including any updates to the service plan;

• Use information from the ODP standardized needs assessment, as well as any additional assessments completed to develop the service plan to ensure the service plan addresses all of the participant's needs;

• Periodic review of the service plan with the participant, their family, and/or members of the service plan team;

• Periodic review of the standardized needs assessment with the participant and their family, at least annually or more frequently based on changes in a participant's needs, to ensure the assessment is current;

• Coordinate service plan planning with providers of service and other entities, resources and programs as necessary to ensure all areas of the participant's needs are addressed;

• Collaborate with family, friends, and other community members to facilitate coordination of a relationship based the participant's support network and develop supporting partnerships in order for the participant to pursue their vision of a good life;

• Coordinate meetings with participant and their family with other participants and their family receiving services from the providers under consideration and who would be willing to give consent to share their experiences about those providers;

• Coordinate meetings between the participant and their family members and provider management staff to discuss provider practices in delivering services;

• Coordinate the resolution of barriers to service delivery and accomplishments of outcomes in the service plan;

• Distribute information to participants, their family and others who are responsible for planning and implementation of services and support; and

• Assist with the transition to the participant direction service delivery model if the participant is interested in this model, and ensure continuity of services during transition.

Monitoring consists of ongoing contact with the participant and their family, to ensure services are implemented as per the service plan. Monitoring is intended to ensure that participants and his or her family are getting the support they need, when they need them, in order to see measurable improvements in their lives. Activities under the monitoring function include all of the following, as well as the documentation of the activities:

• Monitor the health and welfare of participants through regular contacts at the minimum frequency outlined in Appendix D-2-a of this Waiver or increased monitoring frequency based on the need of the participant. Monitoring the health and welfare of participants includes the review of information in health risk screening tools and assessments, when applicable, or whether there have been any changes in orders, plans or medical interventions prescribed or recommended by medical or behavioral professionals and whether those changes are being implemented;

• Monitor service plan implementation through monitoring visits with the participant, at the minimum frequency outlined in Appendix D-2-a of this Waiver or increased monitoring frequency based on the need of the participant;

• Visit with the participant and their family, and providers of service for monitoring of health and welfare and service plan implementation;

• Respond to and assess emergency situations and incidents and assure that actions taken are appropriate and timely in order to protect the health and welfare of participants;

• Review participant progress on outcomes and initiate service plan team discussions or meetings when services are not achieving desired outcomes;

• Monitor the participant's and their family's satisfaction with services;

• Arrange for modifications in services and service delivery, as necessary to address the needs of the participant, and modify the service plan accordingly;

• Ensure that services are identified in the service plan;

• Communicate the authorization status to service plan team members, as appropriate;

• Validate that service objectives and outcomes are consistent with the participant's needs and desired outcomes;

• Advocate for continuity of services, system flexibility and community integration, proper utilization of facilities and resources, accessibility, and participant rights; and

• Participate in activities related to Independent Monitoring for Quality, such as obtaining consent to participate from the participant, preparing survey information, and follow up activities ("closing the loop") and other activities as identified by ODP.

Supports Coordination teleservices may be used for locating, coordinating and monitoring activities when all of the following are met:

• Service delivery complies with the requirements in the service definition, ODP policies and regulations,

• Teleservices must be provided by means that allow for live two-way communication with the participant, no recording of the interaction shall be captured,

• Teleservices via video communication devices in bathrooms is prohibited,

• Teleservices via video communication devices in bedrooms may only occur when all of the following are met: o The participant has chosen to receive teleservices in their bedroom due to a medical condition which makes it difficult or impossible for them to leave their bedroom to receive services in another room in the house, or the participant would like privacy from others in the home during receipt of services;

o The participant turns the video communication device on and off themselves or requests assistance in turning the video communication device on and off; and

o Teleservices will not be performed as part of any activity during which privacy would generally be expected (while a participant is in a state of undress, during sexual activities, etc.).

Additional requirements for monitoring participants using teleservices outlined in Appendix D-2-a must be followed.

During temporary travel Supports Coordination may be provided in Pennsylvania or other locations as per the ODP travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The following activities are excluded from Supports Coordination as a billable Waiver service: • Intake for purposes of determining whether a participant has an intellectual disability, autism and/or developmental disabilities and qualifies for Medical Assistance;

• Conducting Medicaid eligibility certification or recertification, intake processing, Medicaid pre-admission screening for inpatient care, prior authorization for Medicaid services, and Medicaid outreach (methods to inform or persuade individuals to enter into care through the Medicaid system);

• Any function that is delegated to the Supports Coordination Organization by an Administrative Entity;

• Direct Prevention Services, which are used to reduce the probability of the occurrence of an intellectual disability resulting from social, emotional, intellectual, or biological disorders;

• Travel time incurred by the Supports Coordinator may not be billed as a discrete unit of service;

• Services otherwise available under the MA State Plan and other programs;

• Services that constitute the administration of foster care programs;

• Services that constitute the administration of another non-medical program such as child welfare or child protective services, parole and probation functions, legal services, public guardianship, and special education;

• Direct delivery of medical, educational, social, or other services;

• Delivery of medical treatment and other specialized services including physical or psychological examinations or evaluations;

• The actual cost of the direct services other than Supports Coordination that the Supports Coordinator links, arranges, or obtains on behalf of the participant;

• Transportation provided to participants to gain access to medical appointments or direct Waiver services other than Supports Coordination;

• Direct Representative payee functions; and

• Activities that occur from the point of a participant's date of death and forward.

Supports Coordination services may not duplicate other direct Waiver services.

Service Type: Statutory Service Service Name: Supports Coordination

Provider Category: Agency

Provider Type:

Supports Coordination Organization

Provider Qualifications

License (specify):

Certificate (specify):

Other Standard (*specify*):

Supports Coordination Organizations must meet the following standards during the initial qualification process or whenever a new Executive Director is hired:

1. The Executive Director must have five years of professional level experience in the field of disability services, including three years of administrative, supervisory, or consultative work; and a bachelor's degree.

2. The Executive Director must have knowledge of ODP's intellectual disability and autism service system.

Supports Coordination Organizations must meet the following standards during the initial and ongoing qualification process:

1. Have a waiver service location in Pennsylvania.

2. Function as a conflict-free entity. A conflict-free SCO, for purposes of this service definition, is an independent, separate, or self-contained agency that does not have a fiduciary relationship with an agency providing direct services and is not part of a larger corporation. To be conflict free, an SCO may not provide direct or indirect services to participants. The following are considered direct and indirect services:

Direct Services:

• All intellectual disability services provided to base-funded individuals and waiver participants with the exception of Waiver Supports Coordination, Targeted Support Management and State-funded Case Management as well as transportation and ICF/ID services where the SCO shares a Federal Employer Identification Number (FEIN) with the provider.

Indirect Services:

• All services related to Health Care Quality Units, Independent Monitoring Teams, Financial Management Service Providers/Organizations for Waiver participants, and the Statewide Needs Assessment with the exception of Family Driven Support Service funds and the administration of Money Follows the Person (MFP) as approved by CMS.

An SCO may become an Organized Health Care Delivery System (OHCDS) for any vendor service authorized in the participant's ISP. A participant's SCO may not own or operate providers of vendor services with which it is acting as an OHCDS. SCOs must enroll and qualify as an OHCDS and comply with all requirements regarding OHCDS in Appendix I-3-g-ii of the current approved Waivers, as well as 55 Pa. Code § 6100.803.

3. Have conflict of interest disclosure statements that address unbiased decision making by the SCO, managers and staff.

4. Have a Board composed of a maximum of 49% of members who have a business or fiduciary relationship with a direct provider of Consolidated, P/FDS, Community Living or ID Base Services other than Supports Coordination or Targeted Service Management.

5. Have a written conflict of interest policy for their Board of Directors and employees.

6. Have an annual training plan to improve the knowledge, skills and core competencies of SCO personnel.

7. Personnel must be employees of the SCO.

• Only under extraordinary circumstances can an SCO contract with an agency to provide temporary SC services and must have ODP prior approval.

8. Each SC Supervisor can supervise a maximum of seven Supports Coordinators.

9. Have designated SCO personnel for claim submission, reconciliation of claims, and management of

denied claims.

10. Meet the requirements for operating a not-for-profit, profit, or governmental organization in Pennsylvania.

11. Have current State motor vehicle registration and inspection for all vehicles owned, leased, and/or hired and used as a component of the Supports Coordination service.

12. Have automobile insurance for all automobiles owned, leased, and/or hired and used as a component of the Supports Coordination service.

13. Have Commercial General Liability Insurance or provide evidence of self-insurance as specified by insurance standards.

14. Have Workers' Compensation Insurance in accordance with state law.

15. Have sufficient SCO personnel to carry out all functions to operate.

16. Comply with and meet all standards of ODP's SCO oversight process including:

• Overall compliance score of 86% or higher, and

• Comply with ODP's Corrective Action Plan and Directed Corrective Action Plan process.

17. Ensure 24-hour access to SCO personnel (via direct employees or a contract) for response to emergency situations that are related to the Supports Coordination service or other waiver services.

18. Have the ability to utilize ODP's Information System to document and perform Supports Coordination activities.

19. Cooperate with and assist, as needed, ODP and any state and federal agency charged with the duty of identifying, investigating, sanctioning, or prosecuting Medicaid fraud and abuse.

20. Cooperate with Health Care Quality Units, independent monitoring teams, and other external monitoring conducted by ODP's designees.

21. Participate in established AE forums to address risk management, systemic issues and provider viability concerns.

22. Comply with HIPAA.

23. Annually submit to ODP the most recent financial statement that has been audited by an independent Certified Public Accountant.

24. Comply with Department standards related to SCO qualification and enrollment.

Minimum Qualifications for SC Supervisors:

1. Must have knowledge of Pennsylvania's intellectual disability and autism service system which includes successful completion of:

• Person-Centered Thinking training

• Person-Centered Planning training

2. Must meet the following educational and experience requirements:

• A bachelor's degree with a major coursework in sociology, social work, psychology, gerontology, criminal justice or other related social sciences; and two years' experience as a Supports Coordinator; or

• Have a combination of experience and education of at least six years of experience in developmental disabilities, special education, mental health, counseling, guidance, social work or health and

rehabilitative services; and at least 12 college-level credit hours in sociology, social work, psychology, gerontology or other related social science.

3. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

4. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Support Coordination services.

6. Complete a minimum of 24 hours of training each year.

Minimum Qualifications for Supports Coordinators:

1. Meet the following minimum educational and experience requirements:

• A bachelor's degree, which includes or is supplemented by at least 12 college credits in sociology, social welfare, psychology, gerontology, criminal justice, or other related social science; or

• Two years' experience as a County Social Service Aide 3 and two years of college level course work, which include at least 12 college credits in sociology, social welfare, psychology, gerontology, criminal justice, or other related social service; or

• Any equivalent combination of experience and training which includes 12 college credits in sociology, social work, psychology, gerontology, criminal justice, or other related social service and one year of experience as a County Social Services Aide 3 or similar position performing paraprofessional case management functions; or

• A combination of 12 college credits in sociology, social work, psychology, gerontology, criminal justice, or other related social science and two years professional experience in developmental disabilities, special education, mental health, counseling psychology, school psychology, social work or health and rehabilitative services.

2. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

- •The nature of the crime;
- •Facts surrounding the conviction;
- •Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

3. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

4. Have a valid driver's license if the operation of a vehicle is necessary to provide Support Coordination services.

5. Newly hired Supports Coordinators will successfully complete ODP required SC Orientation Curriculum.

6. Complete a minimum of 24 hours of training a year.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:	
Statutory Service	
Service:	
Residential Habilitation	
Alternate Service Title (if any):	
Unlicensed Residential Habilitation	

HCBS Taxonomy:

Category 1:	Sub-Category 1:
02 Round-the-Clock Services	02011 group living, residential habilitation
Category 2:	Sub-Category 2:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Residential Habilitation services are direct and indirect services provided to participants who live in unlicensed provider owned, rented or leased residential settings. This service is built on the principle that every participant has the capacity to engage in lifelong learning. As such, through the provision of this service, participants will acquire, maintain, or improve skills necessary to live in the community, to live more independently, and to participate meaningfully in community life. To the extent that Residential Habilitation is provided in community settings outside of the residence, the settings must be inclusive rather than segregated.

Services consist of assistance, support and guidance (physical assistance, instruction, prompting, modeling, and positive reinforcement) in the general areas of self-care, health maintenance, decision making, home management, managing personal resources, communication, mobility and transportation, relationship development and socialization, personal adjustment, participating in community functions and activities and use of community resources.

The type and amount of assistance, support and guidance are informed by the assessed need for physical, psychological and emotional assistance established through the assessment (including the Health Risk Screening Tool) and person-centered planning processes. The type and amount of assistance are delivered to enhance the autonomy of the participant, in line with the participant's personal preferences and to achieve their desired outcomes. Residential Habilitation services are often the primary residence of the participant and as such, it is their home. Respect for personal routines, rhythms, rights, independence, privacy and personalization are intrinsic to the service as is access to experiences and opportunities for personal growth.

The Residential Habilitation provider must provide the level of services necessary to enable the participant to meet habilitation outcomes. This includes ensuring assistance, support and guidance (which includes prompting, instruction, modeling and reinforcement) will be provided as needed to enable the participant to: 1. Carry out activities of daily living such as personal grooming and hygiene, dressing, making meals and maintaining a clean environment.

2. Develop and maintain positive interactions and relationships with residents of one home and share meals and activities, as appropriate.

3. Learn and develop practices that promote good health and wellness such as nutritious meal planning, regular exercise, carrying through prescribed therapies and exercises, awareness and avoidance of risk including environmental risks, exploitation or abuse; responding to emergencies in the home and community such as fire or injury; knowing how and when to seek assistance.

4. Manage or participate in the management of their medical care including scheduling and attending medical appointments, filling prescriptions, self-administration of medications, and keeping health logs and records.

5. Manage their mental health diagnosis and emotional wellness including self-management of emotions such as disappointment, frustration, anxiety, anger, and depression; applying trauma informed care principles and practices and accessing mental health services. The service should include: a comprehensive behavior assessment; design, development and updates to a behavior support plan that includes positive practices and least restrictive interventions; development of a Crisis Intervention Plan; and implementation of the behavior support plan, Crisis Intervention Plan and/or the skill building plan which involve collecting and recording the data necessary to evaluate progress and the need for plan revisions.

6. Participate in the development and implementation of the service plan and direct the person-centered planning process including identifying who should attend and what the desired outcomes are.

7. Make decisions including identifying options/choices and evaluating options/choices against a set of personal preferences and desired outcomes. This includes assistance with identifying supports available within the community.

8. Achieve financial stability through managing personal resources, general banking and balancing accounts, record keeping and managing savings accounts and programs such as ABLE accounts.

9. Communicate with providers, caregivers, family members, friends and others face-to-face and through the use of the telephone, correspondence, the internet, and social media. The service may require knowledge and use of sign

language or interpretation for individuals whose primary language is not English.

10. Use a range of transportation options including buses, trains, cab services, driving, and joining car pools, etc. The Residential Habilitation provider is responsible for providing transportation to activities related to health, community involvement and the service plan. The Residential Habilitation provider is not responsible for transportation for which another provider is responsible.

11. Reside in the same home to develop and manage relationships as appropriate, share responsibilities for routines such as preparing meals, eating together, carrying out routine home maintenance such as light cleaning, planning and scheduling shared recreational activities and other typical household routines, resolving differences and negotiating solutions.

12. Develop and maintain relationships with members of the broader community and to manage problematic relationships.

13. Exercise rights as a citizen and fulfill their civic responsibilities such as voting and serving on juries; attending public community meetings; to participate in community projects and events with volunteer associations and groups; to serve on public and private boards, advisory groups, and commissions, as well as develop confidence and skills to enhance their contributions to the community.

14. Develop personal interests, such as hobbies, appreciation of music, and other experiences the participant enjoys or may wish to discover.

15. Participate in preferred activities of community life such as shopping, going to restaurants, museums, movies, concerts, dances and faith based services.

The Residential Habilitation provider is also responsible for providing physical health maintenance services including those required by a licensed nurse when required to assure health and wellness or as required in the service plan.

When a participant's rights as specified in 55 Pa. Code §§ 6100.182 and 6100.183 are modified, the modification must be supported by a specific assessed need, agreed upon by the service plan team and justified in the service plan. When any participant rights are modified due to requirements in a court order, the modification must still be included in the service plan and the plan must be implemented. Because the origin of the rights modification is a court order, team agreement is not a requirement for implementation of the modification. Decisions made in the provision of Residential Habilitation services to participants under the age of 18 that mimic typical parental decisions, such as bedtime, nutrition, etc. do not rise to the level of a modification based on an assessed need, and do not need to be documented in the service plan.

The residential habilitation setting must be located in Pennsylvania, and must be the following eligible setting: 1. Unlicensed Residential Habilitation: Residential Habilitation may be provided to participants who live in unlicensed provider-owned, rented or leased settings. The 55 Pa. Code §6400.3(f)(7) licensing regulations exclude community homes that serve 3 or fewer individuals with an intellectual disability or autism 18 years of age or older who need a yearly average of 30 hours or less of direct staff contact per week per home.

Unlicensed homes shall not exceed a program capacity of 3. A setting that is a duplex, two bi-level units and two side-by-side apartments enrolled to provide waiver services on or after the effective date of 55 Pa. Code Chapter 6100 regulations shall not exceed a program capacity of 4 in both units.

Room and board is not included in the rate for the Residential Habilitation service. Residential Habilitation providers should collect room and board payments in accordance with regulatory requirements.

During temporary travel this service may be provided in Pennsylvania or other locations as per the ODP travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Supplemental Habilitation may be delivered in an acute care hospital in accordance with Section 1902(h) of the Social Security Act, when the services are:

• Identified in the participant's service plan;

• Provided to meet needs of the participant that are not met through the provision of hospital services;

• Designed to ensure smooth transitions between the hospital and home and community-based settings, and to preserve the participant's functional abilities; and

• Not a substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or state law, or under another applicable requirement.

This service can only be provided in an acute care hospital setting to assist the participant with one or more of the following:

• Communication;

- Intensive personal care; or
- Behavioral support/stabilization as enumerated in the behavior support plan.

Participants authorized to receive Residential Habilitation services:

Participants authorized to receive Residential Habilitation/Life Sharing/Supported Living services: •May receive Remote Supports Equipment and Technology (procedure code W6087) to purchase or lease equipment or technology that will be used exclusively by a participant for the delivery of remote supports as a method of Residential Habilitation/Life Sharing/Supported Living service delivery. All items purchased through Remote Supports shall meet the applicable standards of manufacture, design, and installation. Items reimbursed with Waiver funds shall be in addition to any equipment or supplies provided under the MA State Plan. Excluded are those items that are not of direct medical or remedial benefit to the participant, or are primarily for a recreational or diversionary nature. Items designed for general use shall only be covered to the extent necessary to meet the participant's needs and be for the primary use of the participant.

• May not be authorized to receive Supports Broker services unless the participant has a plan to self-direct services through a participant-directed services model in a private home.

The following may not be authorized for participants who receive Residential Habilitation services: Life Sharing; Supported Living; Respite (15-minute or Day); Homemaker/Chore; In-Home and Community Supports; Consultative Nutritional Services; Specialized Supplies; Participant Directed Goods and Services and Home or Vehicle Accessibility Adaptations. Transportation is included in the Residential Habilitation rate and may not be billed as a discrete service, unless the transportation is to or from a job that meets the definition of competitive integrated employment and that need is documented in the service plan. The Residential Habilitation rate will also include Behavioral Support. Behavioral Support may only be authorized as a discrete service when it is used to support a participant to access Community Participation Support or to maintain employment when provided at the participant's place of employment. Communication Specialist and Shift Nursing can only be authorized in limited circumstances; reference those service definitions for the exceptions. Companion services may only be authorized as a discrete service when it is used to support a participant in-person at their place of community integrated employment in alignment with the Companion service definition.

All settings must be integrated and dispersed in the community in noncontiguous locations and may not be located on campus settings. To meet this requirement, the location of each setting must be separate from any other ODP-funded residential setting and must be dispersed in the community and not surrounded by, other ODP-funded residential settings. Settings that share only one common party wall are not considered contiguous. Settings should be located in the community and surrounded by the general public. New settings or changes to existing settings must be approved by ODP or its designee utilizing ODP's criteria. Residential Habilitation may not be provided in a home enrolled on or after the effective date of 55 Pa. Code Chapter 6100 regulations that is adjacent to any of the following regardless of the funding source of the individuals served:

•Licensed public and private (ICF/ID) (55 Pa. Code Chapter 6600) or ICF/ORC.

•Licensed Personal Care Homes (55 Pa. Code Chapter §2600).

•Licensed Assisted Living Residences (55 pa. Code Chapter §2800).

•Licensed Adult Training Facilities (55 Pa. Code Chapter 2380).

•Licensed Vocational Facilities (55 Pa. Code Chapter 2390).

•Licensed Older Adult Daily Living Centers (6 Pa. Code Chapter 11).

Exceptions are allowed for Residential Service locations to share one common party wall with one other Residential

Service location funded through ODP's waivers in the form of a duplex, two bi-level units, and two side-by-side apartments. This exception does not extend to Residential Service locations that are not funded through ODP's waivers.

Settings enrolled on or after the effective date of the Chapter 6100 regulations shall not be located in any development or building where more than 25% of the apartments, condominiums or townhouses have waiver funded Residential Habilitation, Life Sharing or Supported Living being provided.

Provider Qualifications

License (specify):

Certificate (specify):

SUPPORTIVE TECHNOLOGY PROFESSIONAL

When rendering remote support services to participants, the Residential Habilitation provider must have a supportive technology professional (direct, contracted, or in a consulting capacity) available who has either a current Assistive Technology Professional certificate from Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) or Enabling Technology Integration Specialist SHIFT certification. The supportive technology professional is responsible for the following as part of the Residential Habilitation service:

1. Completion of evaluations of participants' assistive technology needs, including a functional evaluation of the impact of appropriate remote supports.

2. Completion of an evaluation plan that, at a minimum, includes: the need(s) of the participant that will be met by the remote supports how the remote supports will ensure the participant's health, welfare and independence; the training needed to successfully utilize the technology and the back-up plan that will be implemented should there be a problem with the remote supports.

3. Informing the participant, and anyone identified by the participant, of what impact the remote supports will have on the participant's privacy. This information must be provided to the participant in a form of communication reasonable calculated to be understood by the individual. This process must be completed prior to the utilization of remote supports, and any time there is a change to the remote supports including technology devices utilized.

4. Ensuring that the remote supports technology is in good working order.

This information will be provided to the participant and service plan team for discussion and inclusion of the remote supports in the service plan.

PROGRAM SPECIALIST

The program specialist shall have 1 of the following:

1.Master's degree or above from an accredited college or university & 1 year work experience working directly with persons with an intellectual disability & or autism (ID/A).

2. Bachelor's degree from an accredited college or university & 2 years work experience working directly with persons an ID/A.

3. Associate's degree or 60 credit hours from an accredited college or university & 4 years work experience working directly with persons with an ID/A.

4. High school diploma or general education development certificate & 6 years work experience working directly with persons with an ID/A.

BEHAVIORAL SPECIALIST

The Residential Habilitation provider must have behavioral specialists (direct, contracted or in a consulting capacity) available who, as part of the service, complete assessments, develop and update Behavior Support Plans and Crisis Intervention Plans and train other agency staff. A Functional Behavioral Assessment and comprehensive behavioral support plan must be completed within 60 days of identification by the service plan team of a participant's need for assistance from a behavioral specialist. The behavioral specialist ensures behavior support provided includes positive practices & least restrictive interventions. Behavior support plans may not include chemical or mechanical restraints. The behavior support plan may not include physical restraints as behavioral interventions. Physical restraints may only be utilized in accordance with 55 Pa. Code §§6100.348 & 6100.349 in the case of an emergency or crisis to prevent a participant from immediate physical harm to the participant or others. Behavior support plans that include restrictive procedures must be approved by a human rights team prior to implementation. ODP expects that regardless of the number of providers supporting a participant, continuity of care will be maintained through ongoing team communication and collaboration. Ideally, there should be 1 behavior support plan for the participant that is integrated, comprehensive & incorporates support strategies for all environments. If there is more than 1 Behavioral Specialist, the behavior support plan can reflect joint authorship.

Behavioral specialists must meet the professional education or licensure criteria in one of the following three sets of requirements:

1. Master's Degree or higher in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology.

2. A Pennsylvania Behavior Specialist License.

3. A Bachelor's Degree and work under the supervision of a professional who has a Master's Degree in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology, or who is a licensed psychiatrist, psychologist, professional counselor, social worker (master's level or higher) or who has a Pennsylvania Behavior Specialist License.

In addition to the education and licensing criteria above, behavioral specialists must also meet the following standards:

1. Complete training in conducting and using a Functional Behavioral Assessment.

2. Complete training in positive behavioral support.

Other Standard (*specify*):

Agencies providing Unlicensed Residential Habilitation must meet the following standards: 1. Have a waiver service location in Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

3. Complete standard ODP required orientation and training.

4. Providers that wish to begin providing services must demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Providers that wish to begin providing services must successfully complete ODP's Provider Readiness Tool as determined by ODP or its designated managing entity.

6. Have Commercial General Liability Insurance.

7. Have documentation that all vehicles used in the provision of the Residential Habilitation service have automobile insurance.

8. Have documentation that all vehicles used in the provision of the Residential Habilitation service have current State motor vehicle registration and inspection.

9. Have Workers' Compensation Insurance, in accordance with state law.

10. At least one of the following must have experience working with individuals with an intellectual disability and/or autism and have a bachelor's degree:

- Executive Director,
- Chief Executive Officer,
- Chief Operations Officer, or
- Director, Assistant or Associate Director.

11. The organization must have a chief financial officer with 5 years' experience or evidence of contracted financial management services.

12. Have a person fill the role of Chief Executive Officer (CEO) at all times. The agency must have a written plan stating who will fill the role of the CEO should the current CEO leave his or her position.

13. In the case of an entity newly enrolled to provide Residential Habilitation services, or a current provider hiring new executive level staff, one of the following positions:

- Executive Director,
- Chief Executive Officer,
- Chief Operations Officer, or
- Director, Assistant or Associate Director.

must have a bachelor's degree & a minimum of 5 years' experience in an executive-level position relating to the provision of residential services to individuals with an intellectual disability, developmental disability, autism, and/or serious mental illness, with responsibility for all of the following:

- •Day-to-day residential agency operations;
- •Oversight of the development and implementation of residential agency-wide policies and procedures;
- •Supervision of management-level staff; and
- •Compliance with applicable state and federal regulations.

14. Notify the ODP Regional Office and Administrative Entity(ies) within 10 business days of the hiring date of a new CEO, including an interim or acting CEO.

15. Newly hired CEOs must complete the ODP approved Health Risk Screening Tool Orientation, Residential ISP Staffing training and Dual Diagnosis Training within 30 days of hire.

16. Employ program specialist(s) who are responsible for no more than 30 participants for this or any other service.

17. Have an organizational structure that assures adequate supervision of each residence and the availability of back up and emergency support 24 hours a day.

18. Ensure that Supports Coordination Organizations, Administrative Entities, and the Department have 24-hour access to residential habilitation senior management personnel (Executive Director, Chief Executive Officer, Chief Operations Officer or Director, Assistant or Associate Director) for response to emergency situations related to the provision of residential habilitation service.

19. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant to carry out the service plan which includes but is not limited to communication, mobility and behavioral needs.

20. Comply with Department standards related to provider qualifications.

Staff working for or contracting with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Complete a Department approved training on the common health conditions that may be associated with preventable deaths in people with an intellectual or developmental disability.

4. Have criminal history clearances per 35 P.S. §10225.101 et seq. and 6 Pa. Code Chapter 15. If the criminal history clearance results identify a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

- •The nature of the crime;
- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results identified a criminal record.

5. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

6. Have a valid driver's license if the operation of a vehicle is necessary to provide Residential Habilitation services.

Program specialists must meet the following standards:

1. Receive training which includes interpersonal dynamics, community participation, individual service planning and delivery, relationship building in addition to training required by licensing or agency policy.

2. Be at least 18 years of age.

3. Complete necessary pre/in-service training based on the service plan.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

- The nature of the crime;
- Facts surrounding the conviction;
- Time elapsed since the conviction;
- The evidence of the individual's rehabilitation; and
- The nature and requirements of the job.

Documentation of review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

5. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

6. Have a valid driver's license if the operation of a vehicle is necessary to provide Residential Habilitation services.

Therapy Services

HCBS Taxonomy:

Category 1:	Sub-Category 1:
11 Other Health and Therapeutic Services	11080 occupational therapy
Category 2:	Sub-Category 2:
11 Other Health and Therapeutic Services	11090 physical therapy
Category 3:	Sub-Category 3:
11 Other Health and Therapeutic Services	11100 speech, hearing, and language therapy
Service Definition (Scope):	
Category 4:	Sub-Category 4:
11 Other Health and Therapeutic Services	11130 other therapies

Therapy services include the following:

• Physical therapy based on a prescription for a specific therapy program by a physician.

• Occupational therapy based on a prescription for a specific therapy program by a physician.

• Speech/language therapy based on an evaluation and recommendation by an American Speech Language Hearing Association (ASHA) certified and state licensed speech-language pathologist or a physician.

• Orientation, mobility and vision therapy based on an evaluation and recommendation by a trained mobility specialist/instructor or a physician.

Therapy services are direct services provided to assist participants in the acquisition, retention, or improvement of skills necessary for the participant to live and work in the community, and must be attached to a participant's outcome as documented in their service plan. Training caretakers and development and monitoring of a home program for caretakers to implement the recommendations of the therapist are included in the provision of Therapy services. Therapy teleservices may be provided in accordance with the requirement in the Additional Needed Information Section of the Main Module.

The need for the service must be documented by a professional as noted above for each service and must be evaluated at least annually, or more frequently if needed, as part of the service plan process. This evaluation must review whether the participant continues to require the current level of authorized services and that the service continues to result in positive outcomes for the participant. It is recognized, however, that long-term Therapy services may be necessary due to a participant's extraordinary medical or behavioral conditions. The need for long-term Therapy services must be documented in the participant's service plan.

Physical Therapy: The Physical Therapy Practice Act (63 P.S. §1301 et seq.) defines physical therapy as follows: "means the evaluation and treatment of any person by the utilization of the effective properties of physical measures such as mechanical stimulation, heat, cold, light, air, water, electricity, sound, massage, mobilization, and the use of therapeutic exercises and rehabilitative procedures including training in functional activities, with or without assistive devices, for the purpose of limiting or preventing disability and alleviating or correcting any physical or mental conditions, and the performance of tests and measurements as an aid in diagnosis or evaluation of function."

Occupational Therapy: The Occupational Therapy Practice Act (63 P.S. §1501 et seq.) defines occupational therapy as follows: "The evaluation of learning and performance skills and the analysis, selection and adaptation of activities for an individual whose abilities to cope with the activities of daily living, to perform tasks normally performed at a given stage of development and to perform essential vocational tasks which are threatened or impaired by that person's developmental deficiencies, aging process, environmental deprivation or physical, psychological, injury or illness, through specific techniques which include: (1) Planning and implementing activity programs to improve sensory and motor functioning at the level of performance for the individual's stage of development; (2) Teaching skills, behaviors and attitudes crucial to the individual's independent, productive and satisfying social functioning; (3) The design, fabrication and application of splints, not to include prosthetic or orthotic devices, and the adaptation of equipment necessary to assist patients in adjusting to a potential or

actual impairment and instructing in the use of such devices and equipment; and (4) Analyzing, selecting and adapting activities to maintain the individual's optimal performance of tasks to prevent disability."

Speech and Language Therapy: Services provided by a licensed and American Speech-Language-Hearing Association (ASHA) certified speech-language pathologist to participants with a wide variety of speech, language, and swallowing differences and disorders. Communication includes speech production and fluency, language, cognition, voice, resonance, and hearing. Swallowing includes all aspects of swallowing, including related feeding behaviors. Speech and language therapy includes:

• Counseling participants, families and caregivers regarding acceptance, adaptation, and decision making about communication, feeding and swallowing, and related disorders.

• Prevention and wellness activities that are geared toward reducing the incidence of a new disorder or disease, identifying disorders at an early stage, and decreasing the severity or impact of a disability associated with an existing disorder or disease.

• Screening participants for possible communication, hearing, and/or feeding and swallowing disorders.

• Assessing communication, speech, language and swallowing disorders. The assessment process includes evaluation of body function, structure, activity and participation, within the context of environmental and personal factors.

• Developing and implementing treatment to address the presenting symptoms or concerns of a communication or swallowing problem or related functional issue. Treatment establishes a new skill or ability or remediates or restores an impaired skill or ability.

• Teaching American Sign Language or another form of communication to an adult waiver participant (a participant who is 21 years of age or older) who is deaf and has been assessed as benefitting from learning American Sign Language or another form of communication is covered under Speech and Language Therapy. Consultation regarding the communication needs of a participant who has nontraditional communication needs is also included under Speech and Language Therapy.

Orientation, mobility and vision therapy: This therapy is for participants who are blind or have visual impairments. The provision of therapy is for the purpose of increasing participants' travel skills and/or access to items used in activities of daily living. This service may include evaluation and assessment of participants and the environments in which they interact, direct service (face-to-face) to participants, and training of support individuals. The provision of this service may result in recommendations for adapting environments or purchasing assistive technology.

Therapy services can only be provided to adult participants (participants age 21 and older). All medically necessary Therapy services for children under age 21 are covered through Medical Assistance pursuant to the EPSDT benefit. Further, Therapy services delivered to adult participants must differ in scope from therapy services covered by Medical Assistance. Therapy services must be delivered in a home and community-based setting and cannot be provided in a clinic or rehabilitative facility setting. Therapy services may only be funded for adult participants if documentation is secured by the Supports Coordinator that shows the service is medically necessary and either not covered by the participant's insurance or insurance limitations have been reached. A participant's insurance includes Medical Assistance (MA), Medicare and/or private insurance.

Participants authorized to receive Therapy services may not receive the direct portion of following services at the same time as this service: Community Participation Support; Shift Nursing; Consultative Nutritional Services; Benefits Counseling; Behavioral Support; Supported Living; Supported Employment; Small Group Employment; Music, Art and Equine Assisted Therapy; Education Support and Transportation.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania.

• Assessing communication, speech, language and swallowing disorders. The assessment process includes evaluation of body function, structure, activity and participation, within the context of environmental and personal factors.

• Developing and implementing treatment to address the presenting symptoms or concerns of a communication or swallowing problem or related functional issue. Treatment establishes a new skill or ability or remediates or restores an impaired skill or ability.

• Teaching American Sign Language or another form of communication to an adult waiver participant (a participant who is 21 years of age or older) who is deaf and has been assessed as benefitting from learning American Sign Language or another form of communication is covered under Speech and Language Therapy. Consultation regarding the communication needs of a participant who has nontraditional communication needs is also included under Speech and Language Therapy.

Orientation, mobility and vision therapy: This therapy is for participants who are blind or have visual impairments. The provision of therapy is for the purpose of increasing participants' travel skills and/or access to items used in activities of daily living. This service may include evaluation and assessment of participants and the environments in which they interact, direct service (face-to-face) to participants, and training of support individuals. The provision of this service may result in recommendations for adapting environments or purchasing assistive technology.

Therapy services can only be provided to adult participants (participants age 21 and older). All medically necessary Therapy services for children under age 21 are covered through Medical Assistance pursuant to the EPSDT benefit. Further, Therapy services delivered to adult participants must differ in scope from therapy services covered by Medical Assistance. Therapy services must be delivered in a home and community-based setting and cannot be provided in a clinic or rehabilitative facility setting. Therapy services may only be funded for adult participants if documentation is secured by the Supports Coordinator that shows the service is medically necessary and either not covered by the participant's insurance or insurance limitations have been reached. A participant's insurance includes Medical Assistance (MA), Medicare and/or private insurance.

Participants authorized to receive Therapy services may not receive the direct portion of following services at the same time as this service: Community Participation Support; Shift Nursing; Consultative Nutritional Services; Benefits Counseling; Behavioral Support; Supported Living; Supported Employment; Small Group Employment; Music, Art and Equine Assisted Therapy; Education Support and Transportation.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania.

If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

6. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

7. Have training to meet the needs of the participant which includes but is not limited to communication, mobility and behavioral needs.

8. Comply with Department standards related to provider qualifications.

Verification of Provider Qualifications

Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Extended State Plan Service Service Name: Therapy Services

Provider Category: Agency Provider Type:

Physical Therapy Agency

Provider Qualifications

License (specify):

Staff (direct, contracted, or in a consulting capacity) providing Physical Therapy must be licensed as Physical Therapists.

Certificate (specify):

Agencies must meet the following standards regardless of provider service location:

1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have Workers' Compensation Insurance, in accordance with state law.

7. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant which includes but is not limited to communication, mobility and behavioral needs.

8. Comply with Department standards related to provider qualifications.

Physical therapists working for or contracted with agencies must meet the following standards: 1. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

2. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable). **Service Type:**

Supports for Participant Direction	
The waiver provides for participant direction of services a	as specified in Appendix E. Indicate whether the waiver
includes the following supports or other supports for particular	icipant direction.
Support for Participant Direction:	
Information and Assistance in Support of Participan	t Direction
Alternate Service Title (if any):	
Supports Broker Service	
HCBS Taxonomy:	
Category 1:	Sub-Category 1:
12 Services Supporting Self-Direction	12020 information and assistance in support of self-direction
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

The Supports Broker service is a direct and indirect service available to participants who elect to self-direct their own services utilizing one of the participant directed options outlined in Appendix E-1 of the Waiver. The purpose of the Supports Broker service is to assist and support Common Law Employers (CLE) and Managing Employers (ME) to perform employer-related functions independently and to assist participants to be as successful as possible in self-directing their services. The Supports Broker's ultimate goal is to maximize the CLE's or ME's knowledge of all functions of their role and minimize or eliminate the need for the Supports Broker service.

Supports Broker teleservices may be provided in accordance with the requirements in the Additional Needed Information Section of the Main Module.

Under no circumstances may Supports Brokers perform the Agency With Choice (AWC) or CLE functions specified in Appendix E-1-a of this Waiver or the CLE/ME duties specified in ODP bulletins relating to either participant-directed service delivery model.

This service is limited to the following list of activities:

• Educating and supporting the ME or CLE to complete employer-or managing employer responsibilities as outlined in the Common Law Employer Agreement or the Managing Employer Agreement form. This will assist the CLEs and MEs with performing such tasks independently and without ongoing assistance from the Supports Broker to the fullest possible extent.

• Assisting CLEs and MEs to understand and participate in orientation and trainings provided by the Vendor/Fiscal Employment Agency or the Agency with Choice.

• Providing education, guidance, and support in developing effective recruiting and hiring techniques so that CLEs and MEs can perform such tasks independently and without ongoing assistance from the Supports Broker to the fullest possible extent.

• Assisting CLEs and MEs to develop a process to determine pay rates for Support Service Professionals so that CLEs and MEs can perform such tasks independently and without ongoing assistance from the Support Broker to the fullest possible extent.

• Educating and supporting CLEs and MEs on managing service utilization such that overall expenditures do not exceed authorized units for services, and assisting in the development of a method accomplish this on an ongoing basis.

• Assisting CLEs and MEs to develop a process and provide assistance to the extent necessary to recruit and retain Support Service Professionals and expanding and coordinating informal, unpaid resources and networks within the community to support meeting the participant's needs through participant-direction, which may include facilitating a support group that helps to meet the participant's self-direction needs. These support groups are separate and apart from the service plan team meetings arranged and facilitated by the Supports Coordinator.

• Providing technical assistance and support to CLEs and MEs to develop training plans and track completion of training for Support Service Professionals.

• Providing technical assistance and support to CLEs and MEs to establish a process for creating work schedules that include both Support Service Professionals and (when applicable) unpaid supports, including developing, implementing, and modifying back-up plans for when a Support Service Professional or unpaid support is unable to work due to an emergency, acute illness, etc.

• Scheduling paid and unpaid supports.

• Providing technical assistance and guidance to support CLEs/MEs to develop a performance review process for Support Service Professionals, including but not limited to creating a performance review tool and review schedule.

• Providing or arranging for training that will aid the CLE/ME in developing their management skills, including but not limited to:

- o Conflict resolution
- o Effective communication

o Workplace safety and injury prevention

o Expanding and coordinating informal, unpaid resources and networks within the community to support success with participant directed services

- o Problem-solving
- o Decision-making
- o Achieving desired personal and assessed outcomes

• Identifying areas where the Supports Broker service can support a participant's desired goals and outcomes related to participant directed services, and proposed modifications to participant directed services in the participant's service plan, and sharing the information with the service plan team for inclusion in the service plan.

• Providing information, guidance, and support with responding to notices for corrective action from the FMS, SC, AE or ODP.

• Providing guidance and support with complying with the standards, regulations, policies and waiver requirements related to the participant direction of services.

• Assisting the participant to secure a new surrogate when necessary.

• Reviewing of workplace safety issues and strategies for effective management of workplace injury prevention.

• Advising in problem-solving, decision-making, and achieving desired personal and assessed outcomes related to the participant directed services.

• Identifying areas of support that will promote success with self-direction and independence and share the information with the team and Supports Coordinator for inclusion in the service plans.

• All functions performed by a Supports Broker must be related to the personal and assessed outcomes related to the participant directed services in the service plan.

The following Supports Broker activities may be completed while a participant is hospitalized in an acute care hospital in accordance with Section 1902(h) of the Social Security Act, when the services are identified in the participant's service plan:

• Developing schedules for Support Service Professionals.

• Assisting managing employers and common law employers to ensure that Support Service Professionals are trained and scheduled to support the participant's needs when hospitalized and to support a smooth transition of the participant from the hospital to a home and community-based setting.

Supports Brokers must work collaboratively with the participant's Supports Coordinator and service plan team but may not perform Supports Coordination functions or activities as listed in the Supports Coordination service in Appendix C1/C3 of this Waiver.

Supports Broker Services may be provided by individual and agency providers that provide other Waiver, intellectual disability or autism services but the Supports Broker provider must be conflict free. In order to be conflict free, the Supports Broker provider may not provide other direct or indirect waiver services or base funded intellectual disability services when authorized to provide Support Broker services to the participant. In addition, Supports Broker providers may not provide administrative services such as Health Care Quality Unit or Administrative Entity functions. However, an IM4Q program may provide Supports Broker services to participants who they are not responsible for interviewing.

The VF/EA FMS is required to provide the VF/EA FMS administrative service and pay for all identified participant directed services authorized for a participant who is self-directing through the VF/EA FMS Intermediate Services Organization Provider Type. Self-directing participants in the VF/EA FMS program may employ Supports Brokers through a Common-Law Employer relationship; when this occurs, Supports Brokers will be considered "Support Service Professionals" (SSP) for the purposes of this definition.

AWC FMS providers are required to provide AWC FMS administrative services in addition to all identified participant directed waiver services authorized for a participant who is self-directing through an AWC FMS

provider. As such, the AWC FMS provider is able to provide both Supports Broker services and other participant directed waiver services to the same participant, but only as an AWC FMS Intermediate Services Organization Provider Type.

Participants authorized to receive Life Sharing or Supported Living services may not be authorized to receive Supports Broker services unless they are planning to transition to participant directed services in a private home.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania. During temporary travel, this service may be provided in Pennsylvania or other locations as per the ODP travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is limited to a maximum of 1040 (15-minute) units, which is equal to 260 hours, per participant per fiscal year. The limit may be temporarily increased up to 2080 15-minute units per participant per fiscal year. This temporary increase ends on 6/30/24 which is the last day of the full state fiscal year in which the Appendix K authority ends.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Advanced Supported Employment

HCBS Taxonomy:

Category 1:	Sub-Category 1:
03 Supported Employment	03010 job development
Category 2:	Sub-Category 2:
03 Supported Employment	03021 ongoing supported employment, individual
Category 3:	Sub-Category 3:
03 Supported Employment	03030 career planning
ervice Definition (Scope):	
Category 4:	Sub-Category 4:

Advanced Supported Employment is an enhanced version of supported employment services provided by qualified providers. The service includes discovery, job development, systematic instruction to learn the key tasks and responsibilities of the position and intensive job coaching and supports that lead to job stabilization and retention.

DISCOVERY

Discovery is a targeted service for a participant who wishes to pursue competitive integrated employment but, due to the impact of their disability, their skills, preferences, and potential contributions cannot be best captured through traditional, standardized means, such as functional task assessments, situational assessments, and/or traditional normative assessments which compare the participant to others or arbitrary standards of performance and/or behavior.

Discovery involves a comprehensive analysis of the participant in relation to the following: • Strongest interests toward one or more specific aspects of the labor market;

• Skills, strengths and other contributions likely to be valuable to employers or valuable to the community if offered through self-employment; and

• Conditions necessary for successful employment or self-employment.

Discovery includes the following activities: observation of the participant in familiar places and activities, interviews with family, friends and others who know the participant well, observation of the participant in an unfamiliar place and activity, identification of the participant's strong interests and existing strengths and skills that are transferable to individualized integrated employment or self-employment. Discovery also involves identification of conditions for success based on experience shared by the participant and others who know the participant well, and observation of the participant during the Discovery process. The information developed through Discovery allows for activities of typical life to be translated into possibilities for individualized competitive integrated employment or self-employment.

JOB ACQUISITION

Job development, which can include customized employment or self-employment, is based on individualizing the employment relationship between employees and employers and negotiating on behalf of the participant in a way that matches the needs of the employer with the assessed strengths, skills, needs, and interests of the participant.

Systematic instruction refers to a strategic, carefully-planned sequence for instruction, from simple to complex, with clear and concise objectives driven by ongoing assessment. It is carefully thought out and designed before work commences.

JOB RETENTION

Intensive job coaching includes assisting the participant in meeting employment expectations, performing business functions, addressing issues as they arise, and also includes travel training and diversity training to the specific business where the participant is employed. It provides support to assist participants in stabilizing a competitive integrated job (including self-employment) including ongoing support and may include activities on behalf of the participant to assist in maintaining job placement.

Eligibility for Advanced Supported Employment is limited to participants whose preferences, skills, and employment potential cannot be best determined through traditional, standardized means due to the impact of their disability. Specifically, the participant:

1. Has been found ineligible for or has a closed case with Office of Vocational Rehabilitation (OVR) services and chooses not to be re-referred or it has been determined that OVR services are not available. If OVR has not made an eligibility determination within 120 days of the referral being sent, then OVR services are considered to not be available to the participant; and

2. Has never had job skills training or development, has never had any work related experiences (including volunteer experiences) or in the past 2 years, with the use of Supported Employment services, has not been able to secure a competitive integrated job or has not been able to keep a competitive integrated job for more than 6 months; and

3. Meets one of the following criteria:

a. Is currently in an activity receiving a sub-minimum wage; or

b. After consulting with a credentialed provider, it is the opinion of the service plan team that the level of support provided through this service is needed to secure sustained competitive integrated employment.

In addition to the criteria above, to be eligible for job development, systematic instruction or intensive job coaching under Advanced Supported Employment, the participant must have received the discovery service under Advanced Supported Employment through its completion or the completion of the discovery/profile phase through OVR and the case was closed.

In the event that OVR closes the order of selection, the following process will be followed from the effective date until the closure is lifted:

• A participant who has been referred to OVR, but does not have an approved Individualized Plan for Employment (IPE) may receive Advanced Supported Employment.

• A participant who has not been referred to OVR may receive Advanced Supported Employment without a referral to OVR.

Advanced Supported Employment services furnished under the waiver may not include services available under section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401 (16 and 17).

Advanced Supported Employment is paid on an outcome basis. Providers are paid for three separate outcomes. 1. Discovery Portfolio - The production of a detailed written Discovery Profile, using a standard template prescribed by the Department or one that meets the professional credential required for this service, which summarizes the process, learning and recommendations to inform identification of the participant's

individualized goal(s) and strategies to be used in securing competitive integrated employment, and the production of a visual resume and individualized plan for employment, using a standard template prescribed by the Department or one that meets the professional credential required for this service.

2. Securing a Job - A job evidenced by an offer letter, email, documented phone call or other documentation from an employer offering the participant employment that meets the definition of competitive integrated employment or evidence of self-employment.

3. Retention of Job - Successful retention on the job, evidenced by the participant working a minimum of 5 hours per week for at least 4 months.

Discovery activities may be provided within a variety of settings including residential habilitation settings when identified as a need in the service plan or vocational facilities and adult training facilities when these facilities are where the participant's employment or volunteer experience occurred that is being assessed and when identified as a need in the service plan.

The direct provision of job acquisition activities may not be provided in a vocational facility or adult training facility.

Job retention activities may not be provided in a Vocational Facility (55 Pa. Code Chapter 2390), Adult Training Facility (55 Pa. Code Chapter 2380), Child Residential and Day Treatment Facilities (55 Pa. Code Chapter 3800), Community Residential Rehabilitation Services for the Mentally III (55 Pa. Code Chapter 5310) or any licensed or unlicensed home that provides residential habilitation services funded by ODP.

Behavioral Support may be provided at the same time as Advanced Supported Employment if the need is documented in the service plan.

The direct provision of job acquisition and job retention may not be provided at the same time as the direct provision of any of the following: In-Home and Community Supports; Community Participation Support; Small Group Employment; Benefits Counseling; 15-minute unit Respite; Transportation; Therapies; Education Support and Music, Art and Equine Assisted Therapy.

Participants authorized to receive Advanced Supported Employment services may not be authorized to receive Supported Employment services during the same time period.

Companion may be provided at the same time as Advanced Supported Employment for the purpose of supporting the participant with non-skilled activities, supervision and/or incidental personal care that cannot, or would be inappropriate to, be provided with the support from coworkers or other natural supports and is outside the scope of the Advanced Supported Employment service. Documentation must be maintained in the service plan about the methods that were considered and/or tried to support the non-skilled activities, supervision and/or personal care at the job site before it was determined that Companion was necessary to enable the participant to sustain competitive integrated employment.

This service may be delivered in Pennsylvania and in states contiguous to Pennsylvania.

3. Meets one of the following criteria:

a. Is currently in an activity receiving a sub-minimum wage; or

b. After consulting with a credentialed provider, it is the opinion of the service plan team that the level of support provided through this service is needed to secure sustained competitive integrated employment.

In addition to the criteria above, to be eligible for job development, systematic instruction or intensive job coaching under Advanced Supported Employment, the participant must have received the discovery service under Advanced Supported Employment through its completion or the completion of the discovery/profile phase through OVR and the case was closed.

In the event that OVR closes the order of selection, the following process will be followed from the effective date until the closure is lifted:

• A participant who has been referred to OVR, but does not have an approved Individualized Plan for Employment (IPE) may receive Advanced Supported Employment.

• A participant who has not been referred to OVR may receive Advanced Supported Employment without a referral to OVR.

Advanced Supported Employment services furnished under the waiver may not include services available under section 602(16) and (17) of the Individuals with Disabilities Education Act (20 U.S.C. 1401 (16 and 17).

Advanced Supported Employment is paid on an outcome basis. Providers are paid for three separate outcomes. 1. Discovery Portfolio - The production of a detailed written Discovery Profile, using a standard template prescribed by the Department or one that meets the professional credential required for this service, which summarizes the process, learning and recommendations to inform identification of the participant's

individualized goal(s) and strategies to be used in securing competitive integrated employment, and the production of a visual resume and individualized plan for employment, using a standard template prescribed by the Department or one that meets the professional credential required for this service.

2. Securing a Job - A job evidenced by an offer letter, email, documented phone call or other documentation from an employer offering the participant employment that meets the definition of competitive integrated employment or evidence of self-employment.

3. Retention of Job - Successful retention on the job, evidenced by the participant working a minimum of 5 hours per week for at least 4 months.

Discovery activities may be provided within a variety of settings including residential habilitation settings when identified as a need in the service plan or vocational facilities and adult training facilities when these facilities are where the participant's employment or volunteer experience occurred that is being assessed and when identified as a need in the service plan.

The direct provision of job acquisition activities may not be provided in a vocational facility or adult training facility.

Job retention activities may not be provided in a Vocational Facility (55 Pa. Code Chapter 2390), Adult Training Facility (55 Pa. Code Chapter 2380), Child Residential and Day Treatment Facilities (55 Pa. Code Chapter 3800), Community Residential Rehabilitation Services for the Mentally III (55 Pa. Code Chapter 5310) or any licensed or unlicensed home that provides residential habilitation services funded by ODP.

Behavioral Support may be provided at the same time as Advanced Supported Employment if the need is documented in the service plan.

The direct provision of job acquisition and job retention may not be provided at the same time as the direct provision of any of the following: In-Home and Community Supports; Community Participation Support; Small Group Employment; Benefits Counseling; 15-minute unit Respite; Transportation; Therapies; Education Support and Music, Art and Equine Assisted Therapy.

Participants authorized to receive Advanced Supported Employment services may not be authorized to receive Supported Employment services during the same time period.

Companion may be provided at the same time as Advanced Supported Employment for the purpose of supporting the participant with non-skilled activities, supervision and/or incidental personal care that cannot, or would be inappropriate to, be provided with the support from coworkers or other natural supports and is outside the scope of the Advanced Supported Employment service. Documentation must be maintained in the service plan about the methods that were considered and/or tried to support the non-skilled activities, supervision and/or personal care at the job site before it was determined that Companion was necessary to enable the participant to sustain competitive integrated employment.

This service may be delivered in Pennsylvania and in states contiguous to Pennsylvania.

Provider Category: Agency Provider Type:

Agency

Provider Qualifications

License (specify):

Certificate (specify):

Staff (direct, contracted or in a consulting capacity) who will work directly with the participant to provide Advanced Supported Employment services shall hold one of the following: 1. Bachelor's Degree; or

2. High school diploma and at least four years of consecutive or non-consecutive years of personal experience as a parent, sibling or primary caretaker of an individual with an intellectual disability, autism, or other disability that involved significant medical, physical, cognitive or developmental challenges; or

3. High school diploma and at least four years of professional experience providing services to people with an intellectual disability, autism, or other disability that involved significant medical, physical, cognitive or developmental challenges as a service coordinator, staff person, SC, supervisor, or rehabilitation professional; or

4. A combination of post-secondary education without a Bachelor's Degree combined with either personal or professional experience that totals at least four years.

In addition to the education and experience requirements listed above, staff who will work directly with the participant must also have an Advanced Supported Employment certification, which is in good standing, by an ODP-recognized training organization. To be recognized by ODP, the Advanced Supported Employment certification must meet all of the following criteria: 1. Require at least 20 hours of classroom instruction;

2. Require at least 40 hours of supervised, mentored field work;

3. Include competency-based testing;

4. Require certification renewal at least every 3 years; and

5. Be nationally recognized and acceptable to ODP.

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania, Washington DC, Virginia or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of the Advanced Supported Employment have automobile insurance.

7. Have documentation that all vehicles used in the provision of the Advanced Supported Employment service have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance, in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant which includes but is not limited to communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

4. Have child abuse clearance (when the participant is under age 18) as per 23 Pa. C.S. Chapter 63.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Advanced Supported Employment services.

Verification of Provider Qualifications Entity Responsible for Verification:

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Assistive Technology

HCBS Taxonomy:

Category 1:	Sub-Category 1:
14 Equipment, Technology, and Modifications	14010 personal emergency response system (PERS)
Category 2:	Sub-Category 2:
14 Equipment, Technology, and Modifications	14031 equipment and technology
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

An item, piece of equipment, or product system, acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve a participant's functioning or increase their ability to exercise choice and control. Assistive Technology services include direct support in the selection, acquisition, or use of an assistive technology device, limited to:

• Purchasing or otherwise providing for the acquisition of assistive technology devices for the participant. Leasing of equipment and devices is only allowable short term:

o For emergency substitution of a device or equipment until repairs are made or a replacement can be purchased; or

o To allow a participant to try equipment and device(s) to determine whether the equipment or device(s) will be a good fit for the participant's needs.

• Selecting, designing, fitting, customizing, adapting, installing, maintaining, repairing, or replacing assistive technology devices. Repairs are only covered when it is more cost effective than purchasing a new device and are not covered by a warranty;

• Training or technical assistance for the participant, or where appropriate, the participant's family member, guardian, advocate, staff or authorized representative on how to use and/or care for the assistive technology;

• Extended warranties; and

• Ancillary supplies, software, and equipment necessary for the proper functioning of assistive technology devices, such as replacement batteries and materials necessary to adapt low-tech devices.

Electronic devices that are not used for the delivery of remote supports are included under Assistive Technology to meet a communication or prompting need or to enable participants to independently control devices and appliances in their home and community. Examples of electronic devices include: tablets, computers and electronic communication aids. There must be documentation that the device is a cost effective alternative to a service or piece of equipment. When multiple devices are identified as being effective to meet the participant's need, the least expensive option must be chosen. Applications for electronic devices that assist participants with a need identified are also covered.

Generators are covered for the participant's primary private home. Generators are not covered for any home other than the participant's primary private residence.

All items purchased through Assistive Technology shall meet the applicable standards of manufacture, design, and installation. Items reimbursed with Waiver funds shall be in addition to any equipment or supplies provided under the MA State Plan. Excluded are those items that are not of direct medical or remedial benefit to the participant, or are primarily for a recreational or diversionary nature. Items designed for general use shall only be covered to the extent necessary to meet the participant's needs and be for the primary use of the participant. If the participant receives Behavioral Support Services, the Assistive Technology must be consistent with the participant's behavior support plan.

Assistive Technology devices costing \$750 or more must be recommended by an independent evaluation of the participant's assistive technology needs, including a functional evaluation of the impact of the provision of appropriate assistive technology and appropriate services to the participant on the customary environment of the participant. The independent evaluation must be conducted by a licensed physical therapist, occupational therapist, speech/language pathologist or a professional certified by Rehabilitation Engineering and Assistive Technology Society of North America (RESNA). The independent evaluator must be familiar with the specific type of technology being sought and may not be a related party to the Assistive Technology provider. The evaluation must include the development of a list of all devices, supplies, software, equipment, product systems and/or waiver services (including a combination of any of the elements listed) that would be most effective to meet the need(s) of the participant. The least expensive option from the list must be selected for inclusion on the service plan.

The following list includes items excluded as Assistive Technology (please note this is not an exhaustive list of excluded items):

• Durable medical equipment, as defined by 55 Pa. Code Chapter 1123 and the MA State Plan;

• Hearing aids for children under 21 years of age;

• Air conditioning systems or units, heating systems or units, water purifiers, air purifiers, vaporizers, dehumidifiers, and humidifiers;

• Video monitoring equipment that will be installed or used in the participant's bedroom or bathroom;

• Recreational or exercise equipment; and

• Swimming pools, hot tubs, whirlpools and whirlpool equipment, and health club memberships.

• Air conditioning systems or units, heating systems or units, water purifiers, air purifiers, vaporizers, dehumidifiers, and humidifiers;

• Video monitoring equipment that will be installed or used in the participant's bedroom or bathroom;

• Recreational or exercise equipment; and

• Swimming pools, hot tubs, whirlpools and whirlpool equipment, and health club memberships.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

When Assistive Technology is utilized to meet a medical need, documentation must be obtained stating that the service is medically necessary and not covered through the MA State Plan which includes EPSDT, Medicare and/or private insurance. When Assistive Technology is covered by the MA State Plan, Medicare and/or private insurance, documentation must be obtained by the SC showing that limitations have been reached before the Assistive Technology can be covered through the Waiver. To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

Assistive Technology has the following limits:

• A lifetime limit of \$10,000 per participant for all Assistive Technology. This limit may be extended by ODP using the standard ODP variance process. This lifetime limit includes:

o A lifetime limit of \$5,000 for generators for the participant's primary residence only. The lifetime limit on generators may not be extended using the variance process and generators for a secondary residence are not available through the waiver. While generators have a separate lifetime limit, the amount spent on a generator is included in the overall Assistive Technology lifetime limit of \$10,000.

o Electronic devices. No more than one replacement electronic device is allowed every 5 years.

o Assistive Technology not used as part of remote supports.

o Repairs, warranties, ancillary supplies, software and equipment.

Assistive Technology provided to individuals who are authorized to receive Life Sharing services must comply with 42 CFR 441.301(c)(4)(vi)(A) through (D) related to privacy, control of schedule and activities and access to visitors.

Appendix C	: Participant	Services
------------	---------------	----------

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Behavioral Support	
--------------------	--

HCBS Taxonomy:

Category 1:	Sub-Category 1:
10 Other Mental Health and Behavioral Services	10040 behavior support
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

This is a direct and indirect service that includes a comprehensive assessment; the development of strategies to support the participant based upon the assessment; and the provision of interventions and training to participants, staff, parents and caregivers. Services must be required to meet the current needs of the participant, as documented and authorized in the service plan.

There are two levels of service that reflect differing levels of provider qualifications and participant needs. Participants requiring Level 2 support will have demonstrated complex needs, including regression or lack of adequate progress with Level 1 support, or be deemed at high risk for decreased stability in the absence of Level 2 support.

Behavioral Support services includes both the development of (1) an initial behavioral support plan by the Behavioral Specialist and (2) ongoing behavioral support:

1. During initial behavioral support plan development the Behavioral Specialist must:

• Conduct Functional Behavioral Assessment and an analysis of assessment findings of the behavior(s) to be targeted so that an appropriate behavioral support plan may be designed.

• Collaborate with the participant, his or her family, and his or her service plan team for the purpose of developing a behavior support plan that must include positive practices and least restrictive interventions. The behavior support plan may not include, chemical or mechanical restraints. The behavior support plan may not include physical restraints as behavioral interventions. Physical restraints may only be utilized in accordance with 55 Pa. Code §§6100.348 and 6100.349 in the case of an emergency or crisis to prevent an individual from immediate physical harm to the individual or others. Behavior support plans that include restrictive procedures must be approved by a human rights team prior to implementation. ODP expects that, regardless of the number of providers supporting a person, continuity of care will be maintained through ongoing team communication and collaboration. Ideally, there should be one behavior support plan for the participant that is integrated and comprehensive and incorporates support strategies for all environments. If there is more than one Behavioral Specialist working with the participant, the behavior support plan can reflect joint authorship.

• Develop an individualized, comprehensive behavioral support plan consistent with the outcomes identified in the participant's service plan, within 60 days of the authorization start date of the Behavioral Support service in the service plan.

• Develop a crisis intervention plan that will identify how crisis intervention support will be available to the participant, how the Supports Coordinator and other appropriate waiver service providers will be kept informed of the precursors of the participant's challenging behavior, and the procedures/interventions that are most effective to deescalate the challenging behaviors.

• Upon completion of initial plan development, meet with the participant, the Supports Coordinator, others as appropriate, including family members, providers, and employers to explain the behavioral support plan and the crisis intervention plan to ensure all parties understand the plans.

2. Ongoing Behavioral Support: Ongoing support can occur both before and after the completion of the behavioral support plan. If the participant needs Behavioral Support before the behavioral support plan and crisis intervention plan are developed, the Supports Coordinator must document the need for support. Upon completion of the initial behavioral support plan, the Behavioral Specialist provides direct and consultative supports.

Ongoing Behavioral Support includes the following:

• Collection and evaluation of data;

• Conducting comprehensive functional assessments of presenting issues (e.g. aggression, self-injurious behavior, law offending behavior [sexual or otherwise]);

• Updating and maintenance of behavior support plans, which utilize positive strategies to support the participant, based on functional behavioral assessments;

• Development of a fading plan for restrictive interventions;

• Conducting training and support related to the implementation of behavior support plans for the participant, family members, staff and caretakers;

• Implementation of activities and strategies identified in the participant's behavior support plan, which may include providing direct behavioral support, educating the participant and supporters regarding the underlying causes/functions of behavior and modeling and/or coaching of supporters to carry out interventions;

• Monitoring implementation of the behavior support plan, and revising as needed; and

• Completion of required paperwork related to data collection, progress reporting and development of annual planning material.

Behavioral Support services can only be provided to adult participants. All necessary Behavioral Support services for children under age 21 are covered in the state plan pursuant to the EPSDT benefit. Behavioral Support services do not include the provision of therapy or counseling. Services may be provided in the office of the Behavioral Specialist, the participant's home, or in local public community environments necessary for the provision of the Behavioral Support Services. Direct services must be provided on a one-on-one basis. Behavioral Support teleservices may be provided in accordance with the requirements in the Additional Needed Information Section of the Main Module.

Behavioral Support services may also be delivered in an acute care hospital, in accordance with Section 1902(h) of the Social Security Act, when the services are:

• Identified in the participant's service plan;

• Provided to meet needs of the participant that are not met through the provision of hospital services;

• Designed to ensure smooth transitions between the hospital and home and community-based settings, and to preserve the participant's functional abilities; and

• Not a substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or state law, or under another applicable requirement.

This service can only be provided in an acute care hospital to assist the participant with one or more of the following:

• Communication; or

• Behavioral support/stabilization as enumerated in the behavior support plan.

Behavioral Support may be provided at the same time as Advanced Supported Employment, Supported Employment or Small Group Employment if the participant needs the service at his or her place of employment to maintain employment as documented in the service plan.

The direct provision of Behavioral Support may not be provided at the same time as the direct provision of Therapy services.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania. During temporary travel, this service may be provided in Pennsylvania or other locations as per the ODP travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

To the extent that any listed services are covered under the state plan, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

Provider Qualifications

License (specify):

Behavioral Specialists providing Level 1 must meet the professional education or licensure criteria in one of the following three sets of requirements:

1. Master's Degree or higher in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology.

2. A Pennsylvania Behavior Specialist License.

3. Bachelor's Degree and work under the supervision of a professional who has a Master's Degree in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology, or who is a licensed psychiatrist, psychologist, professional counselor, social worker (master's level or higher) or who has a Pennsylvania Behavior Specialist License.

Behavioral Specialists providing Level 2 must meet the professional education or licensure criteria in one of the following two sets of requirements:

1. Master's Degree in Psychology, Special Education, Counseling, Social Work, Education Applied Behavior Analysis or Gerontology.

2. Licensed psychiatrist, psychologist, professional counselor or social worker (master's level or higher) or a Pennsylvania Behavior Specialist License.

Certificate (*specify*):

The agency must meet the following Standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have Workers' Compensation Insurance, in accordance with state law.

7. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

8. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2.Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation;
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

3. Complete training in conducting and using a Functional Behavioral Assessment.

4. Complete training in positive behavioral support.

5. Have at least 2 years' experience in working with people with an intellectual disability or autism.

Sub-Category 3:

Sub-Category 4:

Benefits Counseling is a direct service designed to inform, and answer questions from, a participant about competitive integrated employment and how and whether it will result in increased economic self-sufficiency and/or net financial benefit through the use of various work incentives. Through an accurate individualized assessment, this service provides information to the participant regarding the full array of available work incentives for essential benefit programs including Supplemental Security Income, SSDI, Medicaid, Medicare, housing subsidies, food stamps, etc.

The service also will provide information and education to the participant regarding income reporting requirements for public benefit programs, including the Social Security Administration.

Benefits Counseling provides work incentives counseling and planning services. It is provided to participants considering or seeking competitive integrated employment or career advancement or to participants who need problem solving assistance to maintain competitive integrated employment.

Benefits Counseling must be provided in a manner that supports the participant's communication style and needs, and shall meet at a minimum what is required under the Americans with Disabilities Act. This service may be provided in person or virtually based on the participant's informed choice, after the pros and cons of each method are explained to the participant.

Benefits Counseling may only be provided after Benefits Counseling services provided by a Community Work Incentives Coordinator through a Pennsylvania-based federal Work Incentives Planning and Assistance (WIPA) program were sought and it was determined and documented by the Supports Coordinator that such services were not available either because of ineligibility or because services are not available within 30 calendar days. This process must be completed when there has been an interruption in service where the participant has not received Benefits Counseling services in more than nine months.

Benefits Counseling may not be provided at the same time as the direct provision of any of the following: Small Group Employment, Supported Employment, job acquisition and job retention in Advanced Supported Employment, Transportation, Therapies, Education Support, Music, Art Therapy and Equine Assisted Therapy, Consultative Nutritional Services and Communication Specialist.

This service can be delivered in Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Benefits Counseling services are limited to a maximum of 60 (15-minute) units which is equal to 15 hours per participant per fiscal year for any combination of initial benefits counseling, supplementary benefits counseling when a participant is evaluating a job offer/promotion or a self-employment opportunity, or problem-solving assistance to maintain competitive integrated employment.

Provider Category: Agency Provider Type:

Agency

Provider Qualifications

License (*specify*):

Certificate (specify):

Staff (direct, contracted or in a consulting capacity) who will work directly with the participant to provide Benefits Counseling services shall hold one of the following:

•Community Work Incentives Coordinator certification that is accepted by the Social Security Administration for its Work Incentives Planning and Assistance program, or

•Work Incentive Practitioner credential obtained by completing the Cornell University Work incentives Planning & Utilization for Benefit Practitioners Online Certificate course and satisfying the requirement to maintain the credential (sixty hours of continuing education units for training approved by Cornell University within 5 years of obtaining the full credential).

Agencies must meet the following standards:

1. Have a waiver service location in Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have Workers' Compensation Insurance in accordance with state law.

7. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2.Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

3. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Communication Specialist Services

HCBS Taxonomy:

	Category 1:	Sub-Category 1:
	17 Other Services	17020 interpreter
	Category 2:	Sub-Category 2:
	Category 3:	Sub-Category 3:
Ser	vice Definition (Scope):	
	Category 4:	Sub-Category 4:

This is a direct and indirect service that supports participants with nontraditional communication needs by determining the participant's communication needs.

Communication Specialist teleservices may be provided in accordance with ODP requirements in the Additional Needed Information Section of the Main Module. This service is not intended to replace or duplicate the services provided by a Speech and Language Pathologist (SLP).

Nontraditional communication may consist of:

• Sign Language, including American Sign Language, Sign Language from other countries, such as Spanish Sign Language; Signed Exact English, or a mixture of American Sign Language and signed English, Tactile, or Protactile Sign Language

• Lip Reading

• Visual-Gestural Communication (gestures, facial expressions, and body language use and analysis without grammar rules of language)

- Paralinguistics, Haptics, Touch Cues
- Artifacts, Texture Cues, and/or Objects of Reference
- Braille
- Print and Symbol Systems

• Eye-Gaze and other Speech Generating Devices

• Other communication methods as identified by the Department

This service builds an ongoing framework and system to support the participant's communication needs. The team then integrates that framework into all aspects of the participant's life.

This service includes a comprehensive review of all available information, the development of strategies to support the participant based upon the review, and the provision of interventions and training to the participant, staff, parents, and caregivers. Services must be required to meet the current needs of the participant, as documented and authorized in the service plan.

During the communication plan development, the Communication Specialist must conduct a comprehensive review of the participant's communication needs and skills (both expressive and receptive) across settings. The comprehensive review includes the participant's:

- Current methods of communication;

- Preferred methods of communication;
- Supplementary communication methods;
- Communication methods that have proven to be effective in daily communication;
- Team's knowledge and application of the participant's current and preferred communication methods.

- Any existing documents related to communication including but not limited to, SLP assessments, behavior assessments, and/or other relevant assessments; and

- Environmental elements conducive to effective communication.

The Communication Specialist may complete additional evaluations, if deemed necessary that do not fall under the scope of the SLP and are included in the ODP required training.

The Communication Specialist must collaborate with the participant, the persons designated by the participant, and the participant's team for the purpose of implementing a communication plan. The plan should be person-specific and include:

• The participant's best communication methods, both expressive and receptive;

• Current barriers to effective communication, including environmental elements and team knowledge and implementation in both familiar and unfamiliar settings;

• Measurable steps to address and eliminate barriers from all aspects of the participant's everyday life; and

• Recommendations for other services, if applicable.

Upon plan completion, the Communication Specialist should meet with the participant, the Supports Coordinator, and others as appropriate, including family members, providers, and employers to ensure all parties understand the plan. An in-depth review of the communication plan should be completed at the annual ISP meeting and the communication plan should be monitored for effectiveness on an ongoing basis (and updated as necessary to meet the participant's communication needs.)

The service includes:

- Assisting the participant to be a more effective and independent communicator;
- Implementing activities and strategies identified in the participant's communication plan;
- Monitoring implementation of the communication plan;

• Training, modeling, and/or coaching the support team to carry out the communication plan across all settings;

- Helping to establish, modify, or maintain environments that best support effective communication;
- Providing assistance to remove communication barriers.

• Educating SCOs, AEs, providers and other appropriate entities about a participant's specific needs related to communication access, legal responsibilities and cultural and linguistic considerations;

- Consulting with the support team, as needed;
- Routine reporting of activities, data, and/or progress;
- Identifying relevant resources for supporting effective communication;

• Maintaining communication support tool(s) for the participant such as software updates and adding or removing names, pictures, and/or information that is specific to the participant, in collaboration with a licensed SLP, when applicable; and

• Participating the development and continued implementation of participants' service plan, as appropriate.

There may be situations where the service plan includes both Communication Specialist services and other services that address communication, such as Speech and Language Therapy, Behavior Support, and Assistive Technology. All parties responsible for implementing communication goals must collaborate to ensure goals and plans are consistent.

For participants who utilize sign language, the provider must have the ability to sign at Intermediate Plus level or above as determined by the Sign Language Proficiency Interview (SLPI). For participants who utilize braille, the provider must have proof of appropriate training.

This service does not include the following activities that fall under the scope of SLPs unless they are provided under the direction of or in consultation with a licensed SLP:

• Preventing, screening, identifying, assessing, or treating known or suspected disorders relating to speech, feeding and swallowing, or communication disorders.

• Screening participants for speech, language, voice, or swallowing disorders.

• Teaching participants, families and other caregivers speech reading and speech and language interventions.

• Teaching participants, families and other caregivers and other communication partners how to use prosthetic and adaptive devices for speaking and swallowing.

• Using instrumental technology to provide nonmedical diagnosis, nonmedical treatment and nonmedical services

for disorders of communication, voice and swallowing.

Teaching American Sign Language (ASL) is not covered under this service unless the "sign" that is being taught is participant-specific. Traditional ASL lessons are not included in the service.

The rates for Life Sharing and Supported Living include Communication Specialist services. As such, participants who are authorized to receive one of these services may only be authorized to receive Communication Specialist services as a discrete service when it is used to support the participant during Community Participation Support.

The direct portion of Communication Specialist services cannot be provided at the same time as the direct portion of the following: Benefits Counseling and Consultative Nutritional Services.

To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

This service can be delivered in Pennsylvania and states contiguous to Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Communication Specialist services are limited to a maximum of 240 (15-minute) units which is equal to 60 hours per participant per fiscal year.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Companion

HCBS Taxonomy:

Category 1:	Sub-Category 1:
08 Home-Based Services	08040 companion
Category 2:	Sub-Category 2:
08 Home-Based Services	08030 personal care
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Companion services are direct services provided to participants age 18 and older who live in private homes for the limited purposes of providing supervision or assistance that is designed to ensure the participant's health, safety and welfare and to perform incidental activities of daily living for the participant. This service is intended to assist the individual to participate more meaningfully in home and community life. Companion teleservices may be provided during awake hours in accordance with the requirements in the Additional Needed Information Section of the Main Module. Companion teleservices may not be provided during overnight asleep hours.

This service may be provided in home and community settings, including the participant's competitive employment work place. To the extent that Companion services are provided in community settings, the settings must be inclusive rather than segregated. Companion services shall not be provided in a licensed setting, unlicensed residential setting or camp. This does not preclude this service from being utilized to assist a participant to volunteer in a nursing facility or hospital or occasionally visit a friend or family member in a licensed setting or unlicensed residential setting.

Companion services may also be delivered in an acute care hospital in accordance with Section 1902(h) of the Social Security Act, when the services are:

• Identified in the participant's service plan;

• Provided to meet needs of the participant that are not met through the provision of hospital services;

• Designed to ensure smooth transitions between the hospital and home and community-based settings, and to preserve the participant's functional abilities; and

• Not a substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or state law, or under another applicable requirement.

This service can only be provided in an acute care hospital to assist the participant with one or more of the following:

• Communication;

• Intensive personal care; or

• Behavioral support/stabilization as enumerated in the behavior support plan.

Companion services are used in lieu of In-Home and Community Support when a habilitative outcome is not appropriate or feasible (i.e. when the professional providing the service mainly does activities for the participant or supervises the participant versus assisting the participant to learn, enhance or maintain a skill). While Companion services are mainly used to provide supervision and assist with socialization, as an incidental part of the service companions may supervise, assist or even perform activities for a participant that include: grooming, household care, meal preparation and planning, ambulating, medication administration in accordance with regulatory guidance.

This service can be used for hours when the participant is sleeping and needs supervision and/or assistance with tasks that do not require continual assistance, or non-habilitative care to protect the safety of the participant. For example, Companion services can be used during overnight hours for a participant who lives on their own but does not have the ability to safely evacuate in the event of an emergency or solely needs routine monitoring for conditions other than post-surgical care and convulsive (grand mal) epilepsy. Caregivers with whom the participant lives may not provide Companion services when the participant has been sleeping 5 or more hours and does not require direct care or supervision during those asleep hours. When direct care or supervision is provided, the caregiver may be reimbursed.

This service can also be used to supervise participants during socialization or non-habilitative activities when necessary to ensure the participant's safety.

This service may be provided at the following levels:

• Basic – The provision of the service at a staff-to-individual ratio of 1:3.

• Level 1 - The provision of the service at a staff-to-individual ratio of 1:2.

• Level 2 - The provision of the service at a staff-to-individual ratio of 1:1.

Transportation necessary to enable participation in community activities outside of the home in accordance with the participant's service plan that is 30 miles or less per day is included in the rate paid to agency providers.

Mileage that is needed to enable participation in community activities that exceeds 30 miles on any given day should be authorized on the service plan and billed by the agency as Transportation Mile. Transportation is not included in the wage range for Companion services provided by Support Service Professionals in participant directed services.

As such, Transportation services should be authorized and billed as a discrete service. When Transportation services are authorized and billed as a discrete service (regardless of whether the services are delivered by an agency or Support Service Professional) Companion is compensable at the same time for the supervision, assistance and/or care provided to the participant during transportation. Companion services cannot be used to solely transport a participant as this would be considered a Transportation service available in the waiver. The participant must have a need for supervision, assistance or the performance of tasks on his or her behalf while in the home and community locations for which transportation is necessary.

Participants authorized to receive Residential Habilitation, Life Sharing, or Supported Living may only be authorized to receive in-person Companion services when services are used to support a participant at their place of community integrated employment.

Companion services may not be provided at the same time as the direct portion of the following: Small Group Employment, In-Home and Community Supports, Respite (15 minute unit or Day), Shift Nursing and the direct portion of Community Participation Support.

Companion may be provided at the same time as Supported Employment, Advanced Supported Employment, Residential Habilitation, Life Sharing, and Supported Living for the purpose of supporting the participant in-person with non-skilled activities, supervision and/or incidental personal care that cannot, or would be inappropriate to, be provided with the support from coworkers or other natural supports and is outside the scope of the Supported Employment or Advanced Supported Employment service. Documentation must be maintained in the service plan about the methods that were considered and/or tried to support the non-skilled activities, supervision and/or personal care needs at the job site before it was determined that Companion was necessary to enable the participant to sustain competitive integrated employment.

Companion can only be provided to participants age 18 and older. All medically necessary personal care is covered through Medical Assistance for participants aged 18 to 20 pursuant to the EPSDT benefit and cannot be provided as a part of Companion services. Medically necessary personal care can only be covered for participants aged 21 and older as a part of Companion services.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania. During temporary travel, this service may be provided in Pennsylvania or other locations as per the ODP travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Companion services that are authorized on a service plan may be provided by relatives/legal guardians of the participant. When this occurs, any one relative or legal guardian may provide a maximum of 40 hours per week of authorized Companion or a combination of Companion and In-Home and Community Support (when both services are authorized in the service plan). Further, when multiple relatives/legal guardians provide the service(s) each participant may receive no more than 60 hours per week of authorized Companion or a combination of Companion and In-Home and Community Support (when both services are authorized in the service plan) from all relatives/legal guardians. An exception may be made to the limitation on the number of hours of In-Home and Community Support and Companion provided by relatives/legal guardians at the discretion of the employer when there is an emergency or an unplanned departure of a regularly scheduled worker for up to 90 calendar days in any fiscal year.

Service Type:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Consultative Nutritional Services		
HCBS Taxonomy:		
Category 1:	Sub-Category 1:	
11 Other Health and Therapeutic Services	11040 nutrition consultation	
Category 2:	Sub-Category 2:	
Category 3:	Sub-Category 3:	
Service Definition (Scope):		
Category 4:	Sub-Category 4:	

Consultative Nutritional services are direct and indirect services that assist unpaid caregivers and/or paid support staff in carrying out participant treatment/service plan, and that are not covered by the Medicaid State Plan, and are necessary to improve or sustain the participant's health status and improve the participant's independence and inclusion in their community. The service may include assessment, the development of a home treatment/service plan, training and technical assistance to carry out the plan and monitoring of the participant and the provider in the implementation of the plan. Consultative Nutritional teleservices may be provided in accordance with the requirements in the Additional Needed Information Section of the Main Module. This service may be delivered in the participant's home or in the community as described in the service plan. This service requires a recommendation by a physician.

Training family or other caregivers and development of a home program for caregivers to implement the recommendations of the Licensed Dietitian-Nutritionist are included in the provision of this service.

Consultative Nutritional Services can only be provided to adult participants. All medically necessary Consultative Nutritional Services for children under age 21 are covered in the state plan pursuant to the EPSDT benefit. Consultative Nutritional Services may only be funded for adult participants through the Waiver if documentation is secured by the Supports Coordinator that shows the service is medically necessary and either not covered by the participant's insurance or insurance limits have been reached. A participant's insurance includes Medical Assistance (MA), Medicare and/or private insurance. To the extent that any listed services are covered under the state plan, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

This service cannot be provided in a provider owned, leased, rented or operated licensed or unlicensed setting. This service does not include the purchase of food.

Participants authorized to receive Life Sharing or Supported Living services may not be authorized to receive Consultative Nutritional Services.

Direct Consultative Nutritional services may not be provided at the same time as the direct provision of any of the following: Benefits Counseling; Supported Employment; Small Group Employment; Community Participation Support; 15-minute unit Respite; Shift Nursing; Communication Specialist; Transportation; Therapies; Music, Art and Equine Assisted Therapy and Education Support.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Consultative Nutritional services are limited to 48 (15-minute) units which is equal to 12 hours per participant per fiscal year.

Provider Qualifications

License (specify):

Staff (direct, contracted, or in a consulting capacity) providing Consultative Nutritional Service must hold a state license in Pennsylvania (Title 49 Pa. Code Chapter 21, subchapter G) or a license in the state where the service is provided.

Certificate (*specify*):

Agencies must meet the following standards regardless of provider service location:

1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have Workers' Compensation Insurance, in accordance with state law.

7. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant which includes but is not limited to communication, mobility, and behavioral needs.

8. Comply with Department standards related to provider qualifications.

Staff working of or contracted with agencies must meet the following standards:

1.Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

2. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Family Medical Support Assistance

HCBS Taxonomy:

Category 1:	Sub-Category 1:
17 Other Services	17990 other
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

The Family Medical Support Assistance service assists with management of services in the participant's private home related to the medical needs of participants with a Needs Group 3 or higher who use medically necessary technology and require nursing. This is a direct and indirect service that does not involve direct care. Providers are required to render the following two components of the service.

1. Family support assistant - The family support assistant provides assistance to participants and their families with scheduling and communication between and among unpaid supports and paid services such as skilled nursing services, home health services, medical services, and behavioral health services in the participant's home including:

• Supporting the family with coordinating and scheduling medical and behavioral health appointments and assisting with medical visits (both in office and via remote technology);

• Understanding the concerns of the participant, family and other designated persons about medical providers or services and assisting with mitigating those concerns when possible;

• Directly assisting the participant, family and other designated person(s) with the discharge process from a hospital, clinic, or nursing home setting with going home. The discharge process may include accompanying the family and other designated person(s) when bringing the participant home if transportation is an issue, assisting with obtaining discharge information and educating the family, other designated person(s) and the participant on the discharge information, and ensuring that the participant's home is set up for home care and treatment based on the participant's needs;

• Assisting with communication with insurance providers to facilitate understanding of coverage of needed medical services;

• Assisting in obtaining, organizing and maintaining necessary inventory of needed medication, supplies, and equipment;

• Identifying barriers that prevent participants from accessing effective and necessary medical services and supports and collaborate with service plan team members regarding possible ways to reduce those barriers;

• Providing training and consultative assistance on implementation of non-medical aspects of the service plan to the family or Children Youth and Family supervised family and team members; and

• Training staff and unpaid supports coming into the home on non-medical aspects of the service plan and roles and responsibilities of team members in implementation of non-medical aspects of the service plan.

2. Nursing Oversight – Nursing oversight is completed by a licensed nurse within the scope of the state's Nurse Practice Act and includes the following:

• Assessment of the participant's medical condition;

• Completion of Health Risk Screening Tool Clinical Reviews in accordance with ODP protocols;

• Identification of training needs related to the participant's medically complex condition and providing training to the participant, unpaid caregivers, and paid professionals;

• Training and consultative assistance on implementation of medical aspects of the service plan to the family or Children Youth and Families supervised family and team members;

• Training staff and unpaid supports coming into the home on medical aspects of the service plan and roles and responsibilities of team members of implementation of medical aspects of the service plan;

• Helping the participant, family and any other designated persons or waiver service providers understand the participant's medical condition and impact on the participant's behavioral or emotional health;

• Consulting with doctors and other healthcare professionals; and

• Supervision and evaluation of the participant's medical and/or behavioral health needs or anything that maintains the participant's best state of health.

Nursing oversight differs from nursing available for children under the State Plan in the nature of the services provided and provider type. State Plan services provide only for direct nursing services while nursing oversight allows a nurse to train and supervise family or service providers and monitor their provision of these services. To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

The family support assistant and nurse work as a team to support each participant, family and other supporters and service providers. The family support assistant and nurse will communicate with the Supports Coordinator on a regular basis to ensure that the service plan is up-to-date and that the Supports Coordinator is aware of any needed coordination, location, and/or monitoring of supports and services that fall under the scope of the Supports Coordination service. Professionals rendering the Family Medical Support Assistance service must work collaboratively with the participant's Supports Coordinator and service plan team. Family Medical Support Assistance may not replace the role of or perform the functions of a Supports Coordinator. No duplicate payments will be made.

The family support assistant may provide Family Medical Support Assistance to no more than 8 participants for this or any other service. A licensed nurse may provide Family Medical Support Assistance to no more than 16 participants for this or any other service.

Completion of the Health Risk Screening Tool and adherence to Health Risk Screening Tool protocols is required as part of the Family Medical Support Assistance service.

Family Medical Support Assistance is available to participants who live in private homes. This service is not available to participants who receive Life Sharing, Supported Living or Residential Habilitation services.

Relatives who do not live with the participant or are not responsible for direct care of the participant may render this service.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Family/Caregiver Training and Support

HCBS Taxonomy:

Ca	ategory 1:	Sub-Category 1:
09	9 Caregiver Support	09020 caregiver counseling and/or training
Ca	ategory 2:	Sub-Category 2:
Ca	ategory 3:	Sub-Category 3:
Service	e Definition (Scope):	
Ca	ategory 4:	Sub-Category 4:

This service provides training and counseling services for unpaid family members or caregivers who provide support to a participant. For purposes of this service an unpaid family member or caregiver is defined as any person, such as a family member, spouse, neighbor, friend, partner, companion, or co-worker, who provides uncompensated care, training, guidance, companionship or support to the participant.

This service is intended to develop, strengthen and maintain healthy, stable relationships among the participant and all members of the participant's informal network, to support achievement of the goals in the participant's service plan. Family/Caregiver Training and Support also assists the participant's unpaid family member or caregiver with developing expertise so that they can help the participant acquire, retain or improve skills that lead to meaningful engagement and involvement with others and in the community.

Family/Caregiver Training and Support services are intended to increase the likelihood that the participant will remain in or return to the family or unpaid caregiver's home, or so that the participant will successfully live in his or her own home or apartment in the community.

Family/Caregiver Training and Support services must be aimed at assisting unpaid family members or caregivers who support the participant to understand and address the participant's needs and strengthen the relationship between the participant and caregiver. Family/Caregiver Training and Support services must be necessary to achieve the expected outcomes identified in the participant's service plan and must be related to the role of the unpaid family member or caregiver in supporting the participant in areas specified in the service plan.

Emphasis in the Family/Caregiver Training and Support service may address such areas as: • The acquisition of coping skills by building upon the strengths of the participant and unpaid family member or caregiver;

• Supporting unpaid family members or caregivers to support the participant during times of difficulty, crisis, loss, change, and transition;

• Working with unpaid family members or caregivers to improve communication with and support of one another;

• Coaching unpaid family members or caregivers in acquiring healthy approaches to reducing stress and balancing responsibilities; and

• Other areas so that all unpaid family members or caregivers can most effectively support the desired outcomes of the participant as described in the service plan.

Family/Caregiver Training and Support may include instruction about treatment regimens and other services included in the service plan and includes updates as necessary to safely maintain the participant at home and in the community during transitions throughout the lifespan. Services must be aimed at assisting the unpaid family member or caregiver in meeting the needs of the participant, and all training and counseling needs must be included in the service plan. The Family/Caregiver Training and Support provider must provide this service in a manner consistent with the participant's Behavior Support Plan and Crisis Intervention Plan.

In addition to services available from a qualified provider as described in Provider Specifications below, Family/Caregiver Training and Support may also be achieved through the unpaid family member or caregiver's attendance at specific training events, workshops, seminars or conferences by payment of registration and training fees, provided the formal instruction is relevant to the participant's needs as identified in the service plan. Payment or reimbursement for costs of travel, meals, and/or overnight lodging is not a covered expense.

This service may not be provided in order to train or counsel paid caregivers. The waiver may not pay for services for which a third party, such as the family members' health insurance, is liable. Family/Caregiver Training and Support services do not duplicate mental health services to treat mental illness that Medical Assistance provides through a 1915(b) waiver (Behavioral HealthChoices).

The Family/Caregiver Training and Support provider must maintain documentation on strategies, interventions and progress relating to the stated goals of the service as indicated in the service plan.

Participants who are authorized to receive Life Sharing services may not be authorized to receive Family/Caregiver

Training and Support.

Training and counseling provided to unpaid family members or caregivers may be delivered in Pennsylvania and in states contiguous to Pennsylvania. Registration fees for training opportunities may occur anywhere; however, lodging, meals and transportation are not compensable through the waiver.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The amount of training and counseling provided to unpaid family members or caregivers is limited to a maximum of 80 (15-minute) units which is equal to 20 hours per participant per fiscal year. In the event that these services would be needed beyond this limit to assure the participant's health and welfare, based on the unpaid family member or caregiver's request or provider assessment that additional services would be needed, the Supports Coordinator will convene a service plan meeting of the participant and other team members to explore alternative resources to assure the participant's health and welfare through other supports and services.

The amount of training or registration fees for the unpaid family member or caregiver's registrations costs at specific training events, workshops, seminars or conferences is limited to \$500 per participant per fiscal year, provided the formal instruction is relevant to the participant's needs as identified in the service plan. This cannot be used for lodging, meals or transportation.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Home Accessibility Adaptations

HCBS Taxonomy:

Category 1:

Sub-Category 1:

14 Equipment, Technology, and Modifications

14020 home and/or vehicle accessibility adaptations

Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Home accessibility adaptations are an outcome based vendor service that consists of certain modifications to the private home of the participant (including homes owned or leased by parents/relatives/friends with whom the participant resides and Life Sharing homes that are privately owned, rented, or leased by the host family or participant). The modifications must be necessary due to the participant's disability or medical needs, to ensure the health, security of, and accessibility for the participant, or which enable the participant to function with greater independence in the home. This service may only be used to adapt the participant's primary residence. Participants who need home accessibility adaptations to transition from an institutional setting to a private home (including a Life Sharing home) the adaptations can occur no more than 180 days prior to the participant moving into their residence. A provider or OHCDS may not bill for home accessibility adaptations until the participant moves out of the institutional setting and into the participant's residence.

Home modifications consist of installation, repair, maintenance, and extended warranties for the modifications; and when necessary to comply with rental/lease agreements, return of the property to its original condition.

All modifications shall meet the applicable standards of manufacture, design, and installation and shall be provided in accordance with applicable building codes.

The following are covered as modifications to a household subject to funding under the Waivers:

- Accessible alerting systems for smoke/fire/CO2 for individuals with sensory impairments.
- Widened doorways, landings, and hallways.
- Handrails that are considered a structural home modification.

• An additional doorway needed to ensure the safe egress of the participant during emergencies, when a variance is approved by the ODP Regional Office.

- Swing clear and expandable offset door hinges.
- Flush entries and leveled thresholds.

• Replacement of glass window panes with a shatterproof or break resistant material for participants with behavioral issues as noted in the participant's service plan.

- Slip resistant flooring.
- Kitchen counter, major appliance, sink and other cabinet modifications.
- Modifications to existing bathrooms for bathing, showering, toileting and personal care needs.
- Bedroom modifications of bed, wardrobe, desks, shelving, and dressers.
- Workroom modifications to desks and other working areas.

• Modifications needed to accommodate a participant's special sensitivity to sound, light or other environmental conditions.

In addition to the modifications listed above, the following home accessibility adaptations are also included for participants with medical needs for any of the following:

• Air conditioning for rooms frequently accessed by the participant if the participant has a medical need for specific temperature regulation.

• Electrical rewiring if the participant needs life-support equipment.

• Installation of specialized electric and plumbing systems that are necessary to accommodate the participant's medical equipment and supplies.

• Installation of flooring supports needed to support the weight of the participant's medical equipment.

For home accessibility durable medical equipment used by participants with a mobility impairment to enter and exit their home or to support activities of daily living covered by medical assistance in the state plan (such as ramps, lifts, stair glides, and grab bars), Home Accessibility Adaptations shall only include the following: • Extended warranties for the home accessibility durable medical equipment.

• Repairs needed as a result of the installation, use or removal of the home accessibility durable medical equipment or appliance.

• Any of the following required to install home accessibility durable medical equipment: o Adding internal supports such that the support requires access to the area behind a wall or ceiling or underneath the floor to install home accessibility durable medical equipment.

o Constructing retaining walls or footers for a retaining wall if needed to install home accessibility durable medical equipment.

- o Modifications to an existing deck.
- o Widening a doorway.
- o Upgrades to the home's electrical system.
- o Demolition of drywall or flooring.

Home Accessibility Adaptations do not include modifications that:Are not specifically identified in the service definition.

- Are not of direct medical or remedial benefit to the participant.
- Are not needed as a result of the participant's medical needs or disability.
- The family or caregiver would be expected to make for an individual without a disability.
- Are for general maintenance of the home.
- Are part of room and board.
- Have a primary benefit for a caregiver, staff person, family member, or the public at large.
- Are used in the construction of a new home or any new room in the home.
- Are durable medical equipment.

Adding total square footage to the home is excluded from this service unless an adaptation to an existing bathroom is needed to complete the home accessibility adaptation (e.g., necessary to configure a bathroom to accommodate a wheelchair).

To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

At least three bids must be obtained for Home Accessibility adaptations that cost more than \$1,000. The least expensive bid must be chosen, unless there is documentation from the service plan team that justifies not choosing the lowest bid. If three contractors, companies, etc. cannot be located to complete the Home Accessibility Adaptations, documentation of the contractors or companies contacted must be kept in the participant's file.

Participants authorized to receive Residential Habilitation services may not be authorized to receive Home Accessibility Adaptations. This service must be delivered in Pennsylvania.

• Installation of flooring supports needed to support the weight of the participant's medical equipment.

For home accessibility durable medical equipment used by participants with a mobility impairment to enter and exit their home or to support activities of daily living covered by medical assistance in the state plan (such as ramps, lifts, stair glides, and grab bars), Home Accessibility Adaptations shall only include the following: • Extended warranties for the home accessibility durable medical equipment.

• Repairs needed as a result of the installation, use or removal of the home accessibility durable medical equipment or appliance.

• Any of the following required to install home accessibility durable medical equipment: o Adding internal supports such that the support requires access to the area behind a wall or ceiling or underneath the floor to install home accessibility durable medical equipment.

o Constructing retaining walls or footers for a retaining wall if needed to install home accessibility durable medical equipment.

- o Modifications to an existing deck.
- o Widening a doorway.
- o Upgrades to the home's electrical system.
- o Demolition of drywall or flooring.

Home Accessibility Adaptations do not include modifications that:Are not specifically identified in the service definition.

- Are not of direct medical or remedial benefit to the participant.
- Are not needed as a result of the participant's medical needs or disability.
- The family or caregiver would be expected to make for an individual without a disability.
- Are for general maintenance of the home.
- Are part of room and board.
- Have a primary benefit for a caregiver, staff person, family member, or the public at large.
- Are used in the construction of a new home or any new room in the home.
- Are durable medical equipment.

Adding total square footage to the home is excluded from this service unless an adaptation to an existing bathroom is needed to complete the home accessibility adaptation (e.g., necessary to configure a bathroom to accommodate a wheelchair).

To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

At least three bids must be obtained for Home Accessibility adaptations that cost more than \$1,000. The least expensive bid must be chosen, unless there is documentation from the service plan team that justifies not choosing the lowest bid. If three contractors, companies, etc. cannot be located to complete the Home Accessibility Adaptations, documentation of the contractors or companies contacted must be kept in the participant's file.

Participants authorized to receive Residential Habilitation services may not be authorized to receive Home Accessibility Adaptations. This service must be delivered in Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Maximum state and federal funding participation is limited to \$20,000 per participant during a 10-year period. The 10-year period begins with the first utilization of authorized Home Accessibility Adaptations. A new \$20,000 limit can be applied when the participant moves to a new home or when the 10-year period expires. In situations of joint custody (as determined by an official court order) or other situations where a participant divides their time between official residences, the adaptations must be allowable services and must be completed within the overall monetary limit of \$20,000 for this service.

A variance may be requested for the \$20,000 limit and approved by ODP for maintenance or repair to existing home accessibility adaptations when it is not covered by a warranty or home owners insurance and the maintenance or repair is more cost effective than replacing the home accessibility adaptation.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Housing Transition and Tenancy Sustaining Service

HCBS Taxonomy:

Category 1:	Sub-Category 1:
17 Other Services	17030 housing consultation
Category 2:	Sub-Category 2:
17 Other Services	17990 other
Category 3:	Sub-Category 3:

Service Definition (Scope):	
Category 4:	Sub-Category 4:

This service includes pre-tenancy and housing sustaining supports to assist participants in being successful tenants in private homes owned, rented or leased by the participants.

Housing Transition services are direct and indirect services provided to participants. Indirect activities that cannot be billed include driving to appointments, completing service notes and progress notes, and exploring resources and developing relationships that are not specific to a participant's needs as these activities are included in the rate. The following direct and indirect activities are billable under Housing Transition:

• Conducting a tenant screening and housing assessment that identifies the participant's preferences and barriers related to successful tenancy. The assessment may include collecting information on potential housing transition barriers, and identification of housing retention barriers.

• Developing an individualized housing support plan based upon the housing assessment that addresses identified barriers, includes short and long-term measurable goals for each issue, establishes the participant's approach to meeting the goal, and identifies when other providers or services, both reimbursed and not reimbursed by Medicaid, may be required to meet the goal.

• Assisting the participant with the process of searching for a home that is located in an integrated setting that is dispersed in the community in a noncontiguous location not located on a campus setting. Housing Transition cannot be used to find homes that are located in any development or building where more than 25% of the apartments, condominiums or townhouses have ODP waiver funded participants residing.

• Assisting the participant with the housing application process, including assistance with applying for housing vouchers/applications.

• Assisting the participant with identifying resources to cover expenses such as security deposit, moving costs, furnishings, adaptive aids, environmental modifications, moving costs and other one-time expenses.

• Ensuring that the living environment is safe and ready for move-in.

• Assisting the participant in arranging for and supporting the details of the move.

• Developing a housing support crisis plan that includes prevention and early intervention services when housing is jeopardized to assist individuals with planning, locating and maintaining a home of their own.

• Assisting the participant with establishing and building a relationship for community integration.

• Assisting the participant with obtaining and identifying resources to assist the participant with financial education and planning for housing. Activities include assistance with budgeting for house and living expenses. Assistance with completing applications for subsidies or other entitlements such as energy assistance, or public assistance. Assistance with identifying financial resources to assist with housing for the participant including special needs trusts and ABLE accounts.

• Working with the Supports Coordinator and service plan team to identify needed assistive technology or home accessibility adaptations, which are necessary to ensure the participant's health and well-being.

• Assisting the participant with coordinating the move from a congregate living arrangement or from a family home to a more independent setting; providing training on how to be a good tenant.

• Working collaboratively with other service providers and unpaid supports.

• Assisting the participant with identifying resources to secure household furnishings and utility assistance. Activities will include identifying and coordinating resources that may assist with obtaining a security deposit, first month rent, or any other costs associated with the transition.

Financial support that constitutes a room and board expense is excluded from federal financial participation in the waiver.

This service is also available to support participants to maintain tenancy in a private home owned, rented or leased by the participant. The availability of ongoing housing-related services in addition to other long term services and supports promotes housing success, fosters community integration and inclusion, and develops natural support networks. These tenancy support services are:

• Providing early identification and intervention for behaviors that may jeopardize housing, such as late rental payment and other lease violations.

• Education and training on the role, rights and responsibilities of the tenant and landlord.

• Coaching on developing and maintaining key relationships with landlords/property managers with a goal of fostering successful tenancy.

• Assistance with activities such as supporting the participant in communicating with the landlord and/or property manager; developing or restoring interpersonal skills in order to develop relationships with landlords, neighbors and others to avoid eviction or other adverse lease actions; and supporting the participant in understanding the terms of a lease or mortgage agreement.

• Advocacy and linkage with community resources to prevent eviction when housing is, or may potentially become jeopardized.

• Assisting the participant with the housing recertification process.

• Coordinating with the tenant to review, update and modify their housing support and crisis plan on a regular basis to reflect current needs and address existing or recurring housing retention barriers.

• Continuing training in being a good tenant and lease compliance, including ongoing support with activities related to household management.

Tenancy support services may not be authorized for participants who are authorized to receive Life Sharing or Supported Living services. Housing Transition services may be authorized when the participant has a plan to move from the home where Life Sharing is provided into a private home that the participant will own, rent or lease.

This service can be delivered in Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Housing Transition and Tenancy Sustaining services are limited to 640 (15-minute) units which is equal to 160 hours per participant per fiscal year.

Service Delivery Method (check each that applies):

Provider Type:

Housing Transition and Tenancy Sustaining Provider

Provider Qualifications

License (*specify*):

Certificate (specify):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania, Washington DC, Virginia or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

- 5. Have Commercial General Liability Insurance.
- 6. Have Workers' Compensation Insurance in accordance with state law.

7. Have knowledge of and how to access, refer to, and inform on programs or resources such as:• Housing choice vouchers.

- Section 811 PRA
- Mainstream/Non-Elderly Disabled (NED) vouchers.
- Project based operating assistance.
- Tenant based rental assistance (HOME and NHT).
- 20% Units (LIHTC deeply affordable/accessible units).
- Fair housing.
- Reasonable accommodations.
- Home ownership programs.
- USDA rural housing services, loans, and grants.

• Local and regional housing providers, housing resources and organizations serving persons with disabilities and older adults.

• Privately financed housing opportunities and any other project based subsidies, local-state-federal housing initiatives as they are available.

- Discharge processes from various institutional and residential settings.
- Home Modifications funded through the Department, PHFA, and DCED.
- Olmstead requirements.
- Housing First.
- Trained in Prepared Renters Program (PREP) training for agencies.
- Ability to use PAHousingSearch.com.

8. Comply with Department standards related to provider qualifications.

Staff working for or contracted with the agency as well as volunteers utilized in providing this service if

they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

3. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

Verification of Provider Qualifications

Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Life Sharing

HCBS Taxonomy:

Category 1:

Sub-Category 1:

02 Round-the-Clock Services

02021 shared living, residential habilitation

Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Life Sharing services are direct and indirect, provider agency managed services that occur in one of the following locations:

* Private home of a host family. The host family can be the participant's relative(s), legal guardian, or persons who are not related to the participant.

* Private home of the participant where a host family who is not related to the participant moves into the participant's home and shares the participant's home as their primary residence.

For the purposes of Life Sharing the following definitions apply:

* Relative - All relatives may provide Life Sharing services. In accordance with 55 Pa. Code Chapter § 6500.4, a host home that is owned, rented or leased by a parent, child, stepparent, stepchild, grandparent, grandchild, brother, sister, half-brother, half-sister, aunt, uncle, niece or nephew does not need to be licensed. Relatives whose relationship to the participant are not specified in this list may require licensure based on the amount of care the participant requires as specified at 55 Pa. Code §6500.3(f)(5). When Life Sharing is provided by a relative to a participant who is younger than 18 years of age, this service may only be used to provide extraordinary care. A relative is responsible to meet the needs of a participant who is younger than 18 years of age, thildren at various stages of growth and development. A relative can, however, receive payment for Life Sharing services when this support goes beyond what would be expected to be performed in the usual course of parenting, and when needed support exceeds what is typically required for a child of the same age. Further, the provider agency must develop a pre-service agreement with relatives that states the Life Sharing program requirements that the relative(s) must comply with to be a host family and the conditions that will result in termination of the relative(s) as a host family from the Life Sharing program.

* Private home - A home that is owned, rented or leased by the participant or the host family. Homes owned, rented or leased by a provider are not private homes. Homes owned, rented or leased by a provider and subsequently leased to a participant or his or her relatives are also not private homes.

* Host family - One or more persons with whom the participant lives in a private home, such as the participant's relative(s), legal guardian, or persons who are not related to the participant. The host family is responsible for, and actively involved in, providing care and support to the participant in accordance with the service plan.

This service is built on the principle that every participant has the capacity to engage in lifelong learning. As such, through the provision of this service, participants will acquire, maintain, or improve skills necessary to live in the community, to live more independently, and to participate meaningfully in community life. To the extent that Life Sharing is provided in community settings outside of the residence, the settings must be inclusive rather than segregated.

Services consist of assistance, support and guidance (physical assistance, instruction, prompting, modeling, and positive reinforcement) in the general areas of self-care, health maintenance, decision making, home management, managing personal resources, communication, mobility and transportation, relationship development and socialization, personal adjustment, participating in community functions and activities and use of community resources.

Life Sharing services may be provided up to 24 hours a day based on the needs of the participant receiving services. The type and amount of assistance, support and guidance are informed by the assessed need for physical, psychological, medical, or emotional assistance established through an assessment or screening (including the Health Risk Screening Tool) and person-centered planning processes. The type and amount of assistance are delivered to enhance the autonomy of the participant, in line with their personal preference and to achieve their desired outcomes.

Life Sharing services are often the primary residence of the participant and as such, it is their home. Respect for personal routines, rhythms, rights, independence, privacy and personalization are intrinsic to the service as is access to experiences and opportunities for personal growth.

The Life Sharing provider must provide the level of services necessary to enable the participant to meet habilitation outcomes. This includes ensuring assistance, support and guidance (prompting, instruction, modeling, positive reinforcement) will be provided as needed to enable the participant to:

1. Carry out activities of daily living such as personal grooming and hygiene, dressing, making meals and

maintaining a clean environment.

2. Learn and develop practices that promote good health and wellness such as nutritious meal planning, regular exercise, carrying through prescribed therapies and exercises, awareness and avoidance of risk including environmental risks, exploitation or abuse; responding to emergencies in the home and community such as fire or injury; knowing how and when to seek assistance.

3. Manage or participate in the management of their medical care including scheduling & attending medical appointments, filling prescriptions and self-administration of medications, ensuring that there is a sufficient amount of medical supplies so the participant will not be at risk of not having the supplies, and keeping health logs and records.

4. Manage his or her mental health diagnosis & emotional wellness including self-management of emotions such as disappointment, frustration, anxiety, anger, and depression; applying trauma informed care principles and practices; and accessing mental health services. The service should include: a comprehensive behavior assessment; design, development and updates to a behavior support plan that includes positive practices and least restrictive interventions; development of a Crisis Intervention Plan; and implementation of the behavior support plan, Crisis Intervention Plan and/or the skill building plan which involve collecting and recording the data necessary to evaluate progress and the need for plan revisions.

5. Participate in the development and implementation of the service plan and direct the person-centered planning process including identifying who should attend and what the desired outcomes are.

6. Make decisions in identifying options/choices and evaluating options/choices against a set of personal preferences and desired outcomes. This includes assistance with identifying supports available within the community.

7. Manage the participant's home; including arranging for utility services, paying bills, home maintenance, and home safety.

8. Achieve financial stability through managing personal resources, general banking and balancing accounts, record keeping and managing savings accounts and utilizing programs such as ABLE accounts.

9. Communicate with providers, caregivers, family members, friends and others face-to-face & through the use of the telephone, correspondence, the internet, and social media. The service may require knowledge and use of sign language or interpretation for participants whose primary language is not English.

10. Use a range of transportation options such as buses, trains, cab services, driving, and joining car pools. Life Sharing providers are responsible to provide transportation to activities related to health, community involvement and the participant's service plan. The Life Sharing provider is not responsible for transportation for which another provider is responsible.

11. Develop and manage relationships with individuals residing in the same home as appropriate, share responsibilities for shared routines such as preparing meals, eating together, carrying out routine home maintenance such as light cleaning, planning and scheduling shared recreational activities and other typical household routines, resolving differences and negotiating solutions.

12. Develop and maintain relationships with members of the broader community and to manage problematic relationships.

13. Exercise rights as a citizen and fulfill their civic responsibilities such as voting and serving on juries; attending public community meetings; participating in community projects and events with volunteer associations and groups; serving on public and private boards, advisory groups, and commissions, as well as developing confidence and skills to enhance their contributions to the community.

14. Develop personal interests, such as hobbies, appreciation of music, and other experiences the participant enjoys or may wish to discover.

15. Participate in preferred activities of community life such as shopping, going to restaurants, museums, movies,

concerts, dances and faith based services.

The Life Sharing provider is responsible for identification of risks to the participant and the implementation of actions such as reporting incidents as required by ODP, OAPSA, the Adult Protective Services Act and the CPSL, and/or calling emergency officials for immediate assistance. The Life Sharing provider is also responsible for providing physical health maintenance services including those required by a licensed nurse when required to assure health and wellness or as required in the service plan.

Life Sharing services include the support of a life sharing specialist for each participant with overall responsibility for supporting the participant and the host family in the lifesharing relationship. The life sharing specialist provides oversight & monitoring of the habilitative outcomes, health & wellness activities, ongoing assessment of supports and needs of the participant as identified in the service plan, as well as coordination of support services, such as relief, for the host family.

When a participant's rights as specified in 55 Pa. Code §§ 6100.182 and 6100.183 are modified, the modification must be supported by a specific assessed need, agreed upon by the service plan team and justified in the service plan. When any participant rights are modified due to requirements in a court order, the modification must still be included in the service plan and the plan must be implemented. Because the origin of the rights modification is a court order, team agreement is not a requirement for implementation of the modification. Decisions made in the provision of services to participants under the age of 18 that mimic typical parental decisions, such as bedtime and nutrition do not rise to the level of a modification based on an assessed need, and do not need to be documented in the service plan.

Life Sharing services may only be used to meet the exceptional needs of the participant who is under age 18 that are due to his or her disability or medical needs and are above and beyond the typical, basic care for a child that all families with children may experience.

Life Sharing services must be delivered in PA. During temporary travel this service may be provided in other locations per ODP's travel policy.

No more than 4 people unrelated to the host family can reside in a private home where Life Sharing services are provided. No more than 2 people may receive Life Sharing services in a private home.

Room and board is not included in the rate for the Life Sharing service. The provider agencies should collect room & board payments in accordance with regulatory requirements. Life Sharing may not be provided when the host family is also a foster home for the participant.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is billed as a day unit.

Supplemental Habilitation as a Residential enhanced staffing add-on may be utilized in emergency situations or to meet a participant's temporary medical or behavioral needs. Supplemental Habilitation staff can be authorized for no more than 90 calendar days unless a variance is granted by the AE. Supplemental Habilitation may be delivered in an acute care hospital in accordance with Section 1902(h) of the Social Security Act, when the services are:

• Identified in the participant's service plan;

• Provided to meet needs of the participant that are not met through the provision of hospital services;

• Designed to ensure smooth transitions between the hospital and home and community-based settings, and to preserve the participant's functional abilities; and

• Not a substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or state law, or under another applicable requirement.

This service can only be provided in an acute care hospital to assist the participant with one or more of the following:

• Communication;

• Intensive personal care; or

• Behavioral support/stabilization as enumerated in the behavior support plan.

Participants authorized to receive Life Sharing services:

• May receive Remote Supports Equipment and Technology (procedure code W6087) to purchase or lease equipment or technology that will be used exclusively by a participant for the delivery of remote supports as a method of Life Sharing service delivery. All items purchased through Remote Supports shall meet the applicable standards of manufacture, design, and installation. Items reimbursed with Waiver funds shall be in addition to any equipment or supplies provided under the MA State Plan. Excluded are those items that are not of direct medical or remedial benefit to the participant or are primarily for a recreational or diversionary nature. Items designed for general use shall only be covered to the extent necessary to meet the participant's needs and be for the primary use of the participant.

• May receive Vehicle Accessibility Adaptations when the vehicle being adapted and utilized by the participant is not owned, leased or rented by the provider.

• May not be authorized to receive Supports Broker services unless the participant has a plan to self-direct their services through a participant-directed services model in a private residence.

The following services may not be authorized for participants who receive Life Sharing services: Unlicensed Residential Habilitation, Supported Living; Homemaker/Chore; Specialized Supplies; In-Home and Community Supports; Family/Caregiver Training and Support; and Consultative Nutritional Services. Transportation is included in the rate and may not be billed as a discrete service, unless transportation is to or from a job that meets the definition of competitive integrated employment and the need is documented in the service plan. The Life Sharing rate includes Behavioral Support. Behavioral Support may only be authorized as a discrete service when it is used to support a participant to access Community Participation Support or to maintain employment when provided at the participant's place of employment. Communication Specialist and Shift Nursing can only be authorized in limited circumstances; reference those service definitions for the exceptions. Companion services may only be authorized as a discrete service when it is used to support a participant in-person at their place of community integrated employment in alignment with the Companion service definition.

All private homes in which Life Sharing are provided must be integrated and dispersed in the community in noncontiguous locations, and may not be located on campus settings. The location of each home in which Life Sharing is provided must be separate from any other ODP-funded residential setting and must be dispersed in the community and not surrounded by other ODP-funded residential settings. Homes that share only 1 common party wall are not considered contiguous. Any home in which Life Sharing is provided should be located in the community and surrounded by the general public. New homes or changes to existing homes where Life Sharing is/will be provided must be approved by ODP or its designee utilizing the ODP residential setting criteria. Life Sharing may not be provided in a home enrolled on or after 2/1/2020 that is adjacent to any of the following regardless of the funding source of the individuals served:

*Licensed public and private (ICF/ID) (55 Pa. Code Chapter 6600) or ICF/ORC.

*Licensed Personal Care Homes (55 Pa. Code Chapter §2600).

*Licensed Assisted Living Residences (55 pa. Code Chapter §2800).

*Licensed Adult Training Facilities (55 Pa. Code Chapter 2380).

*Licensed Vocational Facilities (55 Pa. Code Chapter 2390).

*Licensed Older Adult Daily Living Centers (6 Pa. Code Chapter 11).

Exceptions are allowed for Residential Service locations to share 1 common party wall with 1 other Residential Service location funded through ODP's waivers in the form of a duplex, 2 bilevel units, and 2 side-by-side apartments. This exception does not extend to Residential Service locations that are not funded through ODP's waivers.

Settings enrolled on or after 2/1/2020 shall not be located in any development or building where more than 25% of the apartments, condominiums or townhouses have waiver funded Residential Habilitation, Life Sharing or Supported Living being provided.

To the extent that any listed services are covered under the state plan, including EPSDT, the services under the waiver would be limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.

Appendix C: Participant Services

C-1/C-3: Provider Specifications for Service

Service Type: Other Service Service Name: Life Sharing

Provider Category: Agency Provider Type:

Life Sharing Agency

Provider Qualifications

License (*specify*):

The agency must be licensed under 55 Pa. Code Chapter 6500 for Family Living Homes as applicable.

Certificate (*specify*):

LIFE SHARING SPECIALIST

The life sharing specialist shall have one of the following four groups of qualifications: 1. A master's degree or above from an accredited college or university and 1 year work experience working directly with persons with an intellectual disability, developmental disability, and/or autism.

2. A bachelor's degree from an accredited college or university and 2 years work experience working directly with persons an intellectual disability, developmental disability, and/or autism.

3. An associate's degree or 60 credit hours from an accredited college or university and 4 years work experience working directly with persons with an intellectual disability, developmental disability, and/or autism.

4. A high school diploma or general education development certificate and 6 years work experience working directly with persons with an intellectual disability, developmental disability, and/or autism.

BEHAVIORAL SPECIALIST

The Life Sharing provider must have behavioral specialists (direct, contracted or in a consulting capacity) available who, as part of the Life Sharing service, complete assessments, develop and update Behavior Support Plans and Crisis Intervention Plans and train other agency staff. A Functional Behavioral Assessment and comprehensive behavioral support plan must be completed within 60 days of identification by the service plan team of a participant's need for assistance from a behavioral specialist. The behavioral specialist ensures behavior support provided to the participant includes positive practices and least restrictive interventions. Behavior support plans may not include chemical or mechanical restraints. The behavior support plan may not include physical restraints as behavioral interventions. Physical restraints may only be utilized in accordance with 55 Pa. Code §§6100.348 and 6100.349 in the case of an emergency or crisis to prevent an individual from immediate physical harm to the individual or others. Behavior support plans that include restrictive procedures must be approved by a human rights team prior to implementation. ODP expects that, regardless of the number of providers supporting a person, continuity of care will be maintained through ongoing team communication and collaboration. Ideally, there should be one behavior support plan for the participant that is integrated and comprehensive and incorporates support strategies for all environments. If there is more than one Behavioral Specialist working with the participant, the behavior support plan can reflect joint authorship.

Behavioral specialists must meet the professional education or licensure criteria in one of the following three sets of requirements:

1. Master's Degree or higher in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology.

2. A Pennsylvania Behavior Specialist License.

3. Must have a Bachelor's Degree and work under the supervision of a professional who has a Master's Degree in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology, or who is a licensed psychiatrist, psychologist, professional counselor, social worker (master's level or higher) or who has a Pennsylvania Behavior Specialist License.

In addition to the education and licensing criteria above, behavioral specialists must also meet the following standards:

1. Complete training in conducting and using a Functional Behavioral Assessment.

2. Complete training in positive behavioral support.

SUPPORTIVE TECHNOLOGY PROFESSIONAL

When rendering remote support services to participants, the Life Sharing provider must have a supportive technology professional (direct, contracted, or in a consulting capacity) available who has either a current Assistive Technology Professional certificate from Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) or Enabling Technology Integration

Specialist SHIFT certification. The supportive technology professional is responsible for the following as part of the Life Sharing service:

1. Completion of evaluations of participants' assistive technology needs, including a functional evaluation of the impact of appropriate remote supports.

2. Completion of an evaluation plan that, at a minimum, includes: the need(s) of the participant that will be met by the remote supports how the remote supports will ensure the participant's health, welfare and independence; the training needed to successfully utilize the technology and the back-up plan that will be implemented should there be a problem with the remote supports.

3. Informing the participant, and anyone identified by the participant, of what impact the remote supports will have on the participant's privacy. This information must be provided to the participant in a form of communication reasonable calculated to be understood by the individual. This process must be completed prior to the utilization of remote supports, and any time there is a change to the remote supports including technology devices utilized.

4. Ensuring that the remote supports technology is in good working order.

This information will be provided to the participant and service plan team for discussion and inclusion of the remote supports in the service plan.

Agencies must meet the following standards: 1. Have a waiver service location in Pennsylvania.

2. Actively provided direct non-residential HCBS as a provider enrolled to provide ODP Waiver services for the two years prior to enrolling to provide Life Sharing and be in good standing (not subject to sanctions or enforcement actions by the Department).

3. Annually submit to ODP the most recent financial statement that has been audited by an independent Certified Public Accountant

4. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

5. Complete standard ODP required orientation and training.

6. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

7. Have Commercial General Liability Insurance.

8. Have documentation that all vehicles used in the provision of the Life Sharing service have automobile insurance.

9. Have documentation that all vehicles used in the provision of the Life Sharing service have current State motor vehicle registration and inspection.

10. Have Workers' Compensation Insurance, in accordance with state law.

11. At least one of the following must have experience working with individuals with an intellectual disability, developmental disability, and/or autism and have a bachelor's degree:

- Executive Director,
- Chief Executive Officer,
- Chief Operations Officer, or
- Director, Assistant or Associate Director.

12. The organization must have a chief financial officer with 5 years' experience or evidence of contracted financial management services.

13. Have a person fill the role of Chief Executive Officer (CEO) at all times. The agency must have a written plan stating who will fill the role of the CEO should the current CEO leave his or her position.

14. In the case of an entity newly enrolled to provide Life Sharing services, or a current provider hiring new executive level staff, one of the following positions:

- Executive Director,
- Chief Executive Officer,
- Chief Operations Officer, or
- Director, Assistant or Associate Director.

must have a bachelor's degree & a minimum of 5 years' experience in an executive-level position relating to the provision of residential services to individuals with an intellectual disability, developmental disability, autism, and/or serious mental illness, with responsibility for all of the following:

•Day-to-day residential agency operations;

•Oversight of the development and implementation of residential agency-wide policies and procedures;

•Supervision of management-level staff; and

•Compliance with applicable state and federal regulations.

15. Notify the ODP Regional Office and Administrative Entity(ies) within 10 business days of the hiring date of a new CEO including an interim or acting CEO.

16. Employ life sharing program specialist(s) who are responsible for up to 8 homes and no more than 16 participants for this or any other service.

17. Have an annual training plan to improve the knowledge, skills and core competencies of agency personnel.

18. Have an organizational structure that assures adequate supervision of each residence and the availability of back up and emergency support 24 hours a day.

19. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant to carry out the service plan which includes but is not limited to communication, mobility and behavioral needs.

20. Ensure that staff (direct, contracted, or in a consulting capacity) have criminal history clearances per 35 P.S. §10225.101 et seq. and 6 Pa. Code Chapter 15. If the criminal history clearance results identify a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation the review must be maintained for any staff that were hired whose criminal history clearance results identified a criminal record.

21. Comply with Department standards related to provider qualifications.

Life sharers contracting with agencies must meet the following standards: 1. Be at least 18 years of age.

1. De al least 16 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Complete a Department approved training on the common health conditions that may be associated with preventable deaths in people with an intellectual or developmental disability.

4. Have a valid driver's license if the operation of a vehicle is necessary to provide Life Sharing services.

Life sharing specialists must meet the following standards:

1. Receive training which includes interpersonal dynamics, community participation, individual service planning and delivery, relationship building in addition to training required by licensing or agency policy.

2. Be at least 18 years of age.

3. Complete necessary pre/in-service training based on the service plan.

4. Have a valid driver's license if the operation of a vehicle is necessary to provide Life Sharing services.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Music Therapy, Art Therapy and Equine Assisted Therapy

HCBS Taxonomy:

Category 1:	Sub-Category 1:
11 Other Health and Therapeutic Services	11130 other therapies
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Direct therapy services provided to a participant who may or may not have a primary diagnosis of mental illness, but who could benefit by the provision of therapy to maintain, improve or prevent regression of the participant's condition and assist in the acquisition, retention or improvement of skills necessary for the participant to live and work in the community. Music and Art Therapy teleservices may be provided in accordance with the requirements in the Additional Needed Information Section of the Main Module. Services and intended benefit must be documented in the service plan. Therapy services consist of the following individual and group therapies for no more than 4 individuals that are not primarily recreational or diversionary:

• Art Therapy;

• Music Therapy; and

• Equine Assisted Therapy.

The initial session of Music Therapy, Art Therapy or Equine Assisted Therapy must include an assessment of the participant's need for the service. If additional sessions are indicated following the assessment of need, therapists providing these services must develop a treatment plan that reflects individualized, attainable goals to be achieved during the remaining sessions.

Music Therapy and Art Therapy can only be provided to adult participants (participants age 21 and older). All Music Therapy and Art Therapy for children under age 21 are covered in the state plan pursuant to the EPSDT benefit. Music Therapy and Art Therapy may only be funded for adult participants through the Waiver if documentation is secured by the Supports Coordinator that shows the service is medically necessary and either not covered by the participant's insurance, insurance limitations have been reached, or the service is not covered by Medical Assistance or Medicare or limitations for Medical Assistance or Medicare have been reached.

Equine Assisted Therapy can be provided to participants of any age as it is not covered by Medical Assistance. For school age participants, Supports Coordinators must document that Equine Assisted therapy is not covered through the participant's individualized education plan (IEP) or through the participant's insurance.

Music Therapy, Art Therapy and Equine Assisted Therapy may not be provided at the same time as the direct provision of the following: Community Participation Support; Small Group Employment; Supported Employment; Advanced Supported Employment; Benefits Counseling; 15-minute unit Respite; Transportation; Therapies; Education Support and Consultative Nutritional Services.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The cumulative maximum limit of any combination of Music Therapy, Art Therapy, or Equine Assisted Therapy is 104 (15-minute) units which is equal to 26 hours per participant per fiscal year.

Participant-Directed Goods and Services are services, equipment or supplies not otherwise provided through other services offered in this waiver, the Medicaid State Plan, or a responsible third party. Participant-Directed Goods and Services must be used primarily for the benefit of the participant, address an identified need in the participant's service plan and must achieve one or more of the following objectives:

• Decrease the need for other Medicaid services.

• Promote or maintain inclusion in the community.

- Promote the independence of the participant.
- Increase the participant's health and safety in the home environment.

• Develop or maintain personal, social, physical or work-related skills.

Participant-directed Goods and Services may not be used for any of the following:Personal items and services not related to the participant's intellectual disability, developmental disability or autism;

• Experimental or prohibited treatments;

• Entertainment activities, including vacation expenses, lottery tickets, alcoholic beverages, tobacco/nicotine products, movie tickets, televisions and related equipment, and other items as determined by the Department;

• Expenses related to routine daily living, including groceries, rent or mortgage payments, utility payments, home maintenance, gifts, pets (excluding service animals), self-employment/business related expenses and other items as determined by the Department;

• Items and services that the participant has the funds to purchase; or

• Items and services that are excluded from receiving Federal Financial Participation, including but not limited to: room and board payments which include the purchase of furnishings and services provided while a participant is an inpatient of a nursing facility or ICF/ID.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Participant-directed Goods and Services are limited to \$2,000 per participant per fiscal year through one of the participant-directed services models.

Service Title:

Remote Supports

HCBS Taxonomy:

Category 1:	Sub-Category 1:
17 Other Services	17990 other
Category 2:	Sub-Category 2:
14 Equipment, Technology, and Modifications	14031 equipment and technology
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

The purpose of Remote Supports services is to assist participants age 16 and older in obtaining and/or maintaining their independence and safety within their private home and in the community and to decrease the need for assistance from others. Remote Supports is used during periods of time that direct services are not required. Remote Supports involve the use of technology that uses two-way real time communication in the participant's home or community that allows awake staff from an agency who is offsite to monitor and respond to the participant's health and safety needs. Interaction with a professional occurs as needed as part of remote supports but is not the main function of the service. Remote Supports shall be provided in real time, not via recording, and during service provision staff shall be awake and not have duties other than Remote Supports. Staff responsible for monitoring devices and equipment and responding to the participant's needs must be physically located in the provider agency's secure facility.

Remote Supports include the following:

• Staff who monitor and respond to the participant's needs;

• The technology utilized in the home and community that is monitored by the staff;

• The technology utilized for two-way real time communication (if different from above);

• The equipment necessary to operate the technology; and

• The costs for delivery, installation, adjustments, monthly testing, monitoring, maintenance and repairs to the technology and equipment necessary to operate the technology.

Internet services are not covered as part of Remote Supports.

Remote Supports are fully integrated into the participant's overall system of services and supports. A Remote Supports implementation plan must be completed by the Remote Supports provider and reviewed by the service plan team in accordance with ODP policy. The Remote Supports implementation plan must include:

• How the participant's rights including the participant's right to privacy of person and possessions will be protected; o Recording of the participant via audio or video is prohibited. Live video or audio transmission is only allowable

to persons designated by the participant and designated staff employed by the provider responsible for direct service delivery.

o Without exception, the use of video monitoring equipment in bedrooms and bathrooms is prohibited.

o Participants or unpaid supports who will be present during the provision of Remote Supports must be able to turn off all audio or video

monitoring devices used in any of part of the home or community during the provision of service.

o If it is determined through the person-centered planning process that a participant needs audio monitoring equipment in a bedroom or bathroom, the participant must be alerted prior to the activation of any audio communication device unless the participant turns on the audio communication device themselves.

o Live real-time video communication between the participant and a staff person may only occur in the participant's bedroom when all of the following are met:

- The participant has chosen to receive services in their bedroom due to a medical condition which makes it difficult or impossible for them to leave their bedroom to receive services in another room in the house or the participant would like privacy from others in the home (family, housemates, etc.) during the receipt of services;

- The participant turns the video communication device on and off themselves or requests assistance in turning the video communication device on and off;

- The participant does not share a bedroom with others; and

- Service delivery via video communication will not be performed as part of any activity during which privacy would generally be expected (while a participant is in a state of undress, during sexual activities, etc.).

o Sensors and other non-audio/video devices are permitted in bedrooms and bathrooms as part of the service plan.

• How the participant's health, welfare and safety needs will be met, including completion of a back-up plan that will be implemented if there is a problem with Remote Supports;

• The training participants and any other designated persons will receive to enable the participant and others to successfully utilize the technology and equipment; and

• How Remote Supports are more cost effective than other waiver services.

The Remote Supports provider is responsible for informing the service plan team, including the participant and anyone identified by the participant of the impact the Remote Supports will have on the participant's privacy. This includes information about whether the participant or designated persons identified in the service plan can turn off the Remote Supports device or equipment if they choose to do so. Participants or unpaid supports who will be present during the provision of Remote Supports must be able to turn off audio or video monitoring devices or equipment. This information must be provided in a form of communication that is understood by the participant.

Once Remote Supports have been approved on the service plan, the Remote Supports provider is responsible for the following:

• Training the participant, family, natural supports and any support professionals that will assist the participant in the use of the equipment initially and ongoing as needed. This includes information about whether the participant can turn off the Remote Supports technology or equipment if they choose to do so.

- Compliance with ODP's incident management policy.
- Development of progress notes in compliance with 6100.227.

• Delivery of the equipment to the participant's residence and when necessary, to the room or area of the home in which the equipment will be used.

• Installation of the equipment, including assembling the equipment or parts used for the assembly of the equipment.

• Adjustments and modifications of the equipment.

• Transferring the technology and equipment to a new home when the participant moves. This only applies when the new home is in an area served by the provider.

· Continuously monitoring the functioning of the technology

• Developing and implementing a policy or plan to address technology malfunctions.

• Maintaining technology and equipment and ensuring necessary repairs are made to the technology and equipment. Replacement of technology and equipment is covered when the technology or equipment no longer meets the participant's needs, is obsolete, functionally inadequate, unreliable, or no longer supported by the manufacturer.

• Ensuring the Remote Supports equipment meets the following:

o Includes an indicator that lets the participant know that the equipment is on and operating. The indicator shall be appropriate to meet the participant's needs.

o Is designed so that it can be turned off only by the person(s) indicated in the service plan.

o Has 99% system uptime that includes adequate redundancy.

o Has adequate redundancy that ensures critical system functions are restored within three hours of a failure. If a service is not available, the provider must be alerted by the equipment within ten minutes.

o If a main hub is part of the installed system it must be A/C powered, and include a backup battery capable of maintaining a charge to ensure the continued connectivity of the Remote Supports equipment if power loss occurs. There must be a mechanism to alert staff when a power outage occurs that provides a low battery alert, and an alert

if the system goes down so that back-up support, if required, is put in place until service is restored. A main hub, if required, must be able to connect to the internet via one or more different methods; hard-wired, wireless, or cellular. The main hub must also have the ability to send notifications via one or more different modes; text, email or audio, as well as the ability, if in the Remote Supports implementation plan, to connect to an automated or consumer support call center that is staffed 24 hours a day, 7 days a week.

o Has a latency of no more than 10 minutes from when an event occurs to when the notification is sent (via text, email or audio).

o Has the capability to include environmental controls that are able to be added to, and controlled by, the installed Remote Supports system if identified in the technology evaluation plan.

o Has a battery life expectancy lasting six months or longer, and notification must be given by the equipment if a low battery condition is detected.

o Is connected to a secure network system requiring authentication, authorization, and encryption of data that complies with 45 C.F.R. §§ 164.102 - 164.534. The provider must ensure that access to computer, video, audio, sensor, and written information is limited to authorized persons.

• Compliance with 55 Pa. Code §§6100.301 – 307 regarding transition to a new provider.

All items purchased through Remote Supports shall meet the applicable standards of manufacture, design, and installation. Items reimbursed with Waiver funds shall be in addition to any equipment or supplies provided under the MA State Plan. Excluded are those items that are not of direct medical or remedial benefit to the participant, or are primarily for a recreational or diversionary nature. Items designed for general use shall only be covered to the extent necessary to meet the participant's needs and be for the primary use of the participant.

If the participant receives Behavioral Support Services, the Remote Supports services must be consistent with the participant's behavior support plan.

• How the participant's health, welfare and safety needs will be met, including completion of a back-up plan that will be implemented if there is a problem with Remote Supports;

• The training participants and any other designated persons will receive to enable the participant and others to successfully utilize the technology and equipment; and

• How Remote Supports are more cost effective than other waiver services.

The Remote Supports provider is responsible for informing the service plan team, including the participant and anyone identified by the participant of the impact the Remote Supports will have on the participant's privacy. This includes information about whether the participant or designated persons identified in the service plan can turn off the Remote Supports device or equipment if they choose to do so. Participants or unpaid supports who will be present during the provision of Remote Supports must be able to turn off audio or video monitoring devices or equipment. This information must be provided in a form of communication that is understood by the participant.

Once Remote Supports have been approved on the service plan, the Remote Supports provider is responsible for the following:

• Training the participant, family, natural supports and any support professionals that will assist the participant in the use of the equipment initially and ongoing as needed. This includes information about whether the participant can turn off the Remote Supports technology or equipment if they choose to do so.

- Compliance with ODP's incident management policy.
- Development of progress notes in compliance with 6100.227.

• Delivery of the equipment to the participant's residence and when necessary, to the room or area of the home in which the equipment will be used.

• Installation of the equipment, including assembling the equipment or parts used for the assembly of the equipment.

• Adjustments and modifications of the equipment.

• Transferring the technology and equipment to a new home when the participant moves. This only applies when the new home is in an area served by the provider.

• Continuously monitoring the functioning of the technology

• Developing and implementing a policy or plan to address technology malfunctions.

• Maintaining technology and equipment and ensuring necessary repairs are made to the technology and equipment. Replacement of technology and equipment is covered when the technology or equipment no longer meets the participant's needs, is obsolete, functionally inadequate, unreliable, or no longer supported by the manufacturer.

• Ensuring the Remote Supports equipment meets the following:

o Includes an indicator that lets the participant know that the equipment is on and operating. The indicator shall be appropriate to meet the participant's needs.

o Is designed so that it can be turned off only by the person(s) indicated in the service plan.

o Has 99% system uptime that includes adequate redundancy.

o Has adequate redundancy that ensures critical system functions are restored within three hours of a failure. If a service is not available, the provider must be alerted by the equipment within ten minutes.

o If a main hub is part of the installed system it must be A/C powered, and include a backup battery capable of maintaining a charge to ensure the continued connectivity of the Remote Supports equipment if power loss occurs. There must be a mechanism to alert staff when a power outage occurs that provides a low battery alert, and an alert

if the system goes down so that back-up support, if required, is put in place until service is restored. A main hub, if required, must be able to connect to the internet via one or more different methods; hard-wired, wireless, or cellular. The main hub must also have the ability to send notifications via one or more different modes; text, email or audio, as well as the ability, if in the Remote Supports implementation plan, to connect to an automated or consumer support call center that is staffed 24 hours a day, 7 days a week.

o Has a latency of no more than 10 minutes from when an event occurs to when the notification is sent (via text, email or audio).

o Has the capability to include environmental controls that are able to be added to, and controlled by, the installed Remote Supports system if identified in the technology evaluation plan.

o Has a battery life expectancy lasting six months or longer, and notification must be given by the equipment if a low battery condition is detected.

o Is connected to a secure network system requiring authentication, authorization, and encryption of data that complies with 45 C.F.R. §§ 164.102 - 164.534. The provider must ensure that access to computer, video, audio, sensor, and written information is limited to authorized persons.

• Compliance with 55 Pa. Code §§6100.301 – 307 regarding transition to a new provider.

All items purchased through Remote Supports shall meet the applicable standards of manufacture, design, and installation. Items reimbursed with Waiver funds shall be in addition to any equipment or supplies provided under the MA State Plan. Excluded are those items that are not of direct medical or remedial benefit to the participant, or are primarily for a recreational or diversionary nature. Items designed for general use shall only be covered to the extent necessary to meet the participant's needs and be for the primary use of the participant.

If the participant receives Behavioral Support Services, the Remote Supports services must be consistent with the participant's behavior support plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Participants who receive remote supports as a method of Life Sharing, Residential Habilitation, or Supported Living service delivery may be authorized to receive the technology and equipment used for a specific participant in the delivery of remote supports (Remote Supports Equipment and Technology procedure code W6087). Participants who receive Life Sharing, Residential Habilitation, or Supported Living services may not be authorized to receive the Remote Supports Service (procedure code W6088) as this is covered in the rate paid for the residential service. Technology and equipment that will be used by multiple individuals in a Life Sharing, Residential Habilitation or Supported Living home is covered in the residential service rate and may not be authorized through the Remote Supports service.

Remote Supports Equipment and Technology that is purchased, not leased, through this service is the property of the participant and must accompany the participant when the participant moves into a new home.

The direct provision of Community Participation Support services as well as the fading support component shall not be rendered on the same days and times that Remote Supports is rendered.

Remote Supports can only be rendered simultaneously with the following direct in-person services for 120 calendar days after installation, training and full use by the participant has begun to help the participant safely transition to independent use of Remote Supports:

• In-Home and Community Support

Companion

• Respite

During the 120-calendar day transition period, in-person direct In-Home and Community Support, Companion, and Respite services may only be authorized on the service plan and billed for completion of the following activities that are not included in the Remote Supports service:

• Providing prompting, ongoing instruction, modeling and/or supervision to enable the participant's independent use of the Remote Supports technology equipment and devices;

• Facilitating and evaluating the participant's independent use of Remote Supports technology equipment and devices;

• Communicating progress or concerns regarding the participant's independent use of Remote Supports to the service plan team, including the Remote Supports provider; and

• Performing activities outlined in the In-Home and Community Support, Companion, or Respite service definition needed by the participant during the 120-calendar day transition period. These in-person direct activities do not duplicate the activities outlined in the Remote Supports service.

A service plan meeting must be held when it becomes evident that a participant will not be able to independently use Remote Supports within 120 calendar days. Alternative service options that will meet the participant's needs must be explored and added to the service plan.

Provider Category: Agency Provider Type:

Remote Supports Agency

Provider Qualifications

License (*specify*):

Certificate (*specify*):

Other Standard (*specify*):

To provide Remote Supports services, the agency must meet the following standards regardless of provider service location:

1. Enroll directly with ODP to render the Remote Supports service.

2. Have a secure, central facility in the United States where staff render Remote Supports that has appropriate and stable connections, including redundant internet and power that ensure continuity of service in the event of a disruption or connection. This facility must be staffed 24 hours a day, 7 days a week.

3.Have staff available to provide in-person training as needed or requested as described in the Remote Supports Implementation Plan.

4. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of QA&I when warranted.

5. Complete standard ODP required orientation and training.

6. Have Commercial General Liability Insurance.

7. Comply with all federal, state and local regulations that apply to the operation of its business or trade, such as the Electronic Communications Privacy Act of 1986 and section 2399.52 of the Revised Code.

8. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

9. Develop and implement a quality management plan in accordance with 55 Pa. Code Chapter 6100.

10. Have a professional (direct, contracted, or in a consulting capacity) available who has either a current Assistive Technology Professional certificate from Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) or Enabling Technology Integration Specialist SHIFT certification.

11. Have a policy outlining the process for providing emergency replacement devices or parts as soon as possible but no later than two business days if the devices installed at the participant's residence fail and cannot be repaired.

12. Have a secure and encrypted website or software that displays critical system information about each Remote Supports device installed in a participant's residence.

13. Have an effective system for notifying personnel such as police, fire, emergency medical services and psychiatric crisis response entities.

14. Comply with Department standards related to provider qualifications.

Individuals that provide this service must:

1. Be at least 18 years of age.

2. Complete training on the participant's service plan, which includes but is not limited to communication, mobility, and behavioral needs.

3. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident

of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

- The nature of the crime;
- Facts surrounding the conviction;
- Time elapsed since the conviction;
- The evidence of the individual's rehabilitation; and
- The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Shift Nursing

HCBS Taxonomy:

	Category 1:	Sub-Category 1:
	05 Nursing	05010 private duty nursing
	Category 2:	Sub-Category 2:
	05 Nursing	05020 skilled nursing
	Category 3:	Sub-Category 3:
Ser	vice Definition (Scope):	
	Category 4:	Sub-Category 4:

Shift Nursing is a direct service that can be provided either part-time or full-time in accordance with 49 Pa. Code Chapter 21 (State Board of Nursing) which provides the following service definition for the practice of professional nursing:

"Diagnosing and treating human responses to actual or potential health problems through such services as case finding, health teaching, health counseling, provision of care supportive to or restorative of life and well-being, and executing medical regimens as prescribed by a licensed physician or dentist. The term does not include acts of medical diagnosis or prescription of medical, therapeutic or corrective measures, except as may be authorized by rules and regulations jointly promulgated by the State Board of Medicine and the Board, which rules and regulations will be implemented by the Board."

Shift Nursing for adult participants (participants age 21 and older) is generally not available through Medical Assistance Fee-For-Service or Physical Health Managed Care Organizations. Home health care, which is defined as a rehabilitative nursing component, is the only service available in the participant's home through Medical Assistance.

Shift Nursing services can only be provided to adult participants. All medically necessary Shift Nursing services for children under age 21 are covered in the state plan pursuant to the EPSDT benefit. Shift Nursing services may only be funded for adult participants through the Waiver if documentation is secured by the Supports Coordinator that shows the service is medically necessary and either not covered by the participant's insurance or insurance limitations have been reached. A participant's insurance includes Medical Assistance (MA), Medicare and/or private insurance.

This service may be provided at the following levels:

• Basic - The provision of the service at a staff-to-individual ratio of 1:2.

• Level 1 – The provision of the service at a staff-to-individual ratio of 1:1.

Participants authorized to receive Shift Nursing services may not receive the following services at the same time as this service: Respite (15-minute unit and Day); Companion; In-Home And Community Supports; Community Participation Support; Therapies; and Consultative Nutritional Services.

Participants authorized to receive Life Sharing or Supported Living may not be authorized to receive Shift Nursing services except in the following circumstance. Participants who receive nursing supports on a daily basis as part of Life Sharing or Supported Living services can be authorized to receive Shift Nursing as a separate and discrete service solely for the hours of a home visit and as deemed necessary in accordance with the Shift Nursing service definition when there is documentation of the following:

• The residential provider is unable to provide nursing supports; and

• The person(s) with whom the individual will have a home visit are unable to provide the nursing support during the visits.

In situations where individuals who reside in a residential setting need this type of staffing support for a visit with family or friends, there should be a service plan team discussion with the residential provider about their ability and/or willingness to provide such support during the visit. ODP encourages residential providers to provide such staffing support as it enables the individual to live an Everyday Life. It also enables the provide to more fully understand the relationships the individual has outside of the residential setting which might impact the individual while at the residential setting. When residential providers render staffing support for such visits, the hours count as part of the residential day unit and are reimbursed as part of the residential day unit.

Shift Nursing can be delivered in Pennsylvania and in states contiguous to Pennsylvania. During temporary travel, this service may be provided in Pennsylvania and other locations as per the ODP travel policy.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Small Group Employment		

HCBS Taxonomy:

Category 1:	Sub-Category 1:
03 Supported Employment	03022 ongoing supported employment, group
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
ervice Definition (Scope):	
Category 4:	Sub-Category 4:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Small Group Employment services are direct services that consist of supporting participants in transitioning to competitive integrated employment through work that occurs in a location other than a facility subject to 55 Pa. Code Chapter 2380 or Chapter 2390 regulations such as an integrated industry, business, or community setting. The goal of Small Group Employment services is acquisition of knowledge, skills and experiences that lead to competitive integrated employment, including self-employment. Participants receiving this service must have a competitive integrated employment outcome included in their service plan, and it must be documented in the service plan how and when the provision of this service is expected to lead to competitive integrated employment. Work that participants perform during the

provision of Small Group Employment must be paid at least minimum wage and the compensation must be similar to compensation earned by workers without disabilities performing the same work.

Small Group Employment service options include mobile work force, work station in industry, affirmative industry, and enclave. Each of these options are delivered in integrated business, industry or community settings that do not isolate participants from others in the setting who do not have disabilities. Services must be provided in a manner that promotes engagement in the workplace and interaction between participants and people without disabilities including co-workers, supervisors, and customers, if applicable. Small Group Employment services are only billable when the participant is receiving direct support during the time that he or she is working and receiving wages through one of these service options or during transportation to a work site.

A Mobile Work Force uses teams of individuals, supervised by a training/job supervisor, who conduct service activities at a location away from an agency or facility. The provider agency contracts with an outside organization or business to perform maintenance, lawn care, janitorial services, or similar tasks and the individuals are paid by the provider.

A Work Station in Industry involves individual or group training of participants at an industry site. Training is conducted by a provider training/job supervisor or by a representative of the industry, and is phased out as the participant(s) demonstrates job expertise and meets established work standards. A Work Station in Industry is an employment station arranged and supported by a provider within a community business or industry site, not within a licensed facility site. An example would be three seats on an assembly line within a computer chip assembly factory. The provider has a contract with the business to ensure that those three seats are filled by adults with disabilities that they support.

Affirmative Industry is a business that sells products or services where at least 51% of the employees do not have a disability. Supervisory personnel and staff of providers who are paid to render the Small Group Employment service cannot be counted in the percentage of employees who do not have a disability.

Enclave is a business model where a small group of participants with a disability are employed by a business/industry to perform specific job functions while working alongside workers without disabilities.

The service also includes transportation that is an integral component of the service; for example, transportation to a work site. The Small Group Employment provider is not, however, responsible for transportation to and from a participant's home, unless the provider is designated as the transportation provider in the participant's service plan. In this case, the transportation service must be authorized and billed as a discrete service.

Small Group Employment includes supporting the participant with personal care needs that cannot, or would be inappropriate to, be provided with the support from coworkers or other natural supports.

This service may be provided at the following levels:

• Basic Staff Support - The provision of the service at a staff-to-individual ratio of 1:10 to 1:6.

• Level 1 - The provision of the service at a staff-to-individual ratio range of <1:6 to 1:3.5.

• Level 2 - The provision of the service at a staff-to-individual ratio range of <1:3.5 to >1:1.

• Level 3 - The provision of the service at a staff-to-individual ratio of 1:1.

Small Group Employment services may not be rendered under the Waiver until it has been verified that the service is not available in the student's (if applicable) complete and approved Individualized Education Program (IEP)

developed pursuant to IDEA. Documentation must be maintained in the file of each participant receiving Small Group Employment services to satisfy this state assurance.

Small Group Employment services may be provided without referring a participant to OVR as OVR does not provide Small Group Employment services.

Federal financial participation is not claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following:

1. Incentive payments made to an employer to encourage or subsidize the employer's participation in supported employment services; or

2. Payments that are passed through to users of small group employment services.

Participants authorized to receive Small Group Employment services may not receive the direct portion of the following services at the same time: In-Home and Community Supports; Companion; Community Participation Support; 15-minute unit Respite; Supported Employment; job acquisition and job retention in Advanced Supported Employment; Benefits Counseling; Transportation; Therapies; Education Support; Music, Art and Equine Assisted Therapy and Consultative Nutritional services.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

When Small Group Employment services are not provided with any other employment service (Supported Employment, Advanced Supported Employment and/or Community Participation Support) the hours of authorized Small Group Employment cannot exceed 40 hours (160 15-minute units) per participant per calendar week.

When Small Group Employment services are provided in conjunction with Supported Employment and/or Community Participation Support the total number of hours for these services (whether utilized alone or in conjunction with one another) cannot exceed 50 hours (200 15-minute units) per participant per calendar week.

Service Delivery Method (check each that applies):

Participant-directed as specified in Appendix E

Provider Qualifications

License (specify):

Certificate (*specify*):

Staff working directly with the participant to provide Small Group Employment services must have one of the following within nine months of hire:

• Hold a Certified Employment Support Professional (CESP) credential from the Association of People Supporting Employment First (APSE); or

• Have been awarded a Basic Employment Services Certificate of Achievement or a Professional Certificate of Achievement in Employment Services from an Association of Community Rehabilitation Educators (ACRE) organizational member that has ACRE-approved training.

Newly hired staff who do not have the required certification when hired must work under the supervision or mentorship of someone who is certified. This can occur no longer than nine months from the date of hire to allow the new staff time to obtain the certification.

Other Standard (specify):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of Small Group Employment have automobile insurance.

7. Have documentation that all vehicles used in the provision of Small Group Employment have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance, in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Staff working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

4. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Small Group Employment services.

Verification of Provider Qualifications Entity Responsible for Verification:

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Specialty Telehealth and Assessment Team

HCBS Taxonomy:

Category 1:	Sub-Category 1:
11 Other Health and Therapeutic Services	11020 health assessment
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

The Specialty Telehealth and Assessment Team service will be implemented in March 2024. The goal of the Specialty Telehealth and Assessment Team service is to provide a right-on-time telehealth assessment when the participant's primary care physician is unavailable or unable to determine the best clinical course of action, often avoiding unnecessary emergency room visits. Specialty Telehealth and Assessment Team services are designed to coordinate participants' care with local emergency departments, urgent care facilities, primary care physicians, and other healthcare providers to enable real time medical support, consultation and coordination on physical health issues and to assist participants, families and providers to understand presenting health symptoms and to identify the most appropriate next steps. If a hospital visit is clinically necessary, this service allows the provider to communicate with the emergency department directly, ensuring advance preparation for the emergency department and potentially decreasing the need for inpatient admission. The Specialty Telehealth and Assessment Team provider is responsible for developing a one or two page summary of their role in service delivery to be shared with other health care professionals involved in the participant's care.

The service is consultative in nature related specifically to the presence of an intellectual disability, developmental disability, or autism and provides disability-specific guidance on when best to seek additional or in-person medical treatment for the participant. This is a supportive service that can occur while the participant is in their private or residential home to help assess their need for medical attention. Telehealth assessments may only be completed in bedrooms and bathrooms when the participant has chosen to have the assessment completed in these rooms for privacy or the participant has a medical condition which makes it difficult or impossible for the assessment to occur in another room in the house. The service serves as a conduit to, rather than a duplication of, medical services covered under the state plan.

The service also includes support and consultation to paid and unpaid caregivers otherwise unavailable in any other service and seeks to build the capacity of paid and unpaid caregivers to better understand the best approaches for supporting the participant based on their symptom presentation. Support to caregivers, which is informed by staff with strong expertise in intellectual disability, developmental disability, and autism, is an essential component that is not available elsewhere within the Medicaid state plan or other waiver services.

The Specialty Telehealth and Assessment Team service is available 24 hours a day, 7 days a week and includes immediate evaluations, video-assisted examinations, development of treatment plans, and discussion and coordination with participants and/or caregivers.

The service includes follow-up consultations with the participant, family, and/or caregiver of the participant within 18 hours of the initial call. Specialty Telehealth and Assessment Team services are unique in both provider qualifications and coverage within Medicaid and does not duplicate (but complements and links to) those services available in the state plan. The combination of required medical experience AND extensive expertise with people with intellectual disabilities, developmental disabilities, or autism is not included in state plan services and the consultative nature of the service distinguishes this service from other state plan benefits. The service does not duplicate supports coordination. The care coordination facilitated by this service becomes a part of rather than duplicating the service plan. Furthermore, this service provides clinically informed, disability specific medical advice and counseling to caregivers that is entirely distinct from any information provided by or available to the Supports Coordinators.

The services are limited to additional services not otherwise covered under the state plan, including EPSDT, and must be consistent with waiver objectives of avoiding institutionalization.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Participants must have access to an electronic tablet or smart phone that has internet service via Wi-Fi or cellular data and is capable of audio and video transmission to utilize Specialty Telehealth and Assessment Team services. Cellular data service and internet service cannot be covered through the waivers as they are considered room and board costs.

This service will not duplicate any service available to the participant through the state plan.

This service will not supplant care provided by specialists or a primary care physician, including in-person exams as needed.

This service is provided as a monthly service and billed in monthly units.

Provider Qualifications

License (specify):

This service must be provided or overseen by physicians who are:

• Licensed to practice medicine in the Commonwealth of Pennsylvania, or have appropriate reciprocity; and

• Board Certified or board eligible with the American Board of Medical Specialties (ABMS).

Functions which are overseen by a physician with the above qualifications will be provided by a Registered Nurse, Certified Registered Nurse Practitioner, or Physician's Assistant acting within their scope of practice.

Certificate (*specify*):

Agencies must meet the following standards regardless of provider service location:

1. Have a waiver service location in the United States.

2. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

3. Complete training on Pennsylvania specific mandatory abuse and neglect reporting.

4. Have Commercial General Liability Insurance.

5. Have Workers' Compensation Insurance in accordance with state law.

6. Have a minimum of five years' experience in serving individuals with intellectual and developmental disabilities in their own homes, family homes, licensed residential homes, Intermediate Care Facilities (ICFs), as well as other types of long-term supports and services.

7. Have demonstrated evidence of positive outcomes for individuals served which includes at a minimum:

a. Reductions in Emergency Room visits and inpatient stays; and

b. Caregiver and individual satisfaction with the service.

Ensure compliance with Telehealth Platform Requirements that include the specifics of state file acceptance, HIPAA requirements, access timelines and secure communication to participants, families and other caregivers and providers will be outlined and binding in provider contracts and manuals.
 Ensure compliance with Telehealth Platform Training Requirements, which include timely, accessible initial and ongoing training for participants, family/caregivers and providers; help line capacity and ongoing health education modules, with for those working with participants enrolled with the provider to increase health care knowledge will be specific and binding in provider manuals and contracts.
 Provide continuing education in the area of intellectual and developmental disabilities to the provider's physician network.

11. Submit to ODP or its designee successful results from a self-assessment validating staff

qualifications, required documentation, policies and procedures every 3 years.

12. Have a comprehensive quality review program and provide a report via secure e-mail of aggregated findings quarterly, as well as one time annually, to the Office of Developmental Programs, which must include, at a minimum, the following:

a. Data analysis;

b. Service outcomes which include reductions in Emergency Room visits and inpatient stays.

Additional information may be requested

by ODP;

c. Participant, family and/or caregivers of participants, and provider satisfaction; and

d. Complaints and resolution

13. Have a participant support call center that is staffed 24 hours a day, 7 days a week.

14. Have publicly posted references related to the provider's business history and practices.

15. Provide educational training sessions to the provider's clinical staff on topics relevant to the physical and behavioral health care needs of individuals with intellectual and developmental disabilities at least monthly.

All staff who will render this service must have completed specialized training/curriculum on how to provide medical assessment, treatment interventions, and recommendations regarding the physical health care needs of individuals with intellectual disabilities, developmental disabilities or autism.

Physicians providing this service must have access to and be familiar with clinical guidelines for the provision of health care to individuals with intellectual and developmental disabilities. Clinical guidelines must be based on evidence-based practices and clinical expertise and serve to inform the health care decisions and recommendations.

Verification of Provider Qualifications

Entity Responsible for Verification:

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Supported Living

HCBS Taxonomy:

Category 1:	Sub-Category 1:
02 Round-the-Clock Services	02031 in-home residential habilitation
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

These are direct and indirect services provided to participants who live in a private home that is owned, leased or rented by the participant or provided for the participant's use via a Special or Supplemental Needs trust and located in Pennsylvania. Supported Living services are provided to protect the health and welfare of participants by assisting them in the general areas of self-care, health maintenance, wellness activities, meal preparation, decision making, home management, managing personal resources, communication, mobility and transportation, relationship development and socialization, personal adjustment, participating in community functions and activities and use of community resources. Through the provision of this service participants will be supported to live in their own home in the community and to acquire, maintain or improve skills necessary to live more independently and be more productive and participatory in community life.

This service is billed as a day unit and includes indirect support for periods of time that the participant does not need direct support in his or her home and community. The Supported Living provider, however, must ensure that direct support is provided as needed to achieve desired outcomes, facilitate participation in the community and mitigate risks. The Supported Living provider must also ensure that on-call staff are available to support the participant 24 hours a day. The type and degree of assistance, support and guidance are informed by the assessed need for physical, psychological and emotional assistance established through the assessment (including the Health Risk Screening tool) and person-centered planning processes.

The Supported Living provider must provide the level of services necessary to enable the participant to meet habilitation outcomes. This includes ensuring assistance, support and guidance (which includes prompting, instruction, modeling and reinforcement) will be provided as needed to enable the participant to:

1. Carry out activities of daily living such as personal grooming and hygiene, dressing, making meals and maintaining a clean environment.

2. Learn and develop practices that promote good health and wellness such as nutritious meal planning, regular exercise, carrying through prescribed therapies and exercises, awareness and avoidance of risk including environmental risks, exploitation or abuse; responding to emergencies in the home and community such as fire or injury; knowing how and when to seek assistance.

3. Manage or participate in the management of their medical care including scheduling and attending medical appointments, filling prescriptions and self-administration of medications, and keeping health logs and records. The staff providing this support may also administer medications in accordance with applicable regulatory guidance.

4. Manage their mental health diagnosis and emotional wellness including self-management of emotions such as disappointment, frustration, anxiety, anger, and depression; applying trauma informed care principles and practices; and accessing mental health services. The service should include: a comprehensive behavior assessment; design, development and updates to a behavior support plan that includes positive practices and least restrictive interventions; development of a Crisis Intervention Plan; and implementation of the behavior support plan, Crisis Intervention Plan and/or the skill building plan which involve collecting and recording the data necessary to evaluate progress and the need for plan revisions.

5. Participate in the development and implementation of the service plan and direct the person-centered planning process including identifying who should attend and what the desired outcomes are.

6. Make decisions including identifying options/choices and evaluating options/choices against a set of personal preferences and desired outcomes. This includes assistance with identifying supports available within the community.

7. Manage their home including arranging for utility services, paying bills, home maintenance, and home safety.

8. Achieve financial stability through managing personal resources, general banking and balancing accounts, record keeping and managing savings accounts and programs such as ABLE accounts.

9. Communicate with providers, caregivers, family members, friends and others face-to-face and through the use of the telephone, correspondence, the internet, and social media. The service may require knowledge and use of sign language or interpretation for individuals whose primary language is not English.

10. Use a range of transportation options including buses, trains, cab services, driving, and joining car pools, etc. The Supported Living provider is responsible to provide transportation to activities related to health, community involvement and the participant's service plan. The Supported Living provider is not responsible for transportation for which another provider is responsible.

11. Develop and manage relationships with roommates as appropriate, share responsibilities for shared routines such as preparing meals, eating together, carrying out routine home maintenance such as light cleaning, planning and scheduling shared recreational activities and other typical household routines, resolving differences and negotiating solutions.

12. Develop and maintain relationships with members of the broader community (examples include but are not limited to: neighbors, coworkers, friends and family) and to manage problematic relationships.

13. Exercise rights as a citizen and fulfill their civic responsibilities such as voting and serving on juries; attend public community meetings; participate in community projects and events with volunteer associations and groups; serve on public and private boards, advisory groups, and commissions, as well as develop confidence and skills to enhance their contributions to the community.

14. Develop personal interests; such as hobbies, appreciation of music, and other experiences the participant enjoys or may wish to discover.

15. Participate in preferred activities of community life such as shopping, going to restaurants, museums, movies, concerts, dances and faith based services.

The supported living provider is responsible for the identification of risk to the participant and the implementation of actions such as reporting incidents as required by ODP, the Older Adults Protective Services Act, the Adult Protective Services Act and the Child Protective Services Law, and/or calling emergency officials for immediate assistance. The Supported Living provider is also responsible for the provision of physical health maintenance services including those required by a licensed nurse when required to assure health and wellness or as required in the service plan.

This service is billed as a day unit and may be provided at the following levels:

- Needs Group 1
- Needs Group 2

Supported Living services include the support of a supported living specialist for each participant with overall responsibility to provide oversight and monitoring of the habilitative outcomes, health and wellness activities, ongoing assessment of supports and needs of the participant as identified in their service plan, as well as coordination of support services, both direct and indirect related to the Supported Living service.

Supported Living services may not be provided in licensed or unlicensed residential habilitation settings, licensed or unlicensed Life Sharing homes, Adult Training Facilities (55 Pa. Code Chapter 2380) or Vocational Facilities (55 Pa Code Chapter 2390).

In emergency situations or to meet a participant's temporary medical or behavioral needs, participants authorized to receive Supported Living may also be authorized to receive Supplemental Habilitation for no more than 90 calendar days unless a variance is granted by the AE.

Supplemental Habilitation may be delivered in an acute care hospital in accordance with Section 1902(h) of the Social Security Act, when the services are:

• Identified in the participant's service plan;

• Provided to meet needs of the participant that are not met through the provision of hospital services;

• Designed to ensure smooth transitions between the hospital and home and community-based settings, and to preserve the participant's functional abilities; and

• Not a substitute for services that the hospital is obligated to provide through its conditions of participation or under Federal or state law, or under another applicable requirement.

This service can only be provided in an acute care hospital to assist the participant with one or more of the

following:

• Communication;

• Intensive personal care; or

• Behavioral support/stabilization as enumerated in the behavior support plan.

The following services may not be authorized for participants who receive Supported Living services: Life Sharing; Unlicensed Residential Habilitation, Respite (15-minute or Day); Homemaker/Chore; In-Home and Community Supports; Behavioral Supports; Therapies; Shift Nursing; Consultative Nutritional Services; and Specialized Supplies. Transportation is included in the cost of Supported Living and may not be billed as a discrete service, unless the transportation is to or from a job that meets the definition of competitive integrated employment and that need is documented in the participant's service plan. Companion services may only be authorized as a discrete service when it is used to support a participant in-person at their place of community integrated employment in alignment with the Companion service definition.

Participants authorized to receive Supported Living services:

• May receive Remote Supports Equipment and Technology (procedure code W6087) to purchase or lease equipment or technology that will be used exclusively by a participant for the delivery of remote supports as a method of Supported Living service delivery. All items purchased through Remote Supports shall meet the applicable standards of manufacture, design, and installation. Items reimbursed with Waiver funds shall be in addition to any equipment or supplies provided under the MA State Plan. Excluded are those items that are not of direct medical or remedial benefit to the participant, or are primarily for a recreational or diversionary nature. Items designed for general use shall only be covered to the extent necessary to meet the participant's needs and be for the primary use of the participant.

• May receive Vehicle Accessibility Adaptations when the vehicle being adapted and utilized by the participant is not agency owned, leased or rented.

• May not be authorized to receive Supports Broker services unless the participant has a plan to self-direct his or her services through a participant-directed services model in a private home.

The rate includes Behavioral Support. Behavioral Support may only be authorized as a discrete service when it is used to support a participant to access Community Participation Support or to maintain employment when provided at the participant's place of employment.

Settings enrolled on or after the effective date of the 55 Pa. Code Chapter 6100 regulations shall not be located in any development or building where more than 25% of the apartments, condominiums or townhouses have ODP-funded Residential Habilitation, Life Sharing or Supported Living being provided.

Supported Living services must be delivered in a private home located in Pennsylvania or other community settings. During temporary travel, however, this service may be provided in Pennsylvania or other locations per the ODP travel policy.

Provider Qualifications

License (specify):

Certificate (specify):

SUPPORTIVE TECHNOLOGY PROFESSIONAL

When rendering remote support services to participants, the Supported Living provider must have a supportive technology professional (direct, contracted, or in a consulting capacity) available who has either a current Assistive Technology Professional certificate from Rehabilitation Engineering and Assistive Technology Society of North America (RESNA) or Enabling Technology Integration Specialist SHIFT certification. The supportive technology professional is responsible for the following as part of the Supported Living service:

1. Completion of evaluations of participants' assistive technology needs, including a functional evaluation of the impact of appropriate remote supports.

2. Completion of an evaluation plan that, at a minimum, includes: the need(s) of the participant that will be met by the remote supports how the remote supports will ensure the participant's health, welfare and independence; the training needed to successfully utilize the technology and the back-up plan that will be implemented should there be a problem with the remote supports.

3. Informing the participant, and anyone identified by the participant, of what impact the remote supports will have on the participant's privacy. This information must be provided to the participant in a form of communication reasonable calculated to be understood by the individual. This process must be completed prior to the utilization of remote supports, and any time there is a change to the remote supports including technology devices utilized.

4. Ensuring that the remote supports technology is in good working order.

This information will be provided to the participant and service plan team for discussion and inclusion of the remote supports in the service plan.

SUPPORTED LIVING SPECIALIST

The supported living specialist shall have 1 of the following:

1. A master's degree or above from an accredited college or university & 1 year work experience working directly with persons with an intellectual disability and/or autism (ID/A).

2. A bachelor's degree from an accredited college or university & 2 years work experience working directly with persons with an ID/A.

3. An associate's degree or 60 credit hours from an accredited college or university & 4 years work experience working directly with persons with an ID/A.

4. A high school diploma or general education development certificate & 6 years work experience working directly with persons with an ID/A.

BEHAVIORAL SPECIALIST

The Supported Living provider must have behavioral specialists (direct, contracted or in a consulting capacity) available who as part of the service will complete assessments, develop and update Behavior Support Plans and Crisis Intervention Plans and train other agency staff. A Functional Behavioral Assessment and comprehensive behavioral support plan must be completed within 60 days of identification by the service plan team of a participant's need for assistance from a behavioral specialist. The behavioral specialist ensures behavior support provided includes positive practices and least restrictive interventions. Behavior Support plans may not include chemical or mechanical restraints. The behavior support plan may not include physical restraints as behavioral interventions. Physical restraints may only be utilized in accordance with 55 Pa. Code §§6100.348 and 6100.349 in the case of an emergency or crisis to prevent a participant from immediate physical harm to the participant or others. Behavior support plans that include restrictive procedures must be approved by a human rights team prior to implementation. ODP expects that regardless of the number of providers supporting a person, continuity of care will be maintained through ongoing team communication and collaboration. Ideally there should be one behavior support plan for the participant that is integrated, comprehensive and incorporates support strategies for all environments. If there is more than 1 Behavioral Specialist, the behavior support plan can reflect joint authorship.

Behavioral specialists must meet the professional education or licensure criteria in one of the following three sets of requirements:

1. Master's Degree or higher in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology.

2. A Pennsylvania Behavior Specialist License.

3. A Bachelor's Degree and work under the supervision of a professional who has a Master's Degree in Psychology, Special Education, Counseling, Social Work, Education, Applied Behavior Analysis or Gerontology, or who is a licensed psychiatrist, psychologist, professional counselor, social worker (master's level or higher) or who has a Pennsylvania Behavior Specialist License.

In addition to the education and licensing criteria above, behavioral specialists must also meet the following standards:

1. Complete training in conducting and using a Functional Behavioral Assessment.

2. Complete training in positive behavioral support.

Other Standard (*specify*):

Supported Living Agencies must meet the following: 1. Have a waiver service location in Pennsylvania.

2. Actively provided direct non-residential HCBS as a provider enrolled to provide ODP Waiver services for the two years prior to enrolling to provide Supported Living and be in good standing (not subject to sanctions or enforcement actions by the Department).

3. Annually submit to ODP the most recent financial statement that has been audited by an independent Certified Public Accountant.

4. Have a signed ODP Provider Agreement on file with ODP which requires the provider to comply with all applicable federal and state statutes, regulations, and policies, including but not limited to confidentiality and HIPAA requirements. Providers are required to develop and implement written privacy policies and procedures that are consistent with the Privacy Rule. ODP reviews these policies and procedures when complaints are received regarding privacy or as part of licensing or QA&I when warranted.

5. Complete standard ODP required orientation and training.

6. Providers that wish to begin providing services must demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

7. Providers that wish to begin providing services must successfully complete ODP's Provider Readiness Tool as determined by ODP or its designated managing entity.

8. Have Commercial General Liability Insurance.

9. Have documentation that all vehicles used in the provision of the Supported Living service have automobile insurance.

10. Have documentation that all vehicles used in the provision of the Supported Living service have current State motor vehicle registration and inspection.

11. Have Workers' Compensation Insurance, in accordance with state law.

12. At least one of the following must have experience working with individuals with an intellectual disability and/or autism and have a bachelor's degree:

• Executive Director,

- Chief Executive Officer,
- Chief Operations Officer, or
- Director, Assistant or Associate Director.

13. The organization must have a chief financial officer with 5 years' experience or evidence of contracted financial management services.

14. In the case of an entity newly enrolled to provide Supported Living services, or a current provider hiring new executive level staff, one of the following positions:

- Executive Director,
- Chief Executive Officer,
- Chief Operations Officer, or
- Director, Assistant or Associate Director.

must have a bachelor's degree & a minimum of 5 years' experience in an executive-level position relating to the provision of residential services to individuals with an intellectual disability, developmental disability, autism, and/or serious mental illness, with responsibility for all of the following:

•Day-to-day residential agency operations;

•Oversight of the development and implementation of residential agency-wide policies and procedures;

•Supervision of management-level staff; and •Compliance with applicable state and federal regulations.

15. Notify the ODP Regional Office and Administrative Entity(ies) within 10 business days of the hiring date of a new Chief Executive Officer.

16. Newly hired CEOs must complete the ODP approved Health Risk Screening Tool Orientation, Residential ISP Staffing training and Dual Diagnosis Training within 30 days of hire.

17. Employ Supported Living Specialist(s) who are responsible for no more than 30 participants in this or any other service.

18. Have an annual training plan to improve the knowledge, skills and core competencies of agency personnel.

19. Have an organizational structure that assures adequate supervision of each residence and the availability of back up and emergency support 24 hours a day.

20. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant to carry out the service plan which includes but is not limited to communication, mobility and behavioral needs.

21. Comply with Department standards related to provider qualifications.

Staff working for or contracting with agencies as well as volunteers utilized in providing this service if they will spend any time alone with the participant must meet the following standards: 1. Be at least 18 years of age.

2. Complete necessary pre/in-service training based on the service plan.

3. Complete a Department approved training on the common health conditions that may be associated with preventable deaths in people with an intellectual or developmental disability.

4. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

- •Facts surrounding the conviction;
- •Time elapsed since the conviction;
- •The evidence of the individual's rehabilitation; and
- •The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

4. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

5. Have a valid driver's license if the operation of a vehicle is necessary to provide Supported Living services.

Supported Living Specialists must meet the following standards: 1. Receive training which includes interpersonal dynamics, community participation, individual service planning and delivery, relationship building as well as training required by agency policy.

2. Be at least 18 years of age.

3. Complete necessary pre/in-service training based on the service plan.

4. Have criminal history clearances per 35 P.S. §10225.101 et seq. and 6 Pa. Code Chapter 15.

5. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

6. Have a valid driver's license if the operation of a vehicle is necessary to provide Supported Living Services.

Verification of Provider Qualifications Entity Responsible for Verification:

ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Transportation

HCBS Taxonomy:

Category 1:Sub-Category 1:15 Non-Medical Transportation15010 non-medical transportationCategory 2:Sub-Category 2:Category 3:Sub-Category 3:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Service Definition (Scope):

Category 4:

Sub-Category 4:

Π

03/19/2024

Transportation is a direct service that enables participants to access services and activities specified in their approved service plan. This service does not include transportation that is an integral part of the provision of another discrete Waiver service.

Transportation services consist of:

1. Transportation (Mile). This transportation service is delivered by providers, family members, and other licensed drivers. Transportation Mile is used to reimburse the owner of the vehicle or other qualified licensed driver who transports the participant to and from services, competitive integrated employment, and resources specified in the participant's service. The unit of service is one mile. Mileage will be paid per trip. A trip is defined as from the point of pick-up to the destination while the participant is in the car as identified in the service plan. When transportation is provided to more than one participant at a time, the provider will divide the shared miles equitably among the participants to whom transportation is provided. The provider is required (or it is the legal employer's responsibility under the VF/EA model) to track mileage, allocate a portion to each participant and provide that information to the Supports Coordinator for inclusion in the participant's service plan. This will be monitored through routine provider monitoring activities.

2. Public Transportation. Public transportation services are outcome-based vendor services provided to or purchased for participants to enable them to gain access to services and resources specified in their service plans. The utilization of public transportation promotes self-determination and is made available to participants as a cost-effective means of accessing services and activities. Public transportation may be purchased by an OHCDS for participants who do not self-direct or Financial Management Service Organizations for participants who are self-directing when the public transportation vendor does not elect to enroll directly with ODP. Public transportation purchased for a participant may be provided to the participant on an outcome basis.

3. Transportation-Trip. This service is transportation provided to participants for which costs are determined on a per trip basis. A trip is defined as transportation to a waiver service or resource specified in the participant's service plan from a participant's private home, from the waiver service or resource to the participant's home, from one waiver service or resource to another waiver service or resource, or transportation to and from a job that meets the definition of competitive integrated employment. Taking a participant to a waiver service and returning the participant to his/her home is considered two trips or two units of service. Trip distances are defined by ODP through the use of zones.

Zones are defined as the following:

- Zone 1 Greater than 0 and up to 10 miles.
- Zone 2 Greater than 10 miles and up to 30 miles.
- Zone 3 Greater than 30 miles.

Providers that transport more than 6 participants as part of Transportation Trip are required to have an aide on the vehicle. If a provider transports 6 or fewer participants, the provider has the discretion to determine if an aide is required. The determination must be based upon the needs of the participants, the provider's ability to ensure the health and welfare of participants and be consistent with ODP requirements for safe transportation.

For participants under the age of 21, Transportation services may only be used to travel to and from waiver services or a job that meets the definition of competitive integrated employment.

Participants authorized to receive Transportation services may not receive the direct portion of the following services at the same time: Community Participation Support; Small Group Employment; Supported Employment; job acquisition and job retention in Advanced Supported Employment; Benefits Counseling; Therapies; Education Support; Music, Art and Equine Assisted Therapy; and Consultative Nutritional services.

Participants authorized to receive Life Sharing or Supported Living may only be authorized for discrete Transportation services when the participant requires transportation to or from a job that meets the definition of competitive integrated employment.

Transportation services may not be substituted for the transportation services that a state is obligated to furnish under the requirements of 42 CFR § 431.53 regarding transportation to and from providers of Medical Assistance services.

This service can be delivered in Pennsylvania and in states contiguous to Pennsylvania.

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Agency

Provider Qualifications

License (*specify*):

Certificate (specify):

Agencies must have PUC Certification, when required by state law or comparable certificate in contiguous states.

Other Standard (*specify*):

Agencies must meet the following standards regardless of provider service location: 1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures. Public transportation providers are exempt from this requirement.

5. Have Commercial General Liability Insurance.

6. Have documentation that all vehicles used in the provision of Transportation services have automobile insurance.

7. Have documentation that all vehicles used in the provision of Transportation services have current State motor vehicle registration and inspection.

8. Have Workers' Compensation Insurance, in accordance with state law.

9. Ensure that staff (direct, contracted, or in a consulting capacity) have been trained to meet the needs of the participant such as with communication, mobility and behavioral needs.

10. Comply with Department standards related to provider qualifications.

Drivers and aides working for or contracted with agencies as well as volunteers utilized in providing this service if they will spend any time alone with a participant must meet the following standards: 1. Be at least 18 years of age.

2. Have a Pennsylvania State Police criminal history record check prior to the date of hire. If the prospective employee is not a resident of the Commonwealth of Pennsylvania or has not been a resident of the Commonwealth of Pennsylvania for at least two years prior to the date of employment, a Federal Bureau of Investigation criminal history record check must be obtained prior to the date of hire. If a criminal history clearance and/or the criminal history record check identifies a criminal record, providers must make a case-by-case decision about whether to hire the person that includes consideration of the following factors:

•The nature of the crime;

•Facts surrounding the conviction;

•Time elapsed since the conviction;

•The evidence of the individual's rehabilitation; and

•The nature and requirements of the job.

Documentation of the review must be maintained for any staff that were hired whose criminal history clearance results or criminal history check identified a criminal record.

3. Have child abuse clearance (when the participant is under age 18) per 23 Pa. C.S. Chapter 63.

4. Have a valid driver's license if the operation of a vehicle is necessary to provide Transportation services.

Verification of Provider Qualifications

Entity Responsible for Verification:

OHCDS, VF/EA FMS or AWC FMS for public transportation.

OHCDS for transportation mile.

ODP or its Designee for all types of transportation rendered by agency providers that enroll directly with the Department.

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:

Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:

Vehicle Accessibility Adaptations

HCBS Taxonomy:

Category 1:	Sub-Category 1:
14 Equipment, Technology, and Modifications	14020 home and/or vehicle accessibility adaptations
Category 2:	Sub-Category 2:
Category 3:	Sub-Category 3:
Service Definition (Scope):	
Category 4:	Sub-Category 4:

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Vehicle accessibility adaptations consist of certain modifications to the vehicle that the participant uses as his or her primary means of transportation to meet his or her needs. The modifications must be necessary due to the participant's disability. The vehicle that is adapted may be owned by the participant, a family member with whom the participant lives, or a non-relative who provides primary support to the participant and is not a paid provider agency of services.

Vehicle accessibility adaptations consist of installation, repair, maintenance, and extended warranties for the modifications.

Regularly scheduled upkeep and maintenance of the vehicle, including warranties that cover the entire vehicle, except for upkeep and maintenance of the modifications, is excluded.

The waiver cannot be used to purchase vehicles for participants, their families or legal guardians; however, this service can be used to fund the portion of a new or used vehicle purchase that relates to the cost of accessibility adaptations. In order to fund these types of adaptations, a clear breakdown of purchase price versus adaptation is required.

These adaptations funded through the Waiver are limited to the following:

• Vehicular lifts.

• Interior alterations to seats, head and leg rests, and belts.

• Customized devices necessary for the participant to be transported safely in the community, including driver control devices.

• Raising the roof or lowering the floor to accommodate wheelchairs.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

This service is limited to \$20,000 per participant during a 10-year period. The 10-year period begins with the first utilization of authorized Vehicle Accessibility Adaptations.

Service Delivery Method (check each that applies):

Participant-directed as specified in Appendix E

Provider managed

Provider Qualifications

License (specify):

Certificate (*specify*):

Other Standard (specify):

Agencies must meet the following standards regardless of provider service location:

1. Have a waiver service location in Pennsylvania or a state contiguous to Pennsylvania.

2. Have a signed ODP Provider Agreement on file with ODP.

3. Complete standard ODP required orientation and training.

4. New providers demonstrate compliance with ODP standards through completion of a self-assessment and validation of required documentation, policies and procedures.

5. Have Commercial General Liability Insurance.

6. Have Workers' Compensation Insurance in accordance with state law.

7. Comply with Department standards related to provider qualifications.

Verification of Provider Qualifications

Entity Responsible for Verification:

AWC FMS, VF/EA FMS, OHCDS, ODP or its Designee

Frequency of Verification:

At least once during a 3-year monitoring cycle and more frequently when deemed necessary by ODP. New providers may be qualified more frequently depending on which monitoring cycle they are assigned to.

Appendix C: Participant Services

C-1: Summary of Services Covered (2 of 2)

b. Provision of Case Management Services to Waiver Participants. Indicate how case management is furnished to waiver participants (*select one*):

Not applicable - Case management is not furnished as a distinct activity to waiver participants.

Applicable - Case management is furnished as a distinct activity to waiver participants.

Check each that applies:

As a waiver service defined in Appendix C-3. Do not complete item C-1-c.

As a Medicaid state plan service under §1915(i) of the Act (HCBS as a State Plan Option). *Complete item C*-1-*c*.

As a Medicaid state plan service under §1915(g)(1) of the Act (Targeted Case Management). *Complete item C-1-c.*

As an administrative activity. *Complete item C-1-c.*

As a primary care case management system service under a concurrent managed care authority. *Complete item C-1-c.*

c. Delivery of Case Management Services. Specify the entity or entities that conduct case management functions on behalf of waiver participants:

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. Criminal History and/or Background Investigations. Specify the state's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

No. Criminal history and/or background investigations are not required.

Yes. Criminal history and/or background investigations are required.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

The Office of Developmental Programs (ODP) requires background clearances for all staff and volunteers who serve waiver participants. There are differences in the background clearance requirements depending on the role of the person working with participants (staff versus volunteer) and the age of the participant (a child under 18 years of age or an adult 18 years of age and older. Listed first are the requirements for staff and volunteers serving adults followed by the requirements for staff and volunteers children.

ODP requires criminal background checks for all staff (which includes contractors or consultants) and volunteers who provide a waiver service through direct contact with an adult participant or are responsible for the provision of the service for an adult participant.

A Volunteer is defined as a person who:

1. Provides one or more direct waiver services to a participant as authorized in the service plan,

2. Has unsupervised contact with the participant when providing the service(s), i.e. is alone with the participant,

3. Has freely chosen not to receive monetary compensation for provision of the service(s), and

4. Provides the service(s) on behalf of a qualified provider that has been authorized in a service plan to receive reimbursement for the service(s).

Requirements for criminal background checks are specified at 55 Pa. Code § 6100.47 (relating to criminal history checks) and in the qualifications for each waiver service definition. Additionally, Residential Habilitation and Life Sharing providers are subject to the criminal history background check requirements specified in the Older Adults Protective Services Act (35 P.S. § 10225.101 et seq) and 6 Pa. Code Chapter 15 (relating to Protective Services for Older Adults).

Requirements for staff who are responsible for the welfare of or have direct contact children.

Before beginning employment, staff who are either "responsible for the welfare of" or have "direct contact with a child" must obtain a report of criminal history from the Pennsylvania State Police, fingerprint based federal criminal history submitted through the Pennsylvania State Police or its authorized agent (FBI), and a Child Abuse History Certification from the Department of Human Services (Child Abuse). Staff are also required to renew these certifications every 60 months. For further specific requirements regarding staff please refer to 23 Pa C.S. §§ 6303, 6344, and 6344.4.

A person responsible for the child's welfare is a person who provides permanent or temporary care, supervision, mental health diagnosis or treatment, training or control of a child in lieu of parental care, supervision and control. Direct contact with children is providing care, supervision, guidance or control of children or having routine interaction with children. Routine interaction with children is regular and repeated contact with children that is integral to his or her employment responsibilities.

An agency may provisionally hire a staff person pending the receipt of the background certifications as required under 23 Pa C.S. § 6344 (m). Persons responsible for employment decisions may employ applicants on a provisional basis for up to 90 days, if the following conditions are met:

1. The applicant has applied for the required certifications and provides copies of the request forms to the employer.

2. The employer has no knowledge of information regarding the applicant that would disqualify him pursuant to 23 Pa C.S. § 6344 (c) (grounds for denying employment or participation in program, activity, or service).

3. The applicant swears in writing he is not disqualified pursuant to 23 Pa C.S. § 6344 (c) (grounds for denying employment or participation in program, activity, or service).

4. If information obtained as a result of the certification requires disqualification of the applicant, the employer will immediately dismiss the applicant.

5. During provisional employment, the applicant is not permitted to work alone with children and must work in the immediate vicinity of a permanent staff person.

Requirements for volunteers who are responsible for the welfare of or have direct volunteer contact with children.

Before beginning service, adult volunteers who are either responsible for the child's welfare or have direct volunteer contact with a child must obtain a report of criminal history from the Pennsylvania State Police and a child abuse history certification from the Department of Human Services (Child Abuse).

A volunteer is relieved of the requirement to obtain the fingerprint based federal criminal history submitted through the Pennsylvania State Police or its authorized agent (FBI) if: 1. The position the volunteer is applying for is unpaid.

2. The volunteer has been a resident of Pennsylvania for the entirety of the previous ten-years.

3. The volunteer swears in writing that they are not disqualified from service as required under 23 Pa C.S. § 6344(c) (grounds for denying employment or participation in program, activity, or service).

If a volunteer has not been a resident of Pennsylvania for the past 10 years, but obtained their FBI certification at any time since establishing residency, they must provide a copy of the certification to the person responsible for the selection of volunteers and they are not required to obtain any additional FBI certifications. Non-resident volunteers who have residency in another state or country may begin serving provisionally not to exceed a total of 30 days in a calendar year if the volunteer is in compliance with the certification standards under the law or jurisdiction where they reside. The nonresident volunteer must provide documentation of certifications. For specific requirements please see 23 Pa C.S. § 6344.2 (f). Volunteers are also required to renew these certifications every 60 months. For further specific requirements regarding volunteers please refer to 23 Pa C.S. § 6303, 6344, 6344.2, and 6344.4.

Compliance with background check requirements is verified through initial and ongoing provider qualification reviews, as well as provider monitoring conducted by ODP or the ODP Designee. For licensed providers, compliance with the Pennsylvania Code is also verified through annual licensing inspections

b. Abuse Registry Screening. Specify whether the state requires the screening of individuals who provide waiver services through a state-maintained abuse registry (select one):

No. The state does not conduct abuse registry screening.

Yes. The state maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

Note: Required information from this page (Appendix C-2-c) is contained in response to C-5.

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is

any person who has a duty under state law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the state, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. *Select one*:

No. The state does not make payment to legally responsible individuals for furnishing personal care or similar services.

Yes. The state makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) state policies that specify the circumstances when payment may be authorized for the provision of *extraordinary care* by a legally responsible individual and how the state ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the state policies specified here.*

The only waiver services legally responsible individuals can provide that have personal care components are In-Home and Community Support and Life Sharing. A legally responsible individual is a person who has legal obligation under the provisions of law to care for another person, including parents of minor children (under the age of 18) and legally-assigned relative caregivers of minor children. These individuals may be paid to provide In-Home and Community Support or Life Sharing services when the following conditions are met:

• The service is considered extraordinary care. A parent is legally responsible to meet the needs of a minor child, including the need for assistance and supervision typically required for children at various stages of growth and development. A parent can, however, receive payment for In-Home and Community Support or Life Sharing when this support goes beyond what would be expected to be performed in the usual course of parenting, and when needed support exceeds what is typically required for a child of the same age;

• The service would otherwise need to be provided by a qualified provider of services funded under the Waiver;

• The legally responsible individual is not the common law employer or managing employer for the participant that they will provide the service to;

• The service is provided by a legally responsible individual who meets the qualification criteria that are established by ODP in Appendix C-3 of the approved Waivers.

The service definition for In-Home and Community Support outlines limits for the number of hours that legally responsible individuals, relatives or legal guardians may provide the service.

Payments to legally responsible individuals who provide In-Home and Community Support services are made through a Financial Management Services (FMS) Organization or a provider agency while Life Sharing payments are made solely through a provider agency. Payments are based upon time sheets submitted by the legally responsible individual to the FMS or agency, which is consistent with the participant's authorized services on their service plan. The ODP designee is responsible to ensure that payments are only made for services that are authorized on the participant's approved service plan. The legally responsible individual who provides services must document service delivery per Department standards, 55 Pa. Code Chapter 1101 (Medical Assistance Regulations) and ODP policy requirements.

Self-directed

Agency-operated

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify state policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. *Select one*:

The state does not make payment to relatives/legal guardians for furnishing waiver services.

The state makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. *Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.*

Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

Relatives and legal guardians may be paid to provide services funded through the Waiver on a service-by-service basis. A relative is any of the following by blood, marriage or adoption who have not been assigned as legal guardian for the participant: a spouse, a parent of an adult, a stepparent of an adult child, grandparent, brother, sister, aunt, uncle, niece, nephew, adult child or stepchild of a participant or adult grandchild of a participant. For the purposes of this policy, a legal guardian is a person who has legal standing to make decisions on behalf of a minor or adult (e.g. a guardian who has been appointed by the court). The definition of a legal guardian does not apply to agency providers, but does apply to the person actually rendering service to a participant. These individuals may be paid to provide Waiver services when the following conditions are met:

• The individual has expressed a preference to have the relative or legal guardian provide the service(s);

• The service provided is not a function that the relative or legal guardian would normally provide for the participant without charge in the usual relationship among members of a nuclear family;

• The service would otherwise need to be provided by a qualified provider of services funded under the Waiver;

• The relative or legal guardian is not the common law employer or managing employer for the participant that they will provide services to. The only service a common law employer or managing employer may receive payment for is Transportation (Mile); and

• The service is provided by a relative or legal guardian who meets the qualification criteria that are established by ODP in Appendix C-3 of the approved Waiver.

Services that relatives or legal guardians can provide are limited to the following: In-Home and Community Support, Companion, Life Sharing, Supported Employment, Nursing and Transportation (Mile). Relatives and legal guardians who are not the participant's primary caregiver may also provide Supports Broker Services and Respite Services when the conditions listed above are met. Relatives who do not live with the participant or are not responsible for direct care of the participant may render the Family Medical Support Assistance service.

The service definitions for In-Home and Community Support and Companion outlines limits for the number of hours that legally responsible individuals, relatives or legal guardians may provide each service or a combination of both services when authorized on the service plan.

Legally responsible individuals as defined in appendix C-2-d may also provide the following services that do not have a personal care component:

• Supported Employment; and

• Transportation Mile solely to drive a minor child to and from a waiver service or a job that meets the definition of competitive integrated employment.

Payments to relatives, legal guardians and legally responsible individuals who provide services are made through a Financial Management Services (FMS) Organization, or a provider agency. Payments are based upon time sheets submitted by the relative, legal guardian or legally responsible individual to the FMS or agency, which is consistent with the participant's authorized services on his or her service plan. The relative, legal guardian or legally responsible individual who provides services must document service delivery per Department standards and ODP policy requirements. Documentation of service delivery is reviewed during the provider monitoring process.

During the service plan team meeting, the team is responsible for discussing whether having services furnished by relatives, legal guardians or legally responsible individuals is in the best interest of the participant. The decision should be consistent with the information contained in the "know and do", "important to" and "what makes sense" sections of the service plan. The Administrative Entity, when reviewing and authorizing the service plan, is responsible for ensuring that the participant has been offered a choice of providers and that the provider chosen can meet the needs of the participant.

Other policy.

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

All willing and qualified providers have the opportunity to enroll as Waiver providers at any time. ODP has continuous open enrollment of providers and does not limit the application for provider enrollment to a specific timeframe. Providers must enroll with Pennsylvania's Medicaid program prior to providing waiver services, and may obtain information about doing so at http://www.dhs.pa.gov/provider/promise/enrollmentinformation/S_001994.

Providers interested in providing ODP Waiver services contact the AE or ODP to obtain information on provider qualification and enrollment. Providers may also be referred by participants. Providers may also access enrollment information at https://www.hcsis.state.pa.us/hcsis-ssd/default.aspx and the ODP website, www.myodp.org.

ODP requires providers who have expressed an interest in providing Waiver services to successfully complete a free "new provider orientation training" before they can be enrolled as Waiver providers. The intent of applicant orientation is to ensure providers are informed of ODP ID Waiver requirements and ODP's expectations regarding the quality of services.

Following completion of the new provider orientation training, the provider completes and submits a Waiver provider agreement in which the provider agrees to render services in accordance with state and federal requirements. A copy of the Waiver provider agreement can be obtained at

 $https://www.hcsis.state.pa.us/hcsisssd/custom/OMR_MAProviderAgreement.pdf.$

The provider must then be qualified by ODP or its designee as per the qualification criteria outlined in Appendix C-1/C-3 and the ODP established provider qualification process. Following successful qualification, the provider enrolls as an ODP provider in PROMISe, Pennsylvania's Medicaid Management Information System. Upon enrollment in PROMISe, the provider's information is added to ODP's Services and Supports Directory at https://www.hcsis.state.pa.us/hcsis-ssd/pgm/asp/prhom.asp.

ODP also has a dedicated email (ra-odpproviderenroll@pa.gov) for questions or concerns related to the new provider orientation training, the provider qualification process, or general inquiries related to enrollment and the enrollment process.

Any provider who is denied the opportunity to enroll to provide Waiver services has the right to appeal such action in accordance with 55 Pa. Code Chapter 41 relating to Medical Assistance Provider Appeal procedures. Waiver participants have free choice of willing and qualified Waiver providers to provide needed services in the participant's approved service plan.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

QP1 - Number and percent of providers that initially and continually meet required licensure and/or certification standards and adhere to other state standards. Numerator = number of providers that initially and continually meet required licensure and/or certification standards and adhere to other state standards. Denominator = all providers that require licensure and/or certification.

Data Source (Select one): Other If 'Other' is selected, specify: ODP Enrollment Spreadsheet; HCSIS

c. Sub-Assurance: The State implements its policies and procedures for verifying that provider training is conducted in accordance with state requirements and the approved waiver.

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

QP4 - Number and percent of providers that meet annual training requirements in accordance with state requirements in the approved waiver. Numerator = number of providers that meet training requirements in accordance with state requirements in

the approved waiver. Denominator = Number of providers reviewed.

Data Source (Select one): Other If 'Other' is selected, specify: QA&I Process Database

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

ODP conducts licensing activities initially and continually for licensed residential settings, licensed adult training facilities and licensed vocational facilities.

QP3. For initial qualification, the materials required for Support Service Professional (SSP) enrollment set forth in Chapter 6100 are received and reviewed by the Vendor Fiscal/Employer Agent (VF/EA) Financial Management Services (FMS) organization in accordance with their contract.

• If the SSP is qualified, the FMS organization will enroll them.

• If the SSP is not qualified, the FMS organization will deny their enrollment.

On October 1st of each triennial year, ODP initiates the requalification of all providers. ODP works through its Vendor Fiscal Contractor to send a requalification packet to the Common Law Employer (CLE) for the number of Support Service Professionals (SSPs) the CLE has to requalify. The due date for requalification is October 31st, which is 60 days prior to the expiration date of December 31st. During the 60 days, the Central Office lead receives a weekly report from the Vendor Fiscal Contractor of the number SSPs that have not submitted their requalification information. During the 60 days, ODP also sends weekly reports to ODP Regional Offices, who in turn work with Administrative Entities and Supports Coordination Organizations in contacting CLEs providing Participant Directed Services and getting SSPs who will continue to offer services requalified. In addition, the Vendor Fiscal Contractor also notifies the CLE with phone calls, reminding the CLE of the expiration date and to ensure their SSPs requalify.

QP4. ODP or AEs conduct reviews on a 3-year cycle of 100% of SCOs and providers (with the exception of public transportation providers) using standardized monitoring tools developed by ODP. For SCOs, ODP reviews the training records for SCO staff to validate the receipt of required trainings. For providers, ODP or AEs review the training records of provider staff to validate the receipt of required trainings. If the required staff training is not documented in the record, the entity remediates deficient findings within 30 days.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

QP1. Number & percent of providers that initially and continually meet required licensure &/or certification standards & adhere to other state standards. ODP conducts licensing activities initially & continually for licensed settings. New providers who present for enrollment are required to meet qualification requirements. Provider qualification is the AEs' responsibility. Providers that do not meet requirements are denied enrollment. Annually, ODP distributes a list of providers to each assigned AE. The assigned AE is responsible to direct provider requalification. Providers provide documentation to AEs showing their adherence to all requirements, at the required frequency. Each provider's specialty qualification expiration date is recorded & tracked electronically. On the specialty expiration date, should the provider fail to submit qualification documentation, they become disqualified to provide the specialty. Any provider not meeting regualification requirements is disenrolled. Denied or disenrolled providers receive written notice of the decision, indicating unmet requirements, along with information about the appeal process. Providers may resubmit an application with documentation that requirements are met, unless a provider that has been disenrolled has also had their provider agreement terminated by ODP.

QP2. Number & percent of non-licensed, non-certified providers that meet waiver requirements. New providers who present for enrollment are required to meet qualification requirements. Provider qualification is the AEs' responsibility. Providers that do not meet requirements are denied enrollment. Annually, ODP distributes a list of providers to each assigned AE. The assigned AE is responsible to direct provider requalification. Providers provide documentation to AEs showing their adherence to all requirements, at the required frequency. Each provider's specialty qualification expiration date is recorded & tracked electronically. On the specialty expiration date, should the provider fail to submit qualification documentation, they become disqualified to provide the specialty. Any provider not meeting requalification requirements is disenrolled. Denied or disenrolled providers receive written notice of the decision, indicating unmet requirements, along with information about the appeal process. Providers may resubmit an application with documentation that requirements are met, unless a provider that has been disenrolled has also had their provider agreement terminated by ODP.

Prior to a provider's qualification expiration date, the AE and provider receive alerts notifying them of the provider's impending expiration. Additionally, ODP sends an advance notice to the provider, at least 30 days prior to the qualification expiration date, informing them that failure to submit required documentation, by the expiration date, will result in provider disqualification and ineligibility for reimbursement, through the waiver, for any specialty service provided after the expiration date. This notice also informs providers that participants receiving the expiring specialty will start being transitioned to the participant's choice of willing and qualified providers and it informs providers of their right to request a fair hearing.

QP3 & QP4 remediation strategies are in the Main Module Section B entitled Additional Information Needed (Optional).

Please provide a detailed strategy for assuring Qualified Providers, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'

Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. Additional Limits on Amount of Waiver Services. Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

Not applicable- The state does not impose a limit on the amount of waiver services except as provided in Appendix C-3.

Applicable - The state imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (*check each that applies*)

Limit(s) on Set(s) of Services. There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver. *Furnish the information specified above.*

A \$85,000 per person per fiscal year total limit is established for all Community Living Waiver services with an exception for Supports Coordination services. The limit can be exceeded temporarily to provide needed services for emergency care provision due to the COVID-19 pandemic. This temporary increase ends on 6/30/24 which is the last day of the full state fiscal year in which the Appendix K authority ends.

ODP will continuously analyze and update the limit based on established rates, services authorized on service plans, and utilization of those services.

The original \$70,000 limit was determined through the review and analysis of statewide expenditure information regarding services to support individuals in private homes and community settings. The final rate increases that went into effect in 2022 were applied to historical, current, and projected service plans to determine the new cap of \$85,000.

As per the Operating Agreement between ODP and AEs, the AE may only enroll new applicants into the Community Living Waiver if the participant's health and welfare can be assured within the individual cost limit, or if needs not met within the cost limit will be met using non-waiver resources and/or unpaid supports. An individual needs assessment is conducted to identify services necessary to assure the person's health and welfare. If the assessment indicates services in excess of the individual cost limit, the person may not be enrolled in the Community Living Waiver unless his or her health and welfare needs will be met through nonwaiver resources and/or supports. If Waiver enrollment is denied, the AE is responsible to provide the participant with his or her fair hearing rights, and the participant may appeal the decision. If the individual is enrolled in the Community Living Waiver, he or she is informed at enrollment of the total limit. Community Living Waiver participants who experience a change in needs that result in service needs in excess of the individual cost limit may be transferred to the Consolidated Waiver. The AE, with the approval of ODP, may transfer participants with current, emergency needs in excess of the Community Living Waiver cap if the AE already has been allocated sufficient Waiver capacity and funding by ODP. If the AE does not have sufficient Waiver capacity and funding to transfer a Community Living Waiver participant with unmet needs to the Consolidated Waiver, the AE is to contact ODP to request additional waiver capacity and funding to transfer the participant.

Community Living Waiver participants with needs in excess of the individual cost limit are also informed of other funding options for needed services, including state-only dollars and third party insurances. Participants are also referred to other services and supports in their communities.

Prospective Individual Budget Amount. There is a limit on the maximum dollar amount of waiver services authorized for each specific participant. *Furnish the information specified above.*

Budget Limits by Level of Support. Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services. *Furnish the information specified above.*

Other Type of Limit. The state employs another type of limit. *Describe the limit and furnish the information specified above.*

Appendix C: Participant Services

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

- **1.** Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.
- **2.** Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, <u>HCB Settings Waiver Transition Plan</u> for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

The Supports Coordination service definition states that Supports Coordinators are responsible for using a person centered planning approach and a team process to develop the participant's service plan to meet the participant's needs in the least restrictive manner possible. This includes ensuring that services provided in the participant's private home and community as well as all residential and non-residential settings are integrated in and support full access to the community.

All Supported Living and Life Sharing services are provided in private homes as stated in the service definitions. Since the Community Living Waiver is new, all homes where Supported Living and Life Sharing are to be provided will be considered new settings and as such are required to comply with all requirements regarding the location of the home and the rights of the participants who reside in the home prior to serving any participant who enrolls in the waiver. Prior to services being provided in a new Life Sharing home, the provider will complete the HCBS Settings Compliance self-assessment. ODP will review and validate the results. If the self-assessment indicates non-compliance, an onsite review will be conducted and the setting will not be enrolled until the provider remediates and becomes compliant. If the self-assessment indicates compliance, services may begin and the provider will receive an onsite review during the typical Quality Assessment and Improvement (QA&I) cycle.

Waiver funding cannot be used to provide any service in any private home purchased for, developed for or promoted as serving people with an intellectual disability and/or Autism in a manner that isolates or segregates the participant from the community of individuals not receiving waiver services.

Further, waiver funding cannot be used to provide any service in a private home that has the effect of isolating the participant from the broader community of individuals not receiving waiver services as evidenced by any of the following:

•Due to the design or model of service provision, participants have limited, if any, opportunities for interaction in and with the broader community, including with individuals not receiving waiver services;

•The participant's choice to receive services or engage in activities outside of the home is restricted; or

•The home is physically located separate and apart from the broader community and does not facilitate opportunities for the participant to access the broader community and participate in community services, consistent with the participant's person-centered service plan.

Non-residential settings outside of the home include Community Participation Support, Respite, Therapies, Education Support, Music and Art Therapy and Equine Assisted Therapy. All of these service definitions have been revised or newly written to comply with the HCB Settings requirements. The service definition for Community Participation Support contains standards for setting size, location, and the percentage of time that participants are allowed to spend in the setting versus in the community.

ODP will permit respite to be provided in institutional settings for a duration that does not exceed 30 days. As per CMS guidance related to states use of institutional settings for the provision of respite services that typically do not exceed 30 days in duration, ODP will not assess settings exclusively used for respite services for compliance with home and community based settings requirement.

The service definition for Education Support contains a standard for the percentage of time that participants spend on campus that must be integrated with the general student population.

Music, Art Therapy and Equine Assisted Therapy have service limits incorporated to encourage further community integration.

HCBS providers completed a self-assessment is spring and summer of 2018. ODP or its designee will then complete onsite monitoring reviews of approximately 33 percent of the waiver providers for compliance with applicable waivers and regulations. The providers who are selected for onsite monitoring will be selected from the universe of waiver providers regardless of whether the self-assessment indicates compliance or noncompliance. ODP or its designee will also review all of the self-assessments for waiver providers who were not selected for an onsite monitoring and complete an onsite monitoring visit for all ODP waiver providers who either did not complete a self-assessment or whose self-assessment indicated noncompliance. The initial onsite monitoring reviews will be completed in 2019. On an ongoing basis, each provider will be assessed to ensure that services are being delivered to all service persons supported in a manner that comports with federal and state regulations as well as waiver requirements. ODP shall also require, prior to enrollment of new providers, that the provider is assessed to confirm that settings will fully comport with all federal and state regulations as well as waiver requirements.

Appendix D: Participant-Centered Planning and Service Delivery

State Participant-Centered Service Plan Title:

Individual Support Plan (ISP)

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (*select each that applies*):

Registered nurse, licensed to practice in the state

Licensed practical or vocational nurse, acting within the scope of practice under state law

Licensed physician (M.D. or D.O)

Case Manager (qualifications specified in Appendix C-1/C-3)

Case Manager (qualifications not specified in Appendix C-1/C-3). *Specify qualifications:*

Social Worker

Specify qualifications:

Other

Specify the individuals and their qualifications:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Select one:

Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.

Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the

service plan development process and (b) the participant's authority to determine who is included in the process.

(A) The Supports And Information That Are Made Available To The Participant (And/Or Family Or Legal Representative, As Appropriate) To Direct And Be Actively Engaged In The Service Plan Development Process

Developing a participant's service plan is based on the philosophies and concepts of Positive Approaches, Everyday Lives, Person Centered-Planning, and the Community of Practice Lifecourse Framework. These philosophies and concepts capture the true meaning of working together to empower the participant and his or her family to dream, to envision a good life, and to plan and create a shared commitment for the participant's future. The purpose of Positive Approaches is to enable participants to lead their lives as they desire by providing supports for them to grow and develop, make their own decisions, achieve their personal goals, develop relationships, face challenges, and enjoy life as full participating members of their communities. The core values of Everyday Lives are choice, control, quality, community inclusion, stability, accountability, safety, individuality, relationships, freedom, and success, contributing to the community, collaboration, and mentoring. Person Centered Planning discovers and organizes information that focuses on a participant's strengths, choices, and preferences. It involves bringing together people the participant would like to have involved in the planning process, listening to the participant, describing the participant as fully as possible with a true focus on understanding who he or she is, and dreaming and imagining with the participant of possible ways things could be different, both today and tomorrow. The goal of the Community of Practice Lifecourse Framework is to support families so they can best support, nurture, and love and facilitate opportunities for the achievement of self-determination, interdependence, productivity, integration, and inclusion in all facets of community life for their family members. Integrating these values into the service plan process provides participants' and families' opportunities to incorporate their personal values, standards, and experiences in their everyday lives.

In preparation for the service plan development, the Supports Coordinator (SC) encourages meaningful participation of the participant and his/her family by informing them of the process and the concepts of Positive Approaches, Everyday Lives, Person Centered-Planning and the Community of Practice Lifecourse Framework through resource documents shared by ODP. This information and support from the service plan ensures that the participant can lead the process, if he or she chooses, to the maximum extent possible and is supported to make informed choices and decisions. The SC provides information to the participant and his or her family to understand the service plan process, who participates, options for community supports, and service delivery options.

The annotated service plan document provides a tutorial to be used during the service plan process. In addition, there are resources available through Supports Coordination Organizations (SCOs), Administrative Entities (AEs), and the Department of Human Services (DHS) website for participants and families describing the service planning and delivery process available services and providers, and rights and safeguards.

The participant and, with the participant's consent and agreement, his or her family determine who should be present and involved in the development of the service plan and determines the date, time and location of the service plan meeting. It is important to include people who know the participant best and who will offer detailed information about the participant and his or her preferences, strengths and needs. The participant and ,with the participant's consent and agreement, his or her family drive the process if they choose to do so.

The service planning process reflects cultural considerations of the participant and his or her family and is conducted by providing information in plain language and in a manner that is accessible to participant and his or her family who are limited English proficient. If the participant and his or her family use an alternate means of communication or if their primary language is not English, the information gathering and service plan development process should utilize their primary means of communication or a person who can interpret on their behalf.

In addition, the service plan must be written in plain language and in a manner that is accessible to the participant and his or her family.

(B) The Participant's Authority To Determine Who Is Included In The Process:

The participant and, with the participants consent and agreement, his or her family choose who should be present and involved in the development of the service plan with assistance from the SC if necessary. Once the service plan meeting details are confirmed, the SC develops the service plan meeting invitation and sends it to the participant, his or her family, team members and other people of the participant's choice who may contribute valuable information during the planning process.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participantcentered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable): (A) Who Develops The Plan, Who Participates In The Process, And The Timing Of The Plan

The SC develops the service plan based on information provided by the participant, his or her family and the invited team members. The team may consist of the participant, his or her family, the SC, the participant's representative which could be a common law employer or managing employer or legal guardian, providers of service, and other people who the participant chose to invite. All team members play a vital role in the development of the plan by fully participating to share knowledge, perspective and insight.

The service plan is initially developed prior to enrollment in the waiver to determine need for services and is updated annually and at any time there is a change in need or at the request of the participant. The SC is responsible for developing the service plan by performing the following activities in accordance with specific requirements established by ODP:

• Coordination of information gathering and assessment activity, which includes the results from assessments prior to the initial and annual service plan meeting.

• Collaboration with the participant, his or her family and team members to coordinate a date, time and location for the initial and annual service plan meeting.

• Distribution of invitations to participant, his or her family and team members.

• Facilitation of the service plan meeting, or the provision of support for a participant who chooses to facilitate his or her own meeting.

• Documentation of agreement with the service plan from the participant and other team members.

• Documentation and submission of the service plan reviews and revisions to the service plan, to the AE for approval and authorization.

• Distribution of the service plan to the service plan team members who do not have access to HCSIS including service plan signature page.

• Resubmission of the service plan for approval and authorization if it was returned for revision.

Qualified providers of services are responsible for the following service plan roles and functions:

• Completion and submission of the participant's provider assessment to the SC.

• Cooperate with the team members to coordinate the date, time and location for the initial and annual service plan meeting.

• Attendance and participation in the annual service plan meeting.

• Print and review the approved and authorized service plan located in HCSIS.

• Implementation of the service plan as written.

The AE is responsible for the following service plan roles and functions:

• Review of the service plan to ensure that all assessed needs are documented and addressed through waiver or nonwaiver supports.

• Approve the service plan and authorize services in accordance with the service definitions outlined in Appendix C.

• Notify the SC and providers of service once the service plan is approved and authorized.

• Approve, authorize or deny revisions to service plans.

• Approve and authorize Fiscal Year service plan prior to July 1 of each year.

(B) The Types Of Assessments That Are Conducted To Support The Service Plan Development Process, Including Securing Information About Participant Needs, Preferences And Goals, And Health Status:

ODP utilizes a multifaceted assessment process to drive the initial and ongoing service plan development. The participant's needs are identified through an assessment of functional need and are included in the service plan. In order to gain and capture person-centered information to determine the person's needs and risk factors, there is also a statewide standardized needs assessment using the Supports Intensity Scale (SISTM) and other assessment tools for population groups for whom the SISTM is not designed and utilized. This approach provides not only for the identification of need, but the preferences and choices of the participant in the manner in which those needs should be addressed.

The SISTM is administered by an independent contractor, and the results are available to the participant and team members in the form of the summary report. In order to receive services and to ensure that services provided can meet the needs of the participant to ensure health and welfare, all participants must have a statewide standardized needs assessment completed once every five years. If a major change in the participant's life occurs that has a lasting impact on his or her support needs, is anticipated to last more than six months, and makes his or her standardized assessment no longer current, then a new assessment should be requested. This assessment provides information essential to the service plan process as it addresses what is important both to and for the participant.

The service plan document itself identifies information about the participant; and summarizes all the assessment, outcomes and actions needed for implementation. Information gathering for the service plan should include physical development, communication abilities and needs, learning styles, strengths and functional abilities, educational background, employment, social/emotional information, medical and clinic needs (including any needs identified in a health risk screening tool when applicable), personality traits, environmental influences, community participation, interactions, preferences, outcomes, relationships that impact the participant's quality of life, and an evaluation of risk.

(C) How The Participant Is Informed Of The Services That Are Available Under The Waiver

A participant and his or her family are advised of all services available under the Waiver during the waiver enrollment process and annually or more frequently if needs change.

AEs are responsible to ensure all participants are informed of home and community-based services funded through the Waiver, including options related to participant directed services (PDS) during the waiver enrollment process. SCs are responsible to provide information to participants and their family about services that are available under the waiver, their rights to choose willing and qualified providers to support participants' needs, and their rights to appeal at the time of the service plan meeting and at least annually thereafter. In addition, SCs are responsible for assisting participants and their family in referring and coordinating with providers that are chosen by the participants and their family and their rights to direct own services.

The service plan identifies the natural supports, medical professionals, providers of services including the frequency, duration, amount, scope, and type of services. It specifies who holds responsibility for different aspects of service plan implementation, including those related to communication, health care, risk mitigation, behavioral support, and financial support.

(D) How The Plan Development Process Ensures That The Service Plan Addresses Participant Goals, Needs (Including Health Care Needs), And Preferences

Developing a participant's service plan is based on the philosophies and concepts of Everyday Lives Values in Action, Person-Centered Planning Positive Approaches, and Community of Practice Framework. As such, the service plan addresses the full range of participant needs, identified outcomes, and preferences including but not limited to choice of residence, to seek or engage in competitive employment, community participation, control of personal resources to the same degree of access as all other persons in the community.

The SC collaborates with the participant, his or her family and the team to coordinate information gathering to include detailed information about the participant and his or her preferences, strengths, needs and experiences. The team develops outcomes that build on gathered information which reflects the individual's needs and preferences to meet those needs.

Any barriers or obstacles that may affect the participant's success in achieving outcomes are discussed to ensure these obstacles do not impact the participant's health and welfare.

The service plan addresses all needs that affect the participant's health and welfare, including services that, if absent, would cause the participant to be placed in an institutional setting.

(E) How Waiver And Other Services Are Coordinated

The SC is responsible to ensure that there is coordination between services in the service plan, available MA State Plan services and other services for which the participant is eligible. The SC coordinates ODP and MA services as well as generic, unpaid, informal, natural, and specialized services and supports that are necessary to address the identified needs of the participant and to achieve the outcomes specified in the service plan. When services are being coordinated, the SC must ensure that the appropriate service is addressing the participant's needs.

(F) How The Plan Development Process Provides For The Assignment Of Responsibilities To Implement And Monitor The Plan

Once the AE approves and authorizes the participant's service plan, providers are responsible to render the needed services as written in the service plan. The SC is responsible to monitor and verify that participants receive services in the type, scope, amount, duration and frequency specified in the service plan.

To ensure that this process and related functions are performed in accordance with all applicable rules and guidelines, ODP conducts the ODP Quality Assessment and Improvement process. This process uses a standardized monitoring tool to assess compliance across a variety of measures, including service plan development activity. Based on findings, ODP may develop a corrective action plan addressing any identified areas of concern.

(G) How And When The Plan Is Updated, Including When The Participant's Needs Change

The service plan is updated at least annually, if the participant's needs change throughout the service plan year, or at the request of the participant and his or her family. The SC will facilitate the process and coordinate needed support and services (paid, unpaid, generic and informal) in order to update the service plan as required. The AE will approve and authorize the services included in the updated service plan.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The assessment process described above also identifies potential risks for the participant. Through the service plan development process, the participant, his or her family and team members develops strategies to identify, reduce and address identified risks. Each service plan contains detailed information on supports and strategies designed to mitigate risk to the participant that should align with health risk screening tools when applicable. The strategies identified to mitigate risks must reflect person-centered principles and are structured in a manner that supports participant preferences and outcomes.

A back-up plan is the strategy developed by a provider, common law employer or managing employer to ensure the services that are authorized are delivered in the amount, frequency, scope and duration as written in the participants service plan. These back-up plans are developed with the unique needs and risk factors of the participant in mind and discussed and shared with the participant, his or her family and team members. The back-up plan should address contingencies such as emergencies, including the failure of a direct support professional to appear when scheduled, or when the absence of the service presents a risk to the participant's health and welfare. In addition to the these criteria, back-up plans for remote monitoring utilized in any setting should ensure that the technology meets all applicable state and local laws, regulations and policies. These back-up plans are incorporated into the service plan by the SC to ensure that the entire team is aware of the strategies necessary to reduce and, when needed, address risks. Back-up plans are reviewed at the annual service plan meeting and revised as needed throughout the year.

Additionally, information relevant to the participant from IM4Q, ODP oversight process, Incident Management, and other feedback shall be incorporated and reviewed annually during participants' service plan meeting when that information will impact participant's health and welfare, services and supports the participant receives, or participant's ability to have an everyday life.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among qualified providers of the waiver services in the service plan.

The SC is responsible to provide information to the participant and his or her family about willing and qualified providers of waiver services. The participant and his or her family have the authority to select the provider of their choice. The information is shared in a manner that is accessible to the participant and his or her family upon waiver enrollment, at the initial plan meeting and at least annually thereafter by sharing ODP's statewide Services and Supports Directory (SSD) and through discussions with the participant and his/her family. Information from the SSD can be reviewed through the Internet, or via hard copy.

Once a willing and qualified provider is selected, the SC will make timely referral to selected provider. A participant and his or her family may change providers at any time.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

After the service plan meeting, the SC completes the service plan in HCSIS and it is submitted to the AE for approval and authorization in accordance with ODP policy and guidelines.

ODP reviews a proportionate representative random sample of service plans for waiver participants retrospectively as part of the annual statewide ODP Quality Assessment and Improvement process.

The ODP Quality Assessment and Improvement process involves the review of service plans to ensure that: • Service plans address all participant's assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

• Service plans are updated/revised at least annually or when warranted by changes in the waiver participant's needs.

• Services are delivered in accordance with the service plan, including the type, scope, amount, duration, and frequency specified in the service plan.

• Participants are afforded choice between/among waiver services and providers.

• Service Plan outcomes relate to the participant's preferences and needs.

Results and findings related to the review of service plans are an important component of ODP's quality management strategy, as they relate to the assurance of meeting waiver participants' identified needs.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

Every three months or more frequently when necessary

Every six months or more frequently when necessary

Every twelve months or more frequently when necessary

Other schedule

Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (*check each that applies*):

Medicaid agency

Operating agency

Case manager

Other

Specify:

Appendix D: Participant-Centered Planning and Service Delivery

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

(A) The Entity (Entities) Responsible For Monitoring The Implementation Of The Service Plan And Participant Health And Welfare

SCOs, AEs, and ODP are the entities responsible for monitoring the implementation of the service plan to ensure that waiver services are furnished in accordance with the service plan and consistent with safeguarding the participant's health and welfare.

(B) The Monitoring And Follow-Up Method(S) That Are Used:

SC monitoring is designed to provide support to participants and their families and allows for frequent communication to address current needs and to ensure health and safety. In addition, monitoring allows for increased support to plan for services throughout the lifespan. The monitoring maximizes support to create the quality of life envisioned by the individual, his or her family and community.

SC monitoring verifies that the individual is receiving the appropriate type, amount, scope, duration, and frequency of services to address the individual's assessed needs and desired outcome statements as documented in the approved and authorized service plan. It also ensures that the participant has access to services, has a current back-up plan and exercises free choice of providers. When changes in needs occur, the monitoring affords an opportunity for discussion and planning for increased or decreased support, as needed. Increase of monitoring frequency may be warranted based on participant's health and safety.

Information is systemically collected about the monitoring results and follow-up actions are recorded by the SC on a standardized form determined by ODP which is entered into HCSIS and/or retained in the participant's record, and is reviewed by ODP through an oversight process.

(C) The Frequency With Which Monitoring Is Performed.

For participants who receive a monthly service, the SC monitors authorized services to ensure a waiver participant's health and safety. The SC shall conduct at minimum a face to face monitoring once every two months. During a six (6) calendar month timeframe:

•One (1) of the visits must take place at the waiver participant's residence;

•One (1) visit must take place at the waiver participant's day service, including a nontraditional day program; and

•One (1) visit may take place at:

o any location where an authorized service is rendered, OR o any location agreeable to the waiver participant.

Supports Coordination teleservices may be used to conduct monitoring for three (3) out of the six (6) required face-toface monitorings per year when both of the following are met:

• The Supports Coordinator can see and hear the participant, the caregiver(s), and the environment using the technology; and

• The Supports Coordinator has given the participant an informed choice to receive the monitoring via teleservices or inperson.

For all participants receiving Residential Habilitation, Life Sharing, or Supported Living services, teleservices may not be used to conduct monitoring in the participant's home and no more than six months can lapse between face-to-face monitorings at the residential setting.

Monitorings are not required to occur at the place of employment or educational setting but may occur with the consent of the participant and their employer.

During the time that the participant is receiving a waiver service on a less than monthly basis or on temporary travel, the SC must conduct monthly face-to-face monitorings via teleservices with at least one face-to-face monitoring occurring every three months.

A deviation of monitoring frequency and location is only permitted when a participant:

• only receives a waiver service on a less than monthly basis

• is on temporary travel out of the state of Pennsylvania as per ODP's Travel Policy Related to Service Definitions.

SCOs are responsible to monitor the quality of the SC service and implementation of the service plan.

AEs monitor implementation of the service plan on a periodic basis through the approval of service plans and authorizations of services as initially developed and as revisions are made to address changing needs of the participants.

ODP monitors through the ODP Oversight Process as well as periodic review and follow up to issues as identified through external monitoring and customer service calls.

b. Monitoring Safeguards. Select one:

Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.

Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The state has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. *Specify:*

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

SP1- # & % of participants who have all assessed needs & personal goals addressed in the service plan through waiver funded services, other funding sources or natural supports. Numerator = # of participants who have all assessed needs & personal goals

addressed in the service plan through waiver funded services, other funding sources or natural supports. Denominator = # of participants reviewed.

Data Source (Select one): Other If 'Other' is selected, specify: Participant Record Review

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

ODP staff review a proportionate, representative random sample of waiver participant records annually.

For SP2, ODP reviews records and identifies any participants for whom annual service plans are not approved within 365 days of the prior annual service plan. It is possible that an annual service plan was not completed within 365 days of the prior annual plan but was completed before the ODP review occurred (completed late). These cases are considered compliant prior to remediation.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information

regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

SP1. Number and percent of participants who have all assessed needs and personal goals addressed in the service plan through waiver funded services or other funding sources or natural supports. ODP staff review a proportionate, representative random sample of waiver participant records annually. For SP1, ODP reviews these records to determine if participants have all assessed needs and personal goals addressed in their service plans through waiver funded services or other funding sources or natural supports. If a participant's plan does not contain evidence that all assessed needs and personal goals have been reviewed and/or addressed by the participant and his or her team, ODP will work with the SCO to ensure that the service plan is revised to support the identified assessed needs and personal goals. Remediation by the SCO is expected within 30 days of notification.

SP2. Number and percent of participants whose service plans are updated or revised at least annually. ODP staff review a proportionate, representative random sample of waiver participant records annually. If there is no evidence in the record that the service plan was completed, approved, and services authorized by the Annual Review Update Date, the AE will work with the SCO to ensure the service plan is completed within 30 days of notification.

SP3. Number and percent of participants whose needs changed and whose service plans were revised accordingly. ODP staff review a proportionate, representative random sample of waiver participant records annually. A subset of the sample of waiver records of participants whose needs changed is reviewed. ODP reviews a sample of records to determine if service plans were revised when a change in need was identified that required a waiver service revision. If the service plan is not revised, ODP will inform the SC that revisions to the service plan must be made. Remediation is expected to occur within 30 days of notification.

SP4. Number and percent of service plans in which services and supports were delivered in the type, scope, amount, duration and frequency specified in the service plan. ODP staff review a proportionate, representative random sample of waiver participant records annually. Using the sample of waiver participants, ODP reviews the individual monitoring tool completed by the SCO to ensure that services have been delivered in the type, scope, amount, duration and frequency specified in the service plan. If services were not delivered as specified in the participant's service plan, the SCO will provide documentation to ODP of the resolution. Remediation is expected to occur within 30 days of notification.

SP5. Number and percent of participants whose records document choice between and among waiver services and providers was offered to the participant/family. ODP staff review a proportionate, representative random sample of waiver participant records annually via a review of service plan Signature Forms. If there was no documentation that choice between and among services and providers was offered, ODP will direct the SC to follow-up with the participant and his or her family to provide the necessary information. The SC will use the service plan Signature Form to document that choice between and among services and services and service providers was offered as well as to document the date follow-up occurred. Remediation actions and submission of documentation to ODP should occur within 30 days of notification.

SP6. Number and percent of new waiver enrollees and participants who are provided information on participantdirected services. ODP staff review a proportionate, representative random sample of waiver participant records annually via a review of service plan Signature Forms. If there was no documentation that information on participant-directed services was offered, ODP will direct the SC to follow-up with the participant and his or her family to provide the necessary information. The SC will use the service plan Signature Form to document that information on participant directed services was offered as well as to document the date follow-up occurred. Documentation of remediation actions is expected to be submitted to ODP by the SCO within 30 days of notification.

ii. Remediation Data Aggregation Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party (check each that applies):	Frequency of data aggregation and analysis (check each that applies):
State Medicaid Agency	Weekly
Operating Agency	Monthly
Sub-State Entity	Quarterly
Other Specify:	Annually
	Continuously and Ongoing
	Other Specify:

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

No

Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.

No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

Yes. The state requests that this waiver be considered for Independence Plus designation.

No. Independence Plus designation is not requested.

Appendix E: Participant Direction of Services

a. Description of Participant Direction. In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

ODP offers Participant Direction, also known as self-direction, in order to provide individuals and surrogates with a high level of choice and control over their services and supports. In ODP's self-direction models, the individual or surrogate directs the provision of waiver services provided by Support Service Professionals (SSPs).

Participants are able to take advantage of self-direction opportunities through the utilization of a Financial Management Service (FMS) Organization. Participants who wish to self-direct services may do so through one of two FMS models: Agency with Choice (AWC) or Vendor Fiscal/Employer Agent (VF/EA).

The AWC FMS model is provided by provider agencies enrolled with ODP. Under the AWC FMS model, the AWC FMS is the "employer of record" for each SSP. In their capacity as employers of record, the AWC FMS is responsible for activities that include, but are not limited to:

• Hiring qualified SSPs referred by participants/surrogates;

- Processing employment documents;
- Verifying that qualified SSPs meet the qualification standards outlined in Appendix C-3;
- Obtaining criminal background checks and child abuse checks, if applicable, on prospective SSPs;
- Submitting claims to the Department for services authorized and rendered;
- Preparing and disbursing payroll checks;
- Providing workers compensation for SSPs;
- Providing Managing Employer skills training;
- Conducting SSP training; and
- Fulfilling any responsibilities established by ODP Bulletins.

Meanwhile, the individual or surrogate serves as a Managing Employer, and enters into a joint-employment arrangement with the AWC FMS to fulfill some employment responsibilities. Managing Employers are responsible for activities that include, but are not limited to:

- Recruitment and referral of qualified SSPs to the AWC FMS for hire;
- Training SSPs to meet the participant's needs;
- Determining SSPs schedules and responsibilities; and
- Managing the work performed by SSPs in a supervisory capacity.

The VF/EA FMS model is provided by an entity under contract with the Department of Human Services to provide the service. In the VF/EA model, the participant or their surrogate is the Common-Law Employer of qualified SSPs. Under the VF/EA model, the FMS is responsible for functions such as but not limited to:

• Functioning as the employer agent on behalf of the participant/surrogate;

• Withholding, filing, and paying Federal employment taxes, State income taxes, and workers compensation for SSPs on behalf of the participant/surrogate;

- Paying SSPs and vendors for services rendered as per the participant's authorized service plan;
- Verifying that workers meet established qualification criteria for the service(s) they provide;
- Conducting criminal background checks and child abuse checks, if applicable, on prospective SSPs;

• Providing Common-Law Employers with informational materials relating to the VF/EA FMS model; and

• Fulfilling any responsibilities established by the Department's contract with the VF/EA FMS and ODP Bulletins.

In their capacity as Common Law Employer of SSPs, the participant or their surrogate has responsibility to fulfill functions including but not limited to:

• Recruiting and hiring qualified SSPs;

• Training SSPs to meet the participant's needs;

- Determining SSPs schedules and responsibilities;
- Managing the work performed by SSPs in a supervisory capacity;
- Terminating SSP's employment when necessary; and
- Any responsibilities established by ODP Bulletins.

The SCO, Supports Coordinator, AE, Provider Agencies that provide AWC FMS services, and the VF/EA FMS under contract with the Department to share the role to provide information to participants on the ODP self-directed options. The roles and responsibilities are included in the ODP policies for participant directed services. All participants must be provided information about the ODP self-directed options and the services that are identified as Participant Directed services (PDS). All participants who reside in a private home are offered the opportunity to self-direct their services.

All participants acting as the employer or managing employer are afforded the authority to designate the hourly wage paid to each qualified support service professional, in accordance with wage ranges established by ODP. All participants self-directing their services have the flexibility to manage their services and initiate shifting units and associated funds between authorized participant directed services by requesting an adjustment in their participant directed services through their supports coordinator to accommodate changes in need.

All participants who self-direct their services have the right to receive those services in accordance with the guiding principles of self-determination. This means that participant-directed services must be provided in a manner that affords participants and their surrogates choice and control over the services they receive and the qualified SSPs, vendors and providers who provide them.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b. Participant Direction Opportunities. Specify the participant direction opportunities that are available in the waiver. *Select one*:

Participant: Employer Authority. As specified in *Appendix E-2, Item a*, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.

Participant: Budget Authority. As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.

Both Authorities. The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.

c. Availability of Participant Direction by Type of Living Arrangement. Check each that applies:

Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.

Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.

The participant direction opportunities are available to persons in the following other living arrangements

Specify these living arrangements:

Supports Broker services may be provided for participants who reside in private homes and to participants who receive Life Sharing services when they have a plan to self-direct their services through an AWC or VF/EA FMS in a private residence and in Supported Living when they have a plan to self-direct their services. The total number of people living in a private home where Life Sharing services are provided may not exceed four. In addition no more than two individuals may receive Life Sharing services in one home. No more than three participants may receive Supported Living services in one home.

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. Election of Participant Direction. Election of participant direction is subject to the following policy (select one):

Waiver is designed to support only individuals who want to direct their services.

The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.

The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the state. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria

Participants who live in a private home may utilize one of the identified participant directed options to manage some or all of their needed services that are available under this option. Participants who receive Life Sharing or Supported Living services may only direct Supports Broker services through participant direction when he or she has a plan to self-direct waiver services through an AWC or VF/EA FMS in a private residence.

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

e. Information Furnished to Participant. Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

ODP has developed and required distribution of standard participant directed information which includes the rights and responsibilities, the benefits and any risks associated with each participant directed option. This information is included in a consumer guide to participant-direction, ODP Bulletins relating to participant direction, and ODP approved materials provided by the VF/EA FMS or, when appropriate, an AWC FMS. Participants are provided with this information, as well as technical assistance on participant direction through the SCO, Supports Coordinator, AE and the FMS. The AE is responsible to provide waiver enrollees with information about participant direction during intake and enrollment. Supports Coordinators and SCOs are responsible to provide participants with information in advance of and during the planning process, annual service plan review, and upon request. Supports Coordinators also provide participants with support and assistance in order to make decision to exercise participant direction authority, and will refer participants to other resources (e.g. FMS, supports brokers) as necessary. Participants can also receive information and training on participant direction upon request from the SCO, AE, FMS, and ODP or its designees.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the state's policy concerning the direction of waiver services by a representative (*select one*):

The state does not provide for the direction of waiver services by a representative.

The state provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (check each that applies):

Waiver services may be directed by a legal representative of the participant.

Waiver services may be directed by a non-legal representative freely chosen by an adult participant. Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant: Participants have the right to have a surrogate to perform the employer or managing employer responsibilities. The FMS is responsible to ensure that the selected surrogate agrees to fulfill the responsibilities of the employer or managing employer by ensuring the completion of the applicable ODP standard agreement form. If a surrogate is desired by the participant, the surrogate must:

• Effectuate the decision the participant would make for himself/herself;

• Accommodate the participant, to the extent necessary that they can participate as fully as possible in all decisions that affect them;

• Give due consideration to all information including the recommendations of other interested and involved parties; and

• Embody the guiding principles of self-determination.

A participant may designate any person 18 years of age or older as a surrogate unless a surrogate has been designated by a court or is otherwise limited by existing or pending legal action prohibiting someone from serving as a surrogate.

A surrogate may not receive payment for functioning as a surrogate, nor may they receive payment for any participant directed waiver service provided by the surrogate with the exception of Transportation mileage reimbursement as defined in Appendix C1/C3.

The FMS must recognize the participant's surrogate as a decision-maker, and provide the surrogate with all of the information, training, and support it would typically provide to a participant who is self-directing. The FMS must fully inform the surrogate of the rights and responsibilities of a surrogate in accordance with established procedures. FMS must have the surrogate review and sign an ODP standard agreement form, which must be given to the surrogate and maintained by the FMS. The agreement lists the roles and responsibilities of the surrogate; asserts that the surrogate accepts the roles and responsibilities of this function; and asserts that the surrogate will abide by ODP policies and procedures. ODP maintains the discretion to determine whether the Managing or Common-Law Employer is in compliance with the agreement and may require termination of the agreement with or without cause.

Service plan monitoring takes place with each participant at the minimum frequency outlined in Appendix D-2a of this waiver. Several questions on the standard service plan monitoring tool can prompt the identification of any issues with the surrogate not acting in the best interest of the participant. Issues noted on the monitoring tool are addressed by Supports Coordinators, the SCO, FMS, the AE and/or ODP.

The AWC FMS is required to address and report any issues identified with the surrogate's performance including but not limited to compliance to the ODP policy on incident reporting and report any incident of suspected fraud or abuse.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Homemaker/Chore		
Assistive Technology		
Specialized Supplies		
Supports Broker Service		
Companion		

Waiver Service	Employer Authority	Budget Authority

Home Accessibility Adaptations		

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

h. Financial Management Services. Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one*:

Yes. Financial Management Services are furnished through a third party entity. (Complete item E-1-i).

Specify whether governmental and/or private entities furnish these services. Check each that applies:

Governmental entities

Private entities

No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used. *Do not complete Item E-1-i.*

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

i. Provision of Financial Management Services. Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one*:

FMS are covered as the waiver service specified in Appendix C-1/C-3

The waiver service entitled:

FMS are provided as an administrative activity.

Provide the following information

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

The AWC FMS model is provided by provider agencies qualified and enrolled by ODP. The VF/EA FMS model is provided by an entity under contract with the Department to provide the service. The entity is procured through the Commonwealth of Pennsylvania's competitive bidding process.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

ODP has developed a standard methodology for reimbursing FMS administrative activities and the administrative payments to the VF/EA FMS and AWC FMS are entirely separate from the funds dedicated to the participant's budget for services.

AWC FMS providers receive a monthly per-participant administrative fee for the FMS administrative service provided by the AWC FMS. The monthly administrative fee is established by ODP through the fee schedule rate development process and must be applied consistently with each participant within the AWC FMS provider. Administrative claims are submitted by the AWC FMS to PROMISe and payments are made directly to the AWC FMS from the Pennsylvania Treasury.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (check each that applies):

Supports furnished when the participant is the employer of direct support workers:

Assist participant in verifying support worker citizenship status

Collect and process timesheets of support workers

Process payroll, withholding, filing and payment of applicable federal, state and local employmentrelated taxes and insurance

Other

Specify:

Criminal background check Qualifications check

Supports furnished when the participant exercises budget authority:

Maintain a separate account for each participant's participant-directed budget

Track and report participant funds, disbursements and the balance of participant funds

Process and pay invoices for goods and services approved in the service plan

Provide participant with periodic reports of expenditures and the status of the participant-directed budget

Other services and supports

Specify:

Additional functions/activities:

Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency

Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency

Provide other entities specified by the state with periodic reports of expenditures and the status of the participant-directed budget

Other

Specify:

The FMS receives and disburses funds for the payment of vendor services. The statewide VF/EA FMS and AWC FMS providers may subcontract for goods needed for a participant that have been designated as PDS vendor services. In these situations, the VF/EA and AWC FMS is responsible to ensure that subcontracted entities meet all applicable provider qualification standards for the service.

In addition, the VF/EA and AWC FMS must complete the following activities for the service offered/rendered:

• Enroll in PROMISe as the provider;

• Ensure the requirements of Appendix C, including provider qualification standards, are met;

• Cooperate with provider monitoring conducted by ODP or one of its designees;

• For AWC FMS providers, cooperate with other monitoring activities, such as Supports Coordination monitoring, and ensure the vendor cooperates with such monitoring when necessary. For VF/EA providers, cooperate with monitoring activities as specified in the VF/EA's contract with the Department; and

• Maintain documentation on service delivery in accordance with state and federal requirements.

The cost of the good or vendor service must be the same as charged to the general (or self-paying) public. Any administrative charge is included in VF/EA and AWC FMS monthly per participant fee.

iv. Oversight of FMS Entities. Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

VF/EA FMS provides specific employer agent functions that support the participant with the employer-related functions. The Department monitors the VF/EA FMS to ensure that the contract deliverables are met and participants are in receipt of VF/EA FMS services in accordance with their service plan. The statewide VF/EA FMS is monitored by agents of the Department every two years. A sample of participants' records are reviewed for compliance onsite at the vendor's service location. If noncompliance is identified, the provider is issued a Corrective Action Plan with which it must comply. Additionally, ODP monitors the VF/EA FMS on an ad hoc basis when concerns arise about contract deliverables. AEs are also required to report any issues with the statewide FMS organization's performance to ODP, pursuant to the AE Operating Agreement.

AWC FMS providers are monitored by the Department (ODP or AEs) that conducts on-site reviews through the ODP Oversight Process on a 3-year cycle. AWC FMS providers are subject to oversight activities conducted using standard tools and data collection documents specific to AWC FMS providers to verify that providers are qualified and services are provided in compliance with the Waiver and federal and state requirements.

SCOs monitor participant service delivery at a frequency identified in section D-2-a of this waiver which includes the delivery of the administrative services provided by the AWC and VF/EA FMS. ODP through its SCO monitoring process verifies that SCOs are performing the necessary functions relating to AWC and VF/EA requirements.

ODP monitors claims submitted by the AWC FMS and VF/EA FMS. Through the ODP established claims oversight methods, which include AWC FMS-specific provider monitoring and monitoring the VF/EA FMS contract requirements, ODP has safeguards to ensure the payments to the FMS providers for both administrative fees and services are in accordance with all applicable regulations and requirements and maintain a consistent ratio of services to the FMS administrative costs for the participants.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

j. Information and Assistance in Support of Participant Direction. In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (*check each that applies*):

Case Management Activity. Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

Supports Coordination is a service furnished under the Waiver. In accordance with the Supports Coordinator core functions to locate, coordinate and monitor services the Supports Coordinators must provide participants with the ODP developed or approved information such as consumer guides to self-direction, ODP policy bulletins on participant direction, the ODP established wage ranges and the ODP approved statewide Vendor Fiscal/Employer Agent (VF/EA) start up packet. The Supports Coordinator and SCO provide the participant with a basic overview of the participant directed options, the differences and responsibilities associated with each option. The Supports Coordinator and SCO provide contact information for the statewide VF/EA on contract with ODP as well as the ODP designated Agency with Choice (AWC) in their Administrative Entity. The Supports Coordinator or SCO is required to share the above information during the planning process, annual service plan review meetings, and upon request. Supports Coordinators also provide participants with support and assistance to make the decision to exercise participant direction authority (ies), and refer participants to other resources (i.e. FMS, supports brokers) as necessary. If a decision is made to self-direct some or all the needed services, the participant and his or her team will then select either the AWC or VF/EA FMS option.

Documentation of the choice is documented by the Supports Coordinator on the service plan Signature Page. In addition to providing information and assistance to support a participant with decisions on the option to self direct, the Supports Coordinator also supports the participant with designating a surrogate and transition activities when needed.

Waiver Service Coverage.

Information and assistance in support of

participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Music Therapy, Art Therapy and Equine Assisted Therapy	
Homemaker/Chore	
Assistive Technology	
Small Group Employment	
Remote Supports	
Specialized Supplies	
Supports Broker Service	
Shift Nursing	
Advanced Supported Employment	
Unlicensed Residential Habilitation	

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Consultative Nutritional Services	
Companion	
Communication Specialist Services	
Community Participation Support	
Vehicle Accessibility Adaptations	
Supports Coordination	
Transportation	
In-Home and Community Support	
Family Medical Support Assistance	
Participant-Directed Goods and Services	
Supported Employment	
Respite	
Supported Living	
Therapy Services	
Family/Caregiver Training and Support	
Education Support Services	
Home Accessibility Adaptations	
Behavioral Support	
Housing Transition and Tenancy Sustaining Service	
Life Sharing	
Benefits Counseling	
Specialty Telehealth and Assessment Team	

Administrative Activity. Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

Participants in the VF/EA FMS model or their surrogates who function as the "Employer" may access orientation and functional training or may obtain enrollment and informational materials from the statewide VF/EA FMS organization on contract with ODP.

Participants in the AWC FMS model or their surrogates who function as the "Managing Employer" may access orientation, functional and ongoing training or may obtain enrollment and informational materials from the AWC FMS provider.

The scope of information and assistance supports include the provision of PDS participants with ODP developed or approved information such as consumer guides to self-direction, ODP policy bulletins on participant direction, the ODP established wage ranges, and, for VF/EA participants, the comprehensive Enrollment Packet referred to as the "startup packet". AEs, SCOs, ODP, the VF/EA FMS and the AWC FMS share the responsibility of sharing this information.

PDS participants are provided a basic overview of the participant directed options and the differences and responsibilities associated with each option as well as contact information for the statewide VF/EA on contract with ODP as well as the ODP designated Agency with Choice (AWC) in their Administrative Entity.

Participants are provided with support and assistance to make the decision to exercise participant direction authority and are referred to other resources (i.e. Supports Brokers) as necessary, as well as a basic overview of the participant directed options and the differences and responsibilities associated with each option.

Participants are provided with contact information for the statewide VF/EA FMS as well as the ODP designated AWC FMS in their Administrative Entity.

Participants are also assisted with designating a surrogate and transition activities when needed.

Participants in the VF/EA FMS model or their surrogates who function as the "Employer" may access orientation and functional training or may obtain enrollment and informational materials from the statewide VF/EA FMS organization on contract with ODP.

Participants in the AWC FMS model or their surrogates who function as the "Managing Employer" may access orientation, functional and ongoing training or may obtain enrollment and informational materials from the AWC FMS provider.

SCOs monitor participant service delivery at a frequency identified in Appendix D-2-a of this waiver which includes the delivery of the administrative services provided by the AWC and VF/EA FMS. ODP through its ODP Oversight Process verifies that SCOs are performing the necessary functions relating to AWC and VF/EA requirements.

As noted in E-1-I-iv, ODP monitors the VF/EA FMS to ensure that the contract deliverables are met and participants are in receipt of VF/EA FMS services in accordance with their service plan. Both AEs and ODP are responsible for assessing AWC FMS performance.

SCOs monitor participant service delivery at a frequency identified in Appendix D-2-a of this waiver which includes the delivery of the administrative services provided by the AWC and VF/EA FMS. As specified in Appendix D-2-a of the waiver, ODP oversees the ODP Oversight Process, which would include assessing SCO and AE performance regarding monitoring administrative services provided by the AWC and VF/EA FMS.

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

k. Independent Advocacy (select one).

No. Arrangements have not been made for independent advocacy.

Yes. Independent advocacy is available to participants who direct their services.

Describe the nature of this independent advocacy and how participants may access this advocacy:

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

I. Voluntary Termination of Participant Direction. Describe how the state accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the state assures continuity of services and participant health and welfare during the transition from participant direction:

If a participant or surrogate functioning as the "Employer" voluntarily terminates themselves from the VF/EA FMS participant directed model, the Supports Coordinator will provide the participant with options to choose the AWC FMS model or agency-based service options to meet their needs. The Supports Coordinator is responsible to work with the participant, surrogate, and service plan team to ensure an effective transition between participant directed and traditional services so that there are no gaps in service. The Supports Coordinator is responsible to work with the participant, surrogate and service plan team to coordinate an effective transition between service management options so the participant's health and welfare is maintained and services are provided in accordance with the authorized service plan.

If a participant or surrogate functioning as the "Managing Employer" voluntarily terminates themselves from the AWC FMS participant directed model, the Supports Coordinator will provide the participant with the option to choose another AWC FMS provider to the extent that one is available, the VF/EA FMS model or agency-based service options to meet their needs. The Supports Coordinator is responsible to work with the participant, surrogate, and service plan team to ensure an effective transition between participant directed and traditional services so that there are no gaps in service. The SC is responsible to work with the participant, surrogate and service plan team to monitor and coordinate an effective transition between service management options so the participant's health and welfare is maintained and services are provided in accordance with the authorized service plan.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the state will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

Involuntary termination will occur if the participant is suspected or convicted of Medicaid fraud or if there is sufficient evidence that the participant's assessed needs are not being met through the self-direction of services as determined by ODP.

If a participant involuntarily terminated from the VF/EA FMS participant directed model, the supports coordinator will provide the participant with options to meet their needs though the Agency with Choice FMS model, an agency-based service option, or a combination thereof.

If a participant is involuntarily terminated from the AWC FMS participant directed model, the Supports Coordinator will provide the participant with options to choose an agency-based service options to meet their needs.

ODP may at its discretion remove a surrogate functioning as an employer in either the VF/EA or AWC FMS model if the surrogate is suspected or convicted of Medicaid fraud or fails to meet the condition of their signed agreement. Surrogates shall not have the right to appeal such removals.

ODP may at its discretion require the termination of a worker in either the VF/EA or AWC FMS model if the worker is suspected or convicted of Medicaid fraud or demonstrates an inability to meet the participant's assessed needs as determined by ODP.

The Supports Coordinator is responsible to work with the participant, surrogate and service plan team to maintain health and welfare, monitor and coordinate an effective transition between participant directed and traditional services and monitor that services are provided in accordance with the authorized service plan.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the state's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the state will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n			
	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority	
Waiver Year	Number of Participants	Number of Participants	
Year 1		150	
Year 2		150	
Year 3		150	
Year 4		150	
Year 5		150	

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

a. Participant - Employer Authority *Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:*

i. Participant Employer Status. Specify the participant's employer status under the waiver. *Select one or both*:

Participant/Co-Employer. The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

The participant or the participant's representative (surrogate) functions as the managing employer of their workers who provide the authorized services. The Agency With Choice (AWC) is the employer of record of the staff. The AWC performs the employer of record functions, payroll and human resources functions. When needed and when authorized a Supports broker also may assist the managing employer with their employer-related functions.

Provider agencies function as AWC FMS providers. Under the AWC FMS model, the AWC FMS and the participant/surrogate must collaborate to offer a high level of choice and control to participants/surrogates, but the AWC FMS is ultimately responsible for ensuring that this occurs. The focus of the AWC FMS is to afford participants/surrogates with the ability to be effective managing employers and to support them in recruiting and referring workers to the AWC FMS for hire, managing worker day-to-day responsibilities and schedules, and discharging workers from the home when necessary. The AWC FMS must fully embrace and apply the philosophies of self-determination and self-directed support services by providing participants/surrogates with a high level of choice and control over the how services identified by the service plan process are provided and the workers who provide them.

AWC FMS providers are responsible to develop and maintain a system and written policies and procedures that reflect ODP policy and afford participants/surrogates with the ability to recruit, interview, and select qualified support service professionals for hire by the FMS; as well as the ability to be managing employers.

Participant/Common Law Employer. The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise*:

Recruit staff Refer staff to agency for hiring (co-employer) Select staff from worker registry Hire staff common law employer Verify staff qualifications Obtain criminal history and/or background investigation of staff

Specify how the costs of such investigations are compensated:

Specify additional staff qualifications based on participant needs and preferences so long as such qualifications are consistent with the qualifications specified in Appendix C-1/C-3.

Specify the state's method to conduct background checks if it varies from Appendix C-2-a:

Background check requirements in the participant directed services models are the same as outlined in appendix C-2-a and are conducted by the AWC or VF/EA FMS organization.

Determine staff duties consistent with the service specifications in Appendix C-1/C-3.

Determine staff wages and benefits subject to state limits

Schedule staffOrient and instruct staff in dutiesSupervise staffEvaluate staff performanceVerify time worked by staff and approve time sheetsDischarge staff (common law employer)Discharge staff from providing services (co-employer)OtherSpecify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (2 of 6)

- **b.** Participant Budget Authority Complete when the waiver offers the budget authority opportunity as indicated in Item *E*-*1*-*b*:
 - **i. Participant Decision Making Authority.** When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more*:

Reallocate funds among services included in the budget

Determine the amount paid for services within the state's established limits

Substitute service providers

Schedule the provision of services

Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3

Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3

Identify service providers and refer for provider enrollment

Authorize payment for waiver goods and services

Review and approve provider invoices for services rendered

Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

ii. Participant-Directed Budget Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how

the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

Participants' needs, preferences, and goals are identified through a multifaceted assessment process that captures person-centered information. Assessment results are used to develop the participants' service plans, which determine the medical, social, habilitation, education, or other services necessary to achieve their desired outcomes. The participant's budget is determined by the total units and total costs for the waiver services authorized in the service plan.

ODP has established wage ranges for Support Service Professionals for services that can be participant-directed. Participants or their surrogates and Support Service Professionals negotiate wages within the established wage ranges and in accordance with Labor and Industry standards. The negotiated wages for all services must be within the service-plan established budget.

The above processes are consistently applied to each participant.

Bulletins, information packets, wage ranges/rates, and other information are participant-directed services is published on the Department's website at www.MyODP.org. This information is accessible by participants, stakeholders, and the general public.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

iii. Informing Participant of Budget Amount. Describe how the state informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

The participant or his or her surrogate is part of the service plan team. The service plan team develops the service plan, including the authorized budget. The Administrative Entity with which the participant is registered must review and authorize the service. The participant's Supports Coordinator notifies the participant when the plan, including the authorized budget, is approved.

Participants may request an adjustment to the budget amount through their Supports Coordinator, who will modify the service plan to reflect an increase or decrease in services and a corresponding change in budget. The adjusted service plan is reviewed and approved by the Administrative Entity. If a service plan adjustment is denied or the participant's services are reduced, the Administrative Entity is responsible to provide written notice and appeal rights to the participant. The participant may choose exercise his or her right to appeal.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

iv. Participant Exercise of Budget Flexibility. Select one:

Modifications to the participant directed budget must be preceded by a change in the service plan.

The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

v. Expenditure Safeguards. Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

The participant or his/her surrogate is responsible for effective management of the participant's budget in their capacity as common-law or managing employer. The common-law and managing employer agreements specify that budget management is an employer responsibility.

The timely prevention of the premature depletion of the participant-directed budget is safeguarded by monitoring and interventions conducted by the FMS Agent, the Administrative Entity, and the participant's Supports Coordinator. AWC FMS providers invoice for services provided, process and disburse payroll checks, and are responsible to do so in accordance with the participant's authorized service plan. The AWC FMS provides monthly statements to the managing employers so they can appropriately track utilization of services and the corresponding funds. The VF/EA FMS organization on contract with the State is responsible for invoicing services provided, and processing and disbursing payroll checks, and is responsible to do so in accordance with the participant's authorized service plan. The VF/EA FMS organization records funds received and disbursed, as well as remaining balances for each participant. All of these actions serve as a means of tracking available funds to prevent budgetary depletion. Administrative Entities monitor participants' budgets through a review of paid claims. Supports Coordinators may become aware of potential budgetary depletions through the monitoring or service plan processes.

If potential premature depletion of the participant-directed budget is identified, the supports coordinator and/or the FMS are responsible to notify the participant or their surrogate of the potential depletion, and to provide assistance in adjusting the participants' use of services or negotiated Support Service Professional wages to avoid budgetary depletion. This may include revising the participants' service plan as described in E-2-biii. Supports broker services may also be recommended to ensure participants' effective management of services and corresponding budget.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The state provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The state provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

An individual/participant is advised routinely of his or her due process and appeal rights in accordance with ODP policies. The SC is responsible for notifying participants of the opportunity to request a fair hearing at his or her initial service plan meeting and at least annually during the service plan annual review meeting and any time the participant requests to change services or add new services. The discussion will be documented on the service plan and through a service note in Home and Community Services Information System (HCSIS).

The AE or ODP (for services that require prior authorization) is required to issue due process and appeal rights to the individual/ participant utilizing standard forms any time the following circumstances occur:

• The individual, who is determined likely to meet an ICF/ID or ICF/ORC level of care and is enrolled in Medical Assistance, is not given the opportunity to express a service delivery preference for either Waiver-funded or ICF/ID or ICF/ORC services.

• The individual is denied his or her preference of Waiver-funded or ICF/ID or ICF/ORC services.

• Based on a referral from the AE or County Program, a Qualified Developmental Disability Professional (QDDP) determines that the individual/participant does not require an ICF/ID of ICF/ORC level of care as a result of the level of care determination or redetermination process and eligibility for services is denied or terminated.

• The individual/participant is denied his or her request for a new Waiver-funded service(s), including the amount, duration, and scope of service(s).

• The individual/participant is denied the choice of willing and qualified Waiver provider(s).

• A decision or an action is taken to deny, suspend, reduce, or terminate a Waiver-funded service authorized on the participant's service plan.

The Department's fair hearing and appeals process does not apply to the following actions:
Changes caused solely by Federal or State law or regulations requiring an automatic change adversely affecting some or all recipients (42 CFR 431.220 [relating to Hearings]).

• Changes solely established by a Waiver amendment approved by the Centers for Medicare and Medicaid Services.

• A non-Medicaid service funded outside of the Waiver.

• A service provided during a period in which the individual is ineligible for Waiver funding.

The AE or ODP is required to make all such notices in writing. Should the individual/participant choose to file an appeal, they must do so with the agency that made the determination being questioned. Title 55 Pa. Code §275.4(a)(2) states that individuals must file an appeal with the agency that made the determination being questioned, and §275.1(a)(3) specifically includes social service agencies: "the term Department includes, in addition to County Assistance Offices, agencies which administer or provide social services under contractual agreement with the Department."

It is the responsibility of the Supports Coordinator to provide any assistance the individual or participant needs to request a hearing. This may include the following:

• Clearly explaining the basis for questioned decisions or actions.

• Explaining the rights and fair hearing proceedings of the individual or participant.

• Providing the necessary forms and explaining to the individual or participant how to file his or her appeal and, if necessary, how to fill out the forms.

• Advising the individual or participant that he or she may be represented by an attorney, relative, friend or other spokesman and explaining that he may contact his local bar association to locate the legal services available in the county.

Certain Waiver actions related to level of care and Medicaid ineligibility are also subject to fair hearing and appeal procedures established through the local County Assistance Office (CAO). AE participation is expected in preparation for the hearing and at the hearing whenever the CAO sends a notice confirming the level of care determination and the individual or surrogate appeals that notice through the CAO. The AE will receive notice of the hearing from the Department.

In situations where services are denied without first being authorized in the service plan or for actions taken regarding waiver

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

service delivery preference, the individual or participant is provided 30 days from the written notice mailing date to appeal the decision. The AE or ODP is required to provide an advance written notice of at least 10 calendar days to the participant anytime the AE initiates action to reduce, suspend, change, or terminate a Waiver service. The advance notice, which is sent by the AE or ODP, shall contain a date that the appeal must be received by the AE or ODP to have the services that are already being provided at the time of the appeal continue during the appeal process.

If the participant files an appeal (written or oral) within 10 calendar days of the mailing date of the written notification from the AE, the appealed Waiver service(s) are required to continue until a decision is rendered after the appeal hearing (55 Pa. Code § 275.4(a)(3)(v)(C)(I)). As noted above, the continuation language is included in the written notice that is sent to the participant by the AE or ODP. The postmark of a mailed appeal will be used to determine if the 10 day requirement was met by the participant or surrogate.

If the AE initiates an action on Waiver services and does not provide the written notice as required, the participant will have 6 calendar months from the effective date of the action to file an appeal. When this appeal is filed, services will be reinstated retroactively to the date of discontinuance and will continue until an adverse decision is rendered after the appeal hearing.

Per the AE Operating Agreement, each AE is required to keep notices of adverse actions and the opportunity to request a Fair Hearing in accordance with the timeframes enumerated in the agreement.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the state operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. *Select one:*

No. This Appendix does not apply

Yes. The state operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the state agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.

The participant has the right to request an optional pre-hearing conference with the AE or ODP, as applicable (55 Pa. Code § 275.4(a)(3)(ii) [relating to Procedures]). The pre-hearing conference gives both parties the opportunity to discuss and attempt to resolve the matter prior to the hearing. Neither party is required to change its position. The prehearing conference does not replace or delay the fair hearing process.

In addition to pre-hearing conferences, service reviews are conducted by ODP for fair hearing requests for participants that relate to the denial, reduction, suspension, or termination of waiver services by the AE and do not require prior authorization. Service Reviews are used to ensure AE compliance with regulations, approved Waivers, the State Medicaid Plan and applicable Bulletins.

The AE must track decisions and timely implementation of the service review or Bureau of Hearings and Appeals decision ODP has established a database to track appeals submitted and the outcome.

Final orders issued by the Department's Bureau of Hearings and Appeals must be implemented within 30 calendar days of the final order if ruled in favor of the appellant. If there is continued failure to implement the service, the ODP regional office will notify the County Commissioners/AE Governing Board of the program's failure to provide waiver services in accordance with their Operating Agreement and require an immediate plan from the Commissioners/AE Governing Board to comply. Any further failure to implement the service will result in sanctions being imposed in accordance with the AE Operating Agreement.

Appendix F: Participant-Rights

a. Operation of Grievance/Complaint System. Select one:

No. This Appendix does not apply

Yes. The state operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. Operational Responsibility. Specify the state agency that is responsible for the operation of the grievance/complaint system:

ODP is responsible for the operation of a grievance/complaint system.

c. Description of System. Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ODP's grievance/complaint system is comprised of two main components. The first is a Customer Service Line; the second is in writing. Participants, family members and representatives, AEs, providers, advocates, and other interested parties may use these two components to ask questions, request information, or report any type of issue or complaint, including issues/complaints regarding AE performance.

The Customer Service Line (1-888-565-9435) is a general information line operated by ODP. The phone is located at ODP Headquarters and staffed by ODP personnel during normal business hours. Complaints/grievances can also be received in writing via mail, fax, hand delivery, or email at RA-odpcontactdpw@pa.gov. The DHS website also offers a "feedback" page for users who wish to comment on intellectual disability, developmental disability, and autism services. Feedback, when received, is automatically forwarded to ODP.

When a complaint/grievance is received by ODP, information relating to the complaint/grievance is collected that includes, but it not limited to the complainant's contact information and the nature of the complaint. The information is then referred to the appropriate ODP staff person for follow-up. Follow-up activities are planned in conjunction with the AE or provider, if warranted.

Follow-up activities are determined and triaged based on the level of risk to a participant's health, welfare, or rights as described in the complaint allegation. Allegations that pose a high risk (such as abuse, mistreatment, unsafe living conditions, etc.) are responded to immediately through mechanisms such as licensing inspections or investigations by ODP. Lower-risk allegations are generally acted upon within 3 business days of receipt.

ODP will resolve complaints within 30 calendar days of the date the complaint was submitted unless circumstances beyond ODP's control prevent ODP from resolving the complaint within 30 days. ODP will resolve all complaints as soon as possible.

In addition to ODP's responsibilities, providers are required by 55 Pa. Code § 6100.51 to develop procedures to receive, document and manage complaints they receive from sources other than the Department, including participants and their designated persons. The provider is responsible for informing the participant and persons designated by the participant upon initial entry into the provider's program and annually thereafter of the right to file a complaint and the procedure for filing a complaint.

Providers must resolve complaints and report the findings or resolution to the complainant within 30 days of the date the complaint was submitted unless the provider is unable to resolve the complaint within 30 days due to circumstances beyond the provider's control, in which case the provider must document the basis for not resolving the complaint within 30 days and report the complaint findings or resolution to the complainant within 30 days after the circumstances beyond the provider's control no longer exist.

ODP or the provider is responsible for informing participants that any of the grievance/complaint systems described above is neither a pre-requisite, nor a substitute for a fair hearing.

In addition, all ODP regional offices utilize a "duty officer" system whereby assigned staff are responsible for any complaints/grievances received directly at the regional office.

Appendix G: Participant Safeguards

Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the state operates Critical Event or Incident Reporting and Management Process that enables the state to collect information on sentinel events occurring in the waiver program.*Select one:*

Yes. The state operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)

No. This Appendix does not apply (*do not complete Items b through e*)

If the state does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the state uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the state requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ODP uses an electronic, web-based reporting solution for incident reporting and management known as the Enterprise Incident Management (EIM) system. All provider entities and supports coordination organizations are considered reporting entities and use EIM to report incidents to ODP and the AEs. The ODP incident lifecycle contains an initial notification process (known as the first section submission), a formalized investigation if warranted, a final notification process (known as the final section submission), and an approval process (known as the closure of the incident).

When an event occurs, or is alleged to have occurred, that is considered an incident per policy, the initial notification is made by the reporting entity (provider or supports coordination organization) by submitting the first section of the incident report to ODP and the AE within 24 hours of discovery or recognition. This first section of the incident report includes a description of the event, incident categorization, as well as the action taken to ensure the health and safety of the individual. Once the initial notification is submitted, the AE will review the incident first section to ensure that prompt action was taken to protect the participant's health, safety, and rights. If the actions taken are insufficient, the AE will contact the reporting provider and direct additional actions.

All incidents are investigated to rule out or identify instances of abuse, neglect, or exploitation. In addition, certain categories of incidents require the investigation to be completed by an ODP certified investigator. These include incidents of abuse, neglect, misuse of funds, death and rights violations. Misuse of funds and rights violations are considered exploitation.

Abuse is defined as an allegation or actual occurrence of the infliction of injury, unreasonable confinement, intimidation, punishment, mental anguish, sexual abuse or exploitation. Abuse is reported on from the victim's perspective, not on the person committing the abuse.

-Physical abuse. An intentional physical act by staff or other person which causes or may cause physical injury to an individual, such as striking or kicking, applying noxious or potentially harmful substances or conditions to an individual.

-Psychological abuse. An act, other than verbal, which may inflict emotional harm, invoke fear or humiliate, intimidate, degrade or demean an individual.

-Sexual abuse. An act or attempted acts such as rape, incest, sexual molestation, sexual exploitation or sexual harassment and inappropriate or unwanted touching of an individual by another. Any sexual contact between a staff person and an individual is abuse.

-Verbal abuse. A verbalization that inflicts or may inflict emotional harm, invoke fear or humiliate, intimidate, degrade or demean an individual.

-Improper or unauthorized use of restraint. A restraint not approved in the individual support plan or one that is not a part of an agency's emergency restraint procedure is considered unauthorized. A restraint that is intentionally applied incorrectly is considered an improper use of restraint.

Neglect is defined as the failure to obtain or provide the needed services and supports defined as necessary or otherwise required by law or regulation. This includes the failure to provide needed care such as shelter, food, clothing, personal hygiene, medical care, protection from health and safety hazards, attention and supervision, including leaving individuals unattended and other basic treatment and necessities needed for development of physical, intellectual and emotional capacity and well-being. This includes acts that are intentional or unintentional regardless of the obvious occurrence of harm.

Exploitation is defined as Misuse of funds and Rights violation.

-Misuse of funds. An intentional act or course of conduct, which results in the loss or misuse of an individual's money or personal property. Requiring an individual to pay for an item or service that is normally provided as part of the individual support plan is considered financial exploitation and is reportable as a misuse of funds. Requiring an individual to pay for items that are intended for use by several individuals is also considered financial exploitation. Individuals may voluntarily make joint purchases with other individuals of items that benefit the household.

-Rights violation. An act which is intended to improperly restrict or deny the human or civil rights of an individual including those rights which are specifically mandated under applicable regulations. Examples include the unauthorized removal of personal property, refusal of access to the telephone, privacy violations and breach of confidentiality. This does not include restrictions that are imposed by court order or consistent with a waiver of

licensing regulations.

As part of the investigation, an investigator must take their first witness statement within 24 hours of being assigned an investigation. The investigator must also complete all witness interviews within 10 days of being assigned the investigation. The investigation and a final investigation determination (either confirmed or not confirmed) must be completed within 30-days.

An incident report is considered finalized when the reporting entity submits the Final Section of the incident report to ODP and the AE. Where appropriate, the final section of the incident will include the investigation determination as well as the corrective actions that were carried out or planned in order to mitigate and prevent the reoccurrence of the incident. All incident reports must be finalized within 30-days from the date of discovery or recognition or the incident report is not considered timely. If the reporting entity is unable to finalize the incident report within 30 days due to circumstances beyond its control, the provider entity shall notify ODP that an extension is necessary and provide the reason for the extension. When the need for an extension is submitted, the reporting entity is obligated to adhere to the extension deadline otherwise the finalization of the incident report is not considered timely.

When the reporting entity finalizes an incident report, the AE performs a review of the incident report within 30-days from the date of finalization. This review ensures that the incident was managed effectively and according to policy and that the investigation determination is supported by evidence, corrective actions are appropriate, planned, and prevents reoccurrence, and other pertinent information is included as necessary. Once the AE concludes their review of the incident report, ODP performs a second level review.

In addition to reporting incidents to ODP and the AE, Pennsylvania also has protective service laws in place for children (ages 0-17), adults with disabilities (ages 18-59), and older adults (ages 60 an over). All provider entities are mandated by law to report incidents of abuse, neglect, exploitation, and suspicious death to the protective services agencies defined in regulation.

Below is a listing of the types of incidents that require reporting within 24 hours of occurrence or discovery. (1) Death.

(2) A physical act by an individual to commit suicide.

(3) Inpatient admission to a hospital.

(4) Abuse.

(5) Neglect.

(6) Exploitation.

(7) An individual who is missing for more than 24 hours or who could be in jeopardy if missing at all.

(8) Law enforcement activity that occurred during the provision of an HCBS or for which an individual is the subject of a law enforcement investigation that may lead to criminal charges against the individual.

(9) Injury requiring treatment beyond first aid.

(10) Fire requiring the services of the fire department not including responses to false alarms.

(11) Emergency closure.

(12) A violation of individual rights.

(13) Theft or misuse of individual funds.

The following the types of incidents that require reporting within 72 hours of occurrence or discovery. (1) Use of a planned, emergency restraint.

(2) A prescription medication administration error.

The following types of incidents require a formalized investigations to be completed by a Department-certified incident investigator:

(1) Death.

(2) Inpatient admission to a hospital as a result of an accidental or unexplained injury or an injury caused by a staff person, another individual or during the use of a restraint.

(3) Abuse.

(4) Neglect.

(5) Exploitation.

(6) An injury requiring treatment beyond first aid as a result of an accidental or unexplained injury or an injury caused by a staff person, another individual or during the use of a restraint.

(7) Theft or misuse of individual funds.

(8) A violation of individual rights.

c. Participant Training and Education. Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

Supports Coordinators deliver and discuss information concerning protections from abuse, neglect, and exploitation, including how to notify appropriate authorities. Each waiver participant receives a document that includes contact information for Supports Coordinators, local authorities, family members, and advocacy organizations. Waiver participants, families, and/or legal representatives can use this information as needed to report concerns regarding abuse, neglect, and exploitation. The document also includes ODP's toll-free Customer Service Line number. This information is discussed at least annually or more frequently as determined necessary by the Supports Coordinator and at the request of a participant or caregiver.

d. Responsibility for Review of and Response to Critical Events or Incidents. Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and time-frames for responding to critical events or incidents, including conducting investigations.

ODP and AEs both receive initial notification within the EIM system, when the first section of the incident report is submitted by a provider or SCO. Also, ODP and AEs both receive notification when the final section of the incident report is submitted by a provider or SCO. In addition, if the provider operates a licensed setting, the state licensing authority also receives notifications.

In accordance with the ODP policy on Incident Management, within 24 hours of the initial notification, the AE evaluates the report to ensure that:

• The provider took prompt action to protect the participant's health, safety and rights. This may include, but is not limited to contacting emergency services such as 911, arranging medical care, separating the perpetrator and victim, arranging counseling or referring to a victim assistance program.

• When applicable, the provider met the mandatory reporting requirements by contacting the appropriate protective services agency for children, adults with a disability, or older adults.

• The provider notified the family or guardian of the incident within 24 hours (unless otherwise indicated in the service plan).

• When applicable, the provider initiated an investigation by assigning the case to an ODP Certified Investigator (CI). ODP requires separation of the victim from the alleged perpetrator (also known as the "target" of the investigation) when an allegation of abuse is made. In accordance with 55 Pa. Code § 6100.46(b), if there is an incident of abuse, suspected abuse or alleged abuse of a participant involving a staff person, household member, consultant, intern or volunteer, the involved staff person, household member, consultant, intern or volunteer may not have direct contact with a participant until the investigation is concluded and the investigating agency has confirmed that no abuse occurred or that the findings are inconclusive. Additionally, in accordance with 55 Pa. Code § 6100.46(c), the provider shall immediately report the abuse, suspected abuse or alleged abuse to the participant, persons designated by the participant, and ODP.

Pennsylvania protective service laws requires mandated reporters to notify state protective service agencies of incidents of abuse, neglect, exploitation, abandonment and suspicious death that meet reporting criteria. ODP also complies with Pennsylvania's Neglect and Abuse of Care-dependent person laws in accordance with 18 PA C. S. §§ 2713 and 2713.1, which requires reporting the abuse or neglect of care-dependent persons to the State Attorney General's office and/or the local District Attorney's offices.

In accordance with ODP policy, when the alleged target is not an employee, staff, volunteer, contractor, consultant, or intern of the provider or SCO (i.e. family member, unpaid caregiver, community member, etc.), the provider or SCO should work with the appropriate protective service entity and take all available action to separate the victim from the alleged target(s). When a participant who is residing with the participant's family experiences an incident that jeopardizes the victim's health and safety, the provider, AE or ODP will seek the assistance of law enforcement or Protective Service Agencies, who have the authority to remove the alleged perpetrator or the victim from the home or environment to ensure safety.

In accordance with ODP policy, when the alleged target is another individual receiving services and presents a reasonable expectation of on-going risk to the victim or other individuals, the provider must collaborate with the SCO to identify ways to protect the health, safety and rights of the victim. Actions taken must be implemented using a victim centered approach, which includes a systematic focus on the needs and concerns of the victim to ensure the compassionate and sensitive delivery of services.

In accordance with 55 Pa. Code § 6100.402(a), the provider shall take immediate action to protect the health, safety and well-being of the participant following the initial knowledge or notice of an incident, alleged incident, or suspected incident. When incidents of neglect, exploitation, rights violation are alleged and the target is a staff person, consultant, intern or volunteer, ODP requires providers to ensure separation of the victim from the alleged perpetrator when appropriate, when requested by the victim, and anytime the participant's health, safety, and well-being are jeopardized. Providers must provide details of immediate actions taken in the initial incident report submitted to ODP.

Incidents of abuse, neglect, misuse of funds, rights violation and death are investigated by persons that have completed the Department's approved certification course. Certified Investigators (CI) follow protocols established by the ODP as part of the investigatory process. Investigators accommodate the witness's communication needs as appropriate and conduct interviews individually, and in a private place, if possible. If the witness requires the presence of a third party,

the CI must arrange for third party representation (i.e. a staff person or family member).

The provider then completes and finalizes the report, including the investigation summary, within 30 days of the incident. The AE and ODP evaluate all finalized reports within 30 days of their notification and approve the report if: • The appropriate action to protect the participant's health, safety and rights occurred;

- The incident was correctly categorized;
- Timely completion of the certified investigation occurred;
- The investigation summary supports the conclusion;
- Safeguards to prevent reoccurrence are in place;

• Corrective actions have occurred, or are planned to occur, in response to the incident to prevent reoccurrence. When corrective actions are planned the anticipated date of completion must be indicated;

• Changes were made in the participant's plan of support necessitated by or in response to the incident;

• The participant or participant's family received notification of the findings by the reporting entity prior to the finalization of the incident report, unless otherwise indicated in the individual plan; and

• Incidents of abuse, neglect and exploitation were reported to the appropriate authority as required by Pennsylvania Law.

The AE and ODP disapprove reports that fail evaluation. Disapproved reports revert to the provider, who corrects any deficiencies and resubmits the report for re-evaluation. The AE will continue to work with and monitor the provider to ensure appropriate adherence to the established policies. ODP staff evaluates approved reports within 30 days and, if satisfactory, closes the incident report.

If additional time is needed to finalize the report the provider can have the timeframe deadlines extended. Situations that may warrant an extension of time may include but are not limited to: discharge from hospital has not occurred, investigation is not complete due to law enforcement involvement or criminal justice activities, or witnesses are not able to be interviewed timely due to extenuating circumstances.

Supports Coordinators identify unreported incidents as they conduct monitoring of services and supports including documentation reviews. AEs identify unreported incidents as they conduct provider monitoring oversight activities. ODP identifies unreported incidents as part of the waiver participant record review sample. When an unreported incident is identified, the reviewer communicates this finding immediately to the AE and/or the provider who is required to ensure that an incident report is filed and appropriate action is taken to mitigate the incident and ensure action is taken to prevent reoccurrence.

e. Responsibility for Oversight of Critical Incidents and Events. Identify the state agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

ODP is responsible for the oversight of and response to incidents. ODP evaluates all finalized reports, and completes a management review within 30 days after the AE approves the incident report. This oversight occurs on an ongoing basis. In addition, ODP reviews significant events monthly and provides technical assistance when a need is identified.

The EIM system supports incident management for ODP by allowing for the documentation and analysis of incident data. Data from EIM is used to support implementing quality improvement, risk management and incident management processes for all levels of the support and service system. Through a review of the data ODP identifies factors that put participants at risk and facilitates the development of interventions and improvement activities to mitigate future risk or reoccurrence. Key data elements of the incident management system include:

- Evidence of prompt and appropriate action in response to incidents.
- Timely reporting of incidents.
- Investigation of incidents.
- Corrective action in response to incidents.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)

The state does not permit or prohibits the use of restraints

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.

i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the state has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ODP only permits physical restraints, defined as a manual method that restricts, immobilizes or reduces an individual's ability to move his arms, legs, head or other body parts freely. Physical restraints may only be used in the case of an emergency or crisis to prevent an individual from immediate physical harm to himself or others. A physical restraint may not be used for more than 30 cumulative minutes within a 2-hour period.

Physical restraints must be used only as a last resort safety measure when the participant is in immediate danger of harming oneself and/or others and other risk mitigation strategies are ineffective. A physical restraint may not be used as a behavioral intervention, consequence, retribution, punishment, for the convenience of staff persons or as a substitution for individual support.

The following restraints are prohibited:

• Prone position physical restraints and any physical restraint that inhibits digestion or respiration, inflicts pain, causes embarrassment or humiliation, causes hyperextension of joints, applies pressure on the chest or joints or allows for a free fall to the floor is prohibited.

• Aversive conditioning, defined as the application of startling, painful or noxious stimuli.

• Pressure point techniques, defined as the application of pain for the purpose of achieving compliance. A clinically-accepted bite release technique that is applied only as long as necessary to release the bite is not considered a pressure point technique.

• A chemical restraint, defined as a drug used for the specific and exclusive purpose of controlling acute, episodic behavior. A Pro Re Nata (PRN) order for controlling acute, episodic behavior is a chemical restraint.

• A mechanical restraint, defined as a device used to control acute, episodic behavior that restricts the movement or function of an individual or portion of an individual's body including a geriatric chair, bedrail that restricts the movement or function of the individual, helmet with fasteners, waist strap, head strap, restraint vest, camisole, restraint sheet, restraint board, handcuffs, anklets, wristlets, muffs and mitts with fasteners and similar devices. A mechanical restraint does not include the use of a seat belt during movement or transportation.

Physical restraints must be included in the behavior support plan and must be approved by a human rights team prior to implementation. The behavior support plan and service plan must be reviewed, and revisions must be made to the service plan when necessary, according to the time frame established by the human rights team, not to exceed 6 months.

The behavior support plan with permitted restrictive interventions, plan including physical restraints, must be summarized in the service plan and include:

(1) The specific behavior to be addressed.

(2) An assessment of the behavior including the suspected reason for the behavior.

(3) The outcome desired.

(4) Methods for facilitating positive behaviors such as changes in the individual's physical and social environment, changes in the individual's routine, improving communications, recognizing and treating physical and behavior health conditions, voluntary physical exercise, redirection, praise, modeling, conflict resolution, de-escalation and teaching skills.

(5) Types of restrictive procedures that may be used and the circumstances under which the procedures may be used.

(6) A target date to achieve the outcome.

(7) The amount of time the restrictive procedure may be applied.

(8) The name of the staff person responsible for monitoring and documenting progress with the individual plan.

Through review of the incident report and individual support plans, ODP monitors the use of approved physical restraints and the procedures used. This process is also used to ensure that no providers have utilized the prohibited practices of seclusion or prone position manual restraint.

The use of a physical restraint is always a last resort emergency response to protect the participant's safety. Consequently, it is never used as a punishment, behavioral intervention or for staff convenience. The participant is immediately to be released from the physical restraint as soon as it is determined that the participant is no longer a risk to himself/herself or others. Additionally, regulations specifically state "Every attempt shall be made to anticipate and de-escalate the behavior using techniques less intrusive than a restrictive procedure." Behavior support plans identify strategies to avoid the need for restraints. These plans identify the antecedents, thereby enhancing opportunity to intercede before the use of restraint is needed.

A restrictive procedure may not be used unless less restrictive techniques and resources appropriate to the behavior have been tried but have failed.

ODP detects unauthorized or misapplied physical restraints through the various oversight and monitoring processes. Physical restraints that do not follow ODP standards are reported as abuse.

Regulations require provider staff that administers physical restraints to have specific training regarding the appropriate use and safe implementation, as well as de-escalation techniques/alternatives. This training must be completed within the past 12 months and focus on the proper procedures and specific techniques to follow, ethics of using physical restraints and alternative positive approaches.

ODP utilizes a person-centered planning model for all activities associated with provider training for authorized physical restraints. Training and education for administering a physical restraint is based on the unique needs of the individual as outlined in the service plan. ODP requires that staff associated with waiver services that may need to employ a physical restraint be trained to meet the unique needs of the participant which includes but is not limited to communication, mobility and behavioral needs (these education and training requirements are outlined in Appendix C: Participant Services C-1/C-3: Service Specification).

Training curricula and frequency is directly related to the person centered plan that includes the use of a physical restraint. According to regulation, frequency of staff training must occur prior to rendering services to a participant.

Examples of the types of education and trainings include multiple nationally recognized intervention programs that focus on the use of least restrictive interventions such as Safe Crisis Management Certification Training Program and Crisis Prevention Institute's techniques of Nonviolent Crisis Management.

According to ODP policy, a participant's physical condition must be evaluated throughout the physical restraint in order to minimize the potential of individual harm or injury. A participant is immediately released from a physical restraint when they no longer present a danger to self or others. Support staff monitors the participant for signs of distress throughout the restraint process and for a period of time (up to two hours) following the application of a physical restraint.

All anticipated physical restraint usage must be reviewed prior to usage with the individual's Primary Care Physician (PCP) to ensure that there are no potential negative health and safety impacts. For example a PCP may not agree to allow a physical restraint to be used for an individual with osteoporosis due to the risk of a broken bone.

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of restraints and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

During licensing surveys and oversight monitoring activities, the Department and ODP validates that restraints, if administered, were applied in accordance with requirements. The AE or Department has the authority to review and require revisions or the removal of any restrictive intervention from a service plan. When restraints are used, they are reported as incidents in the EIM system by the entity that employed the restraint. These entities must conduct a monthly analysis of restraint usage to identify trends and patterns and to support strategies to reduce restraint usage at the organization. ODP verifies during oversight monitoring that these activities are being conducted. Physical restraints that are employed and do not follow ODP guidelines are reported as an incident of abuse and investigated. As a result of the investigation and the incident management process, strategies are developed to prevent reoccurrence. In addition, through the person-centered planning process, teams regularly meet to review and discuss progress, lack of progress, and any overuse or misuse of restraints.

As part of the Department's annual licensing inspection process for licensed settings, licensing staff reviews incidents to identify participants who have been restrained and to verify regulations have been met. Providers that frequently use restraints are provided technical assistance, training and other resources needed to decrease the use of restraints.

ODP completes an analysis to identify trends and patterns on a quarterly basis. Improvement strategies are developed based on the outcome of restraint data analyses.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. (Select one):

The state does not permit or prohibits the use of restrictive interventions

Specify the state agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.

i. Safeguards Concerning the Use of Restrictive Interventions. Specify the safeguards that the state has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

Behavior support plans with restrictive procedures must be developed and approved by a human rights team prior to implementation. The behavior support plan with restrictive procedures must be reviewed, and revised, if necessary, according to the time frame established by the human rights team, not to exceed 6 months.

The behavior support plan with permitted restrictive interventions including physical restraints must include: (1) The specific behavior to be addressed.

(2) An assessment of the behavior including the suspected reason for the behavior.

(3) The outcome desired.

(4) Methods for facilitating positive behaviors such as changes in the individual's physical and social environment, changes in the individual's routine, improving communications, recognizing and treating physical and behavior health conditions, voluntary physical exercise, redirection, praise, modeling, conflict resolution, de-escalation and teaching skills.

(5) Types of restrictive procedures that may be used and the circumstances under which the procedures may be used.

(6) A target date to achieve the outcome.

(7) The amount of time the restrictive procedure may be applied.

(8) The name of the staff person responsible for monitoring and documenting progress with the service plan.

Permitted Restrictive Interventions include:

• Token economies or other reward and/or level systems as part of programming.

• Environmental restrictions.

• Limiting access to objects or items, such as limiting access to food for participants diagnosed with Prader Willi.

• Anything that a person is legally mandated to follow as part of probation or a court restriction that is superseded by regulation or other ODP policy.

Prohibited restrictive interventions include:

• The use of aversive conditioning; defined as the application, contingent upon the exhibition of maladaptive behavior, of startling, painful or noxious stimuli, is prohibited.

• A participant's personal funds or property may not be used as reward or punishment. A participant's personal funds or property may not be used as payment for damages unless the participant consents to make restitution for the damages.

A restrictive procedure may not be used as retribution, for the convenience of staff persons, as a substitute for the program or in a way that interferes with the individual's developmental program. For each incident requiring restrictive procedures every attempt shall be made to anticipate and de-escalate the behavior using methods of intervention less intrusive than restrictive procedures. A restrictive procedure may not be used unless less restrictive techniques and resources appropriate to the behavior have been tried but have failed.

ODP requires documentation of restrictive intervention usage as part of the progress notes completed by provider staff. ODP utilizes a person-centered planning model for all activities associated with provider training for authorized restrictive interventions. Training and education surrounding restrictive interventions are based on the unique needs of the individual as outlined in the behavior support plans with restrictive procedures. The curriculum is based on the specific techniques outlined in the behavior support plans with restrictive procedures. ODP requires that staff associated with waiver services that may need to employ a

restrictive intervention be trained to meet the unique needs of the participant which includes but is not limited to communication, mobility and behavioral needs (these education and training requirements are outlined in Appendix C: Participant Services C-1/C-3: Service Specification).

Training curricula and frequency is directly related to the person centered plan that includes the use of restrictive interventions. According to regulation, frequency of staff training must occur prior to rendering services to a participant.

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

ODP oversees the use of restrictive interventions through oversight monitoring activities. Behavior support plans with restrictive procedures are approved by a human rights team prior to the use of any restrictive intervention. The only exception to using a restrictive intervention without an approved plan is when the intervention is used for the first time during an emergency situation in order to protect the health and safety of a participant. Restrictive interventions that do not follow ODP guidelines are reported as an incident of a rights violation and investigated. As a result of the investigation and incident management process strategies are developed to prevent reoccurrence. In addition, through the person-centered planning process, the team regularly meets to review and discuss progress, lack of progress, and any overuse of restrictive interventions.

As part of the Department's annual licensing inspection process for licensed settings, licensing staff reviews service plans to identify participants who have restrictive interventions in place and to verify that regulations regarding behavior support plans with restrictive procedures have been met. Providers that frequently use restrictive interventions are provided technical assistance, training and other resources needed to decrease the use of restrictive intervention usage.

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)

c. Use of Seclusion. (Select one): (This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.)

The state does not permit or prohibits the use of seclusion

Specify the state agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

ODP prohibits seclusion as a type of restrictive intervention. ODP is the state agency responsible for monitoring and overseeing the use of restrictive interventions to ensure that seclusion is not a method being used. When alleged seclusion has been identified, the usage is reported as an incident of a rights violation and investigated. As a result of the investigation and incident management process, strategies are developed to prevent reoccurrence.

The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.

i. Safeguards Concerning the Use of Seclusion. Specify the safeguards that the state has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

ii. State Oversight Responsibility. Specify the state agency (or agencies) responsible for overseeing the use of seclusion and ensuring that state safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (1 of 2)

This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.

a. Applicability. Select one:

No. This Appendix is not applicable (*do not complete the remaining items*)

Yes. This Appendix applies (complete the remaining items)

b. Medication Management and Follow-Up

i. Responsibility. Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.

First-line responsibility for monitoring participant medication regimens resides with the medical professionals who prescribe and the pharmacists who dispense medications.

The second line medication monitoring occurs through Supports Coordinator (SC) review of the participant's services to ensure that all programs are administering medications appropriately. For participants taking any type of medication, the SCs review the medication regimen during each face-to-face monitoring visit using the service plan monitoring tool which lists: the medication that the participant takes; the reason for the medication; the total daily dose; whether or not blood levels are necessary; and what the medication is supposed to do. Monitoring to detect potentially harmful practices related to medication occurs for all waiver participants that take medication administration documentation; efficacy of medication; knowledge of side effects and strategy to report; changes in medications or presence of side effects; changes in health that might be related to medication; and appropriate and timely communication about health issues between medical practitioners and the participant's team. Supports Coordinators also document allergies. The service plan monitoring tool is used to monitor medication given at home, including a licensed residential setting, and at a day program. Monitoring of medications are required to have their medication reviewed by the prescribing psychiatrist at least every 3 months. Supports Coordinators ensure these reviews are occurring during each face-to-face monitoring visit.

Monitoring is designed to detect potentially harmful practices and ensure follow up to address such practices. If concerns or issues related to medication administration are discovered at a face-to-face monitoring visit, the Supports Coordinator communicates this information directly with the individual's team. The SC can also seek assistance from the Health Care Quality Units (HCQUs) or ODP regional nurses and medical director to perform a medication review so that strategies can be developed to address the concerns or issues. The regional nurses and the HCQUs are available for targeted training and technical assistance with regard to questions about medications and their administration. All HCQUs provide training and outreach to SCOs and AEs on a regular basis.

Department licensing also monitors medication and medication administration. Providers with licensed sites are monitored using a sampling strategy. Licensing personnel review medication administrator certification as well as medication regimens on Medication Administration Records as compared to the physician documentation to assure consistency between the two. As well they compare allergies and unusual reactions to medication to the medication list to detect any use of contraindicated medications. ODP nurses may be involved when medication regimens are complex or licensing personnel have questions about the implementation of the medication course to provide clinical input. Regional nurses meet regularly with the ODP Medical Director and are able to review medication related concerns.

Reviews of medications for participants, particularly those with complex medication regimens or behavior modifying medications as part of their treatment program, can occur through a number of methods, including discussions with service plan team members; training sessions with the HCQUs related to how to look at medications related to medical and behavioral conditions; and based on issues and concerns noted during monitoring.

ODP uses the DHS Medication Administration Program (MAP) to teach unlicensed staff to give medication to participants using a standard curriculum. The MAP course requires periodic reviews of staff performance to maintain certification. Record of completion of these reviews is maintained at the provider level and must be available for licensing review. The MAP course teaches staff to review medication when it is received from the pharmacy and compare it to the Medication Administration Records, thus providing a regular review of medications by provider staff. Part of the documentation and safety measures include looking at medication allergies for the possibility of a contraindicated drug.

ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the state uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the state agency (or agencies) that is responsible for follow-up and oversight.

ODP oversees the Medication Administration Program, which is designed to teach proper medication administration to unlicensed staff. Lessons covered in the Program are intended to increase safety, minimize potentially harmful practices and include: Observations, Reporting Changes, Communication and Healthcare Practitioner Visit, Recording and Storage of Medication, Handwashing and Gloving, Administration, Documentation, Medication Errors, and Self-administration of Medication.

ODP regional risk managers provide ongoing monitoring of reported medications errors. ODP regional risk managers collaborate with ODP regional nurses, the medical director, and HCQU staff to assure reporting occurs while working to prevent known causes of medication errors. ODP regional nurses may also monitor the provider activities around medication administration, usually in response to either a problem related to licensing surveys or a request from the provider because of issues at the agency. The nurses also may provide technical assistance with respect to medication errors and the implementation of the medication program. They then follow-up on these recommendations and any plans of correction required by licensing related to medication administration to assure that the potentially harmful practices are remedied. In addition the HCQUs have developed guidance for providers regarding medication administration policies and procedures to supplement what is in the MAP course. HCQUs also provide technical assistance regarding medication administration for providers regarding medication administration policies and procedures to supplement what is in the MAP course. HCQUs also provide technical assistance regarding medication administration adminis

Despite ODP's extensive medication administration course, medication errors sometimes occur. ODP requires providers to report medication errors via Enterprise Incident Management (EIM) within 72 hours of occurrence or discovery. The EIM medication error report utilizes a root cause analysis approach, requiring the reporter to answer a series of questions aimed at identifying what happened as well as the contributing factors that can then be addressed and minimized. The questions include: "Why did the error occur?", "What was the response to the error?" "What was or will be the agency system response to prevent this type of error from occurring in the future?" This approach also informs the curriculum offered in the medication management course and allows for process improvement.

If a medication error is the result of a critical incident, such as neglect or results in a critical incident, such as death, then it is not reported as a medication error but rather as the higher level critical incident. The incident is then subject to investigation and AE and regional review.

Medication error reporting data, including remediation data, is aggregated, analyzed and discussed at ODP's Community Services Quality Oversight Group for opportunities to design and implement system improvements regarding medication errors.

Appendix G: Participant Safeguards

Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

i. Provider Administration of Medications. Select one:

Not applicable. (do not complete the remaining items)

Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)

ii. State Policy. Summarize the state policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

State regulations are specified for waiver providers regarding: medication administration, storage and disposal of medication, labeling of medication, prescription medications, medication record, medication errors and adverse reactions. State regulations allow for the administration of medication by unlicensed staff when trained using a standard Medication Administration course. Licensed nurses are not required to take the administration course as this is part of their clinical scope of practice under the State Nursing Board. State regulation specifies waiver provider responsibilities when participants self-administer. Self-administration guidelines appear in the regulations and setting-up and monitoring self-administration programs are taught as part of the Medication Administration Program.

iii. Medication Error Reporting. Select one of the following:

Providers that are responsible for medication administration are required to both record and report medication errors to a state agency (or agencies). *Complete the following three items:*

(a) Specify state agency (or agencies) to which errors are reported:

The Department of Human Services, Office of Developmental Programs via an electronic database, EIM which is accessible by the state, AEs, Supports Coordinators and providers.

(b) Specify the types of medication errors that providers are required to *record*:

There are no types of medication errors that providers are required to record, but not report.

(c) Specify the types of medication errors that providers must *report* to the state:

Providers report medication errors as specified in Enterprise Incident Management (EIM) including wrong person, wrong medication (wrong medication, extra dose, and discontinued medication), wrong dose, wrong route, wrong time, wrong form, wrong technique/method, and wrong position.

Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the state.

Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the state agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.

ODP monitors performance of providers in the administration of medication to waiver participants both directly and indirectly. As described in section G-3bi, direct monitoring occurs through annual Department licensing reviews. In addition, the ODP Oversight Process indirectly evaluates individual waiver participant's medication information. Each AE is monitored by reviewing a sample of waiver participants' records. Direct monitoring occurs when the AEs and Supports Coordinators monitor medications for participants. Supports Coordinators monitor medication administration and practices in the manner described in G-3bii. AEs monitor the performance of Supports Coordinators and review medication errors through their risk management processes including evaluating the information about how the errors occurred in order to intervene with a provider that shows poor medication administration practices. Health Care Quality Units (HCQUs) also provide indirect monitoring of medication administration through their individual case and provider reviews. When HCOUs, Supports Coordinators, and AEs review medications, the results are communicated to ODP in a number of ways. Provider issues related to implementation of the Medication Administration Program course are referred to the nurses or the Medical Director to be addressed either at the level of the provider or the level of the course. Licensing documents findings in their licensing reports, and communicates any issues around the implementation of the course to the regional nurses and the ODP Medical Director by phone, email or in person.

The reporting strategy for medication errors facilitates a root cause analysis on the part of the provider related to each specific medication error. Problems with specific providers regarding medication administration practices are remediated in a number of ways. The nurses from ODP provide technical assistance to the providers around their medication practices especially those that are identified as being unsafe or problematic. The medication administration course itself includes a set of standard remediation strategies for medication administrators that have made errors in order to assure that they know how to properly administer and document related to that particular situation. The HCQUs provide training and technical assistance to providers on an ongoing basis to promote the use of best practices around medication administration.

The required medication administration course teaches problem solving and has been modified to address problems identified through data captured in EIM. The HCQUs, AEs, and regional risk management committees review medication errors on a regular basis. ODP reviews reports submitted by the AE. The AE reviews reports submitted by providers. Any medication error resulting in a critical incident requires investigation. ODP reviews lead to changes in the medication administration instrument and additional training. Health Alerts are issued and distributed widely on specific drug issues.

Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

a. Methods for Discovery: Health and Welfare

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read "The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.")

i. Sub-Assurances:

a. Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

HW1 # & % of confirmed incidents of abuse, neglect, exploitation, unexplained death for which corrective actions were executed or planned by appropriate entity within required time frame. Numerator = # of confirmed incidents of abuse, neglect, etc. which corrective actions executed or planned by appropriate entity in required time. Denominator = # of confirmed incidents of abuse, neglect, etc.

Data Source (Select one): Other If 'Other' is selected, specify: EIM

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

HW1. Number and percent of confirmed incidents of abuse, neglect, exploitation and unexplained death for which corrective actions were executed or planned by the appropriate entity within the required time frame. The AE and ODP sequentially review confirmed critical incidents to ensure that corrective actions are carried out or planned by the appropriate entity within the required time frame. If corrective actions are not carried out or planned by the appropriate entity within the required time frame, the AE or ODP will follow up with the provider to ensure the corrective actions are carried out or planned within 10 days. All remediation steps are entered into the incident report and are subject to final approval by ODP. Supports Coordinators monitor for completion of planned corrective actions through the individual monitoring process.

HW2. Number and percent of participants who received information about reporting abuse, neglect, and exploitation. ODP reviews waiver participant records to ensure that participants have been provided information about reporting abuse, neglect and exploitation. If there was no documentation that the information was provided within the last 12 months, ODP will direct the SC to follow-up with the participant to provide the necessary information. The SC must record in the ISP Monitoring Tool that information about reporting abuse, neglect, and exploitation was shared and discussed with the participant and document the date follow-up occurred. Documentation of remediation actions is expected to occur and be submitted to ODP by the SCO within 30 days of notification.

HW3. Number and percent of critical incidents finalized, including strategies to mitigate/prevent future incidents, within the required time frame. ODP staff monitors a monthly report of critical incidents that are not finalized, including strategies to mitigate/prevent future incidents, within 30 days and have no extension filed. This information is provided to AEs who contact providers to determine why incidents have not been finalized and why extensions have not been filed. If a provider does not finalize a critical incident within the required time frame, including strategies to mitigate/prevent future incidents, the provider must finalize the incident within 5 days or file an extension request.

HW4. Number and percent of participants with restrictive interventions where proper procedures were followed. ODP staff monitors a monthly report of all incidents where proper procedures were not followed related to the use of a restraint or restrictive intervention. In addition, the electronic incident management system generates alerts to incident management reviewers when an incident is reported that indicates that proper procedures were not followed. When proper procedures have not been followed, staff responsible for employing the restraint or restrictive intervention will be retrained on the individual's restrictive procedure plan, retrained on applicable policies and procedures that address the prohibition of unallowable restraints or restrictive intervention techniques, or terminated by the agency.

HW5. Number and percent of participants whose identified health care needs are being addressed. Using the sample of waiver participants, ODP reviews monitoring conducted by the participant's Supports Coordinator. The ODP standardized individual monitoring tool includes questions evaluating whether identified health care needs are addressed as specified in the service plan. In any instance where the Supports Coordinator identifies a concern regarding addressing identified health care needs, and the issue remains unresolved, ODP will work with the SCO to resolve the situation. Resolution can include but is not limited to resumption of services at the required frequency, additional assessment by the current service provider, pursuit of a second opinion/consultation from an alternate provider, changes in service provider, team meetings, or changes in service

opinion/consultation from an alternate provider, changes in service provider, team meetings, or changes in service schedule. The SCO will provide documentation of the resolution to ODP. Remediation is expected to occur within 30 days of notification.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

No

Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 3)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the state has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the state specifies how it has designed the waiver's critical processes, structures and operational features in order to meet these assurances.

• Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state's waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver's relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the state is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances; and
- The *remediation* activities followed to correct individual problems identified in the implementation of each of the assurances.

In Appendix H of the application, a state describes (1) the *system improvement* activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent *roles/responsibilities* of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously *assess the effectiveness of the OIS* and revise it as necessary and appropriate.

If the state's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the state may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the state plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid state plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the state must be able to stratify information that is related to each approved waiver program. Unless the state has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the state must stratify information that is related to each approved sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 3)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

ODP's Quality Assessment & Improvement (QA&I process) is designed to conduct a statewide quality management review of all Administrative Entities (AEs), Supports Coordination Organizations (SCOs) and providers delivering waiver services and supports. Over a three-year period, 100% of AEs, SCOs and providers receive a full QA&I review.

ODP selects for review a proportionate, representative, random sample of waiver participants for review via the QA&I process, with a confidence level of 95%, margin of error 5%, and 70% response distribution, from the combined population of waiver participants in Pennsylvania's Consolidated Waiver Control # 0147, P/FDS Waiver Control # 0354 and Community Living Waiver Control #1486. The results obtained reflect the performance of the combined system, ensuring that the system for the waivers is responsive to the needs of all individuals served. ODP trends, prioritizes and implements system improvements prompted as a result of an analysis of the discovery and remediation information obtained via the QA&I process and other data sources. This integrated approach to quality monitoring is comprehensive, standardized, and measurable and is intended to: • Follow an individual's experience throughout the system,

- Portow an individual's experience inroughout the system,
 Measure progress toward implementing ODP's Everyday Lives: Values in Action,
- Gather timely and useable data to manage system performance, and
- Use data to manage the service delivery system with a continuous quality improvement approach.

Following the full QA&I review, remediation is required for all instances of noncompliance and must occur within 30 days of discovery. Where performance is less than 86%, a plan to prevent recurrence may be required which may lead to a quality improvement plan (QIP) for identified systemic issues. The entity reviewed receives the results of their completed QA&I review.

The QA&I process is used to:

- Assess AE outcomes as outlined in the AE Operating Agreement,
- Collect data for the Consolidated, P/FDS and Community Living waivers' performance measures,

• Validate that SCOs and providers comply with applicable federal and state regulations and requirements and their current Provider Agreements for all three waivers.

ODP compiles all data collected from the QA&I process into an Annual Statewide Report. This report is shared with system stakeholders and represents statewide performance of AEs, SCOs, providers, and the overall system, as it relates to the quality of services.

ODP has developed Quality Oversight Groups in each of its four Regional Offices to review region-specific aggregate discovery and remediation data in each of the six waiver assurance areas, as well as a Community Services Quality Team, co-lead by ODP's Bureau of Community Services Director and Quality Management Division Director, to review statewide aggregate data. ODP Regional Office Staff are assigned to participate in the compilation and analyses of aggregate data pertaining to their region, then join with ODP Central Office staff to compile and analyze data statewide.

Regional analysis, conclusions, and recommendations are considered when statewide analysis is performed and conclusions and recommendations proposing system-wide improvements are made by the Community Services Quality Team.

ODP chooses this holistic approach because the following five conditions are met:

- 1. The design of Pennsylvania's Consolidated, P/FDS and Community Living Waivers is the same;
- 2. This sameness is determined by comparing waivers on the approved waiver application appendices:
 - a. Participant Services,
 - b. Participant Safeguards, and
 - c. Quality Management;
- 3. The quality management approach is the same across waivers, including:
 - a. Methodology for discovering information (e.g., data systems, sample selection),
 - b. Manner in which individual issues are remedied,
 - c. Process for identifying and analyzing patterns/trends, and
 - d. All performance indicators are the same;
- 4. The provider network is the same; and
- 5. Provider oversight is the same.

Because Pennsylvania's Consolidated, P/FDS and Community Living Waivers are approved for the same fiveyear time frame, ODP will submit a consolidated evidence report reflecting the state fiscal years' performance on the combined system on the schedule CMS requires.

Improvement activities selected by the Community Services Quality Team are also identified and evaluated in consideration of ODP's overarching mission, vision and values. ODP's mission, vision and values are developed in partnership with stakeholders and communicated statewide. Health and safety of individuals and the achievement of individual outcomes through person-centered planning are given highest priority.

ODP assigns staff to implement quality improvements based on the scope of the design change and the expertise required. ODP involves additional stakeholders including Administrative Entities, providers, support coordination organizations, individuals served and their families, and other State agencies in consideration of the design change involved and specific input needed.

Information used for trending and prioritizing opportunities for system improvements is also obtained through Independent Monitoring for Quality (IM4Q), a statewide method the State has adopted to independently review quality of life issues for people who receive services from ODP that includes a sample of waiver participants. IM4Q monitors satisfaction and outcomes of participants receiving services through indicators organized into areas of satisfaction, dignity and respect, choice and control, inclusion, and physical setting.

IM4Q also monitors satisfaction with supports coordination services. Pennsylvania also collects and submits data to National Core Indicators through the IM4Q process and compares its performance to the aggregate performance of all States participating in National Core Indicators when identifying strengths and opportunities for systemic improvement.

Aggregate IM4Q data is used for continuous quality improvement purposes by ODP, AE and provider quality groups. Recommendations for action are also identified by the IM4Q Steering Committee and submitted for consideration to ODP's Information Sharing and Advisory Committee (ISAC). The ISAC serves as ODP's stakeholder quality council. ODP prioritizes opportunities for system improvements in conjunction with the ISAC, then disseminates these priorities to the field. Stakeholders representing their constituencies on the ISAC are expected to collaborate with ODP in the implementation, monitoring and evaluation of changes designed to achieve system improvements using a data-based approach.

Responsible Party (check each that applies):	Frequency of Monitoring and Analysis (check each that applies):
State Medicaid Agency	Weekly
Operating Agency	Monthly
Sub-State Entity	Quarterly
Quality Improvement Committee	Annually
Other Specify:	Other Specify:

ii. System Improvement Activities

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the state's targeted standards for systems improvement.

ODP uses a Plan-Do-Check-Act (PDCA) Model of continuous quality improvement. The steps in this model involve planning and implementing system design changes followed by monitoring of data results to check the effectiveness of the selected strategies. Using the analysis of performance data collected to identify next steps, the cycle is repeated. Depending on the area of focus, specific units within ODP are assigned responsibility for designing, initiating, monitoring and analyzing the effectiveness of system design changes and providing periodic, routine reports on progress to the Community Services Quality Team. Stakeholders are engaged in this process where appropriate.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

On an annual basis, considering input from Quality Oversight Groups and the ISAC, ODP's Executive Staff assesses program and operational performance as well as ODP's Quality Management Strategy. Results of this review may demonstrate a need to revise ODP's QMS, including changing priorities, using different approaches to ensure progress, modifying roles and responsibilities of key entities, and modifying data sources in order to retrieve the information needed for measurement.

Appendix H: Quality Improvement Strategy (3 of 3)

H-2: Use of a Patient Experience of Care/Quality of Life Survey

a. Specify whether the state has deployed a patient experience of care or quality of life survey for its HCBS population in the last 12 months (*Select one*):

No

Yes (*Complete item H.2b*)

b. Specify the type of survey tool the state uses:

HCBS CAHPS Survey :

NCI Survey :

NCI AD Survey :

Other (*Please provide a description of the survey tool used*):

IM4Q, described in section H-1 above, is an independent survey of quality-of-life issues, conducted in tandem with the NCI survey, that monitors satisfaction and outcomes of participants receiving services through indicators organized into areas of satisfaction, dignity and respect, choice and control, inclusion, and physical setting.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

Financial Integrity. Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

The method employed to assure the integrity of payments made for waiver services is to conduct an annual audit of state government, Administrative Entities (AEs), and for profit and nonprofit organizations in accordance with the requirements of 2 CFR Part 200, Subpart F as well as Title 45, CFR 75.501(1). As outlined in the waiver cost report instructions, all sub-recipients expending less than \$750,000 of federal funding and \$750,000 or more in combined state/federal Funding (for profit and non-profit) need to have an annual audit conducted in accordance with Generally Accepted Government Auditing Standards (GAGAS). If the sub-recipient is a nonprofit entity that expended \$750,000 or more in federal funding, an audit in accordance with 2 CFR Part 200, Subpart F is required. 2 CFR Part 200, Subpart F requires a single audit or if the auditee expends federal awards under only one program, a program-specific audit conducted in accordance with GAGAS. If the sub-recipient is a for-profit entity expending \$750,000 or more in federal funding, the entity has the option to either have an annual audit in accordance with 2 CFR Part 200, Subpart F or a program specific audit conducted in accordance with GAGAS.

The Department of the Auditor General, an independent office, jointly conducts the annual Commonwealth of Pennsylvania Single Audit with an independent CPA firm. 2 CFR Part 200, Subpart F sets forth standards for obtaining consistency and uniformity for the audit of States, local governments, and non-profit organizations expending federal awards. Providers are audited exclusively by contracting with CPA firms. Providers may also be selected for a GAGAS performance audit by the Department's Bureau of Financial Operations.

Both traditional providers (which includes SCOs) and AWC FMS providers are reviewed by the Department (ODP or AE) through the Quality Assessment and Improvement (OA&I) process on a 3-year cycle. During ODP's OA&I process, ODP performs a desk review of a representative, random sample of claims annually to determine if they are supported by adequate provider documentation to substantiate that services were delivered. This includes providers that fall below the \$750,000 threshold. The population of claims used for fiscal monitoring will coincide with the providers and SCOs being monitored in a given year. Providers will submit documentation as described in the ODP Bulletin #00-17-02 to substantiate claims. This will be done via email to a dedicated mailbox at ODP. If ODP finds inadequate provider documentation to support a claim, depending on the nature of the issue, additional records will be selected for review by ODP may initiate an expanded review or audit. If indicated, ODP will work with the AE to conduct further claims review on site and remediation activities as appropriate. The Department monitors the VF/EA FMS to ensure that the contract deliverables are met and participants are in receipt of the VF/EA FMS services in accordance with their service plan. The statewide VF/EA is monitored by agents of the Department. The contract includes a set of minimum standards which the VF/EA must meet or exceed in order to ensure that claims are processed correctly. Additionally, the financial integrity and accountability of the Common-Law Employer is monitored through submission of overtime and utilization reports. The overtime report is used to ensure that Support Service Professional overtime is scheduled in accordance with ODP's policies. The utilization report is used to ensure that the participant is not over-utilizing the service. Overutilization usually includes services rendered above the authorized amount in the service plan, but unusually high utilizations may also be investigated. This also includes participants with service authorizations in their service plans that fall below the \$750,000 threshold.

Through the desk review the Department ensures waiver services billed were actually rendered by pulling a random, representative sample of claims using a 95% confidence level and 5% margin of error and reviews claims for accuracy and to assure that documentation adequately supports the claim. Claims are monitored on a quarterly basis for the most recent 3 months. Results of post-payment reviews will be communicated with the provider's QA&I results.

Fraudulent and/or inaccurate billings discovered during the QA&I process will trigger an expanded review by ODP or referral to the Bureau of Financial Operations or the Bureau of Program Integrity depending on the nature and extent of the finding. Inappropriate billings are required to be refunded by the provider and further remediation up to termination may occur.

The State will have an Electronic Visit Verification (EVV) system that complies with the requirements of the federal 21st Century Cures Act as passed by Congress and signed into law on December 3, 2016. The state has submitted a good faith exemption request form on September 9, 2022, to The Centers for Medicare and Medicaid Services (CMS) that received approval, requesting additional time to mitigate issues that have caused unavoidable delays. The system shall be implemented no later than January 1, 2024.

Appendix I: Financial Accountability

Quality Improvement: Financial Accountability

As a distinct component of the States quality improvement strategy, provide information in the following fields to detail the States methods for discovery and remediation.

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

a. Methods for Discovery: Financial Accountability Assurance:

The State must demonstrate that it has designed and implemented an adequate system for ensuring financial accountability of the waiver program. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")

i. Sub-Assurances:

a. Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered. (Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

Performance Measure:

FA1 - Number and percent of claims that are supported by documentation that services were delivered. Numerator = number of claims reviewed that are supported by documentation that services were delivered. Denominator = number of claims reviewed.

Data Source (Select one): Other If 'Other' is selected, specify: Participant Record Review, PROMISe

	Continuously and Ongoing
	Other Specify:

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

FA1 - ODP reviews a representative, random sample of claims against participant records annually to determine if they are supported by adequate provider documentation to substantiate that services were delivered.

FA2 - The reimbursement logic built into Pennsylvania's Medicaid Management Information System (MMIS) ensures that waiver participants were eligible for services on the date the service was provided, and that services paid are authorized in the participant's approved service plan. A problem may be identified by a provider or providers, contractors, Administrative Entities (AEs), ODP staff, or the Office of Medical Assistance Programs (OMAP). The ODP Claims Resolution Section monitors claims activity on a monthly basis to identify potential issues with the eligibility information, or services paid inconsistent with the services authorized in the service plan.

FA3 - The reimbursement logic built into Pennsylvania's Medicaid Management Information System (MMIS) ensures that providers are not paid more than the rate that is stored in the system. A problem may be identified by a provider or providers, contractors, AE, ODP staff, or OMAP. The ODP Claims Resolution Section monitors claims activity on a monthly basis to identify potential issues with the reimbursement rate.

FA4 - The reimbursement logic built into Pennsylvania's Medicaid Management Information System (MMIS) ensures that providers are not paid more than the rate that is stored in the system. A problem may be identified by a provider or providers, contractors, AE, ODP staff, or OMAP. The ODP Claims Resolution Section monitors claims activity on a monthly basis to identify potential issues with the reimbursement rate.

b. Methods for Remediation/Fixing Individual Problems

i. Describe the States method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the state to document these items.

FA1 - Number and percent of claims that are supported by documentation that services were delivered. If ODP finds inadequate provider documentation to support a claim, depending on the nature of the issue, additional records will be selected for review by ODP may initiate an expanded review or audit. If indicated, ODP will work with the AE to conduct further claims review and remediation activities as appropriate. The provider will be requested by the AE to submit a corrective action plan that will specify the remediation action taken. Remediation is expected to occur within 30 days. Remediation may include locating documentation to support that services rendered are consistent with claim submission, training, voiding (and/or recovering) payments, and the initiation of provider sanctions, if the situation warrants. ODP sanctions may range from restricting the provider from serving additional participants to the termination of the agency's waiver program participation. ODP staff will ensure that payments are adjusted where necessary and determine if the extent of the problem warrants further action.

FA2 -Number and percent of claims paid for participants who were eligible on the date the service was provided and where services were consistent with those in service plans. If a problem is identified, outreach is conducted with the provider and appropriate corrective action is conducted in a timely manner. Providers are expected to correct payments for inappropriate claims within 30 days.

Trends are monitored to identify systemic errors which are corrected in collaboration with the MMIS contractor if necessary and, with the contractor who supports HCSIS, if applicable. Remediation is expected within 30 days.

Eligibility information entered into the system incorrectly is corrected and the universe of paid claims that was processed using the incorrect information is identified. In the rare event that an overpayment is made, ODP will immediately notify the provider and credit any overpayment on the next PROMISe billing cycle. Thus the FMAP amount charged via the MMIS system to CMS is rapidly corrected, generally within one month or less after an overpayment is discovered. If an underpayment is made, the provider is contacted to void and resubmit in order to obtain the appropriate rate.

FA3 - Number and percent of claims paid using rates developed according to the rate methodology in Appendix I-2a. If a problem is identified, outreach is conducted with the provider and appropriate corrective action is conducted in a timely manner. Providers are expected to correct payments for inappropriate claims within 30 days.

Trends are monitored to identify systemic errors which are corrected in collaboration with the MMIS contractor if necessary and, with the contractor who supports HCSIS, if applicable. Remediation is expected within 30 days.

Rates entered into the system incorrectly are corrected and the universe of paid claims that was processed using the incorrect information is identified. In the rare event that an overpayment is made, ODP will immediately notify the provider and credit any overpayment on the next PROMISe billing cycle. Thus the FMAP amount charged via the MMIS system to CMS is rapidly corrected, generally within one month or less after an overpayment is discovered. If an underpayment is made, the provider is contacted to void and resubmit in order to obtain the appropriate rate.

FA4 - Percent of waiver claims paid using rates that follow the rate methodology in the approved waiver application. In the rare event that a rate is entered into the MMIS incorrectly, the error will be corrected and the universe of paid claims that was processed using the incorrect information is identified. If the error resulted in overpayment, ODP will immediately notify the provider and credit any overpayment on the next PROMISe billing cycle. Thus the FMAP amount charged via the MMIS to CMS is rapidly corrected, generally within one month or less after an overpayment is discovered. If the error resulted in an underpayment, the provider is contacted to void and resubmit the impacted claims in order to obtain the appropriate rate.

ii. Remediation Data Aggregation

Remediation-related Data Aggregation and Analysis (including trend identification)

Responsible Party (check each that applies):	Frequency of data aggregation and analysis (check each that applies):
State Medicaid Agency	Weekly
Operating Agency	Monthly

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Responsible Party (check each that applies):	Frequency of data aggregation and analysis (check each that applies):
Sub-State Entity	Quarterly
Other Specify:	Annually
	Continuously and Ongoing
	Other Specify: Every 6 months

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

No

Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

There are several approaches to set rates under the PPS, depending on the type of service: fee schedule rates, cost-based rates, payment for vendor goods and services, and participant-directed service rates. The rate setting methods described below apply to both in-state and out-of-state providers as allowed in provider qualifications for each waiver service. For the purposes of this waiver, vendor goods and services refers to payment for the completion of a task or delivery of an item.

1. Medical Assistance (MA) Fee Schedule: Services are identified by ODP for placement on the fee schedule prior to July 1 of each year.

MA Fee Schedule rates are developed using a market-based approach. This process includes a review of the service definitions and a determination of allowable cost components which reflect costs that are reasonable, necessary & related to the delivery of the service, as defined in Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (OMB Circular Uniform Guidance, 12/26/14). The Department establishes the fee schedule rates to fund services at a level sufficient to ensure access, encourage provider participation and promote provider choice, while at the same time ensuring cost effectiveness and fiscal accountability. The fee schedule rates represent the maximum rates that the Department will pay for each service. In developing MA fee schedule rates, the following occurs:

*ODP evaluates and uses various independent data sources such as a Pennsylvania-specific compensation study and data from prior approved cost reports, as applicable, and considers the expected expenses for the delivery of the services for the major allowable cost categories listed below:

- Support needs of the participants
- Staff wages
- Staff-related expenses
- Productivity
- Occupancy

- Program expenses and administration-related expenses

- A review of approved service definitions and determinations made about cost components that reflect costs necessary and related to the delivery of each service

- A review of the cost of implementing Federal, State and local statutes, regulations and ordinances.

*One MA fee schedule rate is developed for each service. ODP uses independent data sources to analyze the wages across the state. PA uses a single statewide rate for each fee schedule service.

*The Department will refresh the data to establish fee schedule rates at least every 3 years.

*ODP established a variance process for participants who need enhanced levels of staffing (staff to participant ratio of 2:1 or staffing by a person who has a certification or bachelor's degree). When a participant has a need for enhanced levels of staffing, the SC will complete a variance form describing why a participant needs this level of service. The completed variance form will be submitted to the AE for review and approval.

*Rates for the following services, including teleservices and components of a service, are on the MA fee schedule: Behavioral Support; Therapy (Physical; Occupational; Speech/Language and Visual/Mobility); Shift Nursing; Companion; Supports Broker; In-Home and Community Support; Supported Employment; Respite (excluding respite

camp); Life Sharing; Supported Living; Unlicensed Residential Habilitation; Small Group Employment;

Homemaker/Chore; Advanced Supported Employment; Community Participation Support; Music, Art and Equine Assisted Therapy; Benefits Counseling; Communication Specialist; Consultative Nutritional Services; Family Medical Support Assistance; Housing Transition & Tenancy services; Family/Caregiver Training & Support (excluding training registration & fees); and Supports Coordination. The rate for the on-call and remote support component of Community Participation Support follows the fee schedule rate setting methodology described in this section. The assumptions used to develop the fading support fee schedule rate included a 1:15 staff to participant ratio and a 0% absentee factor.

*Each year additional services are considered for the fee schedule. The waiver will be amended prospectively when additional services are added to the fee schedule contingent upon approval from CMS.

*Changes and addition of services to the fee schedule are communicated through a notice published in the Pennsylvania Bulletin prior to the effective date of any change or addition. Fee schedule rates are implemented prospectively.

*ODP completed studies of the costs associated with the provision of waiver services and the assumptions used to make the rate determinations in 2021 which resulted in changes to most rates effective January 1, 2022. The next study will be completed in compliance with applicable state regulations no later than 2024.

2. Cost-Based: The cost-based rates are developed in accordance with Department standards in 55 Pa. Code Chapter

6100, as follows:

*Cost and utilization data is collected using a standardized cost report as prepared and submitted by providers of service. Cost reports undergo a desk review in which the reported data is analyzed by ODP or its designee for completeness and accuracy based on cost report instructions and standardized review procedures.

*Cost report data is adjusted to reflect changes in the service definitions, if necessary, to account for differences in service definitions between the historical reporting period & the period in which the rates will be in effect.

* Providers that do not submit a cost report, do not submit a cost report that is approved by ODP, or fail to submit an audit are assigned rates by ODP. New providers or current providers who offer new services (defined as providers that enroll & qualify to provide a new service after the cost report process is complete for that period & have no cost history) will also be assigned a rate by ODP. ODP assigns rates in the following manner:

-A provider is assigned the provider's cost-based rates for an existing service at a new service location if the provider has an approved cost-based rate at another service location. A provider shall be assigned the state-set rates for new services if:

(1) The cost report did not contain the new service because the service was not delivered during the reporting period.(2) A provider is a new provider who was not delivering services during the reporting period of the cost report.

*For providers whose cost reports are approved, the cost report data is reviewed undergo a review conducted by ODP or their designee. The review includes identifying outliers using a standardized set of criteria for all services with sufficient data points. For outliers, ODP conducts analysis to determine whether adjustments are needed to address variation among providers' unit costs.

*Since the cost report data is from a historical time period, a Cost of Living Adjustment(COLA) is applied as appropriated by the General Assembly.

*Prior to the effective date of the rates, the methodology for calculating rates, including a description of the outlier review and rate assignment processes are communicated to the provider in the rate notice and in a public notice published in the Pennsylvania Bulletin. Cost report rates are implemented prospectively.

*The provider rate notice includes information on the process to contact ODP on questions and concerns related to the rate notice. Providers have the right to appeal as outlined in 55 Pa. Code Chapter 41. The appeal language is included in the rate notice.

*Providers meeting the criteria for audit submission outlined in I-2 are required to submit their Audited Financial Statements to ODP for review. ODP may require resubmission of the cost report if there are material differences between the independent audit & the approved cost report filed by the provider. ODP may also conduct additional audits of providers' costs reports. ODP may recalculate rates for providers who have material differences between their approved & resubmitted cost reports.

*ODP has a process in place to allow for additional staffing costs above what is included in the approved cost report rate if there is a new participant entering the program that has above average staffing needs.

Transportation providers are both private and local government agency providers. Transportation (per trip) is the only service that utilizes the cost-based methodology.

3. Payment for vendor goods and services:

*ODP reimburses vendor goods and services based on the cost charged to the general public for the good or services. Services reimbursed under vendor goods and services are: Home and Vehicle Accessibility Adaptations, Assistive Technology, Specialized Supplies, Remote Supports, Specialty Telehealth and Assessment Team, Education Support, Public Transportation, Family/Caregiver Training and Support-registration and fees, Participant Directed Goods and Services, and Respite Camp.

*Vendor goods and services must be the most cost-effective to meet the participant's need(s) using a system of competitive bidding or written estimates or the market price of comparable goods or services available in the provider's region. To ensure cost-effectiveness & compliance with the service definition, the SC and service plan team review the bids prior to putting the vendor good or service onto the service plan. The AE also reviews the bids prior to authorizing and approving the service plan. Finally, ODP's QA&I process monitors vendor goods and services to ensure that bids are competitive and cost-efficient.

*Transportation Mileage is reimbursed at the established rate for Department employees for business travel.

4. Participant-directed service (PDS) rates: Rates for PDS are established through the development of standard wage ranges (which apply to both Vendor Fiscal/Employer Agent [VF/EA] and Agency with Choice [AWC] models) and a fee

schedule (AWC model).

*ODP establishes the VF/EA wage ranges by evaluating various data sources, such as a PA-specific compensation study.

*ODP establishes wage ranges and fee schedule for AWC rates.

*The Department will refresh the data to establish PDS rates at least every 3 years.

*Rates for the following services or components of a service are developed consistent with the participant-directed methodologies described above: Homemaker/Chore, Supports Broker, Companion, Supported Employment, In-Home and Community Support and Unlicensed Respite. If the participant chooses to self-direct some or all of these needed services, the participant will utilize the current VF/EA or AWC wage range communication issued by ODP. If the participant chooses not to self-direct any of these services, the MA Fee Schedule rate will be utilized.

The VF/EA and AWC wage ranges are issued by ODP prior to any changes in wage ranges in a standard ODP communication. In addition, changes to the AWC MA fee schedule rates are communicated prior to implementation through a notice published in the Pennsylvania Bulletin. Wage ranges and fee schedule rates, when applicable, are implemented prospectively.

Claims are processed through PROMISe which is administered by the Office of Medical Assistance Programs and the Department's Bureau of Information Systems. Claims and payments are monitored by ODP and AEs through the use of PROMISe and HCSIS generated reports.

In the future, ODP may use a variety of mechanisms to obtain public comment on rate determination methodologies, including, but not limited to stakeholder workgroup discussions, draft documents distributed for public comment, communications and public meetings.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

All waiver providers, including cost based and fee schedule providers, vendors, FMS providers and Organized Health Care Delivery System (OHCDS) providers that sign a provider agreement or contract with ODP bill through the PROMISe system and are paid by the state Treasury. For participant-directed services, timesheets are submitted to the FMS organization for qualified support service professionals. The FMS is then responsible for billing these services through the PROMISe system. For vendor services provided through participant direction or an OHCDS provider, the invoice is submitted to the FMS organization or OHCDS provider. The FMS organization or OHCDS provider is responsible for billing the vendor service through the PROMISe system.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

No. state or local government agencies do not certify expenditures for waiver services.

Yes. state or local government agencies directly expend funds for part or all of the cost of waiver services and certify their state government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the state government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with

42 CFR §433.51(b).(Indicate source of revenue for CPEs in Item I-4-a.)

Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the state verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR \$433.51(b). (Indicate source of revenue for CPEs in Item I-4-b.)

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. Billing Validation Process. Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant's approved service plan; and, (c) the services were provided:

Provider billings are verified through PROMISe. PROMISe includes edits to determine if the participant is eligible for Medicaid payment on the date of service and ensure that the service was part of the participant's plan. The service is approved for payment by PROMISe only if the service is authorized and there are sufficient units available on the participant's support plan. Validation that the service has been provided occurs through the audit process at the end of the year.

e. Billing and Claims Record Maintenance Requirement. Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. Method of payments -- MMIS (select one):

Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).

Payments for some, but not all, waiver services are made through an approved MMIS.

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through

which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly capitated payment per eligible enrollee through an approved MMIS.

Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.

The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.

The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

Providers are paid by a managed care entity or entities for services that are included in the state's contract with the entity.

Specify how providers are paid for the services (if any) not included in the state's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to states for expenditures for services under an approved state plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

No. The state does not make supplemental or enhanced payments for waiver services.

Yes. The state makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the state to CMS. Upon request, the state will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Application for 1915(c) HCBS Waiver: PA.1486.R01.03 - May 01, 2024

Supplemental Payments for Recovery & Service Expansion

The below listed one-time supplemental payments will be made available for HCBS providers to support service recovery and expansion. Supplemental payments will be made as one-time payments to providers no later than 3/31/2025.

Community Participation Support (CPS) Recovery Payments The following tiered supplemental payments will be effective after Appendix K expires on 11/11/23 based on provider recovery or expansion status as of June 2023 related to the provision of CPS:

• Providers exceeding pre-pandemic service capacity* are eligible for payments of \$2,500 per individual receiving CPS.

• Providers achieving 75-100% of pre-pandemic capacity are eligible for payments of \$1,500 per individual receiving CPS.

• Providers achieving 50-75% of pre-pandemic capacity are eligible for payments of \$1,000 per individual receiving CPS.

• Providers achieving under 50% of pre-pandemic capacity are eligible for payments of \$500 per individual receiving CPS.

ODPs expected maximum amount represents a percentage of the aggregated and is 10% for CPS. Individual payment amounts were determined by projecting the number of consumers expected to fall in the various incentive categories.

Provider recovery or expansion status is determined by comparing the provider's pre-pandemic number of program participants (discrete participants in service during FY 2019/2020 with the number of participants in service during FY 2022/2023.

Employment Services Recovery Payments

Providers exceeding pre-pandemic service capacity are eligible for payments of \$2,000 per individual receiving supported employment, benefits counseling, small group employment services.

ODPs expected maximum amount represents a percentage of the aggregated and is 30% for Employment Services. Individual payment amounts were determined by projecting the number of consumers expected to fall in the various incentive categories.

Program expansion status is determined by comparing the provider's pre-pandemic discrete number of participants in employment services during FY 2019/2020 with discrete number of participants in employment services during FY 2022/2023.

Supports Coordination Recovery Payments

SCOs that increase number of individuals served between 1/1/2023-6/30/2023 are eligible for one-time payments of \$7,500 for each accepted referral of an individual with a new Targeted Services Management, or 1915(c) HCBS eligibility determination within the past 6 months.

ODPs expected maximum amount represents a percentage of the aggregated and is 10% for SC services. Individual payment amounts were determined by projecting the number of consumers expected to fall in the various incentive categories.

Program expansion status is determined by reviewing the number of participants served in December 2022 and comparing to participants served between 1/1/23 and 6/30/23.

METHODOLOGY

The methodology used for arriving at these proposed supplemental payments involved an analysis of utilization of the specific services pre-pandemic, trending of utilization throughout the pandemic, growth in enrolled individuals and projected utilization post-pandemic. The expected number of individuals utilizing the services was projected forward and payment amounts were determined specific to the services and available funding. * Capacity is measured by number of Consolidated, P/FDS or Community Living 1915(c) HCBS participants, point in time.

Supplemental Payments for Technology that Enhances the Provision of Waiver Services

a. Providers of direct waiver services can receive a one-time supplemental payment for technology related activities that strengthen & enhance waiver services.

This initiative is designed to enhance waiver services by:

• Replacing staff functions with the use of technology, allowing staff time to be directed to other care activities.

• Providing participants greater independence & choice using technology

• Improving quality of care through implementation of solutions like electronic health records & integrated data solutions.

b. SCOs can receive a one-time supplemental payment for technology related activities that enhance HCBS by:

• Improving capacity to conduct remote monitoring of participants

• Improving efficiency of SCs, including maximizing time in the field

• Obtaining or enhancing secure inter-office communications

• Implementing technology dependent quality improvement strategies.

Providers of direct waiver services and SCOs enrolled with ODP as of 3/1/22 are eligible to receive a one-time supplemental payment of up to \$20,000.

Providers must utilize the supplemental payments by 10/31/24.

ODP reviewed all submissions & notified providers of approval of the project & amount. Providers implement project plans & upon receipt of supporting documentation of expenses will be reimbursed for eligible expenses up to the approved amount.

More information can be found in the Additional Information section of the main module.

Appendix I: Financial Accountability

I-3: Payment (4 of 7)

d. Payments to state or Local Government Providers. Specify whether state or local government providers receive payment for the provision of waiver services.

No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e. Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of state or local government providers that receive payment for waiver services and the services that the state or local government providers furnish:

Supports Coordination Organizations are either private businesses or businesses run by a county that may receive payment for waiver funded supports coordination services. The provider qualification requirements for Supports Coordination Organizations states that the organization must function as a conflict free entity. A conflict-free Supports Coordination Organization, for purposes of providing supports coordination, is an independent, separate, or self-contained agency that does not have a fiduciary relationship with an agency providing direct services and is not part of a larger corporation. To be conflict free, a Supports Coordination Organization may not provide direct services to participants. The Supports Coordination Organization may also not provide indirect services to participants except that Supports Coordination Organizations may function as an Organized Health Care Delivery System for vendor goods and services. A participant's Supports Coordination Organization may not own or operate providers of vendor goods and services with which it is acting as an Organized Health Care Delivery System.

ODP makes payments for supports coordination services based on rates established by the process outlined in Appendix I-2-a Rate Determination Methods, at which time reasonable costs are taken into consideration. Further, ODP's fiscal regulations describe allowable costs and specifically state that the "cost components reflect reasonable and necessary costs related to the delivery of each HCBS" (55 Pa. Code 6100.571).

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the state recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

The amount paid to state or local government providers is the same as the amount paid to private providers of the same service.

The amount paid to state or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.

The amount paid to state or local government providers differs from the amount paid to private providers of the same service. When a state or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the state recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

Providers receive and retain 100 percent of the amount claimed to CMS for waiver services. Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the state.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

No. The state does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.

Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

No. The state does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.

Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

To render vendor goods and services to participants, providers have three options: 1) they may choose to enroll directly with ODP; 2) they may choose to subcontract with an OHCDS for participants who do not self-direct the service(s); or 3) they may be qualified and receive payment through a FMS organization for participants who self-direct their services. Providers are not mandated to render vendor services through an OHCDS.

OHCDS providers must meet the following criteria: • Enroll in PROMISe as a provider of Community Living Waiver services;

• Render at least one direct waiver service;

• Enter the direct waiver service(s) along with the vendor service(s) they will offer as an OHCDS in HCSIS;

• Successfully complete the Provider Qualifications module in HCSIS for the direct waiver service(s) as well as the vendor service(s) they provide and ensure the requirements of Appendix C, including provider qualification standards, are met;

• Enter into a Provider Agreement for Participation in Pennsylvania's Community Living Waiver with ODP;

• Submit a bill through PROMISe for either the amount of the vendor good or service that is charged to the general public. See the last paragraph of this section for additional requirements related to payment for vendor services;

• Cooperate with the Quality Assessment and Improvement (QA&I) process conducted by ODP or one of its designees, and ensure the subcontracted vendor cooperates with such monitoring when needed or requested;

• Cooperate with other monitoring activities, such as Supports Coordination monitoring, and ensure the vendor cooperates with such monitoring;

• Comply with regulatory requirements in 55 Pa. Code Chapter 6100; and

• Maintain documentation on service delivery.

Providers that choose to enroll directly with ODP and not deliver a service through an OHCDS must meet the following criteria:

• Enroll in PROMISe as a provider of Community Living Waiver services;

• Enter the vendor service(s) they will offer in HCSIS;

• Successfully complete the Provider Qualifications module in HCSIS for the vendor service(s) they provide and ensure the requirements of Appendix C, including provider qualification standards, are met;

• Enter into a Provider Agreement for Participation in Pennsylvania's Community Living Waiver with ODP;

• Submit a bill through PROMISe for the amount of the vendor good or service that is charged to the general public;

• Cooperate with QA&I process conducted by ODP or one of its designees;

• Cooperate with other monitoring activities, such as when Supports Coordinators conduct monitoring visits with participants; and

• Maintain documentation on service delivery.

Participants are provided with information on willing and qualified providers, as outlined in Appendix D-1-f. This information includes the providers identified in the ODP Services and Support Directory (SSD) for services needed by the participant. The SSD includes both providers that function as an OHCDS and those that are directly enrolled to provide vendor service(s). The participant is free to choose among the willing and qualified providers, including OHCDS and vendors directly enrolled to provide services. The SSD does not differentiate between providers functioning as an OHCDS and those that do not.

The OHCDS is responsible to ensure that all subcontracted entities that will render the vendor service(s) meet the qualification criteria specified for the service.

Administrative Entities (AEs) are required to complete monitoring of all Waiver providers in accordance with this Waiver and as per ODP policies and procedures. The monitoring is required to be conducted to ensure ongoing compliance with the providers outlined in the current ODP/Provider Agreement, applicable licensing requirements, and written policies and procedures. The monitoring must include a review of compliance with applicable provider qualification standards for all services for which the provider is enrolled and qualified to render.

The AE Operating Agreement requires AEs, as part of provider monitoring, to review OHCDS contracts with vendors to ensure they meet applicable state and federal requirements.

The cost of the vendor good or service must be the same cost charged to the general (or self-paying) public. The cost of the good must be verified by the AE. Prior to authorizing the service, the AE will verify that the cost of the vendor rate for goods or services does not exceed the rate charged to the general public.

iii. Contracts with MCOs, PIHPs or PAHPs.

The state does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.

The state contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of \$1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.

This waiver is a part of a concurrent ?1115/?1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The ?1115 waiver specifies the types of health plans that are used and how payments to these plans are made.

If the state uses more than one of the above contract authorities for the delivery of waiver services, please select this option.

In the textbox below, indicate the contract authorities. In addition, if the state contracts with MCOs, PIHPs, or PAHPs under the provisions of §1915(a)(1) of the Act to furnish waiver services: Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the state Medicaid agency. Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the state source or sources of the non-federal share of computable waiver costs. Select at least one:

Appropriation of State Tax Revenues to the State Medicaid agency

Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the state entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by state agencies as CPEs, as indicated in Item I-2c:

Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by state agencies as CPEs, as indicated in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

Not Applicable. There are no local government level sources of funds utilized as the non-federal share.

Applicable

Check each that applies:

Appropriation of Local Government Revenues.

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the state Medicaid agency or fiscal agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

None of the specified sources of funds contribute to the non-federal share of computable waiver costs

The following source(s) are used Check each that applies:

> Health care-related taxes or fees Provider-related donations Federal funds

For each source of funds indicated above, describe the source of the funds in detail:

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

a. Services Furnished in Residential Settings. Select one:

No services under this waiver are furnished in residential settings other than the private residence of the individual.

As specified in Appendix C, the state furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the state uses to exclude Medicaid payment for room and board in residential settings:

When Respite is provided in an unlicensed residential setting, room and board is excluded from the Medicaid payment to the provider.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

No. The state does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.

Yes. Per 42 CFR §441.310(a)(2)(ii), the state will claim FFP for the additional costs of rent and food that can 03/19/2024 be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The state describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver's home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the state imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

No. The state does not impose a co-payment or similar charge upon participants for waiver services. Yes. The state imposes a co-payment or similar charge upon participants for one or more waiver services.

i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (*if any are checked, complete Items I-7-a-ii through I-7-a-iv*):

Nominal deductible Coinsurance Co-Payment Other charge Specify:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the state imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

No. The state does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.

Yes. The state imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: ICF/IID

5	35587.00	17425.00	53012.00	226106.00	8346.00	234452.00	181440.00

a. Number Of Unduplicated Participants Served. Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participants by Level of Care (if applicable) Level of Care:		
Year 1	6000	ICF/IID 6000		
Year 2	7450	7450		
Year 3	7450	7450		
Year 4	7450	7450		
Year 5	7450	7450		

Table: J-2-a:	Unduplicated	Participants

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

b. Average Length of Stay. Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The Office of Developmental Programs (ODP) based the average length of stay (ALOS) on historical enrollment information, utilization and user counts. Based upon recent trends, ODP found that the ALOS does not vary significantly from year to year, even with the change in participants with newly enrolled individuals. Therefore, the estimated 332 days is consistent with historical experience and not expected to change in the projection years.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

- *c. Derivation of Estimates for Each Factor.* Provide a narrative description for the derivation of the estimates of the following factors.
 - *i. Factor D Derivation.* The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:

Factor D is based on FY 2021-2022 rates, FY 2020-2021 user counts, unit utilization from the 372 report, and cost estimates for rate revisions effective January 1, 2022. For the expenditures in Years 2, 3, 4, and 5, ODP assumes all areas remain unchanged and will update via amendment upon annual budget legislation.

Though historical experience would suggest rising rates and utilization per user, ODP anticipates that efforts to continue enhancing the plan development, service definition changes and authorization practices across the Commonwealth will have a stabilizing impact on overall expenditures.

The estimated units per user and estimated cost per used for the Supports Coordination waiver service for all five years was updated to reflect the current approved rate and the current utilization (average units) per user.

The estimated cost for the added waiver service "Specialty Telehealth and Assessment Team" was derived from estimating approximately 431 users per month at \$480.00 per user.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D' for Year 1 is based on the cost used for completion of the 372 Report (01/01/20 to 12/31/20). It represents the average per participant non-waiver state plan service costs for Report Period Year 2020.

Pennsylvania's legislature approves funding on an annual basis. ODP develops a budget request on an annual basis and operates within the approved budget. The Factor D' estimates will be updated via amendment as funding is approved.

iii. Factor G Derivation. The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G for Year 1 is based on the cost used for completion of the 372 Report (01/01/20 to 12/31/20). It represents the ICF/ID and state center expenditures and users.

Pennsylvania's legislature approves funding on an annual basis. ODP develops a budget request on an annual basis and operates within the approved budget. The Factor G estimates will be updated via amendment as funding is approved.

The number of individuals in Intermediate Care Facilities continues to decrease each year, however, the costs to serve those individuals that remain in these facilities do not decline with the census. This is due to the fact that 1) many of the costs are fixed regardless of the census in the facility; 2) the individuals in the facilities are aging and require increased care; and 3) the few individuals who are admitted each year have higher acuity levels and need intensive staffing.

iv. Factor G' Derivation. The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G' Year 1 is based on the cost used for completion of the 372 Report (01/01/20 to 12/31/20). It represents the average cost per recipient for non-institutional state plan services provided to individuals in the ICF/ID program and state centers.

Pennsylvania's legislature approves funding on an annual basis. ODP develops a budget request on an annual basis and operates within the approved budget. The Factor G' estimates will be updated via amendment as funding is approved.
