*This chart contains CHC, OBRA, Act150, LIFE, and FFS LTC program participants.
The percentage for D-SNP enrollments dropped slightly in December. This is likely due to a data system issue which is further explained with the D-SNP chart on the following page.

D-SNP Enrollments by Plan

D-SNP participants have increased 14.5% since December 2020. The decrease in D-SNP enrollment for December is likely a data anomaly related to timing issues of when OLTL sends enrollment to CMS and when CMS sends D-SNP enrollment back, potentially due to open enrollment in Q4 2020. A mismatch between CMS and OLTL’s IT systems would not count as a D-SNP enrollment for a particular plan. This will continue to be footnoted on future data briefs.
