The Medical Assistance Program - known as MA - helps meet the medical costs of individuals in need of payment of Long Term Care (LTC) services. Generally, an individual must use most of his own resources and income before Medical Assistance will help pay for LTC services. There are, however, special rules (sometimes called the Spousal Impoverishment Provisions) which recognize the importance of *protecting* a portion of a married couple's total resources and evaluating the income needs of the spouse who remains in the community.

The purpose of this Resource Assessment Form is to determine how much of a married couple's total resources may be protected or set aside for the community spouse, and how much, if any, must be spent before the individual in the nursing facility or assessed eligible for HCBS may be eligible for Medical Assistance benefits. Completing this form will help you to protect the maximum amount of your resources under the law.

The Resource Assessment is not an application for Medical Assistance, and you are not obligated to apply for Medical Assistance. If you need help in completing this form, your spouse, family member, friend, attorney, or legal services agency can help you. If you or your spouse are over 60 years of age, your local Area Agency on Aging also can help you. If you need Medical Assistance now, contact your county assistance office or your local Area Agency on Aging **BEFORE** you fill out this form.

A community spouse may keep a minimum amount of resources, or one-half of the couple's combined countable resources, up to a maximum amount. Some resources do *not* affect the determination of the protected amount. In order to make the determination as to which resources do and do not count and the protected amount, it is very important that you list *all* resources regardless of whether they are wholly owned by one person (e.g., an IRA owned by the community spouse), are owned by both spouses, or owned with others. The information on this form should reflect the value of the resources as of the DATE OF ADMISSION to the nursing facility, or the DATE OF ASSESSMENT for HCBS, NOT the date you fill out this form.

Photocopies *verifying* all resources **MUST** be sent with this form. Do *not* send original documents as they will NOT be returned to you. *An assessment cannot be completed unless all resources are verified and the verification is submitted with the Resource Assessment Form.*

Please read and complete this form carefully. Do NOT complete shaded areas. Sign the form and review the checklist to be certain you have provided all necessary verification. You, your spouse, and if applicable, your legal representative, will be notified in writing of the amount of resources that can be set aside and the amount, if any, that must be spent before you apply for Medical Assistance.

Mail (or deliver) the completed form and verification to the county assistance office in the county where the nursing facility is located, or you are receiving HCBS. The LTC Service Provider can provide you with the address, or check the telephone book.
