Subject: Provider Revalidation Reinstated June 1, 2021

Effective June 1, 2021, the Department has reinstated provider revalidation requirements as applicable prior to the PHE. For more information see MA Bulletin 99-21-01. Failure to complete the revalidation application by the revalidation due date specified in the revalidation notices will result in closure of the provider service locations in PROMISe™. Once a closure occurs, you must complete a reactivation application to be reenrolled. Please be sure that your mail to and email address is correct on your provider file. You may view your revalidation date and address information through ePEAP.
