MEDICAL ASSISTANCE
BULLETIN

ISSUE DATE  May 18, 2021
EFFECTIVE DATE  November 2, 2020
NUMBER  01-20-10, 08-20-13, 09-20-09, 28-20-02, 31-20-10, 33-20-06

SUBJECT  Addition of COVID-19 Antigen Laboratory Test Codes to the MA Program Fee Schedule

BY  Sally A. Kozak, Deputy Secretary
Office of Medical Assistance Programs

IMPORTANT REMINDER: All providers must revalidate the Medical Assistance (MA) enrollment of each service location every 5 years. Providers should log into PROMISe to check the revalidation dates of each service location and submit revalidation applications at least 60 days prior to the revalidation dates. Enrollment (revalidation) applications may be found at: https://www.dhs.pa.gov/providers/Providers/Pages/PROMISe-Enrollment.aspx.

PURPOSE:

The purpose of this Medical Assistance (MA) Bulletin is to inform providers that the Department of Human Services (Department) has added two Coronavirus (COVID-19) antigen laboratory test codes to the MA Program Fee Schedule effective with dates of service on and after November 2, 2020.

SCOPE:

This bulletin applies to Hospital Based Medical Clinics/Emergency Rooms, Independent Medical/Surgical Clinics, Certified Registered Nurse Practitioners, Independent Laboratories, Physicians, and Certified Nurse Midwives enrolled in the MA Program that provide services to MA beneficiaries, in the fee-for-service delivery system. Providers rendering services in the managed care delivery system should address any coding or billing questions to the appropriate MA managed care organization.

BACKGROUND/DISCUSSION:

On May 9, 2020, the U.S. Food and Drug Administration (FDA) announced the first emergency use authorization (EUA) for a COVID-19 rapid antigen test, a new category of tests for the use in the ongoing COVID-19 public health emergency. These tests are authorized for use in various laboratory settings certified under the Clinical Laboratory Improvement Amendments of 1988 (CLIA), 42 U.S.C. §263a, that meet the requirements to perform high, moderate, or waived complexity tests. Antigen tests were developed for use at the Point of

Care, i.e., in patient care settings operating under a CLIA Certificate of Waiver, Certificate of Compliance, or Certificate of Accreditation.

On June 26, 2020, the American Medical Association (AMA) announced the establishment of a new Current Procedural Terminology (CPT) code intended for use as the industry standard for accurate reporting and tracking of antigen tests for the biomolecules produced by the COVID-19 virus. The Department added the laboratory test code to the MA Program Fee Schedule, effective with dates of services on and after November 2, 2020 as follows:

- CPT code 87426, defined as “Infectious agent antigen detection by immunoassay technique, (e.g., enzyme immunoassay [EIA], enzyme-linked immunosorbent assay [ELISA], fluorescence immunoassay [FIA], immunochemiluminometric assay [IMCA]) qualitative or semiquantitative; severe acute respiratory syndrome coronavirus (e.g., SARS-CoV, SARS-CoV-2 [COVID-19])”

On October 7, 2020, the AMA announced the approval of a new CPT code to efficiently report and track testing services related to COVID-19. The Department added the following laboratory test code to the MA Program Fee Schedule, effective with dates of services on and after November 2, 2020.

- CPT code 87811, defined as “Infectious agent antigen detection by immunoassay with direct optical (ie, visual) observation; severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19])”

The Centers for Disease Control and Prevention also provided interim guidance on rapid antigen testing for COVID-19: [here](#).

**PROCEDURE:**

The Department added the two COVID-19 antigen laboratory test codes to the MA Program Fee Schedule as follows:
<table>
<thead>
