INTRODUCTION

In 1981, Title XX of the Social Security Act was amended to establish the Social Services Block Grant (SSBG). States are allocated funds through the SSBG for the provision of social services to children and adults that are aimed at one or more of the federal statutory goals. The Department of Human Services (the Department) is designated as the state agency responsible for administering the SSBG in Pennsylvania. Social services are funded through the following offices in the Department: Office of Child Development and Early Learning; Office of Children, Youth and Families; Office of Mental Health and Substance Abuse Services; Office of Developmental Programs; Office of Income Maintenance; and the Office of Policy Development. The planning process is based on program office information and justification of prior program activities. The Department does not use a needs assessment in distributing SSBG funds. Described below are the services Pennsylvania proposes to deliver and the federal goals to which they are directed.

FEDERAL GOALS/PENNSYLVANIA SERVICES

States must provide services that are consistent with one or more of the five federal goals:

1. Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency.
2. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency.
3. Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating, or reuniting families.
4. Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care.
5. Securing referral or admission for institutional care when other forms of care are not appropriate or providing services to individuals in institutions.

FISCAL AND REPORTING INFORMATION

States are required to submit an annual Pre-Expenditure Report to the U.S. Department of Health and Human Services on the intended use of SSBG funds. The Pre-Expenditure Report must be developed in a way that facilitates comments by any person, including any federal or public agencies, must be made public, and must include:

- a. the intended use of SSBG funds;
- b. information on the types of activities or services to be supported; and
- c. information on the categories or characteristics of individuals to be served.

This Pre-Expenditure Report represents the period of July 1, 2019 through June 30, 2020 and is posted on the Department's website for ongoing public review and comment. The report is also available in written format upon request to the Department. Comments may be submitted to the Department through the website or through the U.S. Postal Service.

For FFY 2020, Pennsylvania's SSBG programs expect to receive a total of \$92.798 million, which comprises \$61.821 million in SSBG funding and \$30.977 million in TANF transfer funds.

Comprehensive fiscal information for programs and services that receive SSBG funds is included in the Governor's Proposed Fiscal Year 2019-2020 budget. The commonwealth has a single audit completed in compliance with the OMB Uniform Guidance. Information about both can be found at: <http://www.budget.pa.gov/PublicationsAndReports>.
