County Improvement Plan (CIP)

County Name: Wyoming  
Date of Plan: September 11, 2013

Instructions: Please refer to Section XIX of the Quality Service Review Manual for further assistance in developing the County Improvement Plan (CIP).

Section I. Team Members (List the members of the Sponsor Team and members of the Implementation Team(s) and identify co-chairs with an asterisk, if applicable):

Patricia Skrynski, Director  
Howard Heise, CW Supervisor  
Consultation and guidance provided by Gene Caprio, CWRC

Section II. Background and Development of the Desired Future State including Priority Outcomes (Provide a detailed narrative about the process that was implemented during the development of the CIP. Who was involved? What data was reviewed? How did you analyze your data? How were the outcomes determined and prioritized? List and describe the overarching outcomes that were identified. NOTE: Outcomes can be limited to approximately two to four priority areas.)

- **Outcome # 1:**
  To improve the agencies ability to use a team approach to casework practice when working with families. This outcome was chosen because many of the elements from our second QSR that scored in the unacceptable range revolved around the idea of teaming. The unacceptable scores are: Assessment and Understanding for mothers was 50% and for fathers was 60%. Involving the family in the planning process was 50% for mothers and 80% for fathers. Engaging fathers was 80% and role and voice for fathers was 60% unacceptable. Team meetings would allow for the opportunity for all parties to be heard and to gain a better understanding of their strengths and weaknesses and the steps necessary to achieve safe case closure.

- **Outcome # 2:**
  To provide permanency for children in out of home placements within 18 months of removal. This outcome was chosen for the second year. For fiscal year 12-13 we concentrated on providing permanency for children in out of home care by 24 months. To improve on this the agency has shortened the timeframe to 18 months. The results of the June 2013 QSR showed that the efforts to timely permanency was for efforts 40% unacceptable and 60% acceptable and for timeliness was 67% unacceptable and 33% acceptable. The Hornby Zeller data going back to 2008 showed 7 children in care after 24 months with 0.000% permanency. By March 2012 the agency had improved to 6 children in care over 24 months with 5 achieving permanency or 83.33%.
## County Improvement Plan (CIP)

### Section III. Plan Strategies and Action Steps to be Implemented and Monitored

(The purpose of the plan is to remind leadership and work team(s) of commitments made, track accountability, and monitor progress. There are essentially three types of continuous improvement planning – quick wins, which can start being identified and implemented as gaps are being identified, mid-term improvement planning, and longer term improvement planning.)

---

### Outcome # 1: To improve the agencies ability to use a team approach to casework practice when working with families.
