

# Billing for the Administration of COVID-19 (SARS-CoV-2) Vaccines to Fee-for-Service Beneficiaries

## Pharmacy Reference Guide

Updated October 3, 2022

Pharmacies may submit an 837 Professional (837P) claim to the Fee-for-Service (FFS) Medical Assistance (MA) Program for the administration of the COVID-19 vaccine by a pharmacist to a FFS beneficiary using the procedure codes identified in the table below. Claims for the administration of the vaccine to beneficiaries covered by an MA managed care organization (MCO) should be submitted directly to the beneficiary's MCO.

The billing and rendering provider for the administration fee claim should be the MA-enrolled pharmacy's national provider identifier (NPI). An MA-enrolled prescriber's or pharmacist's NPI should be submitted in the ordering/referring provider field.
