

## Modified Stage 2 and Stage 3 Comparison Tool

Modified Stage 2 Meaningful Use	2018	Stage 3	2019 and Beyond
<b><u>Objective 1: Protect Electronic Health Information</u></b>	Security Risk Analysis Annual Risk Assessment	<p style="text-align: center;"><b><u>Objective 1: Protect Electronic Health Information</u></b></p> <p><b>Measure 1:</b> Conduct or review a security risk analysis in accordance with the requirements under 45 CFR 164.308(a)(1), including addressing the security (including encryption) of data created or maintained by CEHRT in accordance with requirements under 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), implement security updates as necessary, and correct identified security deficiencies as part of the provider's risk management process.</p>	Security Risk Analysis Annual Risk Assessment
<b><u>Objective 2: Clinical Decision Support</u></b> <i>* Changes to Objective 3 in Stage 3</i>	5 CDS & 1 Screenshot of Drug-Drug	<p style="text-align: center;"><b><u>Objective 2: Electronic Prescribing</u></b></p> <p><b>Measure 1:</b> More than 60 percent of all permissible prescriptions written by the eligible professional (EP) are queried for a drug formulary and transmitted electronically using certified electronic health record technology (CEHRT).</p>	<b>&gt;60%</b>
<b><u>Objective 3: Computerized Provider Order Entry (CPOE)</u></b> <i>*Changes to Objective 4 in Stage 3</i>		<b><u>Objective 3: Clinical Decision Support</u></b>	
CPOE of Medication Orders	>60%	<p><b>Measure 1:</b> Implement 5 CDS interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period.</p> <p><b>Measure 2:</b> Enable and implement the functionality for drug-drug and drug-drug allergy interaction checks for the entire EHR reporting period.</p>	5 CDS
CPOE of Laboratory Orders <i>*Increase in threshold for Stage 3</i>	>30%		Drug-Drug and drug allergy interaction alerts are separate from the five CDS interventions and do not count toward the five required for Measure 1.
CPOE of Radiology Orders <i>*Increase in threshold for Stage 3</i>	>30%		
<b><u>Objective 4: Electronic Prescribing (eRX)</u></b> <i>*Changes to Objective 2 in Stage 3, threshold also increases</i>		<b><u>Objective 4: Computerized Provider Order Entry (CPOE)</u></b>	
<b>Measure 1:</b> More than 50 percent of all permissible prescriptions written by the eligible professional (EP) are queried for a drug formulary and transmitted electronically using certified electronic health record technology (CEHRT).	>50%	CPOE of Medication Orders	<b>&gt;60%</b>
		CPOE of Laboratory Orders	<b>&gt;60%</b>
		CPOE of Radiology Orders	<b>&gt;60%</b>

## Modified Stage 2 and Stage 3 Comparison Tool

Modified Stage 2 Meaningful Use	2018	Stage 3	2019 and Beyond
<b><u>Objective 5: Health Information Exchange</u></b> <small>*Changes to Objective 7 in Stage 3, threshold also increases.</small>		<b><u>Objective 5: Patient Electronic Access to Health Information</u></b>	
Electronic Transition of Care	>10%	<b>Measure 1:</b> For for than 80 percent of all unique patients seen by the EP: (1) The patient (or the patient authorized representative) is provided timely access to view online, download, and transmit his or her health information; and (2) The provider ensures the patient's health information is available for the patient (or the patient's authorized representative) to access using any application of their choice that is configured to meet the technical specifications of the API in the provider's CEHRT.	>80%
		<b>Measure 2:</b> The EP must use clinically relevant information from CEHRT to identify patient-specific educational resources and provide electronic access to those materials to more than 35 percent of unique patients seen by the EP during the EHR reporting period.	>35%
<b><u>Objective 6: Patient Specific Education</u></b> <small>*Changes to Objective 5 in Stage 3, threshold also increases</small>		<b><u>Objective 6: Coordination of Care through Patient Engagement</u></b>	
		<b>EPs must attest to all three measures and must meet the thresholds for at least two measures to meet the objective.</b>	
Patient-specific education resources identified by CEHRT are provided to patients for more than 10 percent of all unique patients with office visits seen by the EP during the EHR reporting period.	>10%	<b>Measure 1:</b> More than 5 percent of all unique patients (or their authorized representatives) seen by the eligible professional (EP) actively engage with the EHR made accessible by the EP and either— (1) View, download, or transmit to a third party their health information; or (2) Access their health information through the use of an Application Programming Interface (API) that can be used by applications chosen by the patient and configured to the API in the EP's CEHRT; or (3) A combination of (1) and (2).	>5%
		<b>Measure 2:</b> For more than 5 percent of all unique patients seen by the EP during the EHR reporting period, a secure message was sent using the electronic messaging function of CEHRT to the patient (or the patient-authorized representative), or in response to a secure message sent by the patient or their authorized representative.	>5%
		<b>Measure 3:</b> Patient generated health data or data from a non-clinical setting is incorporated into the CEHRT for more than 5 percent of all unique patients seen by the EP during the EHR reporting period.	>5%

## Modified Stage 2 and Stage 3 Comparison Tool

Modified Stage 2 Meaningful Use	2018	Stage 3	2019 and Beyond
<b><u>Objective 7: Medication Reconciliation</u></b> <small>*Changes to Objective 7 in Stage 3, threshold also increases</small>		<b><u>Objective 7: Health Information Exchange</u></b>	
The EP performs medication reconciliation for more than 50 percent of transitions of care in which the patient is transitioned into the care of the EP.	>50%	<b>EPs must attest to all three measures and must meet the threshold for at least two measures to meet the objective.</b>	
		<b>Measure 1:</b> For more than 50 percent of transitions of care and referrals, the EP that transitions or refers their patient to another setting of care or provider of care: (1) Creates a summary of care record using CEHRT; and (2) Electronically exchanges the summary of care record	>50%
		<b>Measure 2:</b> For more than 40 percent of transitions of or referrals received and patient encounters in which the EP has never before encountered the patient, he/she incorporates into the patient's EHR an electronic summary of care document.	>40%
		<b>Measure 3:</b> For more than 80 percent of transitions or referrals received and patient encounters in which the EP has never before encounter the patient, he/she performs a clinical information reconciliation. The EP must implement clinical information reconciliation for the following three information sets: (1) Medication. Review of the patient's medication, including the name, dosage, frequency, and route of each medication. (2) Medication allergy. Review of the patient's known medication allergies. (3) Current Problem list. Review of the patient's current and active diagnoses.	>80%
<b><u>Objective 8: Patient Electronic Access</u></b> <small>*Changes to Objective 5 in Stage 3</small>			
<b>Measure 1:</b> More than 50 percent of all unique patients seen by the EP during the PI reporting period are provided timely access to view online, download, and transmit to a third party their health information subject to the EPs discretion to without certain information.	>50%	<b><u>Objective 8: Public Health and Clinical Data Registry Reporting</u></b>	
<b>Measure 2:</b> For the PI reporting periods in 2017 and 2018, more than 5 percent of unique patient seen by the EP during the PI reporting period (or his or her authorized representatives) view, download and transmit to a third party their health information during the PI reporting period.	>5%	<b>Must satisfy two measures</b>	
		<b>Measure 1:</b> Immunization Registry Reporting	Active Engagement
		<b>Measure 2:</b> Syndromic Surveillance Reporting	Active Engagement
		<b>Measure 3:</b> Electronic Case Reporting (eCR)	Active Engagement
		<b>Measure 4:</b> Public Health Registry	Active Engagement
		<b>Measure 5:</b> Clinical Data Registry (CDR)	Active Engagement
<b><u>Objective 9: Secure Messaging</u></b>			
For Promoting Interoperability (PI) reporting period in 2018, for more than 5 percent of unique patients seen by the eligible professional (EP) during the PI reporting period, a secure message was sent using electronic messaging function of CEHRT to the patient (or the patient-authorized representative), or in response to a secure message sent by the patient (or the patient-authorized representative) during the PI reporting period.	>5%		
<b><u>Objective 10: Public Health Reporting</u></b>			
<b>Must satisfy two measures</b>			
Immunization Registry	Active Engagement		
Syndromic Surveillance	Active Engagement		
Specialized Registry	Active Engagement
