Introduction and Overview

The Pennsylvania Department of Human Services (Department) allocates funds received through the federal Social Services Block Grant (SSBG). The SSBG assists states in delivering social services directed toward the needs of children and adults, including:

- 1) Preventing, reducing, or eliminating dependency;
- 2) Achieving or maintaining self-sufficiency;
- 3) Preventing neglect, abuse, or exploitation of children and adults;
- 4) Preventing or reducing inappropriate institutional care; and
- 5) Securing admission or referral for institutional care when other forms of care are not appropriate.

The amount of SSBG funds spent in providing services under the established service categories and the number of individuals who received services paid for in part or in whole with federal funds under the SSBG are provided in Tables 1 and 2. The definitions of child, adult, and family and eligibility information for each of the SSBG service categories are listed below.

Definition of Child, Adult, and Family

The following definitions of child and adult apply to all service categories, except Child Care Services and Residential Treatment Services. The definitions of child and family for Child Care Services and Residential Treatment Services appear below.

 - a parent of the child;

 - a child who is 18 years of age or older but under 22 years of age who is enrolled in a high school, a general education development (GED) program, or a post-secondary program leading to a degree, diploma, or certificate and

who is wholly or partially dependent upon the income of the parent or caretaker or spouse of the parent or caretaker.

Residential Treatment Services

- A child is defined by the Juvenile Act, 42 Pa. C.S.A. § 6302 as:
 - An individual under 18 years of age;
 - An individual up to 21 years of age who committed an act of delinquency before reaching 18 years of age; or
 - An individual who was adjudicated dependent before reaching 18 years of age and who, while engaged in a course of instruction or treatment, requests the court to retain jurisdiction until the course has been completed, but in no event shall a child remain in a course of instruction or treatment past 21 years of age.

Special Considerations – Estimates Used

The following methods were used to estimate the expenditure data and the client data reported in the tables on pages 5 and 6.

9 – Family Planning:

- All but one grantee receiving these funds provided actual expenditure information. For the one grantee who provided estimated expenditure information, the estimates were based on the most recent information available.

21 - Protective Services for Adults:

- The expenditures for Rape Crisis are estimated based on the percentage of clients (adult/child) served during fiscal year 2021-2022.

22 - Protective Services for Children:

- The expenditures for Rape Crisis are estimated based on the percentage of clients (adult/child) served during fiscal year 2021-2022.
- There are some counties that have not yet submitted final reports containing actual expenditure data for Child Welfare Services; therefore, expenditures were estimated using fiscal year 2021-2022 county budget allocations for the counties that have not submitted final reports.

29 - Other Services:

- The actual expenditure data will not be available until after the due date of the fiscal year 2021-2022 SSBG Post-expenditure Report. Additionally, unduplicated recipient counts split between children and adults are not available for Community Mental Health Services. Therefore, estimates for Mental Health and Intellectual Disabilities services were used as follows.
 - Expenditures were estimated based on the fiscal year 2020-2021 actual expenditures.
 - Recipient counts for Mental Health were estimated based on the actual recipient counts from fiscal year 2020-2021 and were assigned to the age category “Adults of Unknown Age.”
