## **EXECUTIVE SUMMARY**

The Commonwealth of Pennsylvania joined 45 other states in November 1998 in a Master Settlement Agreement (MSA) with the tobacco industry, estimated to total \$206 billion over the first 25 years. Pennsylvania's share was estimated to be about \$11 billion between the years 2000 and 2025. Act 2001-77 allocates funds from the MSA for the following health-related initiatives:

- Basic health insurance coverage to currently uninsured adults
- Programs dedicated to senior citizens
  - Expand prescription drug benefits, PACENET/PACE
  - Expand state support for home and community-based services designed to help seniors live independently
- Tobacco cessation and prevention
- Payment to hospitals for Uncompensated Care

This report summarizes Tobacco Settlement Fund payments for the period of July 1, 2009 to June 30, 2010 for three of these areas: uncompensated care for hospitals, home and community based services for older Pennsylvanians, and Medical Assistance for Workers with Disabilities (MAWD).

### Note on Data Limitations

The home and community based services section of this report is based on Medical Assistance claims data available as of October 2010. Under the rules of the Medical Assistance program, providers may bill for services rendered within six months from the date of service which means that all services provided during fiscal year 2009-2010 may not be captured in this report. DPW estimates that the report captures approximately 80 to 90 percent of claims for fiscal year 2009-2010.

This report does not separately breakout the enhanced federal funds specifically attributed to the American Recovery and Reinvestment Act of 2009.

### UNCOMPENSATED CARE FOR HOSPITALS

#### **Purpose and Description**

The Tobacco Settlement Act of 2001 (Act), Chapter 11, established two programs, the Hospital Uncompensated Care (UC) Program and the Hospital Extraordinary Expense (EE) Program, to provide funding to hospitals throughout the Commonwealth. Any hospital wishing to be considered must have in place a plan for providing charity care. Under the UC Program, hospitals that carry a larger burden of caring for those without health insurance or with an inability to pay, receive 85% of the funding. Under the EE Program, 15% of the available funds are used to reimburse hospitals for extraordinary expenses incurred when treating persons without health insurance, such as a high cost trauma patient. Hospitals may participate in the EE Program even if not qualifying for UC reimbursement, although they may receive payment from only one of the two programs. State fiscal year ending 2010 UC payments totaling \$75,256,424.67 were distributed to 94 hospitals and 70 hospitals received EE payments totaling \$13,280,545.52. In total, \$88,536,970.19 has been distributed through these programs for FYE 10, of which \$49,261,970.19 is federal money.

### **Benefit to Commonwealth**

The benefit of this hospital funding is to promote access to care for uninsured patients. The direct beneficiaries are Pennsylvania hospitals that are in the top half for hospitals treating Medical Assistance, Supplemental Security Income/Disabled and uninsured patients. Hospitals that incur occasional high extraordinary expenses treating uninsured cases can also benefit from the program. As these payments will help ensure the financial stability of qualified hospitals, the program also benefits the above-referenced patient populations.

#### **Additional Issues or Concerns**

#### Audit of Tobacco Payments

The Office of the Auditor General (AG) has audited FYE 01 through FYE 08 Tobacco EE payments, and is finalizing the audits for FYE 09 EE payments. The Department and the hospital industry realized from the initial EE payments that there were limitations with the available Pennsylvania Health Care Cost Containment Council (PHC4) data, due to the timing of the hospital data submission. The data submission process disregards changes in claim status, i.e. going from "self-pay" to insurance coverage, which can occur long after the data is submitted to PHC4. The purpose of the AG's review is to determine whether hospitals can substantiate their reported claims and verify that they received no compensation from patients or third party payors such as Medicare, Medicaid or Blue Cross for the claims submitted as extraordinary expense-eligible. In conducting reviews, the AG also permits hospitals to include eligible claims that had not initially been reported. The Department has recouped the overpayments made to 44 hospitals in FYE 07 totaling \$1,931,547.97. Once the overpayments were collected, the 19 hospitals that were underpaid received the balance of settlement money due them totaling \$1,347,189.71. The Department has not begun the reconciliation process for FYE 08 Tobacco EE payments.

In January 2005, PHC4 implemented a new process to validate claims for use in the EE calculations by creating a Web application that allows hospitals to reconcile their self-pay records. This has reduced the number of disallowed claims in the audits the AG completed for the FYE 07 EE payments. In FYE 2010, staff in the Division of Rate Setting, Office of Medical Assistance Programs (OMAP), contacted each hospital that received a Tobacco Extraordinary Expense Program payment in FYE 2009 and requested their cooperation in accessing PHC4's website to verify claims data.

The Auditor General's Office has notified the OMAP by letter dated April 14, 2009, that in addition to reviewing the extraordinary expense payments, they will also begin reviewing the tobacco fund payments made to hospitals based upon the uncompensated care scoring methodology.

#### Disproportionate Share – Upper Limit Issues

As required by the Act, the Department obtained federal matching funds per State Plan Amendment approval on March 24, 2003 (effective July 1, 2002). Section 1923(g) of the Social Security Act, 42 U.S.C. §1396r-4(g), Omnibus Budget Reconciliation Act (OBRA) '93', mandates that no hospital receiving supplemental payments that include federal monies may exceed their hospital-specific Disproportionate Share (DSH) Upper Payment Limit (UPL). The Department followed the DSH UPL review process, implemented in 2002, to resolve issues. Initial review indicated eleven hospitals potentially exceeded their limits with their proposed tobacco payments. Each of the eleven hospitals was provided with a copy of their individual hospital-specific analysis for review. Conference calls were then scheduled with representatives from each hospital to discuss the analysis and allow each hospital to identify any errors in their reporting or additional circumstances in their hospital services that were not reflected on their cost report and would impact the DSH UPL analysis. After final DSH UPL analyses were conducted, three of these hospitals were found to qualify for full payments, one hospital qualified for a partial payment and two hospitals, although under limit, did not qualify for either an uncompensated care or extraordinary expense payment.

#### **Summary**

The totals included in this report are subject to change due to the Auditor General's audit of EE claims and payments. Once the audit is complete, some hospitals will be required to return EE overpayments, while others will receive additional EE funds.

#### **Description of Attachments**

- Attachment 1 A listing of all hospitals eligible for consideration in calculations for a FYE 10 UC or EE tobacco payment.
- Attachment 2 Hospitals qualified to receive UC payments for FYE 10, the affiliation of each hospital, the hospital's UC score, and the amount of UC payment each hospital received.
- Attachment 3 Hospitals qualified to receive EE payments for FYE 10, the affiliation for each hospital, and the amount of EE payment each hospital received.

- Attachment 4 Hospitals receiving either UC or EE payments for FYE 10 are grouped and totaled by affiliation.
- Attachment 5 A summary of hospitals with DSH-UPL issues for FYE 10 and the current status of their analysis.
- Attachment 6 A comparison of state appropriations to expenditures for each fiscal year.
- Attachment 7 An overview of the methodology used to calculate the tobacco payments.

F = The difference of \$2,049,062.73 between the appropriation and the expenditures reflects the on-going DSH-UPL process. This money was redistributed in August 2007.

G = The difference of \$1,167,671.64 between the appropriation and the expenditures reflects the on-going DSH-UPL process. This money was redistributed in February 2008.

H = The difference of \$15,281.28 between the appropriation and the expenditures is due to the recoupment of Bryn Mawr Rehabilitation Hospital's Extraordinary Expense payment. Further review revealed that the hospital had not resolved its DSH-UPL issues and was not entitled to payment.

I = The difference of \$88,874.18 between the appropriation and the expenditures is due to two eligible and qualified hospitals that were unable to receive their extraordinary expense payments due to unresolved UPL issues.

## Attachment 7 Methodology

## UNCOMPENSATED CARE (UC) PAYMENT METHOD

- 1. Determine three-year average score from data for each of the following:
  - a. Percentage of UC to Net Patient Revenue (NPR);
  - b. Percentage of Medical Assistance (MA) inpatient days to total inpatient days;
  - c. Percentage of Supplemental Security Income (SSI) inpatient days to total inpatient days.
- 2. For each hospital, total the three percentages from Step 1 to find the Uncompensated Care Score.
- 3. Each hospital whose Uncompensated Care Score equals or exceeds the median for all hospitals qualifies for payment.
- 4. Each qualifying hospital's Uncompensated Care Score is multiplied by its three-year average total inpatient days.
- 5. Take the result of Step 4 for each hospital and divide it into the grand total for all hospitals to arrive at each hospital's share percentage.
- 6. The allocated money is multiplied by each hospital's share percentage to determine individual hospital payments.
- 7. UC payments are capped at the individual hospital's reported UC amount and the hospital's specific disproportionate share upper payment limit.
- 8. The balance of the pot that remains after applying caps is redistributed to the remaining hospitals.

# EXTRAORDINARY EXPENSE (EE) PAYMENT METHOD

- 1. Utilizes claims data received from the Pennsylvania Health Care Cost Containment Council (PHC4).
- 2. Apply the MA cost-to-charge ratio to individual hospital's reported charges for all claims.
- 3. For each hospital, calculate the average cost per claim by dividing the total costs by the total number of claims.
- 4. For each hospital, select claims from PHC4 data that have a self-pay or no insurance indicator and identify claims where costs exceed 2 times that hospital's average cost per claim to determine qualifying claims totals.
- 5. Take the result of Step 4 for each hospital and divide it into the grand total for all hospitals to arrive at each hospital's share percentage.
- 6. The allocated money is multiplied by each hospital's share percentage to determine individual hospital payments.
- 7. The hospital payment is the lesser of the actual value of the qualifying claims or the amount calculated in Step 6.

# CALCULATIONS OF PAYMENTS PROCESS

1. On an annual basis, an Uncompensated Care Data Validation Package is mailed to every acute care, medical rehabilitation and psychiatric hospital enrolled in the Pennsylvania Medical Assistance Program. This package is comprised of an Attestation of Compliance statement and a Data Verification Form. The attestation statement addresses the requirements of a charity care plan and uniform reporting. Only those hospitals that return a signed attestation statement affirming compliance with the Act are considered in the calculations for both UC and EE. The purpose of sending the Data Verification Forms is to provide hospitals with the data currently on file with the Department and the opportunity to make any corrections to the data. Appropriate documentation is required for any requested changes.

- 2. Payment calculation Once the data was verified by the participating hospitals, UC and EE payments were calculated as outlined above.
- 3. Hospital choice between UC and EE Hospitals qualifying for both UC and EE tobacco payments were given the choice of one payment.
- 4. Reiteration Based on the dually-qualified hospitals' choices, payments were recalculated.
- 5. Payment Payment was made to hospitals qualifying for UC or EE tobacco money.

### EXPANSION OF HOME AND COMMUNITY-BASED SERVICES TO INDIVIDUALS OVER 60 YEARS OF AGE

### Note on Data

The home and community based services section of this report is based on Medical Assistance claims data available as of October 2010. Under the rules of the Medical Assistance program, providers may bill for services rendered within six months from the date of service which means that all services provided during fiscal year 2009-2010 may not be captured in this report. DPW estimates that the report captures approximately 80 to 90 percent of claims for fiscal year 2009-2010. This report does not separately breakout the enhanced federal funds specifically attributed to the American Recovery and Reinvestment Act of 2009.

#### Introduction

Act 77 funding allowed for the expansion of home and community-based services to better serve consumers who want to remain in their home instead of receiving services in an institutional setting. Today, many older persons are living independently in their homes and communities. Throughout the Commonwealth, services are offered that enable individuals to remain in their homes and communities instead of going into institutional facilities. This care allows an older individual to live independently at home for as long as possible.

Act 77 allowed for increased opportunities for community-based services by funding a two-tiered program expansion of home and community based services for older Pennsylvanians. The Act first increased the number of older Pennsylvanians that could be served in the Medical Assistance community based waiver program, commonly called the Aging Waiver. The Waiver has been in existence since 1995 and allows many older Pennsylvanians to receive services in the community. Tobacco Settlement Funding allows more individuals to receive these services.

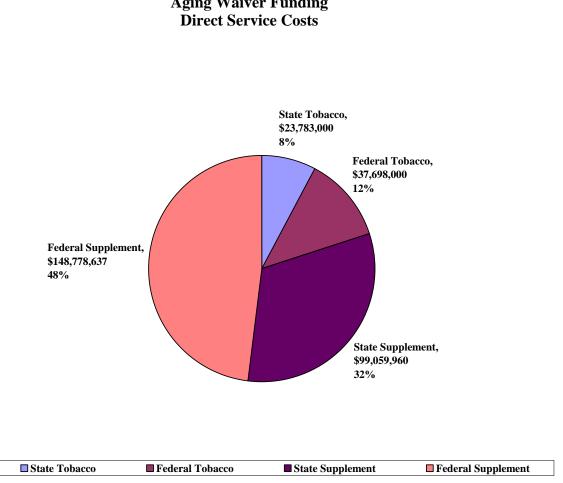

Chart 1 shows the funding sources for Aging Waiver for direct services to individuals. The total amount is \$309,319,597. Federal and State Tobacco Settlement Funds provide \$47,154,021 for the administration of the Aging Waiver Program. The Federal and State Supplement amounts are pre-American Recovery and Reinvestment Act (ARRA) funding. No IGT Federal or State dollars funded the Aging Waiver in FY 09-10.

Chart 2 represents the \$47,154,021 in administrative costs that were expended for the administration, care management, and provider certification of the Aging Waiver funded by the Tobacco Settlement. This includes Tobacco funds and Federal funds earned through the expenditure of Tobacco funds.

Table 1Summary of the Aging Waiver

The Tobacco Settlement funded 4,542 individuals in the expansion of the Aging Waiver during Fiscal Year 2009-2010 and also supported Waiver Administrative and Service costs statewide. This report covers the period of July 1, 2009 through June 30, 2010.

The legislation defined individuals who are enrolled and receiving Aging Waiver services as "funded" because the cost of their Plan of Care is paid in full with Medical Assistance funds. For the purpose of this report, individuals enrolled in the Aging Waiver will be referenced as "funded."

An applicant is defined as a person who is 60 years of age or older and applies for services. Table 2 shows how many persons applied by Planning and Service Area (PSA).

#### PENNSYLVANIA'S MEDICAL ASSISTANCE FOR WORKERS WITH DISABILITIES (MAWD)

#### **Background**

The Ticket to Work and Work Incentives Improvement Act of 1999 (also known as the Ticket to Work) was passed by Congress with the purpose of eliminating barriers to employment faced by people with disabilities (PWDs). The Ticket to Work gives states the option to permit PWDs to work and to buy into Medical Assistance (MA). Pennsylvania exercised this option with the passage of the Tobacco Settlement Act (Act 2001-77 of June 26, 2001 (P.L. 755). On January 1, 2002, Pennsylvania utilized a portion of the funds from the Tobacco Settlement that had been set aside to fund adult health care to begin operation of its Medicaid Buy-In program, known as Medical Assistance for Workers with Disabilities (MAWD). MAWD improves access to health care coverage for working PWDs. Individuals enrolled in MAWD may pay a premium for coverage, based on their countable income, and receive Categorically Needy MA coverage, which offers the full range of services provided under MA eligibility requirements.

The establishment of MAWD created two new MA eligibility groups: Worker with a Disability and Worker with a Medically-Improved Disability.

To be eligible for MAWD as a Worker with a Disability, individuals must meet the following requirements:

- Be at least 16 years of age but less than 65;
- Be disabled according to the Social Security Administration (SSA) or Departmental Review;
- Have monthly income less than 250 percent of Federal Poverty Income Guidelines;
- Have resources less than, or equal to, \$10,000;
- Be employed and receiving compensation (no minimum monthly hours or earnings required).

To be eligible for MAWD as a Worker with a Medically-Improved Disability, individuals must meet the requirements listed above, and these additional requirements:

- Have previously had ongoing coverage under the Worker with a Disability group;
- Have a medically-improved disability that no longer meets SSA criteria;
- Be employed at least 40 hours per month and earning at least minimum wage;
- Meet the same age, resource, and income requirements of the "Worker with a Disability group.

**NOTE:** Enrollment in this program has been extremely low; there have been fewer than ten individuals enrolled per quarter.

All individuals enrolled in MAWD must pay a premium of 5 percent of countable (net) monthly income. The premium is waived when the monthly premium amount is under \$10.

Individuals interested in MAWD may apply through their local county assistance office (CAO) or online via COMPASS, Pennsylvania's online application for social services.

#### **Impact**

Prior to the implementation of MAWD, many PWDs would not enter the workforce because earnings from work would make them ineligible for MA. With the implementation of MAWD, PWDs on MA can now obtain a job and maintain their health care coverage. In addition, working PWDs who lack insurance, or are underinsured, can apply for MAWD and obtain necessary health care coverage.

MAWD pays for potentially expensive medical treatment and prescriptions that many individuals require in order to maintain employment. However, some of these individuals have Medicare Part A, Part B and Part D coverage. MA continues to be the payer of last resort. Retaining MA coverage will allow these individuals to stay in the workforce and remain productive citizens.

As of September 2010, MAWD had 20,889 PWDs enrolled in the program, representing a percentage change of 28 percent from the previous year. Enrollment continues to increase, in large part due to the outreach efforts funded by the Medicaid Infrastructure Grant (MIG), enabling many more individuals with disabilities the opportunity to work and maintain health care coverage.

Enrollment	Month/Year	Percent Change
1,325	December 2002	NA
2,466	December 2003	86%
4,365	December 2004	77%
6,596	November 2005	51%
9,333	November 2006	42%
8,116	October 2007	-13%
12,163	September 2008	50%
16,387	September 2009	35%
20,889	September 2010	28%

NOTE: Numbers do not include Medically Improved Category MAWD (PI). There have been fewer than ten individuals enrolled per quarter.

#### **Associated Activities**

#### Education and Outreach

The Department of Public Welfare (DPW) is actively involved with carrying out outreach and education about MAWD. In addition, information about MAWD can be found on DPW's website at: <u>http://www.dpw.state.pa.us/servicesprograms/medicalassistance/003670301.htm</u>. A Braille version, a version on tape, and a compact disc have been developed for persons who are blind or have visual impairments. DPW has also developed videos for outreach and education. *Dreams and Reality* discusses why individuals with disabilities should consider returning to work and *A Winning Connection* is geared to the business community and discusses the advantages of hiring individuals with disabilities.

DPW staff and CAOs continue to present information on MAWD, as well as making presentations to organizations and health fairs. Materials such as informational packets containing "WorksforMe" posters, brochures, and DVDs are sent to requesting providers, local government agencies, Career Links, legislative district offices, chambers of commerce, and Office of Vocational Rehabilitation offices. The result has been a continual increase in enrollment of MAWD-eligible individuals.

DPW is currently collaborating with government entities to gather and analyze baseline data on the employment of PWDs in Pennsylvania. A memorandum of understanding with the Department of Labor and Industry is in the final approval stage.

#### **Medicaid Infrastructure Grant**

As a part of the Ticket to Work effort, states that enacted programs for individuals with disabilities were allowed to apply for a MIG from the Centers for Medicare and Medicaid Services to facilitate the competitive employment of PWDs. DPW has received MIG funds since 2002.

In calendar year 2010, DPW received a grant award of \$5.3 million based on 10 percent of state MAWD expenditures to develop an infrastructure of supports to enhance employment support for individuals with disabilities. The MIG has provided funding for several existing, as well as newly-implemented projects, including:

- February 2010, national marketing campaign "Think Beyond the Label" was launched to target employers and encourage them to hire individuals with disabilities.
- Planning is underway for a statewide training initiative to provide outreach to individuals, families, caseworkers, advocates, providers, government entities, and other staff at entry points for individuals with disabilities. Training will focus on the benefits of employment, MAWD, Supplemental Security Income, Social Security Disability Insurance, Ticket to Work, Work Incentives, and work-related resources.

- MIG continues to fund the Work Incentive Planning Assistance (WIPA) organizations. The WIPA staff provides information and planning services about work and work incentives to individuals who receive social security benefits.
- Last year, 38 mini grants were funded to complete outreach to individuals to actively promote and guide persons with disabilities to access federal and state work incentives. These work incentives are intended to help individuals to become employed, earn greater income and increase their standard of living and are available to people who qualify for Social Security benefits. Each grantee hosted several events to create awareness to individuals with disabilities of the potential benefits of working.
- Funding was provided in support of the Pennsylvania Supported Education Network proposed by Horizon House in collaboration with the Pennsylvania Association of Rehabilitation Facilities, the Pennsylvania Association of Psychiatric Rehabilitation Services, the University of Pennsylvania Collaborative on Community Integration, DPW's Office of Mental Health and Substance Abuse Services and the Governor's Cabinet and Advisory Committee for People with Disabilities. The goal of this initiative is to provide needed support for individuals with disabilities to further their education and gain higher-level competitive employment.
