

<b>ISSUE DATE</b> March 22, 2022	<b>EFFECTIVE DATE</b> April 1, 2022	<b>NUMBER</b> *See below
<b>SUBJECT</b>  Prior Authorization of Anticonvulsants – Pharmacy Services		<b>BY</b>    Sally A. Kozak, Deputy Secretary Office of Medical Assistance Programs

**IMPORTANT REMINDER:** All providers must revalidate the Medical Assistance (MA) enrollment of each service location every 5 years. Providers should log into PROMISE to check the revalidation dates of each service location and submit revalidation applications at least 60 days prior to the revalidation dates. Enrollment (revalidation) applications may be found at: <https://www.dhs.pa.gov/providers/Providers/Pages/PROMISE-Enrollment.aspx>.

**PURPOSE:**

The purpose of this bulletin is to issue updated handbook pages that include the requirements for prior authorization and the type of information needed to evaluate the medical necessity of prescriptions for Anticonvulsants submitted for prior authorization.

**SCOPE:**

This bulletin applies to all licensed pharmacies and prescribers enrolled in the Medical Assistance (MA) Program. The guidelines to determine the medical necessity of Anticonvulsants will be utilized in the fee-for-service delivery system and by the MA managed care organizations (MCOs) in Physical Health HealthChoices and Community HealthChoices. Providers rendering services in the MA managed care delivery system should address any questions related to the prior authorization of Anticonvulsants to the appropriate MCO.

**BACKGROUND/DISCUSSION:**

The Department of Human Services (Department) is updating the medical necessity guidelines for Anticonvulsants as follows:

*01-22-09	09-22-08	27-22-05	33-22-07
02-22-05	11-22-06	30-22-05	
03-22-05	14-22-05	31-22-09	
08-22-09	24-22-05	32-22-05	

**COMMENTS AND QUESTIONS REGARDING THIS BULLETIN SHOULD BE DIRECTED TO:**

The appropriate toll-free number for your provider type.

- Revision of the guideline for non-preferred Anticonvulsants to specify that for a diagnosis of seizure disorder, the beneficiary has a history of therapeutic failure of or a contraindication or an intolerance to two preferred Anticonvulsants approved or medically accepted for the beneficiary's diagnosis.
- Addition of a guideline that for all diagnoses except seizure disorder, the beneficiary has a history of therapeutic failure of or a contraindication or an intolerance to the preferred Anticonvulsants approved or medically accepted for the beneficiary's diagnosis.
- Removal of the requirement for prior authorization and associated guidelines to determine medical necessity of prescriptions for gabapentinoids (e.g., gabapentin, pregabalin) that represent a duplication of therapy. Gabapentinoids are included in the Neuropathic Pain Agents class on the Statewide Preferred Drug List, and therapeutic duplication of gabapentinoids is addressed in the corresponding guidelines to determine medical necessity.

The revisions to the guidelines to determine medical necessity of prescriptions for Anticonvulsants were subject to public review and comment and subsequently approved for implementation by the Department.

### **PROCEDURE:**

The procedures for prescribers to request prior authorization of Anticonvulsants are located in SECTION I of the Prior Authorization of Pharmaceutical Services Handbook. The Department will take into account the elements specified in the clinical review guidelines (which are included in the provider handbook pages in the SECTION II chapter related to Anticonvulsants) when reviewing the prior authorization request to determine medical necessity.

As set forth in 55 Pa. Code § 1101.67(a), the procedures described in the handbook pages must be followed to ensure appropriate and timely processing of prior authorization requests for drugs and products that require prior authorization.

MEDICAL ASSISTANCE HANDBOOK  
PRIOR AUTHORIZATION OF PHARMACEUTICAL SERVICES

**I. Requirements for Prior Authorization of Anticonvulsants**

**A. Prescriptions That Require Prior Authorization**

Prescriptions for Anticonvulsants that meet any of the following conditions must be prior authorized:

1. A non-preferred Anticonvulsant. See the Preferred Drug List (PDL) for the list of preferred Anticonvulsants at: <https://papdl.com/preferred-drug-list>.
2. An Anticonvulsant with a prescribed quantity that exceeds the quantity limit. The list of drugs that are subject to quantity limits, with accompanying quantity limits, is available at: <https://www.dhs.pa.gov/providers/Pharmacy-Services/Pages/Quantity-Limits-and-Daily-Dose-Limits.aspx>.
3. A prescription for clonazepam when prescribed for a beneficiary under 21 years of age.
4. A prescription for clonazepam when there is a record of a recent paid claim for another benzodiazepine (excluding clobazam and benzodiazepines indicated for the acute treatment of increased seizure activity [e.g., rectal and nasal formulations]) in the Point-of-Sale Online Claims Adjudication System (therapeutic duplication).
5. A prescription for a clonazepam when there is a record of 2 or more paid claims for any benzodiazepine (excluding clobazam and benzodiazepines indicated for the acute treatment of increased seizure activity [e.g., rectal and nasal formulations]) in the Point-of-Sale Online Claims Adjudication System within the past 30 days.
6. A prescription for clonazepam when a beneficiary has a concurrent prescription for a buprenorphine agent indicated for the treatment of opioid use disorder.

**B. Review of Documentation for Medical Necessity**

In evaluating a request for prior authorization of a prescription for an Anticonvulsant, the determination of whether the requested prescription is medically necessary will take into account whether the beneficiary:

1. For a non-preferred Anticonvulsant, **one** of the following:
  - a. Has a current history (within the past 90 days) of being prescribed the same non-preferred Anticonvulsant (does not apply to non-preferred brands when the therapeutically equivalent generic is preferred or to non-preferred generics when the therapeutically equivalent brand is preferred)
  - b. **All** of the following:
    - i. **One** of the following:

MEDICAL ASSISTANCE HANDBOOK  
PRIOR AUTHORIZATION OF PHARMACEUTICAL SERVICES

- a) For a diagnosis of a seizure disorder, has a documented history of therapeutic failure of or a contraindication or an intolerance to **two** preferred Anticonvulsants approved or medically accepted for the beneficiary's diagnosis (therapeutic failure of preferred Anticonvulsants must include the generic equivalent when the generic equivalent is designated as preferred)
- b) For all other diagnoses, has a documented history of therapeutic failure of or a contraindication or an intolerance to the preferred Anticonvulsants approved or medically accepted for the beneficiary's diagnosis (therapeutic failure of preferred Anticonvulsants must include the generic equivalent when the generic equivalent is designated as preferred),
- ii. Is being treated for a diagnosis that is indicated in the U.S. Food and Drug Administration (FDA)-approved package labeling OR a medically accepted indication,
- iii. Is prescribed a dose that is consistent with FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature,
- iv. Is age-appropriate according to FDA-approved package labeling, nationally recognized compendia, or peer-reviewed medical literature;

**AND**

- 2. For clonazepam, **all** of the following:
  - a. For a beneficiary under 21 years of age, **one** of the following:
    - i. Has a diagnosis of **one** of the following:
      - a) Seizure disorder,
      - b) Chemotherapy induced nausea and vomiting,
      - c) Cerebral palsy,
      - d) Spastic disorder,
      - e) Dystonia,
      - f) Catatonia
    - ii. Is receiving palliative care,
  - b. For a beneficiary with a concurrent prescription for a buprenorphine agent indicated for the treatment of opioid use disorder, **both** of the following:
    - i. Is prescribed the buprenorphine agent and clonazepam by the same prescriber or, if prescribed by different prescribers, all prescribers are aware of the other prescription(s)

MEDICAL ASSISTANCE HANDBOOK  
PRIOR AUTHORIZATION OF PHARMACEUTICAL SERVICES

- ii. Has an acute need for therapy with clonazepam,
- c. For therapeutic duplication of clonazepam with another benzodiazepine, **one** of the following:
  - i. Is being titrated to or tapered from another benzodiazepine
  - ii. Has a medical reason for concomitant use of the requested medications that is supported by peer-reviewed medical literature or national treatment guidelines,
- d. When there is a record of 2 or more paid claims for any benzodiazepine, **both** of the following:
  - i. The multiple prescriptions are consistent with medically accepted prescribing practices and standards of care, including support from peer-reviewed medical literature or national treatment guidelines
  - ii. The multiple prescriptions are written by the same prescriber or, if written by different prescribers, all prescribers are aware of the other prescription(s),
- e. **One** of the following:
  - i. Meets the guidelines in B.2.a.
  - ii. Has documentation that the prescriber or the prescriber's delegate conducted a search of the Pennsylvania Prescription Drug Monitoring Program (PDMP) for the beneficiary's controlled substance prescription history;

**AND**

- 3. If a prescription for an Anticonvulsant is for a quantity that exceeds the quantity limit, the determination of whether the prescription is medically necessary will also take into account the guidelines set forth in the Quantity Limits Chapter.

NOTE: If the beneficiary does not meet the clinical review guidelines listed above but, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary, the request for prior authorization will be approved.

C. Clinical Review Process

Prior authorization personnel will review the request for prior authorization and apply the clinical guidelines in Section B. above to assess the medical necessity of a prescription for an Anticonvulsant. If the guidelines in Section B. are met, the reviewer will prior authorize the prescription. If the guidelines are not met, the prior authorization request will be referred to a physician reviewer for a medical necessity determination. Such a request for prior authorization will be approved when, in the professional judgment of the physician reviewer, the services are medically necessary to meet the medical needs of the beneficiary.
